The definitive career guide for grad students, adjuncts, post-docs and anyone else eager to get tenure or turn their Ph.D. into their ideal job Each year tens of thousands of students will, after years of hard work and enormous amounts of money, earn their Ph.D. And each year only a small percentage of them will land a job that justifies and rewards their investment. For every comfortably tenured professor or well-paid former academic, there are countless underpaid and overworked adjuncts, and many more who simply give up in frustration. Those who do make it share an important asset that separates them from the pack: they have a plan. They understand exactly what they need to do to set themselves up for success. They know what really moves the needle in academic job searches, how to avoid the all-too-common mistakes that sink so many of their peers, and how to decide when to point their Ph.D. toward other, non-academic options. Karen Kelsky has made it her mission to help readers join the select few who get the most out of their Ph.D. As a former tenured professor and department head who oversaw numerous academic job searches, she knows from experience exactly what gets an academic applicant a job. And as the creator of the popular and widely respected advice site The Professor is In, she has helped countless Ph.D.'s turn themselves into stronger applicants and land their dream careers. Now, for the first time ever, Karen has poured all her best advice into a single handy guide that addresses the most important issues facing any Ph.D., including: -When, where, and what to publish -Writing a foolproof grant application -Cultivating references and crafting the perfect CV -Acing the job talk and campus interview -Avoiding the adjunct trap -Making the leap to nonacademic work, when the time is right The Professor Is In addresses all of these issues, and many more. Previous editions of this best seller have helped more than 100,000 students and professionals write effective research proposals for dissertations and grants. Covering all aspects of the proposal process, from the most basic questions about form and style to the complex task of seeking funding, the Fifth Edition of Proposals That Work has been completely updated and revised to offer clear advice supported by useful examples. New to the Fifth Edition: Discusses the effects of new technologies: Locke, Spirduso, and Silverman address the effects of new technologies on the proposal process and also include related URLs where appropriate. Improves utility, relevance, and ease of use: Based on feedback from readers, this edition contains examples and advice that better meet the needs of the book's readership. Contains valuable advice and information on funding: The authors provide essential information on identifying and obtaining student funding for theses and dissertations. They also include a full chapter for scholars and professionals on applying for research grant funding. Offers a new section devoted to alternative dissertation formats: This addition more closely links the proposal with the subsequent dissertation and, in turn, with the production and publication of research reports. Provides practical tips on Microsoft PowerPoint: The authors give advice on how this program can serve as a powerful element of one's proposal rather than an enticing distraction. Annotation Nationally known grants experts Lynn Miner, Jeremy Miner, & Jerry Griffith have thoroughly revised & expanded their excellent self-help book, which is designed for first-time proposal writers & planners, or for those who are without easy access to sources & materials. The authors use a concise, straightforward approach, relying on proven examples of how to find grants & how to plan, write, & submit proposals that get results. They also share their streamlining techniques for submitting more proposals in less time & provide a list of the most likely reasons proposals are rejected. New to this edition is greatly expanded coverage of computerized grantseeking, including World Wide Web resources. Also new is a discussion of effective writing techniques. In this booklet you will learn: \* How to prepare your nonprofit organization to prepare for grant seeking \* Laying groundwork for grant seeking and outreach steps to take with funders \* Step by step instructions leading you through the grant application process \* The nuts and bolts of drafting a grant proposal \* How to draft a proposed budget \* What to do if you are accepted and if you are declined So, let's get started! Writing Proposals aims at making it easier for your project to access a grant with two tools: industry best-practices and a field-tested proposal template. This book is mainly for projects that wish to access public grants and will give you: - A downloadable proposal template and budget sheet - An A-to-Z methodology to write your proposal and budget developed over 7 years of practice - In-depth explanations for each proposal section - Several examples of paragraph texts - 7 Writing techniques to make your project's case better - 26 Proposal-Specific writing tips Proposal Writing is a daunting task: we have to follow strict guidelines and a process we aren't familiar with. On top of that, we need to present our project in the best possible light, all within a very tight deadline. Doing everything, and doing it perfectly, is possible - but it requires time: time to read, to understand, to plan and to write. Time, unfortunately, is the resource we lack the most, and we might not be able to build the necessary expertise via practice. This is where I come in: I put my time in this book, so you don't have to waste yours. This book is a collection of the best, tools, tricks and techniques developed in 7+ years of grant writing. Every single tool or concept has been field tested and refined via trial and error. Writing Proposals is divided in three sections SECTION 1 is an A-to-Z guide on how to write a proposal. It provides a workflow, a sample proposal structure, and a downloadable proposal template and budget sheet. Each one of its chapters provides a detailed explanation of the different building blocks: - First Steps of Proposal Writing - Outline of the Technical Proposal - Introduction - Context and Proposal Structure - Methodology - Organisation and Staffing - Budget - Review and Finalization SECTION 2 focuses on Writing Techniques for Proposals, meaning what you can do to write your text better, faster and to make it more effective. Here, we go over 7 fundamental tools for better writing. SECTION 3, lastly, is a collection of 26 Proposal-Specific Writing Tips, that is a series of adjustments you can use in your text right away that make your document more readable and easier to follow. At the end of the book you will find the proposal structure (for quick reference) and a methodology to calculate your personnel's hourly rate An authoritative how-to guide that explains every aspect of science proposal writing This fully revised edition of the authoritative guide to science proposal writing is an

essential tool for any researcher embarking on a grant or thesis application. In accessible steps, the authors detail every stage of proposal writing, from conceiving and designing a project to analyzing data, synthesizing results, estimating a budget, and addressing reviewer comments and resubmitting. This new edition is updated to address changes and developments over the past decade, including identifying opportunities and navigating the challenging proposal funding environment. The only how-to book of its kind, it includes exercises to help readers stay on track as they develop their grant proposals and is designed for those in the physical, life, environmental, biomedical, and social sciences, as well as engineering. Managers and staff in libraries and information services in all sectors are increasingly required to prepare project proposals and bid for funding, usually for external funding, but also as part of internal strategic planning and management processes. The projects proposed must be realistic and feasible, because library managers and staff will be required to deliver their project on time and in budget. If managers get the planning wrong at project proposal stage, the consequences for implementation can be difficult to overcome. This book provides guidance on the various steps involved in project development, planning and the preparation of bids for funding based on the author's own experience and that of many organisations in the cultural heritage and education sectors. It guides service managers and staff through the task of scoping, developing and writing viable, realistic and winning proposals, drawing on a range of techniques from strategic planning, financial management, project management and business. Uses practical, up-to-date examples relevant to the cultural heritage sector Different methodologies: for example - preparing business plans, evaluation; planning cost and time/effort inputs Templates and checklists for writing effective proposals Previous Praise for Winning Grants Step by Step "Warning: this book works. It provokes you to ask the right questions, hand-holds you through practical exercises, and offers a map that includes paths to develop strategic relationships with funders." E. Eduardo Romero, Nonprofit Roundtable "Winning Grants Step by Step is a very practical A-to-Z resource that speaks to the importance of staying focused on your mission every step of the way. The third edition is artfully updated with words of wisdom from grantmakers themselves, as well as updates on the latest processes and buzzwords all grantseekers need to know." Heather Iliff, Maryland Association of Nonprofit Organizations "With solid advice and clear examples, nonprofit leaders will find it a page turner!" Clarence Hauer, senior director, strategy and organizational development, St. Louis Nonprofit Services Consortium "Winning Grants Step by Step is a gift to nonprofit organizations. The valuable insights and hands-on tools will instantly make any proposal more competitive." Alex Carter, Your Nonprofit Coach "Developing great grant proposals is essential for nonprofit leaders. Winning Grants Step by Step provides important guidance to those who are new to fundraising as well as to anyone who needs a refresher. This new edition of Winning Grants brings updated tips and vivid examples. As an experienced fundraising consultant, I believe it will help my clients and colleagues alike." Maria Gitin, CFRE, Maria Gitin & Associates "As an executive director, fundraising is on my mind every day. It's great to have a resource like Winning Grants Step by Step to use and share with my board, staff, and peers." Deborah Menkart, executive director, Teaching for Change Describes the fundamentals of writing effective proposals for grants and developing a successful business plan, and includes tips on researching, home-office guidance, and business marketing. Sample proposals included. Grant Writing For Dummies, 3rd Edition serves as a one-stop reference for readers who are new to the grant writing process or who have applied for grants in the past but had difficulties. It offers 25 percent new and revised material covering the latest changes to the grant writing process as well as a listing of where to apply for grants. Grant writers will find: The latest language, terms, and phrases to use on the job or in proposals. Ways to target the best websites to upload and download the latest and user-friendly application forms and writing guidelines. Major expansion on the peer review process and how it helps improve one's grant writing skills and successes. One-stop funding websites, and state agencies that publish grant funding opportunity announcements for seekers who struggle to find opportunities. New to third edition. A veritable cookbook for individuals or corporations seeking funding from the federal government, The Complete Writing Guide to NIH Behavioral Science Grants contains the latest in technical information on NIH grants, including the new electronic submission process. Some of the most successful grant writers in history have contributed to this volume, offering key strategies as well as tips and suggestions in areas that are normally hard to find in grant writing guides, such as budgeting, human

subjects, and power analysis. A "who's who" among grant reviewers, this guidebook provides "inside" information as to why some grants are scored well while others flounder during review. A must-read for both entry level grant writers making headway in the complex NIH grant system for the first time as well as more seasoned investigators who can't seem to break the barrier to funded research grants, Drs. Scheier and Dewey's comprehensive volume provides simple and clear explanations into the reasons why some grants get funded, and a step-by-step guide to writing those grants. In the fifth edition of our essential Guide, author Jane C. Geever provides detailed instructions on preparing successful grant proposals. Incorporating the results of 40 interviews with grantmakers across the nation, the Guide reveals their priorities in reviewing submissions and provides insight into what makes a winning proposal. The Guide outlines the entire proposal-writing process: Pre-Proposal Planning Tips - This helps you decide when your nonprofit is ready to raise funds and determine how to best define your project. Components of the Proposal - Review actual cover letters, project descriptions, budgets, and examples of important follow-up communications with prospective donors. Guidance from Grantmakers - Interviews highlight new trends in grantmaking: preferred proposal formats, funder cultivation strategies, tips on re-submitting a rejected request, and on how to capture and sustain a grantmaker's interest. To illustrate key points, excerpts from successful grant proposals are inserted throughout the Guide. And a complete model proposal is included in the appendix. An updated bibliography features selected resources on proposal development, including web and print sources. A new chapter focuses on crafting an effective evaluation component, addressing the heightened interest in outcome-based assessment of funded projects. Book jacket. A comprehensive guide to financial planning and venture fundraising for tech entrepreneurs As technology progresses, impacting our daily lives in more and greater ways, technology start-ups come and go at a dizzying pace. There are plenty of opportunities out there for anyone with a great idea, but it takes much more than a great idea to make your tech start-up a success. In addition to creativity and new ideas, being a successful tech entrepreneur requires strategic decision-making in terms of business planning, financial planning, negotiations, and corporate governance. This book serves as a thought-provoking guide that helps tech entrepreneurs avoid the dangers inherent in business start-ups in general and the treacherous realm of venture capital in particular. This book is the ideal reference for anyone who wants to overcome the challenges of running a start-up from incubation to exit. Excellent advice for tech entrepreneurs written in layman's terms Written by an author with more than fifteen years of experience as a founder and co-founder of tech start-ups in the U.S. and Asia Designed to fill the role of an experienced mentor for tech entrepreneurs For first-time founders of tech start-ups requiring venture capital, Start-Up Guide for the Technopreneur is the perfect resource. The Department of Health and Human Services has identified Acquired Immunodeficiency Syndrome (AIDS) as the foremost public health problem in the United States. The Centers for Disease Control (CDC) report that, as of December 31, 1994, there were 441,528 documented cases of AIDS in this country, and the number is increasing. AIDS is an illness characterized by a defect in natural immunity against disease. Many more individuals are known to be infected with Human Immunodeficiency Virus (HIV) but do not have symptoms or the defining characteristics of AIDS. The incubation period for AIDS may range from 1 to 10 or more years in adults and 6 months to several years in children. Infected persons appear to be capable of transmitting infection indefinitely, even if they remain asymptomatic. In order to increase the number of minority investigators conducting research on HIV infection and 1 AIDS, NIMH conducted a 3h-day technical workshop for minority investigators on July 24-27, 1990, in Fairlakes, Virginia. University-based research programs were asked to nominate investigators who were selected on the basis of a referred 1 0-page prospectus for a proposed research project. This procedure was used because NIMH wanted to be sure that the prospective investigators were established in a research environment that would pr Competition for research funds in epidemiology, preventive medicine and biostatistics is highly competitive and at the same time, the grant application and review process at such agencies at the National Institutes of Health (NIH) has undergone substantial revisions. Writing Grant Proposals in Epidemiology, Preventive Medicine, and Biostatistics, Second Edition targets effective grant proposal writing in this highly competitive and evolving environment. Covering all aspects of the proposal writing process the text, the updated second edition: •Includes new chapters on Fellowship Grants and Career Development Awards designed for graduate students, postdoctoral fellows,
