'I just wish I had armfuls of time.' These are the poignant words of a four year old facing a life-threatening illness. *Armfuls of Time* eloquently portrays the psychological experience of such children, who are irreversibly changed from the moment of diagnosis. Barbara M. Sourkes, Ph.D. describes how she works

with these children, using drawings, soft toys and dolls, stories and real medical objects, to allow them to communicate their feelings about the treatment they undergo, their relationship with their families, their experience of the illness and living with the threat of loss. Making extensive use of the words of children, offering astute interpretations and sound practical advice, this is a book that will be welcomed by all those concerned with the care of children with life-threatening illnesses. In *Time to Parent*, the bestselling organizational guru takes on the ultimate time-management challenge—parenting, from toddlers to teens—with concrete ways to structure and spend true quality time with your kids. Would you ever take a job without a job description, let alone one that requires a lifetime contract? Parents do this every day, and yet there is no instruction manual that offers achievable methods for containing and organizing the seemingly endless job of parenting. Finding a healthy balance between raising a human and being a human often feels impossible, but Julie Morgenstern shows you how to harness your own strengths and weaknesses to make the job your own. This revolutionary roadmap includes: A unique framework with eight quadrants that separates parenting responsibilities into actionable, manageable tasks—for the whole bumpy ride from cradle to college. Simple strategies to stay truly present and focused, whether you're playing with your kids, enjoying a meal with your significant other, or getting ahead on that big proposal for work. Clever tips to make the most of in-between time—Just 5-15 minutes of your undivided attention has a huge impact on kids. Permission to take personal time without feeling guilty, and the science and case studies that show how important self-care is and how to make time for it. Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all

of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States. Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a

pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well. These three bestselling novels by the Booker Award-winning author explore the dark sides of love, family and sexuality. *The Child in Time* On a routine Saturday morning trip to the supermarket, a father's brief moment of distraction turns his life upside down when his daughter is kidnapped. His spiral of guilt and bereavement has effects on his marriage, his psyche—and time itself. *The Cement Garden* When their mother suddenly dies, four siblings hide her body in the basement to prevent others from discovering her death and placing them in foster care. But their dark secret sets them on a path of isolation and boundary-crossing intimacy. *The Comfort of Strangers* Colin and Mary are vacationing in Venice in hopes of reigniting their relationship. But after losing their way in the winding streets, their acquaintance with another couple takes turns that are likewise erotic and violent in nature. *Emergencies*: --when to call your child's physician immediately -what to do in case of burns, bites, stings, poisoning, choking, and injuries *Common Illnesses*: -when it's safe to treat your child at home -step-by-step instructions on dealing with fever, infections, allergies, rashes, earaches, croup and other common ailments *Behavior Problems*: -proven strategies for colic, sleep disturbances, toilet training problems, thumbsucking, and the video game craze -no-nonsense discipline techniques for biting, temper tantrums, sibling fighting, and school refusal *Health Promotion: From Birth Through Adolescence*: -essential advice on newborn baby care, nutrition, cholesterol testing, immunizations, and sex education -ways of

preventing spoiled children, picky eaters, overeating, tooth decay, accidents, and homework problems opinion, the Guide offers a discriminating - and sometimes controversial - view of a broad range of contemporary literatures. With the seemingly insurmountable pressures placed on families today, many parents lack the spiritual foundation and practical knowledge to chart a clear-cut course in child-rearing. Parents question whether nurturing their children's souls is even possible in the fast-paced materialistic culture in which we live. Utilizing the insight that springs from her knowledge of Torah wisdom, her personal experiences and the experiences of those she has counseled, Slovie Jungreis-Wolff, a longtime parenting coach and advisor to young couples and families teaches in detail how to approach the entire gamut of issues, with a special emphasis on strengthening the child's morality and character. Parents will learn how to:

- Instill simchas hachayim, "true joy," in their children
- Value chessed, kindness, in a self-absorbed world
- Create a mikdash me'at, a home filled with calm and reflection
- Teach children gratitude and appreciation

• And much more... From discipline to sibling rivalry to effective communication skills, Raising a Child with Soul offers unique concepts and pragmatic ideas that can be understood and applied to both Jewish and non-Jewish households. "Steiner schools have helped carry the flag of liberal, creative, humanistic education through these dark ages and can now act as a beacon. Professor Peter Woods, formerly of the Open University. Contributors to this accessible book will show how Steiner kindergarten practice can offer an understanding of observation and assessment which is strikingly different from approaches found in many nursery and reception classes, and yet it's this understanding that can encourage deep reflection on practitioners' and students' values and principles. Drawing on their extensive research in the field, the contributors, who include experienced Steiner educators and early childhood experts from other traditions, have worked together to explore and understand what is distinctive about Steiner kindergarten practice. Whilst observation and assessment are not the appropriate terms to describe the more relaxed, intuitive and

trusting ways in which Steiner teachers aim to meet with children, the researchers used these techniques to present and explore the variety of perspectives on Steiner kindergarten practice. Key aspects of the Steiner philosophy, such as caring for the physical environment, respecting the rhythms and routines in what children do, and creating an environment that allows teachers and children to properly get to know each other are explored. In these chapters, readers will meet with aspects of the Steiner philosophy which will help to inform and expand on their own practice as early years professionals"--Provided by publisher

**PULITZER PRIZE WINNER • NATIONAL BESTSELLER • A “vivid and devastating” (The New York Times) portrait of an indomitable girl—from acclaimed journalist Andrea Elliott “From its first indelible pages to its rich and startling conclusion, *Invisible Child* had me, by turns, stricken, inspired, outraged, illuminated, in tears, and hungering for reimmersion in its Dickensian depths.”—Ayad Akhtar, author of *Homeland Elegies* ONE OF THE TEN BEST BOOKS OF THE YEAR: The New York Times • ONE OF THE BEST BOOKS OF THE YEAR: The Atlantic, The New York Times Book Review, Time, NPR, Library Journal**

In *Invisible Child*, Pulitzer Prize winner Andrea Elliott follows eight dramatic years in the life of Dasani, a girl whose imagination is as soaring as the skyscrapers near her Brooklyn shelter. In this sweeping narrative, Elliott weaves the story of Dasani’s childhood with the history of her ancestors, tracing their passage from slavery to the Great Migration north. As Dasani comes of age, New York City’s homeless crisis has exploded, deepening the chasm between rich and poor. She must guide her siblings through a world riddled by hunger, violence, racism, drug addiction, and the threat of foster care. Out on the street, Dasani becomes a fierce fighter “to protect those who I love.” When she finally escapes city life to enroll in a boarding school, she faces an impossible question: What if leaving poverty means abandoning your family, and yourself? A work of luminous and riveting prose, Elliott’s *Invisible Child* reads like a page-turning novel. It is an astonishing story about the power of resilience, the importance of family and the cost of inequality—told through the

crucible of one remarkable girl. Winner of the J. Anthony Lukas Book Prize • Finalist for the Bernstein Award and the PEN/John Kenneth Galbraith Award • Longlisted for the Baillie Gifford Prize “A gripping and beautiful book about the power of love in the face of unimaginable loss.” --Cheryl Strayed For readers of *The Bright Hour* and *When Breath Becomes Air*, a moving, transcendent memoir of loss and a stunning exploration of marriage in the wake of unimaginable grief. As the book opens: two-year-old Greta Greene is sitting with her grandmother on a park bench on the Upper West Side of Manhattan. A brick crumbles from a windowsill overhead, striking her unconscious, and she is immediately rushed to the hospital. But although it begins with this event and with the anguish Jayson and his wife, Stacy, confront in the wake of their daughter's trauma and the hours leading up to her death, *Once More We Saw Stars* quickly becomes a narrative that is as much about hope and healing as it is about grief and loss. Jayson recognizes, even in the midst of his ordeal, that there will be a life for him beyond it--that if only he can continue moving forward, from one moment to the next, he will survive what seems unsurvivable. With raw honesty, deep emotion, and exquisite tenderness, he captures both the fragility of life and absoluteness of death, and most important of all, the unconquerable power of love. This is an unforgettable memoir of courage and transformation--and a book that will change the way you look at the world. Young children live with awe and wonder as their daily companions. But as they grow, worries often crowd out wonder. Knowing this, how can parents strengthen their kids' love for the world so it sticks around for the long haul? Thankfully, parents have at their fingertips a miracle vaccine--one that can boost their kids' immunity to the world's distractions. Well-chosen stories connect us with others, even those on the other side of the globe. Build your kids' lives on a story-solid foundation and you'll give them armor to shield themselves from the world's cynicism. You'll give them confidence to persevere in the face of life's conflicts. You'll give them a reservoir of compassion that spills over into a lifetime of love in action. Give Your Child the World features inspiring stories, practical

suggestions, and carefully curated reading lists of the best children's literature for each area of the globe. Reading lists are organized by region, country, and age range (ages 4-12). Each listing includes a brief description of the book, its themes, and any content of which parents should be aware. Parents can introduce their children to the world from the comfort of home by simply opening a book together. Give Your Child the World is poised to become a bestselling family reading treasury that promotes literacy, develops a global perspective, and strengthens family bonds while increasing faith and compassion. A much-needed introduction to the field of contemporary fiction studies. Introduces key areas of debate and offers in-depth discussions of the most significant texts. An ideal guide for those studying contemporary fiction for the first time. In this, the first full-length treatment of the child in Spanish cinema, Sarah Wright explores the ways that the cinematic child comes to represent 'prosthetic memory'. The central theme of the child and the monster is used to examine the relationship of the self to the past, and to cinema. Concentrating on films from the 1950s to the present day, the book explores religious films, musicals, 'art-house horror', science-fiction, social realism and fantasy. It includes reference to Erice's *The Spirit of The Beehive*, del Toro's *Pan's Labyrinth*, Mañas's *El Bola* and the *Marisol* films. The book also draws on a century of filmmaking in Spain and intersects with recent revelations concerning the horrors of the Spanish past. The child is a potent motif for the loss of historical memory and for its recuperation through cinema. This book is suitable for scholars and undergraduates working in the areas of Spanish cinema, Spanish cultural studies and cinema studies. With almost 5 million copies sold 60 years after its original publication, generations of readers have now journeyed with Milo to the Lands Beyond in this beloved classic. Enriched by Jules Feiffer's splendid illustrations, the wit, wisdom, and wordplay of Norton Juster's offbeat fantasy are as beguiling as ever. "Comes up bright and new every time I read it . . . it will continue to charm and delight for a very long time yet. And teach us some wisdom, too." --Phillip Pullman For Milo, everything's a bore. When a tollbooth

mysteriously appears in his room, he drives through only because he's got nothing better to do. But on the other side, things seem different. Milo visits the Island of Conclusions (you get there by jumping), learns about time from a ticking watchdog named Tock, and even embarks on a quest to rescue Rhyme and Reason. Somewhere along the way, Milo realizes something astonishing. Life is far from dull. In fact, it's exciting beyond his wildest dreams! An original look at history that profiles 30 children from different eras so that children of today can discover the lives of the cave people, Romans, Vikings, and beyond through the eyes of someone their own age. History books often focus on adults, but what was the past like for children? *A Child Through Time* is historically accurate and thoroughly researched, and brings the children of history to life—from the earliest civilizations to the Cold War, even imagining a child of the future. Packed with facts and including a specially commissioned illustration of each profiled child, this book examines the clothes children wore, the food they ate, the games they played, and the historic moments they witnessed—all through their own eyes. Maps, timelines, and collections of objects, as well as a perspective on the often ignored topic of family life through the ages, give wider historical background and present a unique side to history. Covering key curriculum topics in a new light, *A Child Through Time* is a perfect and visually stunning learning tool for children ages 7 and up. Adrian Tchaikovsky's award-winning novel *Children of Time*, is the epic story of humanity's battle for survival on a terraformed planet. Who will inherit this new Earth? The last remnants of the human race left a dying Earth, desperate to find a new home among the stars. Following in the footsteps of their ancestors, they discover the greatest treasure of the past age - a world terraformed and prepared for human life. But all is not right in this new Eden. In the long years since the planet was abandoned, the work of its architects has borne disastrous fruit. The planet is not waiting for them, pristine and unoccupied. New masters have turned it from a refuge into mankind's worst nightmare. Now two civilizations are on a collision course, both testing the boundaries of what they will do to survive. As the fate

of humanity hangs in the balance, who are the true heirs of this new Earth?span In the tradition of *The Promise of a Pencil and Kisses* from Katie comes an inspirational memoir by the founder of Comfort Cases about his turbulent childhood in the foster care system and the countless obstacles and discrimination he endured in adopting his four children. Rob Scheer never thought that he would be living the life he is now. He's happily married to his partner and love of his life, he's the father of four beautiful children, and he's the founder of an organization that makes life better for thousands of children in the foster care system. But life wasn't always like this. Growing up in an abusive household before his placement in foster care, Rob had all the odds stacked against him. Kicked out of his foster family's home within weeks after turning eighteen—with a year left of high school to go—he had to resort to sleeping in his car and in public bathrooms. He suffered from drug addiction and battled with depression, never knowing when his next meal would be or where he would sleep at night. But by true perseverance, he was able to find his own path and achieve his wildest dreams. "A heartwarming, hopeful memoir brimming with humanitarianism and compassion" (Kirkus Reviews), Rob's story provides a glimpse into what it's like to grow up in the foster care system, and sheds necessary light on the children who are often treated without dignity. Both a timely call to action and a courageous and candid account of life in the foster care system, *A Forever Family* ultimately leaves you with one message: one person can make a difference. Confronting hard realities, Shaughnessy's heart opens wide as she explores parallel universes and writes a utopian *Andromeda* of her imagination. From a renowned investigative reporter, the true story behind a horrifying Internet abuse epidemic—and the heroes who are out to stop it. The Internet has helped make child abuse terrifyingly common—it is the new face of crime in the 21st century. There are tens, probably hundreds of thousands of children whose sexual abuse has been electronically recorded and distributed on the Internet. As Julian Sher reveals, the men perpetrating these crimes include lawyers, priests, doctors and politicians. They pick their

victims from the streets of Bangkok to Boy Scout troops in England, while the police—from a crack image analyst with the Toronto police to an FBI agent who poses as a 13-year-old girl online—work desperately to nab the predators. *One Child at a Time* goes behind the headlines to show how law officers are fighting back against this tide of abuse, from daring rescues in homes to the seizures of millions of dollars in the offshore bank accounts of the porn merchants. In riveting detail, Julian Sher shows how clue by clue, and image by image, investigators are using cutting edge tools, turning the technology of the Internet against the perpetrators as they race to find and rescue the victims—children who otherwise have no voice. This important book explores the ramifications of a worldwide struggle, from the need for updated legal powers to the unexpected effects the Internet has had on our social fabric. It also includes a full list of resources for concerned parents. Though sometimes harrowing, *One Child at a Time* is also inspiring—and never less than absolutely relevant. A young man reexamines his childhood memories of strange visions and erratic behavior to answer disturbing questions that continue to haunt him and his new family in this psychological thriller named a *Washington Post* best book of 2007. Thirty-year-old George Davies can't bring himself to hold his newborn son. After months of accepting his lame excuses and strange behavior, his wife has had enough. She demands that he see a therapist, and George, desperate to save his unraveling marriage and redeem himself as a father and husband, reluctantly agrees. As he delves into his childhood memories, he begins to recall things he hasn't thought of in twenty years. Events, people, and strange situations come rushing back. The odd, rambling letters his father sent home before he died. The jovial mother who started dating too soon after his father's death. A boy who appeared one night when George was lonely, then told him secrets he didn't want to know. How no one believed this new friend was real and that he was responsible for the bad things that were happening. Terrified by all that he has forgotten, George struggles to remember what really happened in the months following his father's death. Were his ominous visions and erratic behavior the product of a grief-

stricken child's overactive imagination? Or were his father's colleagues, who blamed a darker, more malevolent force, right to look to the supernatural as a means to end George's suffering? Twenty years later, George still does not know. But when a mysterious murder is revealed, remembering the past becomes the only way George can protect himself--and his young family. A psychological thriller in the tradition of Donna Tartt's *The Secret History*--with shades of *The Exorcist*--*A Good and Happy Child* leaves you questioning the things you remember and frightened of the things you've forgotten. "Beautifully written and perfectly structured. . . . This novel is much more than *The Omen* for the latte generation, and Evans cleverly subverts expectations at every turn." --Washington Post "[A] satisfying, suspenseful first novel. . . . Young George's intriguing story unbalances the reader right up to the book's deliciously chilling end." --People "A scary, grown-up ghost story that combines Southern gothic with more than a twist of *The Exorcist*. . . . Combine[s] mind-bending storytelling with excellent prose." --Portland Tribune "Think *Rosemary's Baby*—plus . . . told in the kind of prose that mesmerizes, sweeping the reader along so fast that there's no time to ask questions." --Hartford Courant "[A] dazzling debut . . . part psychological thriller, part horror story." --Chicago Tribune "Relat[es] his otherworldly suspense story with the cool, calm eye of a skeptic." --Entertainment Weekly (A—) "Second Time Foster Child" links parents locked into a custody relinquishment nightmare with other historically oppressed peoples. Child welfare attorneys, judges, and child welfare professionals will gain understanding of the parents' perspective of a no-fault dependency case. Madeleine L'Engle's ground-breaking science fiction and fantasy classic, now a major motion picture. It was a dark and stormy night; Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when they were upset by the arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a

thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. *A Wrinkle in Time*, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most popular boys in high school). They are in search of Meg's father, a scientist who disappeared while engaged in secret work for the government on the tesseract problem. *A Wrinkle in Time* is the winner of the 1963 Newbery Medal. It is the first book in *The Time Quintet*, which consists of *A Wrinkle in Time*, *A Wind in the Door*, *A Swiftly Tilting Planet*, *Many Waters*, and *An Acceptable Time*. *A Wrinkle in Time* is now a movie from Disney, directed by Ava DuVernay, starring Storm Reid, Oprah Winfrey, Reese Witherspoon and Mindy Kaling. This title has Common Core connections. Books by Madeleine L'Engle *A Wrinkle in Time Quintet* *A Wrinkle in Time* *A Wind in the Door* *A Swiftly Tilting Planet* *Many Waters* *An Acceptable Time* *A Wrinkle in Time: The Graphic Novel* by Madeleine L'Engle; adapted & illustrated by Hope Larson *Intergalactic P.S. 3* by Madeleine L'Engle; illustrated by Hope Larson: A standalone story set in the world of *A Wrinkle in Time*. *The Austin Family Chronicles Meet the Austins (Volume 1)* *The Moon by Night (Volume 2)* *The Young Unicorns (Volume 3)* *A Ring of Endless Light (Volume 4)* *A Newbery Honor book!* *Troubling a Star (Volume 5)* *The Polly O'Keefe books* *The Arm of the Starfish* *Dragons in the Waters* *A House Like a Lotus* *And Both Were Young* *Camilla* *The Joys of Love* Originally published in 2005, the *Child Trauma Handbook* is a user-friendly manual that teaches a comprehensive, research-based, phase-model approach to trauma-informed treatment for children and adolescents. Both new and experienced clinicians will find clear explanations and tips for making the connection between child/adolescent behaviors and traumatic histories; they'll also learn practical skills for successful interventions. Each chapter and skillset is theory based and includes transcripts, case studies, exercises, and specific strategies for addressing problems. A *New York Times Notable Book* and a

San Francisco Chronicle Book of the Year: A look at the pleasures and surprises of rereading. Compared with reading, the act of rereading is far more personal—it involves a complex interaction of our past selves, our present selves, and literature. With candor and humor, this “inspired intellectual romp, part memoir, part criticism” takes us on a guided tour of the author’s own return to books she once knew—from the plays of Shakespeare to twentieth-century novels by Kingsley Amis and Ian McEwan, from the childhood favorite *I Capture the Castle* to classic novels such as *Anna Karenina* and *Huckleberry Finn*, from nonfiction by Henry Adams to poetry by Wordsworth—as she reflects on how the passage of time and the experience of aging has affected her perceptions of them (Lawrence Weschler). A cultural critic and the acclaimed author of *Why I Read*, Wendy Lesser conveys an infectious love of reading and inspires us all to take another look at the books we’ve read to find the unexpected treasures they might offer. “Delightful.” —Diane Johnson, author of *Le Divorce* “Anyone who has ever approached a once favorite book later in life . . . will find in this memoir moments of bittersweet recognition.” —The New York Times Book Review “Reflect[s] deeply and candidly on how a reader’s life experiences alter her perceptions of literature . . . [Lesser] has truly fascinating and original things to say about a compelling assortment of writers, including George Orwell, George Eliot, D. H. Lawrence, Dostoyevsky, and Shakespeare.” —Booklist (Piano Vocal). This sheet music features an arrangement for piano and voice with guitar chord frames, with the melody presented in the right hand of the piano part as well as in the vocal line. Finally...a fun, easy-to-use guide to potty training any child in just ONE DAY Just think, from the time babies are born until they are toilet trained, they use an average of 4,000 diapers! *Potty Train Your Child in Just One Day* is the helpful guide you've been waiting for to get your child out of diapers and turn the potentially terrifying process of toilet training into an effective and enjoyable bonding experience with your child. Teri guides parents to the successful one-day potty training of their child by teaching them how to:

- Look for the signs that your child is ready to be potty trained
- Make the potty

connection by using a potty-training doll • Create incentive through consistent positive reinforcement • Use charts, quizzes, and checklists to help with every step of potty training • Know when it's time to bring in a potty pinch hitter • Complete your potty training -- no more accidents Once Teri teaches you her techniques, she shares her secret -- potty parties! She has carefully designed twelve imaginative themes for parties, such as a seriously silly circus, a cartoon character carnival, or a magic carpet express, and supplies parents with everything they will need. Teri has proven that a potty party day engages a child in potty training in a way that no other method has before -- by speaking a toddler's language. A party may translate to fun, games, cake, candy, presents, and prizes to a child, but with Teri's expertise, parents can use it as a tool to motivate their child to want to go to the bathroom -- and to keep on going. That's why it works in just one day!

Plucked out of the past and transported forty thousand years into the future, a Neanderthal child discovers that human nature has remained unchanged, in an expanded version of an original Asimov story A child's abduction sends a father reeling in this Whitbread Award-winning novel that explores time and loss with "narrative daring and imaginative genius" (Kirkus Reviews, starred review). Stephen Lewis, a successful author of children's books, is on a routine trip to the supermarket with his three-year-old daughter. In a brief moment of distraction, she suddenly vanishes—and is irretrievably lost. From that moment, Lewis spirals into bereavement that effects his marriage, his psyche, and his relationship with time itself: "It was a wonder that there could be so much movement, so much purpose, all the time. He himself had none at all." In *The Child in Time*, acclaimed author Ian McEwan "sets a story of domestic horror against a disorienting exploration in time" producing "a work of remarkable intellectual and political sophistication" that has been adapted into a PBS Masterpiece movie starring Benedict Cumberbatch (Kirkus Reviews, starred review). "A beautifully rendered, very disturbing novel." —Publishers Weekly Ian McEwan explores the nature of time and our perceptions of it in an astonishing, fully realized novel about the loss of a child and about the

richness and importance of childhood. Excerpt in Esquire. “A nervy, soulful, genuinely surprising it-could-happen-to-you thriller — a book to make you peer over your shoulder for days afterwards.”—A.J. Finn, New York Times bestselling author of *The Woman in the Window* Winner of the Victorian Premier’s Literary Award, *The Nowhere Child* is screenwriter Christian White’s internationally bestselling debut thriller of psychological suspense about a woman uncovering devastating secrets about her family—and her very identity... Kimberly Leamy is a photography teacher in Melbourne, Australia. Twenty-six years earlier, Sammy Went, a two-year old girl vanished from her home in Manson, Kentucky. An American accountant who contacts Kim is convinced she was that child, kidnapped just after her birthday. She cannot believe the woman who raised her, a loving social worker who died of cancer four years ago, crossed international lines to steal a toddler. On April 3rd, 1990, Jack and Molly Went’s daughter Sammy disappeared from the inside their Kentucky home. Already estranged since the girl’s birth, the couple drifted further apart as time passed. Jack did his best to raise and protect his other daughter and son while Molly found solace in her faith. The Church of the Light Within, a Pentecostal fundamentalist group who handle poisonous snakes as part of their worship, provided that faith. Without Sammy, the Wents eventually fell apart. Now, with proof that she and Sammy are in fact the same person, Kim travels to America to reunite with a family she never knew she had. And to solve the mystery of her abduction—a mystery that will take her deep into the dark heart of religious fanaticism where she must fight for her life against those determined to save her soul... Bringing the magic of empathy to daily life with a child Children are already learning at birth, and they develop and learn at a rapid pace in their early years. This provides a critical foundation for lifelong progress, and the adults who provide for the care and the education of young children bear a great responsibility for their health, development, and learning. Despite the fact that they share the same objective - to nurture young children and secure their future success - the various practitioners who contribute to the care and the education of children from birth

through age 8 are not acknowledged as a workforce unified by the common knowledge and competencies needed to do their jobs well. *Transforming the Workforce for Children Birth Through Age 8* explores the science of child development, particularly looking at implications for the professionals who work with children. This report examines the current capacities and practices of the workforce, the settings in which they work, the policies and infrastructure that set qualifications and provide professional learning, and the government agencies and other funders who support and oversee these systems. This book then makes recommendations to improve the quality of professional practice and the practice environment for care and education professionals. These detailed recommendations create a blueprint for action that builds on a unifying foundation of child development and early learning, shared knowledge and competencies for care and education professionals, and principles for effective professional learning. Young children thrive and learn best when they have secure, positive relationships with adults who are knowledgeable about how to support their development and learning and are responsive to their individual progress. *Transforming the Workforce for Children Birth Through Age 8* offers guidance on system changes to improve the quality of professional practice, specific actions to improve professional learning systems and workforce development, and research to continue to build the knowledge base in ways that will directly advance and inform future actions. The recommendations of this book provide an opportunity to improve the quality of the care and the education that children receive, and ultimately improve outcomes for children. *Protecting Children in Time* provides a highly original analysis of the origins and development of the taken-for-granted notion that it is possible through social intervention to protect children from avoidable harm and even death, to protect children in time. By using case-studies which span the past 120 years of 'modern' practices and drawing on the work of leading social theorists of modernity and risk society it provides a new way of thinking about constructions of child abuse as a social problem and child protection as a late-modern expert system and

experience. It proposes new ways of conceptualizing relationships between professionals, children at risk and families and deepens our understanding of what effective interventions have to involve. In the tradition of *The Year of Living Biblically* by A.J. Jacobs and *Walking the Bible: A Journey by Land Through the Five Books of Moses* by Bruce Feiler comes Abigail Pogrebin's *My Jewish Year*, a lively chronicle of the author's journey into the spiritual heart of Judaism. Although she grew up following some holiday rituals, Pogrebin realized how little she knew about their foundational purpose and contemporary relevance; she wanted to understand what had kept these holidays alive and vibrant, some for thousands of years. Her curiosity led her to embark on an entire year of intensive research, observation, and writing about the milestones on the religious calendar. Whether in search of a roadmap for Jewish life or a challenging probe into the architecture of Jewish tradition, readers will be captivated, educated and inspired by Abigail Pogrebin's *My Jewish Year*. Every elementary teacher deals with students who struggle as readers on a daily basis. In *One Child at a Time*, experienced literacy specialist and consultant Pat Johnson provides a framework she has used with hundreds of students in scores of classrooms to help teachers understand and assist individual children. The four-step process outlined in the book enables teachers to focus carefully on specific behaviors and needs, analyze them with theoretical and practical lenses, design targeted instruction, and then assess and refine the teaching in conferences with the child. Pat shows how to use it. This edited collection looks at the changes to the status of the child and childhood wrought by globalization. Science fiction-roman. "The children and nature movement is fueled by this fundamental idea: the child in nature is an endangered species, and the health of children and the health of the Earth are inseparable." —Richard Louv, from the new edition In his landmark work *Last Child in the Woods*, Richard Louv brought together cutting-edge studies that pointed to direct exposure to nature as essential for a child's healthy physical and emotional development. Now this new edition updates the growing body of evidence linking the lack of

nature in children's lives and the rise in obesity, attention disorders, and depression. Louv's message has galvanized an international back-to-nature campaign to "Leave No Child Inside." His book will change the way you think about our future and the future of our children. "[The] national movement to 'leave no child inside' . . . has been the focus of Capitol Hill hearings, state legislative action, grass-roots projects, a U.S. Forest Service initiative to get more children into the woods and a national effort to promote a 'green hour' in each day. . . . The increased activism has been partly inspired by a best-selling book, Last Child in the Woods, and its author, Richard Louv." —The Washington Post "Last Child in the Woods, which describes a generation so plugged into electronic diversions that it has lost its connection to the natural world, is helping drive a movement quickly flourishing across the nation." —The Nation's Health "This book is an absolute must-read for parents." —The Boston Globe Now includes A Field Guide with 100 Practical Actions We Can Take Discussion Points for Book Groups, Classrooms, and Communities Additional Notes by the Author New and Updated Research from the U.S. and Abroad
