This is a phenomenally detailed book which covers the car from bumper to bumper. Every detail of important repair and maintenance jobs is covered. Covers all 'Mk1' (cars with pop-up headlights) 1.8-litre models 1994-98; the only aftermarket workshop manual available for the MX-5; written in an easy to use, friendly style; step-by-step procedures supported by hundreds of photos & illustrations; covers all aspects of maintenance and repair; and applies equally to Eunos Roadster (Japanese market model) and Mazda Miata (US market model). Barry Unsworth, a writer with an "almost magical capacity for literary time travel" (New York Times Book Review) has the extraordinary ability to re-create the past and make it relevant to contemporary readers. In Land of Marvels, a thriller set in 1914, he brings to life the schemes and double-dealings of Western nations grappling for a foothold in Mesopotamia (now Iraq) in the dying days of the Ottoman Empire. Somerville, a British archaeologist, is

excavating a long-buried Assyrian palace. The site lies directly in the path of a new railroad to Baghdad, and he watches nervously as the construction progresses, threatening to destroy his discovery. The expedition party includes Somerville's beautiful, bored wife, Edith; Patricia, a smart young graduate student; and Jehar, an Arab man-of-all-duties whose subservient manner belies his intelligence and ambitions. Posing as an archaeologist, an American geologist from an oil company arrives one day and insinuates himself into the group. But he's not the only one working undercover to stake a claim on Iraq's rich oil fields.

Historical fiction at its finest, *Land of Marvels* opens a window on the past and reveals its lasting impact. Lucy has always had a volatile marriage, one marked with frequent splits and reconciliations. So when she gathers up her two young children, May and Eden, and walks out on her husband, no one expects it will be for good. Until she flees England for America. In the serene, sunbathed California landscape - a far cry from life in London - Lucy and her children begin to believe that this strange new country might offer them a chance to reconnect. But when they settle in the Parvati Ashram, what first seemed idyllic threatens to sever their already tenuous family ties. What outsiders consider a cult, Lucy's desperate quest for purpose and healing causes her to view as a place of support and salvation. As Lucy is taken deeper into the

confidence of their religious leader, May's initial defenses and doubts about the ashram are slowly broken down by the bond she forms with the sensual and manipulative proselyte, Sati. Thoughts of England soon begin to fade in this place where blind faith challenges human instinct and decency, forcing both Lucy and May to decide what is real, what is false, and what, in the end, is worth fighting for.

In 1996, Sheryl became the most famous footballer's wife in Britain when lurid stories of physical abuse by her husband Paul Gascoigne became front-page news. However, as the most idolised footballer of his generation, Gazza was untouchable, and the fact that he'd been controlling Sheryl for years was quickly glossed

over. Sheryl divorced Paul two years later, but their story wasn't over. She spent years trying to help him, supporting him when he was sectioned under the Mental Health Act and visiting him regularly at the Priory. Last summer, distressed by Paul's disturbing OCD and bulimia, she decided to make one last attempt to save her former husband from alcoholic oblivion. She failed. But she did succeed in saving herself, and her children. Stronger is an empowering and inspirational memoir about a journey of love, courage and violence that was Sheryl's life with Paul Gascoigne. It is also a moving portrait of what it means to love and live with an addict. In finally voicing her side of the story, Sheryl is not only putting her demons to bed - she is also dispelling the myths about domestic violence and giving hope to the millions of people who are daily victims of this crime.
