Illustrated guide to the crucial Italian philosopher and author of *The Prince*. 'Machiavellian' is a popular byword for treachery and opportunism. Machiavelli's classic book on statecraft, *The Prince*, published over 400 years ago, remains controversial to this day because of its electrifying frankness as a practical guide to power. Is it a how-to manual for dictators, a cynical philosophy of 'the end justifies the means', or a more complex and subtle analysis of successful government? Machiavelli was a loyal servant of the Florentine republic. His opposition to Medici despotism led him to torture on the rack and exile, and yet he chose as his model for the Prince the most notorious tyrant, Cesare Borgia. Introducing Machiavelli traces the colourful life of this paradoxical realist whose clear-sighted patriotism made him the first truly modern political scientist. Machiavelli is seen as central to the postmodern debate on Civil Society. This book brings the

creative turbulence of Renaissance Italy to life, and presents a compelling portrait of a key figure of European political history. An economic and social history of early New South Wales, told through the life stories of pioneer 19th century horsemen. Traces the origin and development of the horse in Australia and a special tribute to Australia's internationally acclaimed thoroughbred expert C. Bruce Lowe. Her personal bodyguard Allie had teased him, insulted him, but still she seemed to be stuck with Drake Marsden as her official chaperon! He'd been appointed to look after her during a crucial assignment in Russia, and he refused to leave her side day or night . Just because Allie was pretty and petite didn't mean she needed Drake's protection! And she simply refused to be seduced by him. At least, that was the idea. Until her twenty-four-hour bodyguard decided the safest place for her was in his bed! *Metaphors of Confinement: The Prison in Fact, Fiction, and Fantasy* offers a historical survey of imaginings of the prison as expressed in carceral metaphors in a range of texts about imprisonment from Antiquity to the present as well as non-penal situations described as confining or restrictive. These imaginings coalesce into a 'carceral imaginary' that determines the way we think about prisons, just as social debates about punishment and criminals feed into the way carceral imaginary develops over time. Examining not only English-language prose fiction but also poetry and drama from the Middle Ages to postcolonial, particularly African, literature, the book juxtaposes literary and non-literary contexts and contrasts fictional and nonfictional

representations of (im)prison(ment) and discussions about the prison as institution and experiential reality. It comments on present-day trends of punitivity and foregrounds the ethical dimensions of penal punishment. The main argument concerns the continuity of carceral metaphors through the centuries despite historical developments that included major shifts in policy (such as the invention of the penitentiary). The study looks at selected carceral metaphors, often from two complementary perspectives, such as the home as prison or the prison as home, or the factory as prison and the prison as factory. The case studies present particularly relevant genres and texts that employ these metaphors, often from a historical perspective that analyses development through different periods. Jane Austen fans never tire of the author's beloved characters and have shown they enjoy novels that turn the story upside down by reversing the narrative. In this retelling of *Persuasion*, readers get Captain Wentworth's side of the story along with love, rejection, revenge and redemption. The award-winning debut from one of Britain's most cherished crime writers Before she created the iconic Miss Silver, Patricia Wentworth found acclaim as an author of page-turning romances. Set during the French Revolution, *A Marriage Under the Terror* is a gripping tale of love blossoming in the ashes of betrayal, and a fascinating first step from a master storyteller. Nineteen-year-old orphan Aline de Rochambeau is horrified at the prospect of an arranged marriage to the foppish Vicomte Selincourt. But when Selincourt and Madame de Montargis, Aline's married aunt, are unmasked as

lovers and arrested for treason, the young noblewoman's situation grows even more drastic. Alone in a Paris engulfed in revolt, Aline has no chance of survival—until she meets the dashing freedom fighter Jacques Dangeau. Torn between his vow to liberate France and his passion for Aline, Jacques makes a choice that could doom both of them forever. acclaimed writers comes this dramatic tale of a well-born Southern woman whose life is forever changed by the betrayal of her mother and by the man she loves. Growing up, the only place tomboy Thayer Wentworth felt at home was at her summer camp - Camp Sherwood Forest in the North Carolina Mountains. It was there that she came alive and where she met Nick Abrams, her first love...and first heartbreak. Years later, Thayer marries Aengus, an Irish professor, and they move into her deceased grandmother's house in Atlanta, only miles from Camp Edgewood on Burnt Mountain where her father died years ago in a car accident. There, Aengus and Thayer lead quiet and happy lives until Aengus is invited up to the camp to tell old Irish tales to the campers. As Aengus spends less time at home and becomes more distant, Thayer must confront dark secrets-about her mother, her first love, and, most devastating of all, her husband. It's 1912, and the Darlington of Wentworth Hall have more than just the extensive grounds to maintain. As one of Britain's most elite families, they need to keep up appearances that things are as they have always been, even as their carefully constructed facade rapidly comes undone. ** NOT A STANDALONE NOVEL! **In the final moments of "The Culling", Reagan Scott was betrayed. This is the first book of 14 in a series of Mort and Millie murder mysteries. In this provocative, classic metaphysical thriller, a group of suburban amateur actors plagued by personal demons and terrors explore the pathways to heaven and hell. Certain inhabitants of Battle Hill, a small

community on the outskirts of London, are preparing to mount a new play by the neighborhood's most illustrious resident, the writer Peter Stanhope. Each actor struggles with self-absorption, doubt, fear, and sin. But "the Hill" is not like other places. Here the past and present intermingle, ghosts walk among the living, and reality is often clouded by dreams and the dark fantastic. For young Pauline Anstruther, who is caring for an aging grandmother and frightened by the specter of a doppelgänger who gets closer with each visitation, the prospect of heaven exists in the renowned playwright's willingness to bear the burden of her terror. For eminent historian Lawrence Wentworth, the rejection of his desire pulls him deeper inside himself, leaving him vulnerable to the lure of the succubus and opening wide the entrance to hell. A brilliant theological thriller, *Descent into Hell* is an extraordinary fictional meditation on sin and personal salvation by one of the twentieth century's most original and provocative literary artists. Charles Williams, a member of the Inklings alongside fellow Oxfordians C. S. Lewis, J. R. R. Tolkien, and Owen Barfield, has written a powerful work at once profoundly disturbing and gloriously uplifting, an ingenious amalgam of metaphysics, religious thought, and darkest fantasy. This sweeping narrative presents an original and compelling explanation for the triumph of the antislavery movement in the United States prior to the Civil War. Abraham Lincoln's election as the first antislavery president was hardly preordained. From the country's inception, Americans had struggled to define slavery's relationship to freedom. Most Northerners

supported abolition in the North but condoned slavery in the South, while most Southerners denounced abolition and asserted slavery's compatibility with whites' freedom. On this massive political fault line hinged the fate of the nation. Graham A. Peck meticulously traces the conflict over slavery in Illinois from the Northwest Ordinance in 1787 to Lincoln's defeat of his arch-rival Stephen A. Douglas in the 1860 election. Douglas's attempt in 1854 to persuade Northerners that slavery and freedom had equal national standing stirred a political earthquake that brought Lincoln to the White House. Yet Lincoln's framing of the antislavery movement as a conservative return to the country's founding principles masked what was in fact a radical and unprecedented antislavery nationalism. It justified slavery's destruction but triggered Civil War. Presenting pathbreaking interpretations of Lincoln, Douglas, and the Civil War's origins, *Making an Antislavery Nation* shows how battles over slavery paved the way for freedom's triumph in America. How could he have failed to know himself so completely? This collection of essays re-examines the historical debates of the early Stuart period from a fresh vantage point: the career of Thomas Wentworth, first Earl of Strafford. Wentworth played a crucial role in virtually every disputed policy and debate of the 1620s and 1630s. A noted 'country' parliamentarian, then a Privy Councillor and President of the Council in the North, a controversial Lord Deputy of Ireland and a close ally of Archbishop Laud - Wentworth's career encapsulates many of the paradoxes and tensions in early Stuart politics. This collection boasts a series of major articles by some of the most prominent historians currently active in seventeenth-century political history. The essays explore the nature of the political world under Charles I through Wentworth's career, challenging some of the categories and presuppositions which characterise recent work on the pre-Civil War period. Kendra Donovan's adventures in nineteenth-century England continue when she is called upon to investigate the murder of a spymaster. February 1816: A race through the icy, twisting cobblestone streets of London ends inside an abandoned church—and a horrific discovery. Bow Street Runner Sam Kelly is called to investigate the grisly murder of Sir Giles Holbrooke, who was left naked and garroted, with his tongue cut out. Yet as perplexing as that crime is, it becomes even stranger when

symbols that resemble crosses mysteriously begin to appear across the dead man's flesh during autopsy. Is it a message from the killer? Sam turns to the one person in the kingdom who he believes can answer that question and solve the bizarre murder—the Duke of Aldridge's odd but brilliant ward, Kendra Donovan. While Kendra has been trying to adapt to her new life in the early nineteenth century, she is eager to use her skills as a twenty-first century FBI agent again. And she will need all her investigative prowess, because Sir Giles was not an average citizen. He was one of England's most clever spymasters, whose life had been filled with intrigue and subterfuge. Kendra's return to the gritty streets and glittering ballrooms of London takes her down increasingly dangerous paths. When another body is discovered, murdered in the same apparently ritualistic manner as Sir Giles, the American begins to realize that they are dealing with a killer with an agenda, whose mind has been twisted by rage and bitterness so that the price of a perceived betrayal is death. In fact, he is in good health, ready to start life where he left off, money or no money. But the old family feud

stands in his way, and the situation at the manor house grows vicious in the wake of the undergardener William Jackson's death. Did he drown by accident, or was he murdered? Only Maud Silver, the demure but brilliant detective, can say for sure. They were worse than strangers, now he's the only one who can save her...
