I am Arthur Blackwood and I invite you to read this dark series of horror stories for kids. But wait! Don't accept my invitation yet. Are you easily frightened? This collection of scary stories is not for wimpy kids or the faint-hearted. You've been warned! However, if you crave classic stories of night beasts and demons, and if you seek tales of haunted history and Halloween terror, then step right this way. These books are for you. Arthur Blackwood's Scary Stories for Kids Who Like Scary Stories is perfect for fans of Scary Stories to Tell in The Dark, Goosebumps, and Roald Dahl's Book of Ghost Stories. Beware! In this volume, you'll encounter creepy spiders, a haunted museum, monstrous secrets, a witch who is not to be trifled with, beasts lurking in darkness, and a boy who's not quite sure if he's himself or somebody else. One more word of advice: bring all the gasps, startles, and terrified screams you can find. You're going to need them. Sagara Sousuke is your average Japanese high school student. He gets love letters in his shoe cubby—which he mistakes for bombs. He helps out the student council—by interrogating suspected vandals. He even models for art class—by engaging in guerrilla combat! The presence of the war-addled military geek drives Chidori Kaname crazy, but she can't deny that he makes life exciting. Even after he booby traps their beach supplies and agrees to date another girl (merely to gain “field experience” of course), she just can't leave this lone wolf alone! The book begins with a series of language games, designed to warm up creativity and strengthen the imagination. This is followed by a series of creative story workshops, based on the writer's own experience both as a teacher and poet running workshops in schools. These workshops focus on growing the roots of story writing through story telling and reading, and begin with the importance of learning a few well-known tales. There are ideas for drama, role-play and art, and a few model stories are provided for story telling. Other workshops explore simple ideas for creating new stories, based around simple familiar patterns. The book also offers advice on how to organize an effective workshop for younger children, and demonstrates how to teach story writing in a dynamic, creative and imaginative way in relationship with the KS1 national literacy framework. Workshops include the story of our lives; stories that make a circle; stories about problems; days of the week tales; humbug, stuff and nonsense stories; quests; repetitive tales; wishing stories; warning stories; and cooking the story soup. Nancy Drew's keen mind is tested when she searches for a missing will. What if one day you discovered you had gifts that went beyond the ordinary? That's how this set of stories begins. One person after another discovers there is more to their life than what meets the eye. The Karass Chronicles is a series of stand-alone magical realism, mystery-solving stories with plenty of drama, but where everything always works out in the end. But probably not how you thought it would. If you like books about other dimensions, expanded reality, and characters you can love, then this series of stories just might be what you are looking for. Escape into a book for a few hours, and you might discover that you too have gifts that go beyond the ordinary.
