A complete guide is included for digital administration and scoring using Q-interactive, automated**

**scoring using Q-global, and hand scoring. Essentials of KTEA-3 and WIAT-III Assessment makes score interpretation easier by explaining what each score measures and the implications of a high or low score. Learn how to increase the diagnostic utility of the KTEA-3 and WIAT-III by taking full advantage of their capabilities for error analysis, qualitative observations, and progress monitoring, and by pairing the results with measures of cognitive ability such as the WISC-V and KABC-II. Clinicians will find a helpful discussion of how these tests may be interpreted using either a CHC or neuropsychological approach to assessment. Case studies illustrate the use of these tests to respond to various referral concerns. Annotations within each case report provide a window into the mind of the examiner throughout the assessment process. This book provides a depth and breadth of understanding that is appropriate for all assessment professionals, regardless of their level of training or experience. Extensive illustrations, call-out boxes, and "Test Yourself" questions help students and clinicians quickly absorb the information they need. Essentials of KTEA-3 and WIAT-III Assessment is the clear, focused guide to using these tests to their fullest potential.**

**Brockville Risk Checklist 4 (Brc4): Scoring Manual Sep 10 2022** The Brockville Risk Checklist 4 is a unique, easy-to-use tool that can be adapted to any inpatient or outpatient mental health setting. This one-page instrument is the result of over a decade of use, development and empirical research. This clear and concise manual was informed by extensive research by the authors through coordination with clinical treatment teams who have been using the tool to manage and track risk in regular treatment meetings for clients in a forensic mental health setting. As the tool's name suggests, it originates from a forensic psychiatric facility in Brockville, Ontario, Canada. The Brockville Mental Health Centre, a campus of the Royal Ottawa Health Care Group, is a secure facility treating individuals with severe mental illnesses who have been detained in the facility and in the process of gradual community reintegration. The facility employs clinicians who are renowned globally for their work with mentally disordered individuals in the forensic system, many of whom have contributed to or given feedback on the BRC4, including the authors. Included in this manual is an Internet link to a free PDF copy of the BRC4 tool, which may be printed for use. The authors of this tool hope this manual is both informative and useful in your research and/or clinical practice and helps contribute to safety and risk management in your treatment setting. All proceeds from this publication will be donated back to the Integrated Forensic Program of the Royal Ottawa Health Care Group.

**Brockville Risk Checklist 4 (BRC4) Jul 28 2021 The Brockville Risk Checklist 4 - Scoring Manual is a scoring guideline document designed to inform clinicians and researchers on how to properly score and use the tool. The BRC4 is a short, dynamic risk assessment instrument that serves a risk management purpose in a forensic mental health facility. It was designed to be used as an ongoing risk monitoring tool to be scored by an interdisciplinary treatment team on a regular basis. The BRC4 measures dynamic risk under three facets - Harm to Others, Harm to Self and Exploitation by Others, while also examining Protective and Neglect factors and tallies a range of objective incidents which occurred over the desired reporting period. This scoring manual includes detailed instructions on how to properly score each item and gives examples for the range of possible selections. It also taps into common misunderstandings and questions that may arise during use, as the authors combined have encountered countless assessment situations with this version of the tool where feedback from clinical staff and author observations were consistently noted to inform the content of this manual. The manual is designed to allow a clinician to properly and effectively use this tool without any outside training necessary.**

Wheels of Change Jul 20 2023 Racial intolerance, social change, and sweeping progress make 1908 Washington, D.C., a turbulent place to grow up in for 12-year-old Emily Soper. For Emily, life in Papa's carriage barn is magic, and she's more at home hearing the symphony of the blacksmith's hammer than trying to conform to the proper expectations of young ladies. When Papa's livelihood is threatened by racist neighbors and horsepower of a different sort, Emily faces changes she'd never imagined. Finding courage and resolve she didn't know she had, Emily strives to save Papa's business, even if it means going all the way to the White House.***

***GUIDE TO THE QUALITATIVE SCORING SYSTEM FOR THE MODIFIED VERSION OF THE BENDER-GESTALT TEST Feb 03***

***2022 With increased interest in predicting and ultimately preventing academic failure in children comes the need for effective preschool and primary school assessment. The first step in developing an effective assessment program is to select tests that will yield data needed for individual decision making. One factor that has been shown to contribute to the prediction of children's academic achievement is visual-motor-integration skill. The Qualitative Scoring System for the Modified Version of the Bender-Gestalt Test was developed in the 1980s to measure visual-motor-integration skill in preschool and early elementary school children. The assessment instrument utilizes six of the nine Bender-Gestalt Test designs, which are copied by the child. It may be administered in either individual or group format. The scoring system involves a six-point scale used to judge the overall quality of each design. Examiners will find the assessment instrument easy to administer, score, and interpret. Further, research has shown that the assessment instrument is a reliable and valid predictor of school achievement. This book will describe the development and refinement of the Qualitative Scoring System for the Modified Version of the Bender-Gestalt Test. In addition, it will provide detailed information and guidelines for administering, scoring, and interpreting the test. Specifically, there are separate chapters on administration and scoring, standardization and norming, reliability and validity, and interpretation. In short, the book contains everything psychologists and educational specialists need to know to use the Qualitative Scoring System for the Modified Version of the Bender-Gestalt Test.
