Introduction to African Economics Feb 20 2020

The Kaya Girl Apr 04 2021 This rags-to-riches story by an award-winning Ghanaian author has page-turning appeal with luminous literary resonance. Writing with effortlessly engaging prose, Wolo showcases the interweaving layers of Ghanaian culture to create a prismatic, multifaceted world in which two young girls, against all odds, are able to find each other.

When Faiza, a Muslim migrant girl from northern Ghana, and Abena, a wealthy doctor's daughter from the south, meet by chance in Accra's largest market, where Faiza works as a porter or kaya girl, they strike up an unlikely and powerful friendship that transcends their social inequities and opens up new worlds to them both. Set against a backdrop of class disparity in Ghana, *The Kaya Girl* has shades of *The Kite Runner* in its unlikely friendship, and of *Slumdog Millionaire* as Faiza's life takes unlikely turns that propel her thrillingly forward. As, over the course of the novel, Abena

awakens to the world outside her sheltered, privileged life, the novel explores a multitude of awakenings and the opportunities that lie beyond the breaking down of barriers. This is a gorgeously transporting work, offering vivid insight into two strikingly diverse young lives in Ghana.

Vocationalisation of Secondary Education Revisited Dec 24 2022 The book is a cutting-edge contribution to the debate which has occurred for some time on the pros and cons of secondary education becoming more closely and explicitly related to preparing young people for the

world of work. The book provides concrete examples of the vocationalisation of secondary education, with particular reference to the situation in Africa. The target audience for the book includes policy-makers, practitioners, administrators, education planners, researchers, teachers and teacher educators with a concern about the relationship between secondary education and education for the world of work (with particular reference to technical and vocational education and training - TVET.) The book appears in the Springer book series on

‘Technical and Vocational Education and Training: Issues, Concerns and Prospects’ and compliments the ‘International Handbook of Technical and Vocational Education and Training’ and other publications in the ‘International Library of TVET’ all of which are publications of the ‘UNESCO-UNEVOC International Centre for TVET’ in Bonn, Germany History and Development of Education Mar 15 2022 *Nigerian English* Jan 01 2021 Although the past few decades have witnessed growing interest in varieties of English around the world, no study

of the Nigerian variety intended for the international market has yet been published. Making use of well-known paradigms, the book will relate Nigerian English, as a ‘Second Language’ variety, to other World Englishes. Its chief overall concern, however, is to provide a detailed descriptive account of the variety, seeking to show what is distinctive about it and also, in this perspective, distinguishing between more educated and less educated usage. After giving a sociolinguistic profile of Nigeria, where English today enjoys a more prominent role than ever before, it will examine in turn the

phonology, morphology, syntax, and lexicosemantics of Nigerian English, with samples of written texts from the eighteenth century to the present. It will also give a comprehensive summary of academic research carried out in the field over the past fifty years. In this way the book will provide an introduction to the subject for the benefit of scholars and students in universities in many countries, and will serve as a useful companion to other books in De Gruyter Mouton's *Dialects of English* series. Handbook of Research on the Role of Human Factors in IT Project Management Aug 08 2021 The role humans play in the field of information technology continues to hold relevance even with the industry's rapid growth. People contribute heavily to the physical, cognitive, and organizational domain of computing, yet there is a lack of exploration into this phenomenon. Humanoid aspects of technology require extensive

research in order to avoid marginalization and insufficient data. The Handbook of Research on the Role of Human Factors in IT Project Management is a collection of innovative research on the methods and applications of the task of human characteristics in the design and development of new technology. While highlighting topics including digitalization, risk management, and task analysis, this book is ideally designed for IT professionals, managers, support executives, project managers, managing directors, academicians, researchers, and students seeking

current research on the dynamics of human influence in technological projects.

Oct 22

2022 Inclusive Guide Provides Practical Applications for Workplace Education Theory from Diverse

Perspectives The Wiley Handbook of Global Workplace Learning explores the field of workplace education using contributions from both experts and emerging scholars in industry and academia. Unlike many previously published titles on the subject, the Handbook focuses on offering readers a truly global overview of workplace learning at a price point that makes it accessible for independent researchers and Human Resources professionals. Designed to strike a balance between theory and practice, the Handbook provides a wealth of information on foundational topics, theoretical

frameworks, current and emerging trends, technological updates, implementation strategies, and research methodologies. Chapters covering recent research illustrate the importance of workplace learning topics ranging from meditation to change management, while others give pragmatic and replicable applications for the design, promotion, and implementation of impactful learning opportunities for employees at any company, regardless of industry. A sampling of topics addressed includes: "Using an

Experiential Learning Model to Design an Assessment Framework for Workplace Learning” “Measuring Innovative Thinking and Acting Skills as Workplace-Related Professional Competence” Multiple chapters specifically addressing international business, such as “Competency in Globalization and Intercultural Communication”, “Global Strategic Planning” and “Global Talent Management” Research and recommendations on bridging generational and cultural divides as well as addressing employee learning disabilities With its

impressive breadth of coverage and focus on real-world problem solving, this volume serves as a comprehensive tool for examining and improving practices in global workplace learning. It will prove to be a valuable resource for students and recent graduates entering the workforce and for those working in Human Resources and related fields. **Perspectives on Creative Arts Education in Nigeria** Jan 21 2020 **Junior Graphic** Apr 28 2023 Sustainable Development and Social Responsibility—Volume 2 Nov 11 2021 This book gathers high-quality research papers

presented at the 2nd AUE international research conference, AUEIRC 2018, which was organized by the American University in the Emirates, Dubai, and held on November 13th-15th, 2018. The book is broadly divided into two main sections: Sustainability and Smart Business, and Sustainability and Creative Industries. The broad range of topics covered under these sections includes: risk assessment in agriculture, corporate social responsibility and the role of intermediaries, the impact of privatizing health

insurance, political events and their effect on foreign currency exchange, the effect of sustainable HR practices on financial performance, sustainability integration in the supply chain and logistics, gender inequality in the MENA economies, the panel data model, the model of sustainable marketing in the era of Industry 4.0, micro-enterprises as a tool for combating unemployment, the impact of financial education and control on financial behavior, measuring financial and asset performance in agricultural firms, a comprehensive strategic approach

to sustainability in the UAE, sustainability and project finance, HR analytics, FaD or fashion for organizational sustainability, a conceptual framework of sustainable competitive advantages, psychology of organizational sustainability, Blockchain technology and sustainability, veganism and sustainability, institution building from an emotional intelligence perspective, sustainable concrete production using CWP, occupants' behavior and energy usage in Emirati houses, the effect of shop lighting on consumer behavior,

multimedia applications in digital transformation art, integrating biomimicry principles in sustainable architecture, experimental sustainable practices in fashion education, technology-assisted student-centered learning for civil engineering, and a 10-step design process for architectural design studios. All contributions present high-quality original research work, findings and lessons learned in practical development. *An Introduction to the Study of African Culture* May 05 2021

in Review is a practical intervention strategy in transforming the weakening educational system of Liberia where academic excellence is unceasingly diminishing. LIPACE Pilot Study Guide is not only a landmark achievement in the educational history of Liberia but a remarkable strive towards the proper preparation of Liberian students for future diets of the WAEC exam. As a member of the National Committee of the West African Examinations Council and a Stakeholder in the Liberian Education System, I wish to recommend the use of this study guide

to adequately prepare each and every Liberian student for future examinations thereby setting the stage for an easy transition to the emerging West African Senior Secondary Examinations (WASSCE). I am explicitly confident that you will definitely find your journey through this guide very rewarding as you prepare to sit the next WAEC Exam.—David S. Massaquoi, Sr., director of Education, The Salvation Army-Liberia Command Education Secretariat Our students sit the exam in constant fear of proctors and supervisors. They

know nothing about the exam and its structure and this fear lead to them failing massively. We need to build the confidence level of our students and help them to study hard and understand the roles of proctors and supervisors to stop the intimidation during the exam. Thanks to LIPACE and the “Turning the Tide” project, we have helped our students achieved an amazing achievement for the first time in the history of Gbarpolu County where all senior students successfully passed the exam.—Lartey Bemah, principal of Bopolu Public School (2012-2013), Gbarpolu County, Liberia

School Science Practical Work in Africa Feb 26 2023
School Science Practical Work in Africa presents the scope of research and practice of science practical work in African schools. It brings together prominent science educators and researchers from Africa to share their experience and findings on pedagogical innovations and research-informed practices on school science practical work. The book highlights trends and patterns in the enactment and role of practical work across African countries. Practical work is regarded as intrinsic to science teaching and learning and the form of practical

work that is strongly advocated is inquiry-based learning, which signals a definite paradigm shift from the traditional teacher-dominated to a learner-centered approach. The book provides empirical research on approaches to practical work, contextual factors in the enactment of practical work, and professional development in teaching practical work. This book will be of great interest to academics, researchers and post-graduate students in the fields of science education and educational policy.

It is structured to follow past standard questions used to test the Senior Secondary School students. Some of the questions are actual past

examination questions whilst others are standard mock questions that can be examined at this basic level of business management education. The questions cover all key topics of business management outlined in the WASSCE syllabus. The book is written with students in mind to reinforce the key concepts of business management. A word of caution! Students are not expected to study only the Questions & Answers and expect to get excellent results. It is hoped that students will use this Q&A book alongside with Volumes I, II and III of the Business

Management for SSSCE PassTrack Series for excellent results.

DO IT YOURSELF Feb 02 2021 It has been stated that information is the currency of the 21st century, and billions of words are added every minute to the mountains of words in the library of human existence. This mountain at most can be very intimidating and mind boggling, and navigating through the burrows and rows of words in

this library, searching for new information or knowledge, can be very daunting. No wonder, through the help of technology, the world is gradually moving from “Do it for us”, to Do it yourself”. But doing it yourself, requires skills, time, patience and resilience. Since, it has no doubt, increasingly become difficult for people to do research online, access relevant information, or develop new skills, probably due to the constraint of time. It is our quest to help you overcome all these constraints, which gave birth to the book “DO IT YOURSELF”. Do it yourself, is the most

comprehensive guide of How to's, in any subject matter that is of interest to you. We gracefully understand what it takes to browse through thousands or even millions of pages online, looking for information on the new skill you want to acquire, or the new information you want to access, we have therefore save you time and money by compiling all the information in a book form, to save you millions of hours of research, data, and loss of quality time with loved ones. Do it yourself is therefore aimed at helping you achieve more and become better with less efforts, which will directly or indirectly change

your way of thinking for the betterment of your life and that of others.
