Property: Cases and Materials features sweeping coverage in a single volume, from "old property" (such as the basics of estates in land and servitudes) to "new property," including intellectual property, cultural property, and property in living things. The text provokes debate on fundamental questions such as the creation of property, information as property, collective vs. individual rights, and property as related to other bodies of law. Its coverage of intellectual property shows how the law grows and responds to social and technological change. Designed for flexibility, stand-alone chapters can be omitted if time constraints require. Property: Cases and Materials includes appellate decisions, statutes, regulations, administrative decisions, law review articles, and non-legal materials. Principal cases include *Elvis Presley International Memorial Foundation v. Crowell*, *Popov v. Hayashi* (Barry Bonds home run ball); *People v. Chubbs* (software for DNA matching), and *Dred Scott v. Sandford*. Key Features: Updated with more recent cases, including more cases from the twenty-first century than any other major property casebook. Improved coverage of natural resources law and intellectual property. Thorough update of all existing materials. The Tenth Edition provides up-to-date treatment of climate change issues across different statutes. This classic casebook provides students with a thorough understanding of all major environmental regulatory schemes as well as insight into current policy controversies. The book pays particular attention to the dynamics involved in the creation and implementation of environmental law, focusing on interest group challenges, the proper role of agencies in implementing complex statutes and the involvement of courts in determining how deferential to be to agency implementation. The book covers the latest appellate and Supreme Court cases involving interstate air pollution, climate change, wetlands and takings, as well as major recent regulatory changes. This edition provides revised treatment of the toxics materials to reflect recent legislative changes, and other chapters reflect important decisions

such as UARG. Full attention is given to Obama Administrative initiatives and current efforts by the Trump Administration to roll them back. The Ninth Edition of Securities Regulation: Cases and Materials brings onboard two new co-authors—Ann Lipton and William Sjoström—to a casebook that has long set the standard for providing students with an in-depth, sophisticated, practical look at contemporary securities law. As it has since its first edition, Securities Regulation: Cases and Materials contains a very teachable mix of problems, cases, and textual material, encouraging students to build their knowledge base by being active problem-solvers. Always forward-thinking, stressing current developments and controversies, the book is also highly modular, so that professors can easily pick and choose how to structure their courses without being locked into any given progression. New to the Ninth Edition: Coverage of “cryptocurrencies” and coin offerings  
Commentary on market developments such as indexing and algorithmic trading  
A tighter set of problems and materials on gun-jumping under Section 5  
The SEC’s latest reforms of Regulation D and the intrastate offering exemption  
Spotify and the trend toward direct listings as a way of going public  
Coverage of Supreme Court decisions from the last three years, including Lorenzo, Salman, Cyan, Lucia, and Kokesh, as well as important lower court cases  
The SEC broker-dealer proposal (and perhaps adoption) of Regulation Best Interest  
Professors and students will benefit from: The book’s highly modular organization, enabling different teaching formats and coverage  
Concise notes that introduce the reader to both theory and real-life practice issues  
A book that is always up to date and on the cutting edge  
"The strengths of this book have always been in its insight into the origins of the evidence rules, which was a particular strength of its original authors Edward W. Cleary and John W. Strong. The new authors have built upon that strength at the same time we strive to give attention to contemporary issues in evidence law". -- INTRODUCTION. An array of carefully selected

case report and academic article extracts combined with author commentary to provide a thorough and engaging assessment of criminal law provisions. Hardbound - New, hardbound print book. This text, the only criminal law casebook authored by two progressive female law professors of color, provides the reader with both critical race and critical feminist theory perspectives on criminal law. The book focuses on the cultural context of substantive criminal law, integrating issues of race, gender, class, and sexual orientation where relevant Hardbound - New, hardbound print book. This book is designed to introduce students to broad topics in sports law, rather than just focusing on sports agency. Sports agency comprises only a small portion of sports law-so students will benefit greatly from learning about sports law with a broader perspective. "This federal Indian law casebook has an unprecedented focus on Native nation-building, including cutting-edge materials on tribal economies and tribal justice systems unavailable elsewhere. The seventh edition retains classic material on the history of federal Indian law and policy, including the medieval origins of the "doctrine of discovery," and the shifting eras of Indian law leading to the current nation-building era. The book covers the federal tribal relationship; tribal sovereignty and jurisdiction; Indian religion and culture; water rights; treaty rights; rights of Alaska natives and native Hawaiians; and international legal perspectives"--Publisher's website. This sixth edition, continuing the use of minimally edited cases, serves as a vehicle for teaching first-year students the essential techniques of case analysis and legal method. This edition has been substantially shortened so as to meet the needs of instructors who teach a three or four hour introductory tort course. Throughout, the book is modified to include developments in tort law since the fifth edition was published in 2012. For example, the intentional tort chapter recognizes and discusses the Restatement (Third) of Torts: Intentional Torts. The chapters on negligence and causation recognize and discuss cases relying on

and referencing the Restatement (Third) of Torts: Liability for Physical & Emotional Harm. The chapter on duty reflects the framework by which courts think about duty. It brings together in one place all the areas of tort law that apply special duty rules. The Causation Chapter adds material on causation in toxic tort cases and the admissibility of expert witnesses after Daubert. The materials on products liability capture recent developments in that area. The Insurance Chapter incorporates the new restatement on insurance law. The chapter on tort reform updates the empirical research on the operation of the tort system and the effects of tort reform. Economic analysis can shed light on the consequences of the law's murky operations by focusing on the incentives created by the law. Applying economic principles to legal problems brings a better understanding of the implications of legal rules. Cases and Materials on Business Entities, Fifth Edition More than forty years since its initial publication in 1978, the Seventh Edition of Cases and Materials on Family Law gives students an introduction to Family Law that follows the field's traditional and emerging forms in ways that are entirely fresh. Like earlier editions, the Seventh Edition weaves together cases, statutes, model codes, policy, narrative, history, transnational sources, and theory, in highly accessible ways, as it illuminates Family Law's dynamic relationship with the highly variegated social landscape on which it rests. The well-known strengths of earlier editions' treatment of Family Law's many equality themes have been updated and expanded to feature deep engagements at Family Law's intersection with different axes of inequality, including race, ethnicity, gender, gender identity and expression, sexual orientation, and class. Rev. ed. of: Cases and materials on equitable remedies, restitution, and damages / by Robert N. Leavell. ... [et al.]. 7th ed. c2005. Tracing the development of contract law in the English and American common law traditions, Contracts features authoritative discussions and notes and focuses on significant cases. The casebook also provides opportunities for teachers to put

before students the ethical responsibilities of attorneys and the consequences of neglecting such responsibilities. Highlights of the seventh edition include: Revised selections with more Restatement and a special section providing leading cases Modest updating with new cases to refresh the book in response to adopters' expressed preferences More sophisticated but still accessible textual material on the economics of contract law Revised introduction to provide for smoother transition into materials on damages Changes in the New Edition Include: Chapter 1: Bases for Enforcing Promises. In an engaging new beginning, the chapter now starts with two cases that explore the meaning of promise. The cases are the old Hardbound - New, hardbound print book. This revised and thoroughly updated Sixth Edition covers significant legislative and judicial developments through August 2022. The authors include new material without overburdening the student or instructor with longer readings by streamlining certain case excerpts, being more selective in some instances, and making judicious use of notes in other areas. Organization follows the earlier pattern of introduction, trademark, right of publicity, trade secret, idea protection, patent, copyright law, and preemption. A combination of central coverage, optional extensions, and cross-references to related material and concepts throughout the book provides instructors the flexibility to use the book in connection with a variety of courses. This supplement brings the main casebook up to date with recent changes in the law. This text, the only criminal law casebook authored by two progressive female law professors of color, provides the reader with both critical race and critical feminist theory perspectives on criminal law. The book focuses on the cultural context of substantive criminal law, integrating issues of race, gender, class, and sexual orientation where relevant. This text draws together in one volume an exhaustive selection of cases, materials and background information on public international law, supplemented by expert commentary and analysis. This sixth edition has been completely revised to

incorporate major developments in the subject, including the expansion of human rights issues.

Description Coming Soon! Hardbound - New, hardbound print book. A contemporary, easy-to-teach text by the Reporters for the new Restatement of the Law Liability Insurance, this casebook invites students and teachers to re-imagine the field of Insurance Law. The authors demonstrate the big-picture role of insurance law and policy in American business and society, exploring federal-state regulatory roles in depth as well as the traditional topics covered in casebooks. Insurance Law and Policy: Cases and Materials uses more statutory material than any other casebook, with statutes typically presented through problems. Manageable assignments contain one major case followed by informative notes, questions and a problem. This text appeals to Insurance teachers as well as teachers of Torts and Contracts considering a new course. The Teacher's Manual—with case briefs, backgrounds on selected cases, simple diagrams that explain complex issues, and answers to questions and problems—is especially useful for instructors new to the course. New to the Fifth Edition: Expanded coverage of the role of insurance in disasters and catastrophes, including the COVID-19 pandemic Extensive treatment of the now-finalized Restatement of the Law, Liability Insurance Reorganization of the liability insurance chapters to facilitate more step-by-step learning Replacement of a few difficult-to-teach cases with new, more straightforward cases Professors and student will benefit from: Focus on the big picture of federal-state regulatory roles in addition to the traditional insurance coverage topics addressed in other Insurance Law casebooks Extensive use of statutory materials, with statutes typically presented through carefully-constructed problems Manageable assignments structured with one major case, informative notes, questions, and a problem Interesting, up-to-date cases, with context-setting introductions, on topics such as cyber insurance, the role of private insurance in responding to public catastrophes, and the new

Restatement of the Law Liability Insurance Cases are longer, providing students better grounding in the art of extracting useful knowledge from judicial opinions Elimination of some of the arcane aspects of insurance law in favor of presenting a broad and conceptual overview of the field  
Hardbound - New, hardbound print book. To order a paperback version of this casebook, please click [here](#). Florida Constitutional Law, a casebook used in Florida since 1992, is now in its fifth edition. Authors Cooper, Dunham and Woody include the functions of a state constitution and how the Florida constitution is amended; separation of power issues; the major constitutional limits on legislative power; the constitutional jurisdiction of Florida courts, as well as the separation of powers limits on the courts that resemble the Article III limits on federal judicial power; units of local government and their relationship to the state and each other; the major constitutional limitations on taxation and borrowing; a selected review of various provisions of the Declaration of Rights, including Florida's privacy guarantee (which is far more extensive than privacy under the United States Constitution); and Florida's homestead provision. The authors have made this edition more user friendly than the fourth edition and have created an accompanying teacher's manual. The 2013 Electronic Supplement to this text is available to adopters upon request. The supplement includes 14 practice problems, along with discussion points, that can be used to enhance student synthesis and legal analysis, as well as sample syllabi. If you have adopted the book for a course, contact [sarah.hornbach@cap-press.com](mailto:sarah.hornbach@cap-press.com) to request the supplement. Please include in the email the school and name of the course for which you have adopted this book. Description Coming Soon!  
Description Coming Soon! This, the first casebook in the United States devoted exclusively to trade secret law, is challenging yet user-friendly to students. In order to facilitate understanding of the material, the book is designed to be used by law and business students with no prior background in

intellectual property law. Throughout, the authors have made conscious and thoughtful decisions about the way in which the information is presented and organized. The general organization follows a logical analytical approach to understanding trade secret law, with the chapters progressing from proving the essential elements of a trade secret claim to defensive tactics and remedies, managing trade secrets, and criminal actions. It also addresses employment, management, and international issues. The Hellerstein casebook, now authored by four leading experts in the field, provides a comprehensive overview of the field of state and local taxation (SALT), reflecting the most recent developments in this rapidly changing field. The book weaves together two structural approaches to SALT -- i.e., by constitutional doctrine (e.g., due process, interstate commerce, equal protection) and by type of tax (individual income, corporate income, sales/use, property). This analytical structure is designed to give students an in-depth understanding of both the fiscal architecture of SALT and the major constitutional limits on subnational taxing power. This classic international law casebook is updated to cover recent case law, including the International Court of Justice's Certain Activities carried out by Nicaragua in the Border Area (*Costa Rica v. Nicaragua*) case, the arbitral decision in the South China Sea (*Philippines v. China*), and the U.S. Supreme Court's ruling in *Jesner v. Arab Bank*. With extraordinary range and depth, this casebook probes "hot topics" such as cyber-attacks, the Paris Agreement on climate change, the International Criminal Court's possible investigation into war crimes in Afghanistan, and complaints of racial discrimination by Palestine against Israel and by Qatar against the United Arab Emirates, all calculated to provoke engaging classroom discussions. This casebook is designed for introductory and advanced classes. To view or download the 2020 Summer/Fall Supplement, [click here](#). This updated seventh edition provides numerous diagrams and figures, concise explanations of relevant legal principles, and, to the extent possible,

cases involving relatively simple technologies. In addition to providing the most recent developments, the authors have also tried to put the current evolution of the law in historical context, thus expanding coverage of historically important cases in areas where the law is changing dramatically. This casebook's authors have a webpage that features supplemental teaching tools. PowerPoint slides are available to professors upon adoption of this book. Download a sample of the full 1,328-slide presentation here. If you are a professor using this book for a course, contact [bhall@cap-press.com](mailto:bhall@cap-press.com) to request your slides. This concise casebook offers materials that are thorough yet brief, enabling coverage of all the major topics in a three- or four-credit format. The emphasis is decidedly on primary materials: well-edited principal cases, followed by notes that inform the student on important details and developments. Each chapter covers an article of the Federal Rules of Evidence. Within the chapters and sections, the materials generally follow the sequence of the Rules. The 8th edition covers all important recent developments, including federal and state court decisions interpreting the Rules, the Supreme Court's decision in *Peña-Rodriguez v. Colorado* (2017), and recent state developments concerning prior offenses in sex crime cases. Updated with an emphasis on current issues, this classic casebook emphasizes developments in international law, with expertly edited cases and problems for class discussion. *Cases and Materials on International Law* offers a treatment of the subject for introductory and advanced classes and detailed readings and reference materials for those who wish to pursue topics in depth. The fourth edition enriches every chapter with new information on institutions contributing to the sources and enforcement of international law, including the World Trade Organization, the International Criminal Tribunals for Yugoslavia and Rwanda, the prospective International Criminal Court, and organizations in the fields of law of the sea and arms control. International criminal law now has a

chapter of its own, and the casebook gives expanded treatment to human rights, environmental law, and economic law. The objectives of the Seventh Edition are twofold: to help the student understand the substantive law of sales and develop the skills of statutory analysis in the context of a comprehensive statute that contains critical definitions and numerous cross references. The materials consist of cases, text, and problems. The cases are selected because of their effectiveness as teaching materials, presenting difficult legal questions and explaining the business background of the disputes. The notes elaborate on the background and push the student to question the rationale of the court. The problems further explore the soundness of the court's decision and present new issues of statutory analysis for the student to consider. They require the student to dig deeply into the language of the statute and the Official Comments, working back and forth among the various sections that are relevant to solving the problem.
