Healthy at Last Apr 24 2022 New York mayor Eric Adams is on a mission to tackle one of the most stubborn health problems in the country: chronic disease in the African American community. African Americans are heavier and sicker than any other group in the U.S., with nearly half of all Black adults suffering from

some form of cardiovascular disease. After Adams woke up with severe vision loss one day in 2016, he learned that he was one of the nearly 5 million Black people living with diabetes--and, according to his doctor, he would have it for the rest of his life. A police officer for more than two decades, Adams was a connoisseur of the fast-food dollar menu. Like so many Americans with stressful jobs, the last thing he wanted to think about was eating healthfully. Fast food was easy, cheap, and comfortable. His diet followed him from the squad car to the state senate, and then to Brooklyn Borough Hall, where it finally caught up with him. But Adams was not ready to become a statistic. There was a better option besides medication and shots of insulin: food. Within three months of adopting a plant-based diet, he lost 35 pounds, lowered his cholesterol by 30 points, restored his vision, and reversed his diabetes. Now he is on a mission to revolutionize the health of not just the borough of Brooklyn, but of African Americans across the country. Armed with the hard science and real-life stories of those who have transformed their bodies by changing their diet, Adams shares the key steps for a healthy, active life. With this book, he shows readers how to avoid processed foods, cut down on salt, get more fiber, and substitute beef, chicken, pork, and dairy with delicious plant-based alternatives. In the process he explores the origins of soul food--a cuisine deeply important to the Black community, but also one rooted in the horrors of slavery--and how it can be reimagined with healthy alternatives. Features more than 50 recipes from celebrities and health experts, including Paul McCartney, Queen Afua, Jenné Claiborne, Bryant Jennings, Charity Morgan, Moby, and more! The journey to good health begins in the kitchen--not the hospital bed!

This Cheese is Nuts! Oct 07 2020 The essential primer and guide to preparing delicious, totally vegan, nut-based cheeses, from the coauthor of *The Plantpower Way*. In their debut cookbook, *The Plantpower Way*, Julie Piatt and her ultra-endurance athlete husband, Rich Roll, inspired thousands to embrace a plant-fueled lifestyle, and through their advocacy efforts, podcasts, and talks, countless people are now enjoying healthier and more vibrant lives. In *This Cheese Is Nuts*, Julie is bringing that message to the forefront once more, with a stunning collection of flavorful nut-based cheeses. Julie has always been known for her dairy-free cheeses, and here she shares seventy-five recipes using almonds, cashews, and other nuts to create cheeses anyone can make right at home. Nut-based cheeses are on the cutting edge in the world of vegan cuisine. They're remarkably simple to prepare (all you need are a few simple ingredients and a basic dehydrator), and in as little as twenty minutes, you can have an assortment of tasty fresh cheeses fit for any occasion. Even creating aged cheeses is easy—they require only a day or two in the dehydrator, so making “fancier” cheeses, like Aged Almond Cheddar, is an almost entirely hands-off process. Filled with the essential tips, tools, and mouth-watering recipes home cooks need to immerse themselves in the world of nut-based cheese-making, *This Cheese Is Nuts* will demonstrate why nut cheeses should be part of any healthy, sustainable diet.

Cancer Survivor's Guide Mar 12 2021

Reverse Your Diabetes in 12 Weeks Jul 16 2021 A groundbreaking program to avoid, control, and even reverse diabetes through diet and exercise. The research of Dr. George King, chief scientific officer of Harvard Medical School's Joslin Diabetes Center, is widely recognized in the medical community as the gold standard. In Reverse Your Diabetes in 12 Weeks (previously published in

hardcover as *The Diabetes Reset*), Dr. King transforms the center's cutting-edge research—including the discovery of brown fat and how it enhances the effects of the body's own insulin—into a program of eight proven strategies. Foremost is diet—but the real surprise is that the diet that actually works, a modified “rural Asian diet,” derives 70% of its calories from carbohydrates. Dr. King disentangles the myths and confusion surrounding carbohydrates, fats, protein, and fiber, and shows why not all carbs are bad and why sugar is not the root of all evil. Losing weight is also key, but in a very doable way—significant changes happen with a 5 to 7% reduction of body weight. He emphasizes the importance of exercise—it increases the muscles' glucose-absorbing ability—and gives an easy-to-follow program of aerobic and strength exercises. And he shows why diabetics especially need those seven hours of sleep a night—chronic lack of sleep causes insulin resistance. A twelve-week plan shows how to put all of it into action—to take charge of blood glucose levels and significantly improve your health.

Mastering Diabetes Jun 26 2022 The instant New York Times bestseller. A groundbreaking method to master all types of diabetes by reversing insulin resistance. Current medical wisdom advises that anyone suffering from diabetes or prediabetes should eat a low-carbohydrate, high-fat diet. But in this revolutionary book, Cyrus Khambatta, PhD, and Robby Barbaro, MPH, rely on a century of research to show that advice is misguided. While it may improve short-term blood glucose control, such a diet also increases the long-term risk for chronic diseases like cancer, high blood pressure, high cholesterol, chronic kidney disease, and fatty liver disease. The revolutionary solution is to eat a low-fat plant-based whole-food diet, the most powerful way to reverse insulin resistance in all types of diabetes: type 1, type 1.5, type 2, prediabetes, and gestational diabetes. As the creators of the extraordinary and effective Mastering Diabetes Method, Khambatta and Barbaro lay out a step-by-step plan proven to reverse insulin resistance—the root cause of blood glucose variability—while improving overall health and maximizing life expectancy. Armed with more than 800 scientific references and drawing on more than 36 years of personal experience living with type 1 diabetes themselves, the authors show how to eat large quantities of carbohydrate-rich whole foods like bananas, potatoes, and quinoa while decreasing blood glucose, oral medication, and insulin requirements. They also provide life-changing advice on intermittent fasting and daily exercise and offer tips on eating in tricky situations, such as restaurant meals and family dinners. Perhaps best of all: On the Mastering Diabetes Method, you will never go hungry. With more than 30 delicious, filling, and nutrient-dense recipes and backed by cutting-edge nutritional science, Mastering Diabetes will help you maximize your insulin sensitivity, attain your ideal body weight, improve your digestive health, gain energy, live an active life, and feel the best you've felt in years.

Foods that Fight Pain Nov 19 2021 Like Jean Carper’s national best-seller, Foods Your Miracle Medicine, this vitally important book offers a dramatic new approach -- one that works naturally, effectively, and with the best possible side effects. A wealth of new research from prestigious medical centers around the world shows that food can counteract pain -- even powerful pain. Since no company stands to make lots of money from this news, it has been slow to reach the public, and even

doctors. As Neal Barnard reveals, these foods not only address painful symptoms, but they can fight underlying sources of pain by reducing damage from injury and inflammation, providing analgesia to nerves, and by working within the brain to reduce pain sensitivity. *Foods That Fight Pain* speaks to the needs of the millions of Americans who suffer from cancer, carpal tunnel syndrome, and even aches and pains from fatigue. Neal Barnard provides three major strategies -- choosing pain-safe foods, adding foods that soothe pain, and using food supplements -- which he then tailors to meet the reader's specific needs. The result is a book that draws on nature's own miracle drugs, whose side effects are effortless weight loss and renewed vitality, to restore the pleasures of pain-free living.

Food for Life Aug 29 2022 Citing overwhelming medical evidence previously downplayed by powerful lobby groups, Dr. Barnard reveals why a diet based on the new four food groups (grains, legumes, vegetables, and fruits) will sharply decrease the risk of cancer and heart disease and dramatically increase life expectancy. He also unveils a 21-day program for a smooth transition to the new way of eating healthfully. Line drawings.
