In Histories of Infamy, Cristián Roa-de-la-Carrera explores Francisco López de Gómara's (1511-ca.1559) attempt to ethically reconcile Spain's civilizing mission with the conquistadors' abuse and exploitation of Native peoples. The most widely read account of the

conquest in its time, Gómara's Historia general de las Indias y Conquista de México rationalized the conquistadors' crimes as unavoidable evils in the task of bringing "civilization" to the New World. Through an elaborate defense of Spanish imperialism, Gómara aimed to convince his readers of the merits of the conquest, regardless of the devastation it had wrought upon Spain's new subjects. Despite his efforts, Gómara's apologist text quickly fell into disrepute and became ammunition for Spain's critics. Evaluating the effectiveness of ideologies of colonization, Roa-de-la-Carrera's analysis will appeal to scholars in colonial studies and readers interested in the history of the Americas. Año 338-323 a.C. Varado en la India ante el enemigo, Alejandro y sus tropas no consiguen prosperar en su avance de la conquista asiática. Este decide entonces contar sus recuerdos a uno de sus hombres y dejar así registro escrito para la posteridad. Comienza entonces el relato de su infancia en Macedonia, cuando ya acompañaba a su padre a ver el entrenamiento de sus ejércitos, educado por Aristóteles, cuando más tarde ya se convertiría él mismo en soldado, luchando bajo el mando de su padre que logró devolver el honor a la tierra de Macedonia, convirtiéndose en un guerrero temido y respetado, llamado a superar las hazañas de su padre. Siendo todavía muy joven, su padre es asesinado y él se hace cargo del mandato del reino, demostrando su capacidad de liderazgo y militar, sometiendo a ejércitos más poderosos que el suyo, enfrentándose a reyes y emperadores y extendiendo su conquista a las tierras de Oriente Medio, sometiendo uno a uno a los pueblos de Palestina, Egipto, y pronto empezaría a ser considerado un Dios. En Mesopotamia se enfrenta al primer problema enfrentándose a un ejército superior al suyo, un millón de hombres, pero aún así cayó Babilonia. Alejandro se instaló allí y su ejército empezó a ablandarse, los soldados a convertirse en cortesanos, hasta que comprendió que debía seguir avanzando, hacer lo que mejor sabía: conquistar. A continuación cayó Persépolis, luego en Afganistán tuvo que enfrentar un nuevo enemigo y una manera distinta de hacer la guerra, y tras tres años de campaña terminó comprando la fidelidad de las tribus afganas. Avanzando siempre hacia el Este, hasta la India, y allí sus hombres comprendieron que ya no podían dar más de sí, que el fin del mundo por el Este quedaba muy lejos y le pidieron que detuviera su conquista y regresar a casa. Alejandro se opuso en un principio pero al final comprendió que llevaban razón y ordenó el regreso. Habían pasado ocho años desde que salieran de Macedonia. Durante el regreso Alejandro cae enfermo y muere rodeado de sus hombres. Una entretenida epopeya bélica, con un protagonista que toma el cariz de héroe y casi Dios, y que rinde un retrato completo del guerrero ávido de gloria y del hombre. Originally published: Dallas: Southern Methodist University Press, 2005. Esta obra analiza la presencia del cacao originado en las costas del Guayas (Ecuador) conocido en el

mercado mundial como cacao guayaquil. El estudio se centra en el intercambio comercial con Nueva España y los vericuetos de la prohibición comercial entre colonias. Muestra, por una parte, el carácter imperialista de la corona que gobernó sus posesiones del Nuevo Mundo como colonias más que como reinos en el aspecto económico, aunque una de las primeras cosas que el tráfico del cacao puso en evidencia es que la prohibición de la Corona del siglo XVII no detuvo la exportación de cacao, aunque sí frenó el crecimiento de Guayaquil. Por otra parte, la investigación establece el tráfico naviero, los montos de las cargas de cacao que arribaron a Acapulco y las manifestaciones de los precios en el mercado de la ciudad de México y trata de demostrar que la oferta creciente de cacao guayaquil, ayudó a mantener los precios estables en un contexto general de crecimiento de los precios en la segunda parte del siglo XVIII. The spread of Islam and the process of Islamisation (meaning both conversion to Islam and the adoption of Muslim culture) is explored in the twenty-four chapters of this volume. Taking a comparative perspective, both the historical trajectory of Islamisation and the methodological problems in its study are addressed, with coverage moving from Africa to China and from the seventh century to the start of the colonial period in 1800. Key questions are addressed. What is meant by Islamisation? How far was the spread of Islam as a religion bound up with the spread of Muslim culture? To what extent are Islamisation and conversion parallel processes? How is Islamisation connected to Arabisation? What role do vernacular Muslim languages play in the promotion of Muslim culture? The broad, comparative perspective allows readers to develop a thorough understanding of the process of Islamisation over eleven centuries of its history. Since its original publication in 1949, Irving A. Leonard's pioneering Books of the Brave has endured as the classic account of the introduction of literary culture to Spain's New World. Leonard's study documents the works of fiction that accompanied and followed the conquistadores to the Americas and goes on to argue that popular texts influenced these men and shaped the way they thought and wrote about their New World experiences. For the first time in English, this edition combines Leonard's text with a selection of the documents that were his most valuable sources--nine lists of books destined for the Indies. Containing a wealth of information that is sure to spark future study, these lists provide the documentary evidence for what is perhaps Leonard's greatest contribution: his demonstration that royal and inquisitorial prohibitions failed to control the circulation of books and ideas in colonial Spanish America. Rolena Adorno's introduction signals the lasting value of Books of the Brave and brings the reader up to date on developments in cultural-historical studies that have shed light on the role of books in Spanish American colonial culture. Adorno situates Leonard's work at the threshold between older, triumphalist views of Spanish conquest history and more recent

perspectives engendered by studies of native American peoples. With its rich descriptions of the book trade in both Spain and America, Books of the Brave has much to offer historians as well as literary critics. Indeed, it is a highly readable and engaging book for anyone interested in the cultural life of the New World. Since its original publication in 1949, Irving A. Phenomena such as the Covid-19 pandemic, climate change, or the surge of political populism show that the current phase of accelerated globalization is over. New concepts are needed in order to respond to this exhaustion of the global project: the volume scrutinizes these responses in the aesthetic realm and under a "post-global" banner, while incorporating alternative, non-Western epistemologies and literatures of the post-colonial Global South. Stuart Stirling tells the history of the Inca princesses and of their conquistador lovers and descendants. The detailed human stories of the princesses bring to life the world of the Incas and their conquerors and shed new light on the darker corners of colonial history.
