Wellington will help you avoid common travel clichés that make admissions officers groan. • The color yellow? Wellington will make sure you sound quirky and creative in the right way. Wellington's tutees have gained acceptance to Harvard, Yale, Princeton, MIT, Georgetown, Duke, and other elite institutions, and with this book at your side, you can join their ranks. Writing, for most of us, is bound up with anxiety. It's even worse when it feels like your whole future—or at least where you'll spend the next four years in college—is on the line. It's easy to understand why so many high school seniors put off working on their applications until the last minute or end up with a generic and clichéd essay. The good news? You already have the "secret sauce" for crafting a compelling personal essay: your own experiences and your unique voice. The best essays rarely catalog how students have succeeded or achieved. Good writing shows the reader how you've struggled and describes mistakes you've made. Excellent essays express what you're fired up about, illustrate how you think, and illuminate the ways you've grown. More than twenty million students apply to college every year; many of them look similar in terms of test scores, grades, courses taken, extracurricular activities. Admissions officers wade through piles of files. As an applicant, you need to think about what will interest an exhausted reader. What can you write that will make her argue to admit you instead of the thousands of other applicants? A good essay will be conversational and rich in vivid details, and it could only be written by one person—you. This book will help you figure out how to find

and present the best in yourself. You ' ll acquire some useful tools for writing well—and may even have fun—in the process. Writing a high-stakes essay about yourself can be daunting. Even if you have a story in mind, how do you present yourself effectively to a college admissions committee, let alone in a 650 word essay? What are the essential ingredients of a successful college essay? One approach is to think of a college essay as a bullseye. The smallest circle of a bullseye is comprised of your story. Accompanying your story is the the outer circle, which represents insights, realizations, and reflections that flow from your story. The widest circle of the bullseye ties the details of the story together and comes in the final paragraph. This guide, written by Harvard and UC Berkeley alumni, discusses these components in-depth, and much more, to help you craft a story that reflects who you are in the best light possible. The concepts in this guide are driven home through an in-depth analysis of five model essays. Think of these model essays as toolboxes. By picking and choosing which approaches work best for your essay, you'll leave ready to craft your winning essay. More and more universities and colleges are looking beyond grade point averages and standardized test scores to choose their incoming freshman. What criteria do these institutions of higher education use as their litmus test--the college application essay. But will your average high school essay do the job? When competing against thousands of qualified candidates a college applicant needs more than an introduction, three paragraphs, and a conclusion in their writer's tool belt: they need the skills to stand out from the crowd. "Is It Easy Being Green?": Writing the NEW College Application Essay offers every applicant the skills needed to write a powerful and successful application essay. Using real-life examples and testimonials "Is It Easy Being Green?" moves away from a strictly academic point of view, and uses creative writing techniques-memoir/personal essay genre in particular-to teach students how to write engaging and effective application essays. Centering on a narrative and lyrical balance, "Is It Easy Being Green?" is written in an approachable and easy-to-understand style. There's no end to the advice you can get when you're writing your college application essay. Yet students fall into the same trap over and over. Every year, college admissions officers are forced to slog through the same formulaic essays written on the same stale topics. In this book, you'll learn about the most common mistakes students make when writing their college application essays. You'll learn about topics and writing styles that seem alluring, or even expected, but will actually hurt your chances of acceptance. You'll learn how to use your essay to convey who you really are as a person. You'll learn how to set yourself apart in the eyes of college admission officers and show them why you belong at their school. Like most traps, the College Essay Trap is easy to avoid. You just have to know what to look for."A remarkably useful short book to read and keep handy. The College Essay Trap offers as nifty and insightful a set of advice as I've come across. As someone who has read tens of thousands of such essays over the years, I found my self nodding in strong agreement with each "trap" [Nichols] describes and how best to avoid it." - Fred Hargadon, Former Dean of Admissions at Princeton, Stanford and Swarthmore. "A

For all the anxiety that surrounds the college admissions process, one part of the application lies completely within a student's control: the essay. This may sound simple but it means unlearning many of the principles taught in high school writing courses, avoiding the traps of mimicking sample essays and writing what you think admissions officers want to hear, and above all being willing to reveal your flaws as well as your strengths on the page. It also means mastering key mechanical issues that can undermine even the most thoughtful pieces of student writing. Toor offers her advice in a lively, humorous, and engaging tone, with stories of real students and their writing struggles and successes scattered throughout.
