curriculum document \* gives clear, illustrated instructions for Physical Education and Creative Arts activities. It also has an innovative Teacher's Guide with CD-ROM.

Academic Literacy Development May 22 2022 This edited book brings together an international cast of contributors to examine how academic literacy is learned and mastered in different tertiary education settings around the world. Bringing to the fore the value of qualitative enquiry through ethnographic methods, the authors illustrate in-depth descriptions of genre knowledge and academic literacy development in first and second language writing. All of the data presented in the chapters are original, as well as innovative in the field in terms of content and scope, and thought-provoking regarding theoretical, methodological and educational approaches. The contributions are also representative of both novice and advanced academic writing experiences, providing further insights into different stages of academic literacy development throughout the career-span of a researcher. Set against the backdrop of internationalisation trends in Higher Education and the pressure on multilingual academics to publish their research outcomes in English, this volume will be of use to academics and practitioners interested in the fields of Languages for Academic Purposes, Applied Linguistics, Literacy Skills, Genre Analysis and Acquisition and Language Education.

*Hamlet Study Guide* Dec 05 2020 This series features classic Shakespeare retold with graphic color illustrations. Educators using the Dale-Chall vocabulary system adapted each title. Each 64-page, book retains key phrases and quotations from the original play. Research shows that the more students read, the better their vocabulary, their ability to read, and their knowledge of the world. Containing 11 reproducible exercise to maximize vocabulary development and comprehension skills, these guides include pre-and post-reading activities, story synopses, key vocabulary, and answer key. The guides are digital, you simply print the activities you need for each lesson.

*Afrikaans Ons Taal* Dec 25 2019 This series is designed for all native speakers of Afrikaans. It builds on the practice material of the original series, linking the experience of the pupil with interactive material containing stimulating visual tasks.

Rurality and Education Mar 08 2021 This book broadens the scope of the subject of rural education and enlivens the

ways in which the subject may be studied. Through textual and visual analysis of a range of sources – including young adult novels, the farming simulation game ‘Hay Day’ and reality television programs – the contributors investigate how the lives of young people in rural spaces are mediated by a range of social locations including class, ethnicity and sexuality. Additionally, through rich and detailed ethnographic work, the book explores the complicated and multifaceted meanings of rural places and examines how these meanings shape experiences of schooling for teachers and students. In doing so, the book embeds the study of rural education in explorations of patrilineal inheritance on family farms, international migration, globalisation and economic restructuring. It aims to start a conversation about the robust and complex ways in which the confluence between ‘rural’ and ‘education’ may be imagined, experienced and researched. This book was originally published as a special issue of *Discourse: Studies in the Cultural Politics of Education*.

**Learning for Success : Skills and Strategies for Canadian Students** Mar 20 2022 This book presents a comprehensive, systematic approach to the development of learning strategies.

*Examining the Phenomenon of “Teaching Out-of-field”* Dec 29 2022 This book identifies and surveys the major themes around ‘out-of-field teaching’, that is, teaching subjects or year levels without a specialization. This has been an issue in many countries for some time, yet until recently there has been little formal research and poor policy responses to related problems. This book arises out of collaborations between members of an international group of researchers and practitioners from Australia, Germany, Ireland, England, South Africa, Indonesia and the United States. Cross-national comparisons of ideas through case studies, descriptions of practice and research data interrogates the experiences, practices, and contexts relating to out-of-field teaching. In particular, the book considers the phenomenon of out-of-field teaching in relation to national policy contexts, local school leadership practices, professional development. The book represents an essential contribution on a highly topical issue that has implications for quality and equitable education around the globe.

**Life Sciences, Grade 12** Jul 24 2022

FCS Roads L2 Apr 20 2022

**Leonardo Pisano (Fibonacci)** Sep 25 2022 The Book of Squares by Fibonacci is a gem in the mathematical literature and one of the most important mathematical treatises written in the Middle Ages. It is a collection of theorems on indeterminate analysis and equations of second degree which yield, among other results, a solution to a problem proposed by Master John of Palermo to Leonardo at the Court of Frederick II. The book was dedicated and presented to the Emperor at Pisa in 1225. Dating back to the 13th century the book exhibits the early and continued fascination of men with our number system and the relationship among numbers with special properties such as prime numbers, squares, and odd numbers. The faithful translation into modern English and the commentary by the translator make this book accessible to professional mathematicians and amateurs who have always been intrigued by the lure of our number system.

**Life Skills and Assets** Apr 28 2020 As psychologists we have come to realise that the initial approach that we choose in our interventions takes us down a certain path.
