Features: A new chapter on crafting international CVs Sample CVs, including scannable and international Extensive appendix material with a comprehensive list of action verbs and a bibliography of style books and manuals "Paul VI's genius proved prophetic: he had the courage to stand against the majority, to defend moral discipline, to exercise a 'brake' on the culture, to oppose present and future neo-Malthusianism." — Pope Francis "Of all the paradoxical fallout from the Pill, perhaps the least understood today is this: the most unfashionable, unwanted, and ubiquitously deplored moral teaching on earth is also the most thoroughly vindicated by the accumulation of secular, empirical, post-revolutionary fact. The document in question is of course, *Humanae vitae*." — Mary Eberstadt, Author, *Adam and Eve after the Pill* After half a century, how has the teaching of Pope Paul VI on marriage and birth control, presented in his encyclical *Humanae vitae* (*On Human Life*), held up? Very well, says philosopher Janet Smith and her colleagues in *Why Humanae Vitae Is Still Right*. A sequel to Smith's classic *Why Humanae Vitae Was Right*, this new volume shows how the ethical, theological, spiritual, and sociological case for Paul VI's controversial document remains strong—indeed, how it's in some ways even stronger today, following Pope John Paul II's *Theology of the Body* and in light of the problems caused by the sexual revolution. In addition to essays by Dr. Smith herself, the book features contributions by other renowned experts and scholars such as Mary Eberstadt (author of the best-selling *Adam and Eve after the Pill*), George Weigel, Therese Scarpelli Corey, Michael Waldstein, Christopher West, Obianuju Ekeocha (author of the best-selling *Target Africa*), Maria Fedoryka, Deborah Savage, Derek Doroski, Angela LaFranchi, William Newton, Joseph Atkinson, Michele M. Schumacher, and Peter Colosi. *Why Humanae Vitae Is Still Right* includes the Krakow Document composed under the supervision of Cardinal Karol Wojtyla (later, Pope John Paul II), which provided research by moral theologians and other experts that helped to shape *Humanae vitae* to be a more personalistic document. With over 40 sample resumes and cover letters, *The Physicians Resume and Cover Letter Workbook* serves as a valuable resource for any medical student, resident, or established physician who needs to compile a curriculum vitae. It contains carefully chosen examples for making a high-impact impression in a variety of

Despite the flood of self-help guides and our current therapeutic culture, feelings of alienation and spiritual longing continue to grip modern society. In this book, Elisabeth Lasch-Quinn offers a fresh solution: a return to classic philosophy and the cultivation of an inner life. The ancient Roman philosopher Cicero wrote that philosophy is *ars vitae*, the art of living. Today, signs of stress and duress point to a full-fledged crisis for individuals and communities while current modes of making sense of our lives prove inadequate. Yet, in this time of alienation and spiritual longing, we can glimpse signs of a renewed interest in ancient approaches to the art of living. In this ambitious and timely book, Elisabeth Lasch-Quinn engages both general readers and scholars on the topic of well-being. She examines the reappearance of ancient philosophical thought in contemporary American culture, probing whether new stirrings of Gnosticism, Stoicism, Epicureanism, Cynicism, and Platonism present a true alternative to our current therapeutic culture of self-help and consumerism, which elevates the self's needs and desires yet fails to deliver on its promises of happiness and healing. Do the ancient philosophies represent a counter-tradition to today's culture, auguring a new cultural vibrancy, or do they merely solidify a modern way of life that has little use for inwardness—the cultivation of an inner life—stemming from those older traditions? Tracing the contours of this cultural resurgence and exploring a range of sources, from scholarship to self-help manuals, films, and other artifacts of popular culture, this book sees the different schools as organically interrelated and asks whether, taken together, they can point us in important new directions. *Ars Vitae* sounds a clarion call to take back philosophy as part of our everyday lives. It proposes a way to do so, sifting through the ruins of long-forgotten and recent history alike for any shards helpful in piecing together the coherence of a moral framework that allows us ways to move forward toward the life we want and need.

Ethyl alcohol, or ethanol, is one of the most ubiquitous chemical compounds in the history of the chemical sciences. The generation of alcohol via fermentation is also one of the oldest forms of chemical technology, with the production of fermented beverages such as mead, beer and wine predating the smelting of metals. By the 12th century, the ability to isolate alcohol from wine had moved this chemical species from a simple component of alcoholic beverages to both a new medicine and a powerful new solvent. Of course, this also began the long tradition of production of liqueurs and strong spirits for consumption. The use of alcohol as a fuel, however, did not occur until significantly later periods. This

volume presents a general overview of the early history and chemistry of alcohol production and isolation, as well as a discussion of its early uses in both the chemical arts and medicine. Janet E. Smith presents a comprehensive review of this issue from a philosophical and theological perspective. Tracing the emergence of the debate from the mid-1960s and reviewing the documents from the Special Papal Commission established to advise Pope Paul VI, Smith also examines the Catholic Church's position on marriage, which provides context for its condemnation of contraception. Janet E. Smith has been among the world's preeminent voices in the study of the issues raised by Pope Paul VI's 1968 encyclical letter *Humanae vitae*. *Self-Gift: Essays on Humanae Vitae and the Thought of John Paul II* presents Smith's critical collection of essays on the vocation of marriage, human sexuality, contraception, and more. Her groundbreaking scholarship touches on all the areas implicated in *Humanae vitae*: from natural family planning to parenthood and natural law to personalism. This collection not only includes Smith's English translation of the encyclical from the original Latin text, but also helpful background on the development and release of this authoritative magisterial document. With a particular emphasis on the personalist and Thomistic philosophy of Pope St. John Paul II and how it illuminates the two-millennia tradition of Catholic teaching on human sexuality, *Self-Gift* delivers crucial insight into the Creator's plan for human sexuality and our full flourishing in Christ. First printed edition, with facsimile and studies, of a significant manuscript from medieval England. "In this student edition, we have gone back through the 4th edition of *Brilliant CV* and have rewritten, amended and focused the chapters to make them directly relevant to students"--Introduction. The definitive career guide for grad students, adjuncts, post-docs and anyone else eager to get tenure or turn their Ph.D. into their ideal job Each year tens of thousands of students will, after years of hard work and enormous amounts of money, earn their Ph.D. And each year only a small percentage of them will land a job that justifies and rewards their investment. They know what really moves the needle in academic job searches, how to avoid the all-too-common mistakes that sink so many of their peers, and how to decide when to point their Ph.D. toward other, non-academic options. Karen Kelsky has made it her mission to help readers join the select few who get the most out of their Ph.D. As a former tenured professor and department head who oversaw numerous academic job searches, she knows from experience exactly what gets an academic applicant a job. Gasché expounds on Aristotle, Heidegger, and Arendt in "a major interpretative

achievement that underscores what is at stake in political thought” (Notre Dame Philosophical Reviews). As one of the most respected voices of Continental philosophy today, Rodolphe Gasché pulls together Aristotle’s conception of rhetoric, Martin Heidegger’s debate with theory, and Hannah Arendt’s conception of judgment in a single work on the centrality of these themes as fundamental to human flourishing in public and political life. Gasché’s readings address the distinctively human space of the public square and the actions that occur there, and his valorization of persuasion, reflection, and judgment reveals new insight into how the philosophical tradition distinguishes thinking from other faculties of the human mind. “Here Rodolphe Gasché is at his best: rigorous, scholarly, creative, forceful, laser focused on the issues at stake, learned, thoughtful, and original. He demands much of his readers, but reading his work is rewarding in ways that can be profoundly affecting.” —Dennis J. Schmidt, author of *Between Word and Image* “Rodolphe Gasché has long been one of the most meticulous readers of texts on the philosophical scene and here he once again offers a master class in how to do philosophy through interpretation.” —Robert Bernasconi, author of *How to Read Sartre*
