Are you inspired by mixed-media art but don't know where to start? *Adventures in Mixed Media Art* is the ultimate guidebook for embarking on your own creative adventure! Featuring 20 favorite mixed-media projects from the bestselling *North Light* backlist, this "best of the best" collection will motivate any would-be artist to start creating! Beginning with motivational readings, you will discover and learn to refine your creative energy by discovering what inspires you. Then you are ready to create your very own art journal using guided mixed-media techniques, including hand lettering and basic painting and collage techniques. When you're ready to create and refine your signature style, you'll start creating canvas paintings, collages and assemblage pieces based on projects from popular mixed-media artists like Dina Wakley, Mary Beth Shaw, and more. Even if your project doesn't turn out as planned, the book includes helpful tips and techniques for repurposing those pieces into a new work of art you can proudly display. The book also includes collaborative projects so you can encourage others to start their own *Adventures in Mixed Media*! In this text a mother and baby look through a window at a wilderness. With each page the boy grows and the scene changes, by the time he is 20 the view is of a city. He gets married and has a child and moves to the country, where father and child look through the window at the wilderness outside. Collage allows your creativity to run riot. It lets you juxtapose disparate elements, styles and media against each other and create something entirely novel, bizarre, arresting, beautiful, ironic or unsettling. Old and new can be fused together; digital and handproduced can be combined. What you can create with collage knows no bounds. Expertly curated with an eye to the fresh, the exciting collection of new collage ideas will inspire collage artists at every level, from those dipping a toe in the art form to experts. *Altered! Art Projects* is a must-have collection of altered art featuring unique and trendy ideas. The term "altered art" conjures up different visions and ideas for every individual. Artists seem to be especially adept at finding their own characteristic meaning for anything they choose to give this name. Altered art is something that has changed from the original concept, creating something new and different. Projects featured in this book include birdhouses, shadowboxes, framed collages, scrapbook pages and much more. A simple canvas or photo can undergo complete metamorphosis, just like a caterpillar becoming a butterfly. Transition using distress, texture, collage, and embellishments; enclose in a frame or shadowbox and you have created altered art! It is no longer a simple canvas or photo, but your own unique creation. The piece has not only changed, but also become more meaningful—this is an artist's gift. 55 playful experiments that encourage tinkering, curiosity, and creative thinking—hands-on activities that explore art, science, and more. For children of all ages, from toddlers to teenagers! The creator of the highly popular creativity site for kids, *Tinkerlab.com*, now delivers dozens of engaging, kid-tested, and easy-to-implement projects that will help parents and teachers bring out the natural tinkerer in every kid—even babies, toddlers, and preschoolers. The creative experiments shared in this book foster curiosity, promote creative and critical thinking, and encourage tinkering—mindsets that are important to children growing up in a world that values independent thinking. In addition to offering a host of activities that parents and teachers can put to use right away, this book also includes a buffet of recipes (magic potions, different kinds of play dough, silly putty, and homemade butter) and a detailed list of materials to include in the art pantry. Sometimes art can seem intimidating to kids—but collage, with its layering of already-existing images and materials, feels like something they can master. With this exciting new entry in *Lark's My Very Favorite Art Book* series, readers aged five and up will have a blast learning basic techniques and producing fabulous finished pieces. Young artists will get creative as they cut out facial features from magazines and rearrange them in whimsical portraits; weave strips of paper together to form interesting visual patterns; and design a cityscape from geometric shapes. They can even make personalized greeting cards for friends and family. Each finished project is showcased in a full-page photo or illustration—and because the text is kept to a minimum, even pre-readers can follow along. How to create collage artwork by repurposing keepsakes, leftover craft projects, cutouts from magazines, and all sorts of readily available materials. Keesia and Henri Matisse have the same birthday—New Year's Eve! That's why she picks him for her artist report. She finds out that over his long career Matisse made paintings, sculpture, books, costumes, and her favorite—his cut-outs, or what Matisse called "drawing with scissors." The report is filled with about 20 of Matisse's masterpieces as well as artwork that Keesia has created in his "style" (cut-out leaves, drawings through windows, fauvist animals). As she follows Matisse through his life she discovers why he is considered one of the greatest artists of the twentieth century. Requiring nothing more than paper, pen, scissors, and glue, collage is a highly accessible craft that offers a myriad of possibilities for creative self-expression and visual journaling. Artist and teacher Melanie Mowinski combines in-depth technique instructions with dozens of inspiring examples and prompts to assist crafters, artists, and creatives of all levels in developing their own personal style of using collage to create distinctive memory books, journals, and records of daily life experiences. Take this book and...remake it! Introducing the first guide that not only teaches kids the basics of altered art, but is the very material for creating those personal pieces. That's because this volume, along with dozens of others, is an art project just waiting to happen. With irreverent text and beautiful photography—and techniques such as stitching, image transferring, and cutting—*Alter This!* shows children how to turn telephone, picture, and even those boring grammar books into something exciting. Budding artists will decorate pages with collage, paint, stamps, pockets, and pop ups, and transform entire tomes into shadow boxes, picture frames, purses, or tools for passing notes in the hallway. Kids will want to own this book...and make it their own, too! *Gaps and the Creation of Ideas: An Artist's Book* is a portrait of the space between things, whether they be neurons, quotations, comic-book frames, or fragments in a collage. This twenty-year project is an artist's book that juxtaposes quotations and images from hundreds of artists and writers with the author's own thoughts. Using Adobe InDesign® for composition and layout, the author has structured the book to show analogies among disparate texts and images. There have always been gaps, but a focus on the space between things is virtually synonymous with modernity. Often characterized as a break, modernity is a story of gaps. Around 1900, many independent strands of gap thought and experience interacted and interwove more intricately. Atoms, textiles, theories, women, Jews, collage, poetry, patchwork, and music figure prominently in these strands. The gap is a ubiquitous phenomenon that crosses the boundaries of neuroscience, rabbinic thinking, modern literary criticism, art, popular culture, and the structure of matter. This book explores many subjects, but it is ultimately a work of art. This is where painting meets collage! You can create beautiful art with amazing depth and texture, using easy collage techniques and paper you paint yourself. Popular workshop instructor Elizabeth St. Hilaire makes it fun and simple no matter what your skill level! Start with materials you probably already have—fluid acrylics, stencils, a few household items and paper—and hand-paint your personalized paper palette using basic techniques anyone can do. Then move through

each step of composing your own work of art. You'll find beautiful, meaningful examples of the how and why on every page. You'll learn how to: develop your composition, how to work with simple shapes, important lessons on value and much more.

- More than 30 techniques for painting your own decorative papers
- Step-by-step instructions for creating your own painted paper collage—from underpainting and directional ripping and tearing to auditioning your papers and combining collage with mixed media
- A spectacular gallery of paper paintings to inspire and dazzle—still lifes, figures, animals and landscapes

Carle is one of the most beloved illustrators of children's books. This retrospective is more than just an appreciation of his art, however. The book also contains an insightful autobiography illustrated with personal photographs, an anecdotal essay by his longtime editor, a photographic essay on how Carle creates his collages, and writings by Carle and his colleagues. Still, it is the artwork in the oversize volume that seizes the imagination. More than 60 of his full-color collage pictures are handsomely reproduced and serve as a statement of Carle's impressive talent.

With Paper Collage Workshop, you can experience the joy of creativity as you use color swatches torn from magazines to transform photos into original collages. In addition to taking you through both foundational collage activities and intermediate-level projects, this book introduces you to a unique analog-grid system, a color-based collage technique developed by the artist Samuel Price over the past 20 years. Whatever your age or skill level, you will be able to add focus and precision to your creations and turn life into art. Organized by level of difficulty, the book is designed to progressively build skills as you complete projects. Beginning with color-based lessons, you will learn how to use form and line, and then move on to create landscapes, abstracts, and pets. You will delight in completing beautiful projects you can frame and display in your own home. Color collage is a mindfulness practice. Like a coloring book, Paper Collage Workshop is a personal meditative experience that quiets and focuses the mind—a great way to experience some true peace as you create. Whether practiced and exercised in tiny doses or taken all at once, the process of making art is truly transformative and relaxing with Paper Collage Workshop. Mixed media in all its forms—not just traditional two-dimensional, paper-based collage but three-dimensional pieces that include fiber, fabric, a variety of embellishments, found objects, and even repurposed and recycled materials—offers artists an opportunity to move freely across the boundaries of art, craft, painting, quilting, and collage. In Adventures in Mixed Media, Jane Davies shows you how to use this art form to enrich your creative expression. In lessons that inspire creativity, Jane demonstrates a variety of techniques using paper, fabric, embellishments such as beads, feathers, and ribbons, fusible and nonfusible fibers, and even foamcore. Books, bags, mini-quilts, personal shrines, and paper dolls are just some of the projects inside—and of course Jane emphasizes ways to incorporate photos and other personal memorabilia and details into your art. Whether you are a beginner and want to start with techniques like "scribble painting" or "basic collage," or an expert collage artist eager to learn new uses for familiar materials, this is the book to guide your creative explorations in collage and mixed media. Art Workshop for Children is not just another book of straightforward art projects. The book's unique child-led approach provides a framework for cultivating creative thinking and encourages the wonder that comes when children are allowed to freely explore the creative process and their materials. As children work through these open-ended workshops, adults are guided on how to be facilitators who provide questions, encourage deep thinking, and help spark an excitement for discovery. Children explore basic materials and workshops that use minimal supplies, and then gradually add new materials to fill the art cabinets as well as new skills and more complex workshops. Most workshops are suitable to preschool-aged children, and each contains ideas for explorations and new twists to engage older or more experienced artists. Interspersed throughout are sidebar essays that introduce perspectives on mess-making, imperfection, the role of adult, collaborative art, and thoughts on the Reggio Emilia method, a self-guided teaching philosophy. These pieces underscore the value of art-making with children, and support the parent/teacher/care-giver on how to successfully lead, question, and navigate their children through the workshops to result in the fullest experiences. If you want to discover the fun of collage then this fabulous book is the perfect kit.
