Brilliant scientists have always existed ahead of their time. Just give them the necessary resources, and they create miracles. On the colonized world of Mars, Dr. Anō, her assistant Chio, and their friend Ganok existed as gods, joined as one in a technological union with the supercomputer Margot. They formed a trio of immortal Demon Kings who determined the fate of all life on that planet. But long ago, they lived as normal humans on Earth. They went to school together and bonded through shared hardships. They even experienced love. All the while, the powers-that-be kept a nervous eye on Anō's dangerous research. If left unchecked, her research could destroy human civilization. This is their story. These are the stories of what happened during the 1,000 years of Kaname's slumber and the start of his human life. Neither the vampire aristocrats nor the vampire hunters approve of Yuki and Zero's relationship. Zero must face opposition from the Hunter Society while also becoming the target of a vampire assassin. Meanwhile, Aido and Yori grow closer as a couple. -- VIZ Media Old photographs depicting early life in Marion, Kansas. About 200 photos generated by residents and those who are from Marion, Kansas. Excerpt from Oxford Memories, Vol. 1 of 2: A Retrospect After Fifty Years The greater part of my Reminiscences have appeared in "London Society" (some of them at an interval of years), but they may claim to be presented in a more lasting form, with numerous additions which from time to time have recurred to my mind. If I speak of things before the present race of Oxonians were either born or thought of, human nature ever is the same. Aristotle in Greece and Horace in Rome, three centuries later, painted youth true to its characteristics in the present day. Men still commit "the oldest sins," though "in the newest kind of ways," and the "years of discretion" still arrive, the said discretion lagging painfully behind. I write of a season when the animal is fighting hard against the moral, and when as to the intellectual it is a light of a very flickering kind. Yuki Cross has no memory of her past prior to the moment she was saved from a vampire attack ten years ago. She was adopted by the headmaster of Cross Academy, and now works alongside Zero to guard the Academy's secret. Yuki believes that vampires and humans can coexist peacefully, but her partner has different ideas... -- VIZ Media Despite the ease with which scholars have used the term "memory" in recent decades, its definition remains enigmatic. Does cultural memory rely on the

memories of individuals, or does it take shape beyond the borders of the individual mind? Cultural memory has garnered particular attention within Irish studies. With its trauma-filled history and sizable global diaspora, Ireland presents an ideal subject for work in this vein. What do stereotypes of Irish memory—as extensive, unforgiving, begrudging, but also blank on particular, usually traumatic, subjects—reveal about the ways in which cultural remembrance works in contemporary Irish culture and in Irish diasporic culture? How do icons of Irishness—from the harp to the cottage, from the Celtic cross to a figure like James Joyce—function in cultural memory? This collection seeks to address these questions as it maps a landscape of cultural memory in Ireland through theoretical, historical, literary, and cultural explorations by top scholars in the field of Irish studies. In a series that will ultimately include four volumes, the sixteen essays in this first volume explore remembrance and forgetting throughout history, from early modern Ireland to contemporary multicultural Ireland. Among the many subjects addressed, Guy Beiner disentangles "collective" from "folk" memory in "Remembering and Forgetting the Irish Rebellion of 1798," and Anne Dolan looks at local memory of the Civil War in "Embodying the Memory of War and Civil War." The volume concludes with Alan Titley's "The Great Forgetting," a compelling argument for viewing modern Irish culture as an artifact of the Europeanization of Ireland and for bringing into focus the urgent need for further, wide-ranging Irish-language scholarship. The latest series from the author of fan favorite Devil's Honey. Tsuda likes Nakano and Nakano likes Tsuda, but somehow the two keep missing each other at the pass. But what happens when he finally does? Includes the end of Tsuda and Nakano's story as well as a short story about a fateful meeting for Saeki, the "eternal teenager." The latest series from the author of fan favorite Devil's Honey. Although they were best friends in high school, Nakano and Tsuda haven't talked in ten years. Which may have a little something to do with the fact that not only were they more than best friends, but also that Tsuda broke Nakano's heart, leaving him to pick up the pieces. Now that they've been thrown back together thanks to a work project, Nakano is determined to put the past behind him, and both men decide to keep their relationship strictly professional. The question is, can they? Excerpt from Men and Memories, Vol. 1: Personal Reminiscences Until my work is done, I cannot die, And then, I would not live. His work had been of almost inconceivable magnitude during the forty-two years of literary life; and remembering how fixed was his faith in the appointed time, one must believe that the rest was better than further labor - that his genius is still a living force - and quoting his beloved Carlyle, that, this long-continued prayer and endeavor may now and for some time coming, have something to say to men. F the making of many books there is at present no end; any more than there was in the days of the Preacher. If I am now adding to their number, it is not so much for the purpose of recounting all that I saw and did during the forty-five years of my diplomatic life, as of endeavouring to throw fresh light on some of the great political events with which I have been either directly or indirectly associated. From the point of View of political work Sofia and Petrograd were my two most important posts, and, though I have given sketches of my earlier ones, it is with Bulgaria and Russia that the major part of this book is concerned. During my five years' mission to the former I assisted at the declaration of Bulgarian independence and the subsequent recognition of Prince Ferdinand as King. At the latter, where I spent rather more than seven years, I witnessed the outbreak of the Great War, the overthrow of the Empire, the rise and fall of the Provisional Government, and the Bolshevik Revolution.

Although Ren is not as strong as her pureblood sister, she finds she has her own gluttonous thirst for blood... -- VIZ Media Excerpt from *Old World Memories*, Vol. 1 of 2

Before the Old World swam into our ken we had been impressed by this thought in Hawthorne's *Our Old Home*, and since then have remained the more convinced of its truthful insight. I believe that the chief delight and advantage of this kind of literature is not for any real information that it supplies to untravelled people, but for reviewing the recollections and reawakening the emotions of persons already acquainted with the scenes described. States of mind produced by interesting and remarkable truthfully and vividly recorded, may work a genuine effect, and go farther towards representing the actual scene than any direct effort to paint it.

Excerpt from Old World Memories, Vol. 1 of 2 Those fortunate souls who live among the scenes and traditions of great deeds do not always realize their blessings, but if so the loss is their own. Though our own land is still young, she is old enough to have made noble history; and the vicinity of Boston, New York, and Philadelphia, and of the nation's capital, are historic shrines to the true American. The highest education is derived through the study of literature; and there is no method of teaching geography like the historic method; while present manners and customs, both at home and abroad, find their best interpretation through the life that lies behind them. The day is past when people who lay claim to ordinary intelligence can betray unchallenged their estimate of outland folk in the spirit of the sailor-captain in the South Seas, who contented himself by reporting officially of the natives, "Manners, none - customs, beastly." The following notes of a summer vacation are meant to appeal to the historic sense, for this, in its broad interpretation, is what magnetizes most of us who have a purpose in going to Europe, unless the fine arts be our lodestone, - and art makes history, or records it.
