***There are three main types of essay questions that are included in the IELTS writing exam. It is important to learn how to structure each of these types. Each of these will be described more fully in the sections that follow. Briefly, they are an opinion essay, where you are asked to give your own personal opinion on a topic; a both sides and opinion essay, where you are required to discuss both sides of an argument and then give your own personal opinion on the topic; and a two question essay, which involves responding to two different questions. This book takes to heart Matthew 13:52: "Therefore every scribe who has been trained for the kingdom of heaven is like the master of the household who brings out of his treasure what is new and what is old." Although Stoicism dates back to Greek and Roman times, its influences have never waned. This philosophy has underpinned the way of life of individuals and groups for hundreds of years. Twelve Step programs such as Alcoholics Anonymous and Al-Anon have successfully incorporated its key ideas to help many thousands of people. I have been sober for 29 continuous years after drinking for 25 years and can attest to the effectiveness of Twelve Step programs. Stoic principles are used in Cognitive Behaviour Therapy and Rational Emotive Behaviour Therapy. This book also examines a cross section of people who have utilized Stoic principles in their lives of service to others. Stoicism has proven to be a reliable scaffold for people determined to make a difference in their community, sometimes against formidable opposition. I believe this book will help to inspire a wide range of people to navigate their way through life, stoically. Cameroon is rich in petroleum, minerals, tropical forests, wildlife, water systems, fertile lands, and much more. Paradoxically however, most citizens live in abject poverty and without jobs, potable water, electricity, good healthcare and roads. This book is a thoughtful interrogation of some of the structural factors driving persistent poverty in***

***Cameroon in the midst of natural resource abundance. It engages in a multidimensional critical analysis of the impact of natural resources on basic development indicators and concludes that good resource governance and sound management are the missing link. Natural resources alone will not create socio-economic prosperity void of good management with a clear development vision and strategy in Cameroon. The book assembles a wide diversity of analysis, views, perspectives and recommendations from economists, development experts, social and political scientists, on Cameroon's current development inertia. What emerges in the end is a coherent interdisciplinary analysis of the natural resource-development paradox as it plays out in an African setting. Theories and good practices from Africa and beyond are systematically applied to identify and critique present policy and management approaches while providing alternative options that can unlock Cameroon's natural resource wealth for national prosperity. Forming the 9th volume from this successful international conference series, this book marks a growing global interest in the planning, design and management of river basin systems. The included papers take in to account all aspects of Hydrology, Ecology, Environmental Management, Flood Plains and Wetlands. In recent years, work on river restoration and rehabilitation has had various degrees of success. Changes in the landscape, use of the land and climate conditions lead to a continuous reevaluation of river basin management objectives requiring the development of better measuring tools in conjunction with accurate computer technology. Floods and associated landslides, erosion and sedimentation can have serious effects on life and property and on the basin ecology. Man made changes in the river basin can also create significant problems. The following subject areas are covered in the publication: Water resources management; Flood risk management; Ecological and environmental impact; Erosion and sediment transport; Hydrological modelling; River restoration and rehabilitation; Hydropower issues and development; River and watershed management; Water quality issues; Organic contamination management; Agricultural pollution; Transboundary water issues; Estuaries and deltas; Climate change; Remote sensing; Hydraulic structures; Rain water management; Water energy nexus; Drought assessment and management; Ecosystem services. Journalism, Power and Investigation presents a contemporary, trans-national analysis of investigative journalism. Beginning with a detailed introduction that examines the relationship between this form of public communication and normative conceptions of democracy, the book offers a selection of spirited contributions to current debates concerning the place, function, and political impact of investigative work. The 14 chapters, produced by practising journalists, academics, and activists, cover a range of topics, with examples drawn from the global struggle to produce reliable, in-depth accounts of public events. The collection brings together a range of significant investigations from across the world. These include an assignment conducted in the dangerous sectarian environment of Iraq, close engagement with Spain's Memory Movement, and an account of the work of radical charity Global Witness. Other chapters examine the relationship between journalists and state/corporate power, the troubled political legacy of WikiLeaks, the legal constraints on investigative journalism in the UK, and the bold international agenda of the investigative collective The Ferret. This material is accompanied by other analytical pieces on events in Bermuda, Brazil, and Egypt. Investigative journalism is a form of***

**reportage that has long provided a benchmark for in-depth, critical interventions. Using numerous case studies, Journalism, Power and Investigation gives students and researchers an insight into the principles and methods that animate this global search for truth and justice. The Politics of Punk probes the conscience of punk music by going beyond the lyrics and slogans of the pithy culture war. Creating a people's history of punk's social, aesthetic, and political features, the book features original interviews with members of Dead Kennedys, Dead Boys, MDC, and many more. Digital or 'virtual' currencies pose significant challenges for government, financial and legal institutions because of their non-physical nature and their relative anonymity to physical currency. These attributes make this form of exchange extremely volatile and, at the same time, attractive to criminals. Many countries around the world have, therefore issued warnings against the use of digital currencies and have enacted laws to regulate and in some cases, restrict their use among members under their respective jurisdictions. Digital Currency: An International Legal and Regulatory Compliance Guide serves as a primer for both general and specialized readers, as well as business law and e-commerce teachers and students, to recognize and understand the extensive network of laws and regulations already in place around the world which have a profound impact on the creation, distribution and use of digital currency and blockchain technology. The book is also a compliance guide assisting legal practitioners in the fields of business, law, and technology to develop, implement, manage, and maintain strategies, policies, practices, and procedures to ensure that their activities involving digital currency and blockchain technology comply with a complex set of legal requirements in several jurisdictions. The book addresses both the complex set of existing laws that have a profound impact on digital currencies and blockchain technology, and the emerging new legal requirements directed specifically towards digital currency. Readers will understand the broad implications of laws and regulations on digital currency and blockchain development and its use, and will also be equipped with the knowledge to incorporate these effectively into their professional and personal endeavors. This entails maximizing the value of digital currency and blockchain technology while also minimizing their risk of adverse legal consequences. Additionally, policymakers seeking to enforce current legislations or wishing to draft appropriate new regulations in the digital currency and blockchain economy will also benefit from the information provided in this book. Increased tourism benefits local economies by creating more revenue and employment options as interest in the location grows. However, as the hospitality and travel industry continues to grow and adapt, it becomes imperative that they implement socially responsible procedures. Corporate Social Responsibility in the Hospitality and Tourism Industry discusses issues and challenges faced by organizations implementing responsible business practices within the travel, hotel, leisure and hospitality industries. Featuring best practices and theoretical concepts on the support of local economies, ethical sourcing of native goods, and sustainability procedures, this publication is a vital source for policy makers, academicians, researchers, students, technology developers, and government officials interested in emergent ethical and moral practices within the travel industry. **Types of Topics** There are many different topics for essays in the exam, but typical topic areas include: education, crime, media, technology, social issues, technology and the future, and the environment. In this case it makes sense to build up vocabulary in these key areas in order to have sufficient language to write an essay well. This book covers recent developments in the interdisciplinary fields of actuarial science, quantitative finance, risk- and asset management. The authors are leading experts from academia and practice who participated in Innovations in Insurance, Risk- and Asset Management, an international conference held at the Technical University of Munich in 2017. The topics covered include the mathematics of extreme risks, systemic risk, model uncertainty, interest rate and hybrid models, alternative investments, dynamic investment strategies, quantitative risk management, asset liability management, liability driven investments, and behavioral finance. This timely selection of topics is highly relevant for the financial industry and addresses current issues both from an academic as well as from a practitioner's point of view.

**Game Theory** is the study of mathematical models of strategic interaction among rational decision-makers. It has found application in the fields of economics, computer science, biology and international relations. This book serves to introduce the principles of non-cooperative game theory - including Nash Equilibrium, Zero-sum Games, Non-zero-sum games, Repeated and Stochastic games, and the Shapely Value in coalition game theory. Selected articles on game theory application in real-life are also included. The issue of consent and criminal law commonly focuses on consent in sports, sexual activity, and medical treatment. The notion of consent and the influence of state control in this context, however, are pervasive throughout the criminal justice process from the pre-trial stage to rehabilitation. This edited collection charts an important and original pathway to understanding these important issues, pre-, during, and post-trial, from a range of perspectives, including doctrinal, socio-legal, intersectional, medico-legal, feminist, critical legal, and queer theoretical viewpoints. The collection addresses the complex inter-relationship between consent and state control in relation to private authorisation and public censure; sexual behaviour; the age of consent; queering consent; Pro-LGBTI Refugee cases; rape by fraud; male rape; undercover policing; prisons and consent; compulsory treatment for sex offenders; sex offenders with high functioning autism and the suitability of sex offender treatment programmes; and, the criminalisation of HIV transmission. This multi-disciplinary approach draws together a variety of experts from legal and medical academia and practice in order to confront the issues raised by these subjects, which are likely to remain controversial and in need of reform for years to come.

The art and science of audiovisual preservation and access has evolved at breakneck speed in the digital age. ***collections. This collection of essays is derived from presentations made at the 2016 JTS held in Singapore and presents an overview of the latest audiovisual preservation methods and techniques, archival best practices in media storage, as well as analog-to-digital conversion challenges and their solutions. This book analyzes issues related to multinational corporations, their immense economic and political influence in a globalized world, and corporate social responsibility. It offers a unique discussion of corporate social responsibility in the emerging economies of Brazil, India, South Africa, China, Bangladesh, Chile, and the Philippines. The book is a collection of high-quality peer-reviewed research papers presented at the third International Conference on Innovations in Computer Science and Engineering (ICICSE 2015) held at Guru Nanak Institutions, Hyderabad, India during 7 - 8 August 2015. The book discusses a wide variety of industrial, engineering and scientific applications of the emerging techniques. Researchers from academic and industry present their original work and exchange ideas, information, techniques and applications in the field of Communication, Computing, and Data Science and Analytics. Advances in Food Authenticity Testing covers a topic that is of great importance to both the food industry whose responsibility it is to provide clear and accurate labeling of their products and maintain food safety and the government agencies and organizations that are tasked with the verification of claims of food authenticity. The adulteration of foods with cheaper alternatives has a long history, but the analytical techniques which can be implemented to test for these are ever advancing. The book covers the wide range of methods and techniques utilized in the testing of food authenticity, including new implementations and processes. The first part of the book examines, in detail, the scientific basis and the process of how these techniques are used, while other sections highlight specific examples of the use of these techniques in the testing of various foods. Written by experts in both academia and industry, the book provides the most up-to-date and comprehensive coverage of this important and rapidly progressing field. Covers a topic that is of great importance to both the food industry and the governmental agencies tasked with verifying the safety and authenticity of food products Presents a wide range of methods and techniques utilized in the testing of food authenticity, including new implementations and processes Highlights specific examples of the use of the emerging techniques and testing strategies for various foods The subject of this book explains the social framework of consumer rights and legal framework of protecting consumer rights that has evolved in India over the last three decades. It also explains the momentous changes in Indian consumer markets over this period as a result of economic liberalisation and provides an understanding of the problems consumers face in markets and the consumer detriment there from. It analyses the buying behavior of consumers as well as the phenomena of consumer complaints and the processes and systems to address them. The development of the consumer jurisprudence in settling consumer disputes in consumer courts under the Consumers Protection Act of 1986 and 2019 is examined in detail. Leading cases are used to explain important concepts. It also addresses the role played by quality and standardization in the market place and the roles of different agencies in establishing product and service standards. The student should be able to comprehend the business firms' interface with consumers and the consumer related regulatory and business environment for major consumer industries of India. Public health entails the use of models, technologies, experience and evidence derived through consumer participation, translational research and population sciences to protect and improve the health of the population. Enhancing public health is of significant importance to the development of a nation, particularly for developing countries where the health care system is underdeveloped, fragile or vulnerable. This book examines progress and challenges with regards to public health in developing countries in two parts: Part 1 "General and Crosscutting Issues in Public Health and Case Studies" and Part 2 "Country-Specific Issues in Public Health." For example, assuring equity for marginalized indigenous groups and other key populations entails the application of transdisciplinary interventions including legislation, advocacy, financing, empowerment and de-stigmatization. The diverse structural, political,***

*economic, technological, geographical and social landscape of developing countries translates to unique public health challenges, infrastructure and implementation trajectories in addressing issues such as vector-borne diseases and intimate partner violence. This volume will be of interest to researchers, health ministry policy makers, public health professionals and non-governmental organizations whose work entails collaborations with public health systems of developing nations and regions. Bangladesh is the most vulnerable country to face the Rohingya crisis since the late 1970s and it is a continuous disturbing issue between Bangladesh and Myanmar that affecting their bilateral relations. But, in 2017, the last persecution against the Rohingyas in Myanmar have forced more than half a million people to flee into Bangladesh who are still living here creating various problems for the local community as well as for the whole country. This chapter aims to focus on the socio-political impacts of Rohingya crisis on Bangladesh as now more than one million Rohingya people are staying in the refugee camps of Cox's Bazar district and also as unregistered refugees. This study analyzes secondary sources by using qualitative method to present different social and political impacts of this long-standing crisis on Bangladesh such as increasing of trafficking, criminal activities, prostitution and other illegitimate works in the local areas which have a bad impact on the whole country. It also analyzes the recent vulnerable situation of local host communities regarding this crisis. Mining refers to the process of extracting minerals and metals from the crust of the earth. Some minerals can be mined more easily as they are found on the earth's surface, while others lie far beneath the surface and can be obtained only by digging deep underground. Gold, Silver, Diamond, Iron, Coal, Aluminum (Bauxite) and Uranium are some of the vast array of metals and minerals that are obtained by the latter process. In fact, mining is the source of all the substances that cannot be obtained by industrial processes or through agriculture. Mining, in its wider sense connotes extracting and processing of a non-renewable mineral resource. Minerals can be classified into metallic (iron, copper, gold, aluminum, uranium etc.) and non-metallic (sand, salt, phosphates etc.) These minerals are non-renewable or depleting assets and once mined-out, they are exhausted and are lost forever without any chance of replenishment. Simply, this exhaustible resource cannot be harvested, unlike agricultural products. Are national galleries different from other kinds of art gallery or museum? What value is there for the nation in a collection of international masterpieces? How are national galleries involved in the construction national art? National Galleries is the first book to undertake a panoramic view of a type of national institution - which are sometimes called national museums of fine art - that is now found in almost every nation on earth. Adopting a richly illustrated, globally inclusive, comparative view, Simon Knell argues that national galleries should not be understood as 'great galleries' but as peculiar sites where art is made to perform in acts of nation building. A book that fundamentally rewrites the history of these institutions and encourages the reader to dispense with elitist views of their worth, Knell reveals an unseen geography and a rich complexity of performance. He considers the ways the national galleries entangle art and nation, and the differing trajectories and purposes of international and national art. Exploring galleries, artists and artworks from around the world, National Galleries is an argument about how we think about and study these institutions. Privileging the situatedness of each national gallery performance, and valuing localism over universalism, Knell looks particularly at how national art is constructed and represented. He ends with examples that show the mutability of national art and by questioning the necessity of art nationalism. This book represents the first serious consideration of the 'domestic noir' phenomenon and, by extension, the psychological thriller. The only such landmark collection since Lee Horsley's The Noir Thriller, it extends the argument for serious, academic study of crime fiction, particularly in relation to gender, domestic violence, social and political awareness, psychological acuity, and structural and narratological inventiveness. As well as this, it shifts the debate around the sub-genre firmly up to date and brings together a range of global voices to dissect and situate the notion of 'domestic noir'. This book is essential*

**reading for students, scholars, and fans of the psychological thriller. The call for case histories was announced in 2014 and 60 submissions were received, describing on an outline basis what was achieved with these applications of e-Learning. There were 36 interesting examples described in these abstracts which were invited to forward a completed case history. The panel of experts then chose 12 case history finalists who were invited to present their work at the 14th annual European Conference on e-Learning at the University of Hertfordshire at Hatfield in the UK in October, 2015. As can be seen from the Contents page, the topics presented range widely, as was expected when working with a subject like e-Learning. It may also be observed that the entrants come from many different parts of the world. The competition requires the 3 best to be chosen and it is clear that the judges will have a challenging task to select the winners. For more than 40 years, the Historic Documents series has made primary source research easy by presenting excerpts from documents on the important events of each year for the United States and the World. Each volume includes 60 to 70 events with well over 100 documents from the previous year, from official reports and surveys to speeches from leaders and opinion makers, to court cases, legislation, testimony, and much more. Historic Documents is renowned for the well-written and informative background, history, and context it provides for each document. Each volume begins with an insightful essay that sets the year's events in context, and each document or group of documents is preceded by a comprehensive introduction that provides background information on the event. Full-source citations are provided. Readers have easy access to material through a detailed, thematic table of contents, and each event includes references to related coverage and documents from the last ten editions of the series.**

**A journey on a drugs trial to beat mesothelioma ,an Asbestos related cancer At 7.20pm on 23rd May 2015, in the courtyard of Dublin Castle, Ireland truly became a nation of equals. Ireland Says Yes is the fast-paced narrative account of all the drama, excitement and highs and lows of the last 100 days of the extraordinary campaign for a Yes vote in the 2015 Marriage Equality Referendum. Those who led the Yes Equality campaign tell the inside story of how the referendum was won, and how Ireland's two principal gay and lesbian rights organisations put together the most effective and successful civic society campaign ever launched in Irish politics. As well as a drama-packed chronological account of how the Yes campaign was executed, the book explores how social media mobilised a new generation of voters to the polls and how political parties, student unions and youth groups co-ordinated their efforts to deliver one of the most historic referendum results in Irish political history. The war on drugs has created many problems in our society.....This book is an autobiographical alternative account of the author's life and how he came to face one of the most difficult laws ever imposed. The book explores many themes such as racial identity, prison, crime and punishment, poverty, sex, love, drugs, politics, religion, philosophy, death and human identity. The author delves deep into many themes considered taboo and dares to write what many fear to even consider an issue. Mr. Narendra Damodardas Modi or just Narendra Modi has come into the national politics as a breath of fresh air. He has a past, in present he is all over and surely he will continue to occupy the public space into the foreseeable future. As media member, we have no right to pass value judgment or being judgmental. We have covered Mr. Modi in our pages since 2012. We have tried to be balanced in handling issues involved, beginning with an iconic Gujarat Chief Minister and his journey up to the corridors of power in New Delhi and his stint as the Prime Minister. This book investigates whether a power shift has taken place in the Asia-Pacific region since the end of the Cold War. By systematically examining the development of power dynamics in Asia-Pacific, it challenges the notion that a wealthier and militarily more powerful China is automatically turning the regional tides in its favour. With a special emphasis on Sino-US competition, the book explores the alleged linkage between the regional distribution of relevant material and immaterial capabilities, national power and the much-cited regional power shift. The book presents a novel concept for measuring power in international relations by outlining a composite index on aggregated power (CIAP) that includes 55 variables for 44 regional countries and covers a period of twenty years. Moreover, it develops a middle power theory that outlines the significance of middle powers in times of major power shifts. By addressing political, military and economic cooperation via a structured-focused comparison and by applying a comparative-historical analysis, the book analyses in depth the bilateral relations of six regional middle powers to Washington and Beijing. Education is regarded as a cross-cutting issue for disaster risk reduction (DRR) through reviewing the Sendai Framework for DRR (SFDRR) 2015-2030. Mainstreaming Disaster Risk Reduction (DRR) in the education sector is one of the important efforts to enhance resilience in a community. DRR in the education sector not only focuses on provision of disaster education, but also includes securing a safe school environment, developing school disaster management plans, and building the capacity of school teachers and local educational officers. Japan, with its wealth of experience in DRR, has developed a good resilient system in its education sector, which has been tested and revised through experiences of past disasters. This book reviews the evolution of DRR in the education sector in Japan, including some of the recent developments after the 2011 Great East Japan Earthquake, focusing on DRR governance and practices in national policies, curriculum development and teacher training, community linkage, and international cooperation, to enhance resilience in the education sector. The primary target groups for this book are students and researchers in the fields of disaster management and DRR studies. Another target group comprises practitioners and policy makers, who will be able to apply the collective knowledge from this work to policy and decision making. The book provides an overview of the current research trends and furnishes basic knowledge on this important topic.**
