The Cambridge Historical Encyclopedia of Great Britain and Ireland Jul 31 2022 The history of Britain and Ireland is traditionally presented as a succession of dramatic changes, but in this reference work the 60 contributors under the editorship of Christopher Haigh have emphasized patterns of continuity instead, including cultural, social, political and economic themes. 300 illustrations.

**Court Poetry in Late Medieval England and Scotland** Jan 13 2021 This book explores the anxious and unstable relationship between court poetry and various forms of authority, political and cultural, in England and Scotland at the beginning of the sixteenth century.

Through poems by Skelton, Dunbar, Douglas, Hawes, Lyndsay and Barclay, it examines the paths by which court poetry and its narrators seek multiple forms of legitimation: from royal and institutional sources, but also in the media of script and print. The book is the first for some time to treat English and Scottish material of its period together, and responds to European literary contexts, the dialogue between vernacular and Latin matter, and current critical theory. In so doing it claims that public and occasional writing evokes a counter-discourse in the secrecies and subversions of medieval love-fictions. The result is a poetry that queries and at times cancels the very authority to speak that it so proudly promotes.

**Events that Changed Great Britain from 1066 to 1714** Oct 10 2020 This unique resource describes and evaluates ten of the most important events in British history between the Norman Conquest of 1066 and the Glorious Revolution of 1689 and its aftermath. A full chapter is devoted to each event, and each chapter includes an introduction presenting factual information in a clear, chronological order. Longer, interpretive essays explore the short-term and far-reaching ramifications of the events. Coverage for each event also includes an annotated bibliography of works suitable for students and a full-page illustration. A glossary of terms, a timeline of British history up to 1714, and a chronological list of ruling houses and monarchs help students to better understand the major developments in modern British history, along with their significance and long-term impact.

European War and Diplomacy, 1337-1815 Dec 12 2020 The history of international relations and warfare of early modern Europe has gained popularity in recent years. This bibliography provides a valuable listing of books, dissertations, and journal articles in the English language for scholars and general readers interested in diplomatic relations and warfare from the Hundred Years' War to the Napoleonic Wars.

**Power-brokers and the Yorkist State, 1461-1485** Apr 27 2022 Examination of the role played by key figures around the monarchy in the Wars of the Roses.

**The Administration of the County Palatine of Chester, 1442-1485** Jun 05 2020 The main aim of this book is to consider how and by whom the County Palatine of Chester was governed and administered during the later Middle Ages. It aims to assess how effectively and efficiently the wheels of government operated in this area. The study is based upon a detailed examination of the Palatine records for the years 1442-1485, during the reigns of Henry VI to Richard III.

**A/AS Level History for AQA The Tudors: England, 1485–1603 Student Book** May 29 2022 A new series of bespoke, full-coverage resources developed for the AQA 2015 A/AS Level History. Written for the AQA A/AS Level History specifications for first teaching from 2015, this print Student Book covers The Tudors: England, 1485-1603 Breadth component. Completely matched to the new AQA specification, this full-colour Student Book provides valuable background information to contextualise the period of study.

Supporting students in developing their critical thinking, research and written communication skills, it also encourages them to make links between different time periods, topics and historical themes.

**England Under the Tudors** Jul 19 2021 First published in 1955 and never out of print, this wonderfully written text by one of the great historians of the twentieth century has guided generations of students through the turbulent history of Tudor England. Now in its third edition, *England Under the Tudors* charts a historical period that saw some monumental changes in religion, monarchy, government and the arts. Elton's classic and highly readable introduction to the Tudor period offers an essential source of information from the start of Henry VII's reign to the death of Elizabeth I.

*The Battle of Bosworth* May 17 2021 On an August morning more than five hundred years ago, to the sound of thundering hooves, gunshot, the clash of steel and the cries of men in battle, Richard III, King of England, lost his life and the Plantagenet name came to an end. But what do we really know of the battle which became known as Bosworth Field? How do we separate fact from legend when our knowledge is based on sources which by any reckoning are meagre, garbled or partisan? In this classic account Michael Bennett provides as detailed and authoritative a reconstruction of the battle, and the events that led up to it, as is possible. It is an enthralling detective story uncovering the real facts behind one of the most famous of British battles.

*Access to History: Lancastrians, Yorkists and the Wars of the Roses, 1399–1509 Second Edition* Nov 03 2022 Give your students the best chance of success with this tried and tested series, combining in-depth analysis, engaging narrative and accessibility. Access to History is the most popular, trusted and wide-ranging series for A-level History students. This title:

- Supports the content and assessment requirements of the 2015 A-level History specifications
- Contains authoritative and engaging content
- Includes thought-provoking key debates that examine the opposing views and approaches of historians
- Provides exam-style questions and guidance for each relevant specification to help students understand how to apply what they have learnt

This title is suitable for a variety of courses including: - AQA: The Wars of the Roses, 1450-1489 - Edexcel: Lancastrians, Yorkists and Henry VII, 1399-1509 - OCR: England, 1445-1509: Lancastrians, Yorkists and Henry VII

*Lancastrians to Tudors* Apr 08 2023 An engaging range of period texts and theme books for AS and A Level history. The Wars of the Roses and the struggle for the throne between the Houses of York and Lancaster dominate the history of England in the latter half of the fifteenth century. But what were the causes of over forty years of sporadic civil war and how was political stability at last restored? Andrew Pickering analyses the historical debates surrounding the characters and events. Topics include fifteenth-century kingship and the reign of Henry VI, the end of the Yorkists, Henry VII and the establishment of the Tudor dynasty, and social and economic change in the late fifteenth and early sixteenth

centuries.

**England, 1485-1642: Oxford Bibliographies Online Research Guide** Mar 15 2021 This ebook is a selective guide designed to help scholars and students of Islamic studies find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books, chapters, and journal articles to online archives, electronic data sets, and blogs. Written by a leading international authority on the subject, the ebook provides bibliographic information supported by direct recommendations about which sources to consult and editorial commentary to make it clear how the cited sources are interrelated related. This ebook is a static version of an article from Oxford Bibliographies Online: Renaissance and Reformation, a dynamic, continuously updated, online resource designed to provide authoritative guidance through scholarship and other materials relevant to the study of European history and culture between the 14th and 17th centuries. Oxford Bibliographies Online covers most subject disciplines within the social science and humanities, for more information visit [www.oxfordbibliographies.com](http://www.oxfordbibliographies.com).

England, 1445-1509 Jan 25 2022 Exam Board: OCR Level: A-level Subject: History First Teaching: September 2015 First Exam: June 2016 This is an OCR endorsed resource Build strong subject knowledge and skills in A Level History using the in-depth analysis and structured support in this tailor-made series for OCR's British period studies and enquiries. - Develops the analytical skills required to succeed in the period study by organising the

narrative content around the key issues for students to explore - Enhances understanding of the chosen historical period, supplying a wealth of extracts and sources that offer opportunities to practise the evaluative skills needed for the enquiry - Progressively improves study skills through developmental activities and advice on answering practice exam questions - Helps students to review, revise and reflect on the course material through chapter summaries and revision activities that consolidate topic knowledge - Equips students with transferable critical thinking skills, presenting contrasting academic opinions that encourage A Level historians to make informed judgements on major debates Each title in the OCR A Level History series contains one or two British period studies and its associated enquiry, providing complete support for every option in Unit Group 1. England 1445-1509: Lancastrians, Yorkists and Henry VII This title explores the reigns of the English Kings from Henry VI to Henry VII. It allows an in-depth understanding of the key historical knowledge, terms and concepts relevant to 'England 1461-1509' and encourages the critical use of evidence in investigating and assessing historical questions in the associated enquiry: 'Wars of the Roses 1445-1461'. This title covers the following period study and enquiry: - Wars of the Roses 1445-1461 - England 1461-1509

**England und die Hanse 1450 - 1509** Apr 03 2020

*Early Modern England 1485-1714* Oct 22 2021 The second edition of this bestselling narrative history has been revised and expanded to reflect recent scholarship. The book

traces the transformation of England during the Tudor-Stuart period, from feudal European state to a constitutional monarchy and the wealthiest and most powerful nation on Earth. Written by two leading scholars and experienced teachers of the subject, assuming no prior knowledge of British history Provides student aids such as maps, illustrations, genealogies, and glossary This edition reflects recent scholarship on Henry VIII and the Civil War Extends coverage of the Reformations, the Rump and Barebone's Parliament, Cromwellian settlement of Ireland, and the European, Scottish, and Irish contexts of the Restoration and Revolution of 1688-9 Includes a new section on women's roles and the historiography of women and gender Click here for more discussion and debate on the authors' blogspot: <http://earlymodernengland.blogspot.com/> [Wiley disclaims all responsibility and liability for the content of any third-party websites that can be linked to from this website. *The Wars of the Roses and Henry VII* Feb 06 2023 The Access to History series is the most popular and trusted series for advanced level history students, offering: - Authoritative, engaging and accessible content - Comprehensive coverage of the AS and A level history specifications - Design features, study guides and web support to help students achieve

exam success. **The Wars of the Roses and Henry VII: Britain 1450a 1509** This title examines the origins, nature and impact of the dynastic struggle between the noble factions grouped around the royal houses of York and Lancaster between 1450-1509 and the political change and conflict this generated. In particular it offers an in-depth analysis of: - Henry VI and the origins of the Wars of the Roses - The reigns of Edward IV - Richard III and the End of the Wars of the Roses - The Reign of Henry VII Throughout the book, key dates, terms and issues are highlighted, and historical interpretations of key debates are outlined. Summary diagrams are included to consolidate knowledge and understanding of the period, and exam-style questions and tips written by examiners provide the opportunity to develop exam skills.

Government and Community May 09 2023 "The Wars of the Roses were a series of dynastic wars fought between supporters of two rival branches of the royal House of Plantagenet: the houses of Lancaster and York (whose heraldic symbols were the red and the white rose, respectively) for the throne of England. They were fought in several sporadic episodes between 1455 and 1485, although there was related fighting both before and after this period. They resulted from the social and financial troubles following the Hundred Years' War. The final victory went to a relatively remote Lancastrian claimant, Henry Tudor, who defeated the last Yorkist king Richard III and married Edward IV's daughter Elizabeth of York to unite the two houses. The House of Tudor subsequently ruled England

and Wales for 117 years."--Wikipedia.

*Town and Countryside in Western Berkshire, C.1327-c.1600* Aug 08 2020 A fresh examination of how society and economy changed at the end of the middle ages, comparing urban and rural experience.

*The English Parliaments of Henry VII 1485-1504* Dec 24 2021 For a ruler in Henry's vulnerable position, parliament helped to restore royal authority by securing the good governance that legitimated his regime. For his subjects, parliament served as a medium through which to communicate with the government & to shape, & on occasion criticize, its policies.

Edward III and the English Peerage Nov 10 2020 A study of Edward III's astute use of patronage to reposition the monarchy after the vicissitudes of his father's reign and his own problematic minority.

**Soldier, Rebel, Traitor** May 05 2020 John Wenlock, first Lord Wenlock, was a leading diplomat, courtier and soldier during the Wars of the Roses whose remarkable career offers us a fascinating insight into one of the most turbulent periods in English medieval history. And yet he has hitherto been overshadowed by his more illustrious contemporaries.

Alexander Brondarbit's meticulously researched and perceptive biography is overdue. It establishes Wenlock as a major figure in his own right and records in vivid detail how this shrewd nobleman found his way through the brutal conflicts of his times. Wenlock served

in Henry V's military campaigns in France in the 1420s before moving on to a career in the royal households of Henry VI, Margaret of Anjou and Edward IV. As a diplomat, he led multiple embassies to Burgundy and France and, in addition to the kings he served, he was closely connected with other notable figures of the age such as Richard Neville, earl of Warwick. But Wenlock's speciality was on the battlefield – he took part in many raids, skirmishes and sieges and in three major battles including the Battle of Tewkesbury in 1471 where he lost his life. Using primary sources as well as contemporary assessments in chronicles and letters, Alexander Brondarbit gives a nuanced description of the main episodes in Wenlock's long career and throws new light on the motivation of a man who has been labelled a 'Prince of Turncoats' because of his frequent changes of allegiance.

**The Making of the British Isles** Apr 15 2021 The history of the British Isles is the story of four peoples linked together by a process of state building that was as much about far-sighted planning and vision as coincidence, accident and failure. It is a history of revolts and reversal, familial bonds and enmity, the study of which does much to explain the underlying tension between the nations of modern day Britain. The Making of the British Isles recounts the development of the nations of England, Scotland, Wales and Ireland from the time of the Anglo-French dual monarchy under Henry VI through the Wars of the Roses, the Reformation crisis, the reigns of Henry VIII and Elizabeth I, the Anglo-Scottish dynastic union, the British multiple monarchy and the Cromwellian Republic, ending with

the acts of British Union and the Restoration of the Monarchy.

*Encyclopedia of the Wars of the Roses* Jun 29 2022 This authoritative A–Z encyclopedia of the Wars of the Roses provides accurate and concise descriptions of the major battles and events and the principal historical figures and issues involved. \* More than 275 entries and over 40 illustrations \* A map of the Wars of the Roses battle sites \* Guide to related topics, chronology, and genealogies \* Table showing the involvement of the higher peerage in the Wars of the Roses \* List of Popes and English church leaders in the 15th century \* List of selected websites for 15th century topics

*The Reformation and the Towns in England* Aug 20 2021 This analysis of the secular impact of the Reformation examines the changes within English towns over the period c.1540-1640. All over England wholesale shifts of urban land and resources, coupled with increased statutory responsibilities, allowed a surprising number of towns to strengthen their financial and political positions. The Reformation had already begun to destroy much of the doctrine-based political culture which traditionally sustained provincial governments. As a result, the ruling elites in many towns not only extended their holdings and acquired greater autonomy; they also gained much greater institutional authority over their inhabitants - part of a growing movement away from communal values towards rule by oligarchy. These elites sought to legitimize their new authority by various means: civic portraiture and regalia, the building of town-halls, the writing of local histories, and the creation of new

forms of worship. An altered civic ethos emerged, marking a significant new phase in urban history.

*Early Tudor Parliaments 1485-1558* Mar 03 2020 This excellent survey looks at the workings of parliament under the first four Tudor monarchs. After an introductory first section which looks at parliament's medieval origins, the author then considers all aspects of early parliamentary history - including the historiography of the early Tudor parliaments, membership and attendance, the legislative roles of the Lords and Commons and the specific parliaments themselves.

**Locality and Polity** Jul 07 2020 The book is intended as a contribution to the history of England as a whole in the fifteenth century and to the study of the long-term development of the English landed classes and the English constitution.

Renewal and Reformation Sep 08 2020 This is the first comprehensive history of the two decisive centuries which followed the defeat of Owain Glyndwr in 1415. The fifteenth century was a time of resilience and recovery from the Rebellion, and one which saw the emergence of ruling gentry families, whose power, and that of the monarchy, was confirmed by the Tudor Act of Union, 1536-43. This was an age of outstanding personalities and achievements as impressive as they were diverse: Owain Glyndwr, Henry Tudor, John Dee, Robert Devereux, William Morgan, Matthew Gough, and Robert Mansell. Throughout, the Welsh remained prouder and more conscious of their national identity than has usually been

thought.

Patriarchy and Families of Privilege in Fifteenth-Century England Sep 20 2021 There are, contends Joel Rosenthal, two suppositions that have achieved almost full and unquestionable acceptance in contemporary social history and family studies. The first is that at any given time in any given culture one particular form or model of the family dominates; the second is that historical changes in the family operate in a single and compelling direction. In *Patriarchy and Families of Privilege in Fifteenth-Century England*, the author joins quantitative and legal evidence with case studies to yield a depiction of the family as something at once corporeal, fictive, and symbolic.

**The Wars of the Roses** Sep 01 2022 This is a new interpretation of English politics during the extended period beginning with the majority of Henry VI in c. 1437 up to the accession of Henry VII in 1509. The later fifteenth century in England is a somewhat baffling and apparently incoherent period which historians and history students have found consistently difficult to handle. The large-scale 'revisionism' inspired by the classic work of K. B. McFarlane led to the first real work on politics, both national and local, but has left the period in a disjointed state: much material has been unearthed, but without any real sense of direction or coherence. This book places the events of the century within a clearly delineated framework of constitutional structures, practices and expectations, in an attempt to show the meaning of the apparently frenetic and purposeless political events which

occurred within that framework - and which sometimes breached it. At the same time it takes cognisance of all the work that has been done on the period, including recent and innovative work on Henry VI.

*Crown and Nobility, 1450-1509* Jan 05 2023

*The Wars of the Roses* Jan 31 2020 The civil wars of the first half of the fifteenth century still stand in the popular imagination as the period of greatest anarchy in English history. While historians have long taken a more measured view, controversy still surrounds their interpretation. In this revised edition of his revaluation of the Wars of the Roses, A. J. Pollard has incorporated into the text the product of new research and consideration of the debates which have emerged since the book was first published in 1988. These include the new stress on 'constitutional' history, intensified dispute about the origins of the wars, and recent reinterpretations of the careers of some of the principal personalities. In a topic which has become more contested in the last decade of the twentieth century, this introduction offers a succinct narrative, a review of the historiography and an overview of the problems of interpretation of the character, causes, impact and consequences of the wars which periodically disrupted England between 1459 and 1487.

**The new history of England** Mar 07 2023

**Lollardy and Orthodox Religion in Pre-Reformation England** Jan 01 2020 An account of how, in certain parts of sixteenth-century England, challenges to conventional piety

anticipated the Reformation.

**A/AS Level History for AQA The Wars of the Roses, 1450–1499 Student Book** Mar 27 2022 A new series of bespoke, full-coverage resources developed for the AQA 2015 A/AS Level History. Written for the AQA A/AS Level History specifications for first teaching from 2015, this print Student Book covers The Wars of the Roses, 1450-1499 Depth component. Completely matched to the new AQA specification, this full-colour Student Book provides valuable background information to contextualise the period of study. Supporting students in developing their critical thinking, research and written communication skills, it also encourages them to make links between different time periods, topics and historical themes.

The Brothers York Feb 23 2022 "For fans of Hilary Mantel and The Tudors, this is the dramatic story of the concluding episode in England's War of the Roses, featuring three brothers, two of whom became kings, Edward IV and Richard III, famous from Shakespeare's great history play Richard III"--

*English Aristocratic Women, 1450-1550* Oct 02 2022 This work, based on archival research, combines a collective portrait of aristocratic women with an analysis of the particular, class-specific form of patriarchy and gender relations that flourished among the upper classes in Yorkist and early Tudor England.

**Social Thought in England, 1480-1730** Nov 22 2021 Authorities ranging from

philosophers to politicians nowadays question the existence of concepts of society, whether in the present or the past. This book argues that social concepts most definitely existed in late medieval and early modern England, laying the foundations for modern models of society. The book analyzes social paradigms and how they changed in the period. A pervasive medieval model was the "body social," which imagined a society of three estates – the clergy, the nobility, and the commonalty – conjoined by interdependent functions, arranged in static hierarchies based upon birth, and rejecting wealth and championing poverty. Another model the book describes as "social humanist," that fundamentally questioned the body social, advancing merit over birth, mobility over stasis, and wealth over poverty. The theory of the body social was vigorously articulated between the 1480s and the 1550s. Parts of the old metaphor actually survived beyond 1550, but alternative models of social humanist thought challenged the body concept in the period, advancing a novel paradigm of merit, mobility, and wealth. The book's methodology focuses on the intellectual context of a variety of contemporary texts.

Richard III Feb 11 2021 Richard III ruled England for a mere twenty-six months, yet few English monarchs remain as compulsively fascinating, and none has been more persistently vilified. In his absorbing and universally praised account, Charles Ross assesses the king within the context of his violent age and explores the critical questions of the reign: why and how Richard Plantagenet usurped the throne; the belief that he ordered the murder of

"the Princes in the Tower"; the events leading to the battle of Bosworth in 1485; and the death of the Yorkist dynasty with Richard himself. In a new foreword, Professor Richard A. Griffiths identifies the attributes that have made Ross's account the leading biography in the field, and assesses the impact of the research published since the book first appeared in 1981. "A fascinating study on a perennially fascinating topic... the base against which will be measured any future research."--Times Higher Education Supplement

**Historical Dictionary of Late Medieval England, 1272-1485** Jun 17 2021 Providing the chronological setting for many of Shakespeare's plays, various swashbuckling novels from Sir Walter Scott's to Robert Louis Stevenson's, and such Hollywood films as Braveheart, late Medieval England is superficially well known. Yet its true complexity remains elusive, locked in the covers of specialized monographs and journal articles. In over 300 entries written by 80 scholars, this book makes the factual information and historical interpretations of the era readily available. Covering political, military, religious, and constitutional subjects as well as social and economic topics, the volume is easy to use, comprehensive, and authoritative. It provides a useful resource for undergraduate and graduate students, scholars, and educated laymen. Rightly characterized as an age of crisis, the 14th century saw the Hundred Years War, the Black Death, the Peasants' Revolt of 1381, the Avignon Papacy, and the Great Schism of the Western Church. All placed great stresses on English society, aggravating old problems and creating new ones. In the late Middle Ages,

parliament became an important element in English government; Cambridge and Oxford universities attained European-wide reputations; and general literacy increased. The Church remained a paramount religious, political, and social institution, but its independence and intellectual monopoly slipped. The entries in this book synthesize recent scholarship on these and other historical events. While emphasizing political, religious, constitutional and military topics, the book also provides brief introductions to social, economic, cultural, and intellectual topics. It is a valuable guide for those wishing to understand this complex, tumultuous, and until recently, poorly understood era.
