*Miracles and Massacres* May 27 2020 History as it's supposed to be told: true and thrilling. History is about so much more than memorizing facts. It is, as more than half of the word suggests, about the story. And, told in the right way, it is the greatest one ever written: Good and evil, triumph and tragedy, despicable acts of

barbarism and courageous acts of heroism. The things you've never learned about our past will shock you. The reason why gun control is so important to government elites can be found in a story about Athens that no one dares teach. Not the city in ancient Greece, but the one in 1946 Tennessee. The power of an individual who trusts his gut can be found in the story of the man who stopped the twentieth hijacker from being part of 9/11. And a lesson on what happens when an all-powerful president is in need of positive headlines is revealed in a story about eight saboteurs who invaded America during World War II. *Miracles and Massacres* is history as you've never heard it told. It's incredible events that you never knew existed. And it's stories so important and relevant to today that you won't have to ask, Why didn't they teach me this? You will instantly know. If the truth shall set you free, then your freedom begins on page one of this book. By the end, your understanding of the lies and half-truths you've been taught may change, but your perception of who we are as Americans and where our country is headed definitely will.

**The Overton Window** Dec 22 2019 A plan to destroy America, a hundred years in the making, is about to be unleashed . . . can it be stopped? There is a powerful technique called the Overton Window that can shape our lives, our laws, and our future. It works by manipulating public perception so that ideas previously thought of as radical begin to seem acceptable over time. Move the Window and you change the debate. Change the debate and you change the country. For Noah Gardner, a twentysomething public relations executive, it's safe to say that political theory is the furthest thing from his mind. Smart, single, handsome, and insulated from the world's problems by the wealth and power of his father, Noah is far more concerned about the future of his social life than the future of his country. But all of that changes when Noah meets Molly Ross, a woman who is consumed by the knowledge that the America we know is about to be lost forever. She and her group of patriots have vowed to remember the past and fight for the future—but Noah, convinced they're just misguided conspiracy-theorists, isn't interested in lending his considerable skills to their cause. And then the world changes. An unprecedented attack on U.S. soil shakes the country to the core and puts into motion a frightening plan, decades in the making, to transform America and demonize all those who stand in the way. Amidst the chaos, many don't know the difference between conspiracy theory and conspiracy fact—or, more important, which side to fight for. But for Noah, the choice is clear: Exposing the plan, and revealing the conspirators behind it, is the only way to save

both the woman he loves and the individual freedoms he once took for granted. After five back-to-back #1 New York Times bestsellers, national radio and Fox News television host Glenn Beck has delivered a ripped-from-the-headlines thriller that seamlessly weaves together American history, frightening facts about our present condition, and a heart-stopping plot. The Overton Window will educate, enlighten, and, most important, entertain—with twists and revelations no one will see coming. **Being George Washington** Jan 03 2021 This is the amazing true story of a real-life superhero who changed the world forever. Bullet holes through his clothing. Unimaginable hardship. Disease. Heroism. Spies and double-agents. It's the story of George Washington, like readers have never seen before.

It was once named America, but now it is just “the Republic.” Following the worldwide implementation of a UN-led program called Agenda 21, the once-proud people of America have become obedient residents who live in barren, brutal Compounds and serve the autocratic, merciless Authorities. Citizens mainly keep their heads down and their mouths shut—but Emmeline is different. When the Authorities took her mother away, she started questioning the world around her. What happened to her mom? Why is everyone confined to grim living spaces and made to eat the same food cubes every day? Why was her own baby taken from her to be raised in the Children’s Village? When Emmeline’s questions lead to the realization that she will never see her child again, she decides to escape the Compound.
