One day Sophie comes home from school to find two questions in her mail: "Who are you?" and "Where does the world come from?" Before she knows it she is enrolled in a correspondence course with a mysterious philosopher. Thus begins Jostein Gaarder's unique novel, which is not only a mystery, but also a complete and entertaining history of philosophy. The landmark text about the inner workings of the unconscious mind—from the symbolism that unlocks the meaning of our dreams to their effect on our waking lives and artistic impulses—featuring more than a hundred images that break down Carl Jung's revolutionary ideas "What emerges with great clarity from the book is that Jung has done immense service both to psychology as a science and to our general understanding of man in society."—The Guardian "Our psyche is part of nature, and its enigma is limitless." Since our inception, humanity has looked to dreams for guidance. But what are they? How can we understand them? And how can we use them to shape our lives? There is perhaps no one more equipped to answer these questions than the legendary psychologist Carl G. Jung. It is in his life's work that the unconscious mind comes to be understood as an expansive, rich world just as vital and true a part of the mind as the conscious, and it is in our dreams—those personal, integral expressions of our deepest selves—that it communicates itself to us. A seminal text written explicitly for the general reader, *Man and His Symbols* is a guide to understanding the symbols in our dreams and using that knowledge to build fuller, more receptive lives. Full of fascinating case studies and examples pulled from philosophy, history, myth, fairy tales, and more, this groundbreaking work—profusely illustrated with hundreds of visual examples—offers invaluable insight into the symbols we dream that demand understanding, why we seek meaning at all, and how these very symbols affect our lives. By illuminating the means to examine our prejudices, interpret psychological meanings, break free of our influences, and recenter

our individuality, *Man and His Symbols* proves to be—decades after its conception—a revelatory, absorbing, and relevant experience. Now a wealthy socialite, Oliver the triceratops is willing to take another chance on Jeremy, and soon the two find themselves locked in a passionate evening of gay human-dino love.

SPACE RAPTOR BUTT INVASION Space can be a lonely place, especially when you're stationed by yourself on the distant planet Zorbus. Genre: Dinosaur Erotica Romance Could you love a Dino-American? That's the question Becky needs to answer when Texas gets their first dinosaur instructor. Genetically engineered to resemble a velociraptor, Rick's got the body of dinosaur but the needs of a man. Becky's got her own needs but is Rick the sexual beast to satisfy them? This 9900+ word dinosaur erotica contains detailed descriptions of sex with a modified male who resembles a dinosaur and a good ol' Texas female. It includes detailed sexual situations. It is intended for adult readers only (especially those who love dinosaur erotica / monster erotica stories with a touch of romance). Author's note: This is a full-length, standalone story. No cliffhanger. The first book in an exciting new series about Native American and European first contact by the Gears. The ideal textbook for non-science majors, this lively and engaging introduction encourages students to ask questions, assess data critically and think like a scientist. Building on the success of the previous editions, *Dinosaurs* has been reorganised and extensively rewritten in response to instructor and student feedback. It continues to make science accessible and relevant through its clear explanations and extensive illustrations. Updated to reflect recent fossil discoveries and to include new taxa, the text guides students through the dinosaur groups, emphasising scientific concepts rather than presenting endless facts. It is grounded in the common language of modern evolutionary biology - phylogenetic systematics - so that students examine dinosaurs as professional paleontologists do. The key emerging theme of feathered dinosaurs, and the many implications of feathers, have been integrated throughout the book, highlighted by the inclusion of stunning new photographs in this beautifully illustrated text, now in full colour throughout.

When a strange tear in the cosmos appears within Earth's annual path, the consequences are disastrous. For one night a year, the vast majority of humans now undergo a frightening mental change, transforming into hateful, rage-fueled zombies who will stop at nothing to satiate their desire for brutality. While not much is understood about this horrific mass hysteria, the demographic it effects is very specific: cisgender straight people. A few years after the first of these tragic events, four friends from across the queer spectrum look for safety in solitude, hunkering down in a remote desert cabin for what is now known as Saturation Day. With a vaccine available for straight people to curb their violent episodes, some predict the worst is over. Others aren't so sure. As night falls, it becomes clear that survival isn't guaranteed this Saturation Day. This is the first horror novella from two-time Hugo Award finalist Chuck Tingle. A matchmaking witch, an ancient sea creature, and the sex contract they make. Welcome to the Love Bathhouse where desire and acceptance are in the water. The Witch Celibacy is a bad look for a matchmaker. Especially a matchmaker who works at the kind of paranormal bathhouse that would have grandmothers clutching their pearls. A worse look is a matchmaker experiencing a crisis of confidence. I am that matchmaker. We need raw magic, desperately. And now a mysterious man walks into my office, offering me the exact solution I need. The problem is that he wants to be matched... with me. Matching doesn't work for me; I found that out the hard way. The Kraken I saw her and the creature inside me wanted. She doesn't want a relationship. She says that the most we can have are the three nights she promised me, but the dark part of myself isn't going to let the woman who snared its attention go. I found her. I hunted her. She's mine.

****Stalked by the Kraken** is a monster romance that features tentacles. This book is a standalone and takes place in the same world as, and prior to the events of, *Three of Hearts* with some character crossover. Content Warning: Book includes breeding behavior and mentions infertility. International Bestseller One of the most anticipated books of 2017: *The Millions*, CBC, Chatelaine, Globe and Mail, Maclean's From the author of *The Bear*, the enthralling story of two women separated by millennia, but linked by an epic journey that will transform them both Forty thousand years in the past, the last family of Neanderthals roams the earth. After a crushingly hard winter, their numbers are

low, but Girl, the oldest daughter, is just coming of age and her family is determined to travel to the annual meeting place and find her a mate. But the unforgiving landscape takes its toll, and Girl is left alone to care for Runt, a foundling of unknown origin. As Girl and Runt face the coming winter storms, Girl realizes she has one final chance to save her people, even if it means sacrificing part of herself. In the modern day, archaeologist Rosamund Gale works well into her pregnancy, racing to excavate newly found Neanderthal artifacts before her baby comes. Linked across the ages by the shared experience of early motherhood, both stories examine the often taboo corners of women's lives. Haunting, suspenseful, and profoundly moving, **THE LAST NEANDERTHAL** asks us to reconsider all we think we know about what it means to be human. "My name is John Hams and I'm a sex addict." And so begins Dr. Chuck Tingle's first full length novel, **Helicopter Man Pounds Dinosaur Billionaire Ass**, a thrilling superhero origin story that will take you to the edge of gay erotic romance and stare bravely into the abyss. It is a story so powerful, so sensual, that it could change the very face of erotic literature forever. John Hams is a man who has lost it all, a nine-to-five nobody with an addiction to billionaire dinosaur bad boys. That is, until a freak accident at work imbues John with the ability to transform into an achingly handsome helicopter at will. Suddenly, things are looking up, as John uses his ability to woo the dashing stegosaurus from his addicts group who just happens to have a thing for rugged aircrafts. But it's not long before John's new helicopter identity starts to spin out of control, taking on a personality of its own as the wild and horny Chibs Pratt, chopper with abs. Can John Hams become the hardcore gay hero that he is destined to be, or is this shifter bound to be nothing more than his own worst enemy? The room itself is massive, as well, with another set of windows that fill the far wall from floor to ceiling and look out towards the distant Hollywood Hills. It's a corner unit, providing two completely unique, but equally breathtaking, views. I slowly strut across the hardwood floors on my landing skids towards Yorb, enjoying the way that his yellow dinosaur eyes flicker and dance across my metallic body. At this point, he can't help but stare. Seductively, I give my blades a quick flash of speed and hover up onto the bed, then crawl towards him, eventually positioning myself directly over his body. I take Yorb's hands carefully with two blades and pull them above his head, controlling him completely as I make my way down his ripped chest and scaly abs with a series of sensual helicopter kisses.

Boned By The Triceratops The Dino Love Bone Series, Book I Warning: Discretion advised. This is funny, explicit, and raunchy dinosaur erotica. It is not Mommy and Daddy's soft erotica and it is not suitable for children under the age of 18. Read at your own risk, only if you are ready to unleash your craziest desires and fantasies, or just want to laugh a lot. Madhu, the most celebrated cockdoll maker in her tribe and a rampant, unrepentant masturbator, is looking for satisfaction wherever she can find it. But if men and her toys continue to disappoint her, would she dare turn to the three-horned face triceratops, which mates across the valley? About the Author: Arrow Rivendell is clearly demented. After twenty years in a horrid cube farm, Arrow realized that true satisfaction can only come from dinosaur erotica. Living on Violet Circle, a place that's less of a neighborhood and more of an insane asylum poured into the street, I thought I was prepared for anything. After you've seen a woman strip down at the laundry room to wash the clothes she's wearing, then saunter across the street naked, you've seen it all, right? How naïve I was. After the factory closed, leaving me and a good portion of the town unemployed, I took a job managing Scarlet Toys. I knew it wouldn't be a typical work environment, selling adult toys in a town more uptight than a constipated nun, but some things you just never see coming. Like the protesters covered in poison ivy, screaming about smut peddlers. Or a dancing dinosaur named Fappy. Or the allure of the man standing in the center of all the chaos. Wyatt Lawson, a six foot, four inch heap of muscle with a quick smile, ignited my interest in more than the available manager position. Like the missionary one. Or the rodeo. Maybe the side rider. What can I say? I'm an overachiever. Let's just hope he doesn't scare easily. When Drake Hart's security team is hired to find a stalker, he has no idea what's in store for him. However, the day Zoey Lewis' picture lands in his lap, there's nothing he won't do to save her. He's always been quiet and shy, but seeing her changes everything. Zoey is missing a filter when it comes to interacting with people. She's used to being lost in her computer and being taken care of by her sister. She's an oddball, and people find it hard to deal with. But when Drake Hulk-smashes his way into her world, she doesn't feel so out of place. When Zoey is threatened and needs protection, will Drake save the day? With a body like his, all signs point to yes! Warning: He owns a security firm. She's a little nerdy. It's a classic trope and a recipe for sugary-sweet erotica! Hello There! Full-length romance novel with no cliffhangers and a happy-ever-after ending! Cambridge, England, 1905. Jane Porter is hardly a typical woman of her time. The only female student in Cambridge University's medical program, she is far more comfortable in a lab coat dissecting corpses than she is in a corset and gown sipping afternoon tea. A budding paleoanthropologist, Jane dreams of traveling the globe in search of fossils that will prove the evolutionary theories of her scientific hero, Charles Darwin. When dashing American explorer Ral Conrath invites Jane and her father to join an expedition deep into West Africa, she can hardly believe her luck. Africa is every bit as exotic and fascinating as she has always imagined, but Jane quickly learns that the lush jungle is full of secrets—and so is Ral Conrath. When danger strikes, Jane finds her hero, the key to humanity's past, and an all-consuming love in one extraordinary man: Tarzan of the Apes. Jane is the first version of the Tarzan story written by a woman and authorized by the Edgar Rice Burroughs estate. Its publication marks the centennial of the original Tarzan of the Apes. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied. The Wearle came to Erth to find out what happened to their previous group, who never returned. Gabriel, a young blue dragon, is desperate to prove his worth. But the dragons aren't alone in the mountains. Down beyond the scorch line, Ren, a young hom boy, is fascinated by the 'skalers'. Almost decimated by a raptor attack, Kera's tribe must relocate to somewhere safe. An experienced hunter herself, Kera is tasked with providing distraction while her people move their wounded to a new home, safe from the vicious dinosaurs bent on their destruction. When she unknowingly wanders into a raptor mating ground, she gains the attention of a young buck, itching to experience his first mating. Running would only cause his hunter instinct to come to the surface, so Kera stands her ground and discovers that some raptors are not all gnashing teeth and slashing claws. Some want the same things she does. Good sex with a willing partner. A rogue spaceship captain. A human scientist. An explosive attraction. Faith has spent the past eight years as a scientist locked in an alien research lab. When she finally manages to escape and finds out what the aliens are doing with her work, she is appalled and determined to stop their plans. The alien spaceship captain who unknowingly assisted her escape is going to help her shut down the lab - whether he wants to or not. And she's not going to let his massive body or the kind heart hidden behind his gruff facade distract her. Captain Athtar finally has his life exactly the way he wants it - he has his ship, his crew, and his freedom. No mouthy little human is going to interfere with any of that, no matter how much she tempts him or how much his instincts demand that he claim her. If only he weren't as tempted as much by her brilliant mind as by her luscious body. Can Faith and Athtar fight their overwhelming attraction long enough to defeat the evil scientists and stay ahead of the Imperial Fleet? And when the battle is over, can there be a future for the two of them? Each book in the Alien Abduction series features a different couple and can be enjoyed as a standalone romance. SPACE RAPTOR BUTT INVASION Space can be a lonely place, especially when you're stationed by yourself on the distant planet Zorbus. In fact, Lance isn't quite sure that can last the whole year before his shuttle pod arrives, but when a mysterious visitor appears at Lance's terraforming station, he quickly realizes that he might not be so alone after all. Soon enough, Lance becomes close with this mysterious new astronaut, a velociraptor. Together, they form an unlikely duo, which quickly begins to cross the boundaries of friendship into something much, much more sensual. It's not gay if it's a man and a dinosaur, is it? **SPACE RAPTOR BUTT REDEMPTION** After a year stationed on planet Zorbus, astronaut Lance Tanner and his raptor lover Orion return home to find that they are not greeted as heroes, but as villains. Unbeknownst to Lance, his space travels have been funded by the villainous Scoundrels Inc, a corporation that has deep ties to the illegal trade of unicorn tears and a destructive mining project at the core of the earth. Now Lance is on trial for a number of false charges; from having connections to the wicked Scoundrels, to being too strange for space. The opposing lawyer argues that space is only for serious astronauts, and that love between a raptor and a man is giving space travel a bad name. Lance is arguing that there's room to be weird in space. More importantly, Lance is arguing for the idea of love itself; that just because something comes out of darkness doesn't mean it can't become a beacon of light. Of course, this all culminates in a hardcore dinosaur on astronaut pounding that will have your jaw on the courtroom floor! **SPACE RAPTOR BUTT ASCENSION** Soon after blasting off on their mission to find refuge for the people of Earth 1 on the dinosaur inhabited Earth 2, Orion and his space raptor lover Lance find a spaceship stow away, the notorious CEO of Scoundrels Inc, Vam Dox. Vam claims that his intentions are pure, but it's hard to trust such a sad, strange man. After landing in Hugona, the planet capital of Earth 2, our heroes restrain Vam Dox and head off to secure an important diplomatic relationship with the pterodactyl president, but that's when all hell breaks loose. Soon, Vam Dox is storming the capital with a band of rabid dogs, and Lance and Orion are wrongly taking the blame! Fortunately, Lance and Orion know that the only cure for evil this strong is to prove their love in a hardcore gay encounter at the steps of the capital building. When the smoke clears, will Vam Dox be revealed as the super villain that he claims to be, or a meek, lonesome manbaby who is starved for attention? Trans wizard Harriet Porber is a master spellsmith who's found herself in a bit of a pickle. After finishing wizard college, Harriet made a name for herself by creating a hit viral spell, but has since failed to craft a follow up. Hoping for some peace and quiet to clear her head, Harriet Porber arrives to find that her new neighbor, an angsty bard named Snabe from the band Seven Inch Nails, is already there making a racket. This parasaurolophus spellcaster is a bad boy through and through, and with his incredible powers of metamagic, Snabe reveals that this layer of reality is much more than it seems. Could Harriet and Snabe really be characters in a parody romance novel? Soon enough, these two are discovering they have more similarities than differences: both trans, both strong, and both hoping to create a new spell that will change the world. But with the addition of two devious sentient motorcycles to the mix, Dellatrix and Braco, things start to get complicated. Now trans wizard Harriet Porber is caught up in a tale of magic and mystery where nothing is as it seems, except for one universal truth: love is real. This is a 52,000 word bad boy romance novel for adults. It contains some explicit scenes.

Four tales of sexy young woman screaming in mingled pain and pleasure as they're roughly taken by insatiable, hugely hung monsters. Included in this bundle are: Unstoppable - Lacey is a Space Marine, trained to be tough, trained to fight. But all her training won't help her when she finds herself alone and on the run from a hulking, massively hung alien monster in a remote research base. Her laser rifle won't stop it. Grenades won't stop it. The base's titanium-reinforced doors won't stop it. Nothing will stop it until it gets what it wants—to roughly have its way with the sexy young soldier. Taken by the Ogres – Furious at being forced into an arranged marriage, Arabella Stroud runs away from home to teach her overbearing father a lesson. But she makes the mistake of cutting through Stonemouth Forest, where she learns a lesson of her own when she's captured by a trio of ogres, and the huge, well-hung brutes roughly have their way with her. Like an Animal – Dr. Celestia Devereux of W.E.I.R.D.'s Cryptozoology Division has seen her share of unusual monsters. But the group's latest acquisition is different: The incredibly well-endowed beast clearly lusts after Celestia. Though she knows she shouldn't, she can't help teasing the captive monster with some tantalizing peeps of the body it wants so badly. It's just a little good-natured fun...until the hulking creature bursts from its supposedly escape-proof cell and roughly takes the sexy scientist. Deflowered by Bigfoot - When she joined W.E.I.R.D.'s Cryptozoology Division, innocent young Tammy Underwood knew she was in for some surprising experiences. But she never imagined she would wind up buck naked in the deep woods, serving as bait in a Bigfoot hunt. Nor could she imagine that the scheme would go awry, and she would find herself completely at the mercy of the rough beastman. Control dinosaurs. Tame women. Rule the world.
