Social Policies and Emotions

World Turned Upside Down, The: The Complex Partnership Between China And Latin

America Apr 24 2022 Acting as a Sorcerer's Apprentice, the West incorporated 1.3 billion Chinese and 1.2 billion Indians into the world's labour equation within a context of lower

production costs.

This resulted in erosion of its competitive capacity and social stability, while greatly benefiting

developing economies, many of which were able to emerge with unprecedented speed. With China

as the main engine, the developing economies have become increasingly integrated,

sustaining in the process a fundamental part of the global trade growth. While this phenomenon took

shape, excesses within Western economies generated a seismic crisis that dramatically

accelerated a slow decline. As the ascendant and

descendant curves of developing and developed economies are crossing each other, a decoupling tendency between both has become evident. The economic partnership between China and Latin America epitomizes well the growing integration between emerging economies. Even if mostly benefiting from it, Latin America is under the double sign of threat and opportunity due to this complex relation. For Latin America to succeed, it will need to reinvent itself. The analyses and information contained in this book will be of interest to researchers,

academics and policy-makers alike.

Las Derechas Radicales españolas en la época contemporánea

(1800-1975): Su influencia en América Latina Mar 31 2020 Las Derechas Radicales españolas, es decir, las alternativas políticas y sociales anti-liberales, monárquicas y autoritarias que nacen a comienzos del Siglo XX, tienen sus antecedentes en las propuestas antiliberales de la Iglesia Católica a lo largo del siglo XIX en combate contra el liberalismo naciente. El Nacional-Catolicismo, un proyecto nacionalista que une España con la religión católica, sirvió de base a un modelo de nacionalismo identitario, unitarista y antiliberal que se fundió en los años

20 del siglo XX con las ideologías europeas autoritarias y totalitarias sobre el Estado-Nación y el modelo social corporativo. El resultado es un proyecto antidemocrático y antiliberal basado en un Gobierno fuerte que concentra los poderes en un líder, en un ejército y en un movimiento político que argumentaba no ser ni de derechas, ni de izquierdas. La Dictadura de Primo de Rivera supuso la consolidación doctrinal de este proyecto nacionalista antiliberal, autoritario y corporativo que unió a las Derechas españolas durante la Segunda

República y el régimen Franquista.

Encyclopedia Corruption in the World Jan 02 2023 The publication of this encyclopedia by Professor Judivan J. Vieira, PhD, is driven more

by mission than editorial pursuits. The research is composed of five volumes, and it is the result of the author's willful work in a field of study that has been his passion since his graduation in law school in 1993. Corruption is inherent to the human being, and according to the author, it is a metastatic cancer capable of destroy any social doctrine, even our democracies. Throughout the five volumes, Judivan Vieira analyzes the various perspectives of this social "disease" that menaces hegemonic and underdeveloped countries. In the last volume of this encyclopedia, the

author offers the solution to remediate this disease of the soul, which prevents social well-being and relegates us to live in formal democracies that do not provide the minimum of social dignity peoples of the world deserves. El Ignorante Dec 09 2020 Una compleja red de niveles temporales entre los años '40 y nuestros días, entre los lugares más remotos, unidos únicamente por un conocimiento antiguo y oculto. Un poder oscuro que teje una lucha sin límites por el control del planeta, y una nueva lectura de la historia antigua hasta llegar a los acontecimientos que han marcado

nuestro tiempo. A la frontera entre la ciencia y las artes ocultas, la historia y el mito, El

Ignorante abre la puerta a un mundo difícil de entender, pero que todos, tarde o temprano, soñamos con explorar.

Cultures of War in Graphic Novels Mar 04 2023 Cultures of War in Graphic Novels examines the representation of small-scale and often less acknowledged conflicts from around the world and throughout history. The contributors look at an array of graphic novels about conflicts such as the Boxer Rebellion (1899-1901), the Irish struggle for national independence

(1916-1998), the Falkland War (1982), the Bosnian War (1992-1995), the Rwandan genocide (1994), the Israel-Lebanon War (2006), and the War on Terror (2001-). The book explores the multi-layered relation between the graphic novel as a popular medium and war as a pivotal recurring experience in human history. The focus on largely overlooked small-scale conflicts contributes not only to advance our understanding of graphic novels about war and the cultural aspects of war as reflected in graphic novels, but also our sense of the early twenty-first century, in which popular

media and limited conflicts have become closely interrelated.

Socio-ecological Studies in Natural Protected Areas

Feb 20 2022 This book explores the interactions of local inhabitants and environmental systems in the Protected Natural Areas of Mexico. Its goal is to help understand how social groups contextualize ecological knowledge, how human activities contribute to modifying the environmental matrix, how cultural and economic aspects influence the use, management and conservation of their ecological environment, and how social

phenomena are to be viewed against the backdrop of ecological knowledge. The book reviews the epistemological and historical bases of the socio-ecological relationship, and addresses the evolution of human-natural systems. From a methodological standpoint, it assesses the tools required for the integration of “human” and “natural” dimensions in the management of the environmental matrix. Further, in the case studies section, it reviews valuable recent experiences concerning the retro-interactions of local inhabitants with their environmental

matrix. Given its scope, the book offers a valuable asset for researchers and professionals all over the world, especially those working in Latin American countries. *Minerals Yearbook* Jul 28 2022 The *Minerals Yearbook* is an annual publication that reviews the mineral and material industries of the United States and foreign countries. Aborto y feminismo "escapa (por suerte) a las tipificaciones

disciplinarias y por ende resiste una lectura convencional", como bien señala el prólogo de este libro. Es una rigurosa constelación de genealogías y cartografías de las luchas por el derecho al aborto en Argentina, desde los años setenta hasta la actualidad. Por lo que se torna un material de lectura obligada tanto para el activismo callejero como para las especialistas varias. "Ningún libro da cuenta de todo", dice Mabel Bellucci; no obstante, realiza un notable esfuerzo por plasmar a lo largo de sus páginas una pluralidad de voces y de recorridos transitados

alrededor del "único lugar donde convergen todas las tendencias del feminismo": el aborto. Historia que es desobediente hasta en los modos en que se escribe. Historia que se entrecruza con otras historias y que a la vez de ser un punto de llegada necesario, se constituye como punto de partida para repensar los modos en los que se inscriben las pugnas por el aborto legal en el presente. Esto es algo que indaga y propone el libro: la potencia subversiva de los abortos que nos hacemos -y que por lo demás siempre nos hicimos- y la eficacia y resistencia política de hablar de y

sobre ellos. Teorizar la práctica es una de sus premisas. En ese sentido, su recorrido se entreteje en un diálogo fructífero, no siempre exento de tensiones, una lectura en la que la intervención política y la producción intelectual se encuentran íntima y necesariamente vinculadas. En ese entramado se evidencian los cruces entre diferentes grupos de afinidades. Se torna así un proyecto colectivo que es producto de esa urdimbre de cercanías político-afectivas. Si hubo un tiempo para el susurro fecundo, hoy es tiempo a viva voz. Historia de una

desobediencia. Aborto y feminismo es una de las bocas abiertas en ese grito compartido en un devenir minoritario de transmisión de legados. *Growing Up in Latin America* Sep 05 2020 Growing up in Latin America is a collection of essays centered on the representation of the political and historical agency of children and youth within the sociohistorical panorama of Latin American countries during the 20th and 21st centuries. Welfare and Party Politics in Latin America Aug 17 2021 Explores the variation in welfare and other social assistance policies in Latin America. Frontera argentino-paraguaya ante el espejo, La (eBook) Feb 29 2020 La

frontera argentino-paraguaya ante el espejo se centra en el análisis de las regiones del Gran Chaco y del Oriente de la República del Paraguay en el periodo histórico contemporáneo. En el contexto de la celebración del Bicentenario de la Independencia de la República del Paraguay (1811-2011), los autores y las autoras de este libro esperan que la obra permita

dibujar la porosidad y el paisaje de la zona que abre sus puertas en la Triple Frontera, en la región del Gran Chaco y en el espacio oriental paraguayo. La divulgación de la investigación colectiva, interuniversitaria e interdisciplinaria, del proyecto de investigación «Educación y ciudadanía: modelos de difusión de valores, instituciones democráticas y construcción del Estado en Paraguay» (2009-2012) es posible gracias a las subvenciones otorgadas por la Agencia Española de Cooperación Internacional y Desarrollo (AECID).

Latin America

and the Shifting Sands of Globalization Feb 08 2021 Latin America occupies an increasingly prominent position within the global political, economic and cultural consciousness, with intra-regional governance structures and multilateral processes now a key topic of interest to foreign policy and international business circles. It has become abundantly clear that outside of Latin America there is a poor understanding of how the shifting sands of regional power are impacting, not only on how regional countries fit into the global system, but also on how intra-regional

relations are viewed and managed. The contributions to this collection investigate these issues, examining how changing global power dynamics are in turn impacting on national foreign policies and regional governance structures. The book focuses first and foremost on the Latin American view outwards, not the US or European view to the south. This book was originally published as a special issue of the Journal of Iberian and Latin American Research. *Minerals Yearbook* May 26 2022 Reviews the mineral and material industries of the United States

and foreign countries. Contains statistical data on materials and minerals and includes information on economic and technical trends and development. Includes chapters on approximately 90 commodities and over 175 countries. China And Latin America: Economic And Trade Cooperation In The Next Ten Years Jun 26 2022 The international financial crisis in 2008 marked the beginning of important changes in the international economic system. The emerging market economies are increasingly becoming a driving force for the global economic growth. Under such

circumstances, the Sino-Latin American economic and trade cooperation has entered a new period of historical opportunity. Based on the economic development trend and the adjustment of policy, this book explores the prospect for Sino-Latin American economic and trade cooperation. It tracks the development path for this cooperation in the next 10 years by analyzing resource endowment, industrial structure, economic system, development pattern, basic economic policy, economic environment, economic and trade relations between China and Latin

America . *Estado, sociedad y políticas públicas* Jan 10 2021 El objetivo principal de esta obra apunta a la formación ciudadana de quienes transitan sus primeros cursos en la Universidad. Tal propósito descansa en la convicción de que, independientemente de la orientación profesional que se siga en la Universidad, es fundamental el aprendizaje de conceptos básicos que contribuyan a la solidez y responsabilidad cívica de los hombres y mujeres que egresen de sus aulas. Por eso, tras proporcionar herramientas y nociones teóricas sobre la sociedad, el Estado y el papel

ciudadano en la interacción de ambos, los distintos capítulos recorren las diferentes etapas históricas de la vida cívica en nuestro país a lo largo de los aproximadamente 150 años que van desde la formación del Estado nacional hasta el presente.

Social, Political, and Religious Movements in the Modern Americas

Oct 19 2021 This volume explores several notable themes related to social, political, and religious movements in Latin America and offers insightful historical perspectives to understand national, regional, and global issues from the beginning of the twentieth century to the present day. This volume's collected chapters focus on the Latin American

society and are divided into three sections. The first section, Social, presents some cultural, demographic, and urban changes that have occurred with increasing frequency in Latin America from the early twentieth century onward. The second section, Political, shows migratory, political, and identity movements that in recent decades have re-emerged with force. Finally, the third section, Religious, analyzes various Latin American religious visions with their particular characteristics. From the religious hegemony of Catholicism, a change in the religious panorama

in the last decades can be seen intermingled with politics, history, and society.

Cephalopod Culture

Sep 29 2022

Cephalopod Culture is the first compilation of research on the culture of cephalopods. It describes experiences of culturing different groups of cephalopods:

nautilus, sepioids (Sepia officinalis, Sepia pharaonis, Sepiella inermis, Sepiella japonica Euprymna hyllebergi, Euprymna tasmanica), squids (Loligo vulgaris, Doryteuthis

opalescens, Sepioteuthis lessoniana) and octopods (Amphioctopus aegina, Enteroctopus megalocyathus, Octopus maya, Octopus mimus, Octopus minor, Octopus vulgaris, Robsonella fontaniana). It also includes the main conclusions which have been drawn from the research and the future challenges in this field. This makes this book not only an ideal introduction to cephalopod culture, but also a valuable resource for those already involved in this topic.

Social Policies

and Emotions Dec

29 2019

This book analyzes the connections between social policies and politics of sensibilities. The authors show how social policies build sociabilities, experiences and sensibilities, producing processes of conflict avoidance and consecration of the given. After discussing violence against women as a case study in order to understand the current state of social policies, the authors then describe how the “place” and “value” of education have become central features to social policies in order to

disband conflict. Finally, they explain the emergence of a social phenomenon in the last sixteen years in Latin America and particularly Argentina: the compensatory consumption system and the resulting emergence of the "assisted citizen."

Comparative Studies in Asian and Latin American Philosophies Apr 12 2021

Comparative philosophy is an important site for the study of non-Western philosophical traditions, but it has long been associated with "East-West" dialogue. Comparative Studies in Asian

and Latin American Philosophies shifts this trajectory to focus on cross-cultural conversations across Asia and Latin America. A team of international contributors discuss subjects ranging from Orientalism in early Latin American studies of Asian thought to liberatory politics in today's globalized world. They bring together resources including Latin American feminism, Aztec teachings on ethics, Buddhist critiques of essentialism, and Confucian morality. Chapters address topics such as educational reform, the social practices surrounding breastfeeding, martial arts as

political resistance, and the construction of race and identity. Together the essays reflect the philosophical diversity of Asia and Latin America while foregrounding their shared concerns on issues of Eurocentrism and coloniality. By bringing these critical perspectives to bear on the theories and methods of cross-cultural philosophy, Comparative Studies in Asian and Latin American Philosophies offers new insights into the nature and practice of philosophical comparison. **Higher Education and Civic Engagement** Dec 21 2021 Provides

an original and challenging contribution to contemporary debates on the civic purpose of higher education, exploring its manifestations through practices of teaching and research. Offers critical perspectives on the role of higher education institutions in terms of realizing civic missions, especially in current global market conditions.

The Left Hand of Capital Mar 24

2022 Original and comprehensive examination of Chilean political and economic development since the end of the Pinochet military regime in 1990. In *The Left Hand of Capital*, Fernando Ignacio Leiva

provides a theoretically grounded analysis of the last thirty years of socioeconomic policies in Chile, beginning at the end of the Pinochet military regime in 1990. He skillfully probes how innovative center-left politico-economic initiatives transformed the state's relationships with the country's urban poor, indigenous peoples, workers, students, and business elites, thereby contributing to institutionalize, legitimize, and renew Chile's neoliberal system of domination. Leiva documents how such politics, progressive in appearance, were pivotal in forging

new arts of domestication, "participatory" social control mechanisms, and commodified subjectivities. This landmark book guides us into a deeper awareness about the limitations of center-left politics, not only in Chile, but elsewhere in the Americas and Western Europe as well. At a time when far-right movements seem to be growing in the Global South, Europe, and the United States, this book offers valuable insights into the predicament of social democracy and how, as in Chile and in the context of global neoliberalism, it can become the "left hand of

capital." Fernando Ignacio Leiva is Professor of Latin American and Latino Studies at the University of California Santa Cruz and the author of Latin American Neostructuralism: The Contradictions of Post-Neoliberal Development. **Los sistemas de pensiones en la encrucijada** Dec 01 2022 Los sistemas de pensiones se han ubicado en el centro del debate sobre la protección social y, debido a los elevados compromisos de gasto público que generan, son también un eje fundamental de la política fiscal en la región. En la actualidad, cerca de 50 millones de personas en

América Latina tienen 65 años o más; en 2065, alrededor de 200 millones de personas conformarán dicho grupo etario, lo que consolidará a los sistemas de pensiones como una de las principales fuentes de gasto público y uno de los ejes más importantes de las políticas de protección social. Este libro expone los desafíos de la sostenibilidad de los sistemas de pensiones. Dicha sostenibilidad es un concepto integral que incluye al menos tres dimensiones: la cobertura adecuada, la suficiencia de las prestaciones y la sostenibilidad financiera.

Encontrar el equilibrio entre estas tres dimensiones, sin que ninguna de ellas ponga en riesgo a las demás, será fundamental para asegurar una senda de sostenibilidad para los sistemas de pensiones en América Latina. La encrucijada de los sistemas de pensiones en América Latina responde a una perspectiva más amplia sobre protección social que requiere alcanzar la sostenibilidad considerando a la vez los desafíos que representan el desacelerado crecimiento económico, el envejecimiento de la población, la informalidad de los

mercados laborales y las brechas de género presentes en la región.
