**The Timber Press Guide to Vegetable  
Gardening in the Mountain States** Jun 08  
2021 Growing vegetables requires regionally  
specific information—what to plant, when to  
plant it, and when to harvest are based on  
climate, weather, and first frost. The Timber  
Press Guide to Vegetable Gardening in the  
Mountain States tackles this need head on, with

regionally specific growing information written  
by local gardening expert, Mary Ann  
Newcomer. This region includes Idaho,  
Montana, Wyoming, Utah, Colorado, eastern  
Washington and Oregon, northern Nevada, and  
the southernmost parts of Alberta and  
Saskatchewan. Monthly planting guides show  
exactly what you can do in the garden from  
January through December. The skill sets go  
beyond the basics with tutorials on seed saving,  
worm bins, and more.

considerable gardening experience and  
expertise, as well as leaning on the wisdom of  
the people he calls "the Zen Masters of the  
Western Garden," David Wann gathers a mix of  
stories, how-to advice, and simple, doable  
projects that are ideal for gardeners in the high  
and arid landscapes of the West. This covers  
topics such as strategic gardening (how to coax  
fruits and vegetables from a sun-parched  
garden), pest-proof planting, choosing the right  
varieties of edibles for the region, how to  
become a seed-starting maniac, a Farmer's  
Almanac approach to gardening (plant peas  
when the first cottonwood leaves appear!), as

well as profiles of colorful local gardens and gardeners.

*Florida Month-by-Month Gardening* Apr 06 2021 Your guide to all types of gardening in the Sunshine State. Written by beloved Florida gardening expert Tom MacCubbin, *Florida Month-by-Month Gardening* is the perfect companion book to our *Florida Getting Started Garden Guide*. Inside, MacCubbin presents a foolproof monthly breakdown of exactly what

you should plant in Florida's peninsular climate, exactly when you should plant it for the best seasonal success, and exactly how to take care of it. From annuals to vegetables, lawns, trees, and perennials, this book is as straightforward as it gets: simply look up any given month and you'll find a complete gardening guide for every plant category, with advice for planning, planting, care, watering, fertilizing, and overcoming problems typically encountered by Florida gardeners during that time of year. Of course, like our other gardening guides, *Florida Month-by-Month Gardening* is fully illustrated with gorgeously colored "here's how" step-by-step and plant photography. So whether you're hoping for violets in Tallahassee, planting a Simpson's stopper in Orlando, or simply wondering where (or when) to start, *Florida Month-by-Month Gardening* helps you take your first steps toward mastering the Florida gardening landscape. For our full introduction to gardening in Florida, we also recommend companion books *Florida Getting Started Garden Guide* and *Florida Fruit & Vegetable Gardening*.

**The Book of Gardening Projects for Kids**

Oct 13 2021 "What better way to begin to explore the natural world than to experience the magic and beauty of a family garden." —Arden Bucklin-Sporer, author of *How to Grow a School Garden* Many gardeners find that once they have children gardening goes the way of late-night dinner parties and Sunday morning sleep-ins. Raising kids and maintaining a

garden can be a juggling act, leaving the family garden forgotten and neglected. But kids can make great gardening companions, and the benefits of including them are impossible to ignore. Gardening gets kids outdoors and away from television and video games, increases their connection to plants and animals, and helps build enthusiasm for fresh fruits and vegetables. Their involvement becomes the real harvest of a family garden. In *The Book of Gardening Projects for Kids*, Whitney Cohen and John Fisher draw on years of experience in the Life Lab Garden Classroom and gardening with their own children to teach parents how to integrate the garden into their family life, no matter its scope or scale. The book features simple, practical gardening advice, including how to design a play-friendly garden, ideas for fun-filled theme gardens, and how to cook and preserve the garden's bounty. 101 engaging, family-friendly garden activities are also featured, from making Crunch-n-Munch Vegetable Beds and Muddy Miniature Masterpieces to harvesting berries for Fresh Fruity Pops.

**New York & New Jersey Month-by-Month Gardening**

Aug 11 2021 Gardeners living in New York or New Jersey need this easy-to-use guide for year-round plant care! *A History of Gardening in 50 Objects* Jul 10 2021 The earliest record of an enclosed space

around a homestead come from 10,000 BC and since then gardens of varying types and ambition have been popular throughout the ages. Whether ornamental patches surrounding wild cottages, container gardens blooming over unforgiving concrete or those turned over for growing produce, gardens exist in all shapes and sizes, in all manner of styles. Today we benefit from centuries of development, be it in the cultivation of desirable blossom or larger fruits, in the technology to keep weeds and lawn at bay or even in the visionaries who tore up rulebooks and cultivated pure creativity in their green spaces. George Drower takes fifty objects that have helped create the gardening scene we know today and explores the history outside spaces in a truly unique fashion. With stunning botanical and archive images, this lavish volume is essential for garden lovers. *The Art of Gardening* Jan 16 2022 "Delightful!" —The New York Times Book Review Discover a world of beauty and creativity! Two self-proclaimed "crotchety old horticulture professors," Ed O'Rourke and Leon Standifer share an immense love of gardening, a vast knowledge of all things horticultural, and a hearty sense of humor. In *Gardening in the Humid South*, they combine all of these traits to provide a practical and entertaining guide to gardening in the region they know best, the humid subtropics of the lower South. In chapters with titles like "Bulbs and Things That Act Like Bulbs" and "Weeds: Telling Good Guys from Bad Guys," Ed and Leon offer friendly how-to advice on a broad array of issues, including choosing and preparing a cultivation site, raising fruit, growing in containers, using fertilizer, and preparing for cold weather. Regardless of your gardening style, Ed and Leon can help. Are you a weekend warrior who enjoys leisurely Saturday mornings in the yard? Ed and Leon will show you ways to improve your garden while cutting back on your total effort. Is your yard large enough to keep you busy all day, every day? Ed and Leon know some short cuts that you probably haven't tried.

Are you an apartment gardener with only a window sill and a few old pots to cultivate? Ed and Leon have some tips just for you. Even armchair gardeners will delight in living vicariously through the agricultural antics of these witty and wise old hands. In *Gardening in the Humid South*, two old friends share their contagious enthusiasm for their avocation and show that despite the hard work, gardening is, above all, fun.

**A New Garden Ethic** May 20 2022 In a time of climate change and mass extinction, how we garden matters more than ever: "An outstanding and deeply passionate book." —Marc Bekoff, author of *The Emotional Lives of Animals* Plenty of books tell home gardeners and professional landscape designers how to garden sustainably, what plants to use, and what resources to explore. Yet few examine why our urban wildlife gardens matter so much—not just for ourselves, but for the larger human and animal communities. Our landscapes push aside wildlife and in turn diminish our genetically programmed love for wildness. How can we get ourselves back into balance through gardens, to speak life's language and learn from other species? Benjamin Vogt addresses why we need a new garden ethic, and why we urgently need wildness in our daily lives—lives sequestered in buildings surrounded by monocultures of lawn and concrete that significantly harm our physical and mental health. He examines the psychological issues around climate change and mass extinction as a way to understand how we are short-circuiting our response to global crises, especially by not growing native plants in our gardens. Simply put, environmentalism is not political; it's social justice for all species marginalized today and for those facing extinction tomorrow. By thinking deeply and honestly about our built landscapes, we can

create a compassionate activism that connects us more profoundly to nature and to one another.

Take a stroll through the garden of a self-confessed hortimaniac. Gardening is Marie Harrison's avocation, passion . . . some might say, obsession. In her personal, witty style (she refers to her husband as Amiable Spouse, or A.S. for short), Marie divulges her own tried-and-true ways of gardening along the coasts of the southeast United States. Marie covers perennials, flowers grown from bulbs, herbs, shrubs and small trees, vines, edible flowers, and herbs for flower borders. A section of full-color photos captures these beautiful plants and flowers in all their vibrant glory. Charming pen-and-ink illustrations are sprinkled throughout the text. Marie discusses the edible and medicinal properties of various plants (there's even a quick tip or two!), as well as coastal considerations such as salt tolerance; environmental issues such as pesticide use, beneficial insects, and exotic invasives; and gardening for birds and butterflies. She also offers her musings on the seasons in Florida and how she spends her time in the garden during each phase of the year. Whether you're seasoned gardener like Marie or a tentative beginner just starting out with a windowsill herb garden, this delightful book will make you appreciate the dirt under your fingernails.
