TARGET AIIMS NORCET 2020 - PART 2 (WITH 100 PAPER SETS) ON GOOGLE Nov 22 2021
More than 9999 MCQs (With 100 Paper Sets) focused on Competitive Exams. Team of Experienced and specialist professionals to design and offer best quality Competitive material for Healthcare professional to excel in Competitive exams and also increase the Patient Safety standards in the country

Engineering Drawing: For PTU Mar 07 2023 Engineering Drawing: For PTU has been tailor-made for students of Punjab Technical University. It brings together the theoretical and practical aspects of engineering drawing. Not only are the diagrams in this book neat and precise, but each of them is also accompanied by an easy-to-understand and logical step-by-step method of drawing. Care has been taken to provide students with relevant study material to help them tackle their university examinations. To that end, three solved university question papers have been appended to the book in addition to a compilation of model short-answer questions.

Concepts of Modern Engineering Physics Jan 25 2022 Although Concepts of Modern Physics was the first book covering the syllabi of Punjab Technical University, Jalandhar and it was accepted whole-heartedly by students and teachers alike. However, due to the repeated changes of syllabi of P.T.U. as it being a new university, the book had to be revised and some of the chapters become redundant as these were replaced by new topics. Though the book was revised with the additional chapters, the discarded chapters also formed the part of the book.

Basic Electrical and Electronics Engineering: Apr 03 2020 Basic Electrical and Electronics Engineering provides an overview of the basics of electrical and electronic engineering that are required at the undergraduate level. The book allows students outside electrical and electronics engineering to easily

Engineering Mathematics - I: For PTU Mar 15 2021 Engineering Mathematics-I: For PTU is the only book in the market catering to the needs of the latest university syllabus (revised in 2011) of Punjab Technical University. It is an ideal companion for students and covers all the topics taught to first-year students of PTU as a part of their Engineering Mathematics-I course. With more than 500 solved problems and over 300 practice exercises, this edition will help students tackle their examinations with ease. Over the last three years, more than 30 questions from this book have appeared in the university question paper.

Manufacturing Processes 1 Jul 07 2020 The book series on manufacturing processes for engineers is a reference work for scientific and industrial experts. This volume on Turning, Milling and Drilling starts from the basic principles of machining with geometrically defined cutting edges based on a common active principle. In addition, appropriate tool designs as well as the reasonable use of cutting material are presented. A detailed chapter about the machinability of the most important workpiece materials, such as steel and cast iron, light metal alloys and high temperature resistant materials imparts a broad knowledge of the interrelations between workpiece materials, cutting materials and process parameters. This book is in the RWTH Edition Series as are the other four volumes of the reference work.

Recent Developments in Alcoholism Jan 13 2021 From the President of the Research Society on Alcoholism The field of alcohol research has been slowly but continuously evolving, taking into its domain an ever-increasing array of scientific disciplines. This series is designed to fill the need for a review publication that covers the broad range of research into alcohol actions and alcoholism. Research in alcohol concerns social, epidemiological, and legal concerns in addition to biomedical and behavioral topics to greater degree than research with many other drugs. A publication devoted to alcohol research should serve the broadest existing research community, but perhaps more important, it should also provide a means to recruit new investigators with fresh approaches to the field. We can and must demonstrate that legitimate, high-quality research is being done, but we must also highlight the opportunity for new workers to make a real impact on the problem. The Research Society on Alcoholism seeks to provide such a service not only through this publication but also through other activities.

Richard A. Deitrich, Ph.D.
