The Film Criticism of Otis Ferguson May 01 2023

The Four Faces of Nuclear Terrorism Oct 14 2021 First Published in 2005. Routledge is an imprint of Taylor & Francis, an informa company.

Introduction to Linear Algebra in Geology Nov 02 2020 Introduction to Linear Algebra in Geology introduces linear algebra to students of geology and explores the possibilities of using the techniques as an aid to solving geological problems which can be solved numerically. A basic knowledge of geology is assumed.

The Plessy Case Aug 31 2020 In 1896 the U.S. Supreme Court case Plessy v. Ferguson upheld "equal but separate accommodations for the white and colored races" on all passenger railways within the state of Louisiana. In this book, Lofgren traces the roots of this landmark case in the post-Civil War South and pinpoints its moorings in the era's constitutional, legal, and intellectual doctrines. Set against a backdrop of social flux wherein scientists and social scientists were proclaiming black racial inferiority and lower courts were embracing separate-but-equal in ordinary law suits, the ruling readily became law of the land. Within this context, a group of New Orleans blacks launched a judicial challenge to Louisiana's Separate Car Law, and carried the case to the Supreme Court, where the resulting opinions by Justices Henry Billings Brown and John Marshall Harlan pitted legal doctrines and "expert" opinion about race against the idea of a color-blind Constitution. Lasting over half a century, the Plessy decision was overturned in the 1954 Supreme Court case Brown v. Topeka School Board--a case whose reasoning was based on the eloquent dissent by Justices Brown and Harlan. A brilliant look at the intellectual premises that shaped this important episode in the history of law and race in America, The Plessy Case probes into the dynamics of an issue that still poses troubling questions about racial classification and citizenship in the continuum of legal change.

Global Shadows Sep 12 2021 DIVA collection of Ferguson's essays that bring the question of Africa into the center of current debates on globalization, modernity, and emerging forms of world order./div

Researching the Public Opinion Environment Mar 26 2020 Table of Contents

The Science of Pleasure Jan 23 2020 In this rich and original work, the author argues that science is the highest expression of bourgeois thought and whilst it may have liberated mankind, it has also devised new forms of repression, discipline and control.

Golden Rule Sep 24 2022 "To discover who rules, follow the gold." This is the argument of Golden Rule, a provocative, pungent history of modern American politics. Although the role big money plays in defining political outcomes has long been obvious to ordinary Americans, most pundits and scholars have virtually dismissed this assumption. Even in light of skyrocketing campaign costs, the belief that major financial interests primarily determine who parties nominate and where they stand on the issues—that, in effect, Democrats and Republicans are merely the left and right wings of the "Property Party"—has been ignored by most political scientists. Offering evidence ranging from the nineteenth century to the 1994 mid-term elections, Golden Rule shows that voters are "right on the money." Thomas Ferguson breaks completely with traditional voter centered accounts of party politics. In its place he outlines an "investment approach," in which powerful investors, not unorganized voters, dominate campaigns and elections. Because businesses "invest" in political parties and their candidates, changes in industrial structures—between large firms and sectors—can alter the agenda of party politics and the shape of public policy. Golden Rule presents revised versions of widely read essays in which Ferguson advanced and tested his theory, including his seminal study of the role played by capital intensive multinationals and international financiers in the New Deal. The chapter "Studies in Money Driven Politics" brings this aspect of American politics into better focus, along with other studies of Federal Reserve policy making and campaign finance in the 1936 election. Ferguson analyzes how a changing world economy and other social developments broke up the New Deal system in our own time, through careful

studies of the 1988 and 1992 elections. The essay on 1992 contains an extended analysis of the emergence of the Clinton coalition and Ross Perot's dramatic independent insurgency. A postscript on the 1994 elections demonstrates the controlling impact of money on several key campaigns. This controversial work by a theorist of money and politics in the U.S. relates to issues in campaign finance reform, PACs, policymaking, public financing, and how today's elections work.

The Anti-Politics Machine Jan 05 2021 Attributes Canadian withdrawal from the Thaba-Tseka rural development project largely to problems accompanying the expansion of state power ("etatization"). Includes an introductory literature survey on development planning and evaluation in general.

Liz Lerner Aug 12 2021 By Russell Ferguson.

The Broadcast Television Industry May 21 2022 This is the first look at the particular strengths and weaknesses of broadcast television written during the new age of television: an era that includes cable, home video, and digital satellite systems as competing distribution systems. The Broadcast Television Industry is a current, comprehensive review of the dominant distributor of television programming in the United States. The book reviews the history and current practices of both commercial and public television. Separate chapters explore the regulation of television, the operation of local stations and national networks, audience research, the impact of our most pervasive medium, and the future of broadcasting as a means of television distribution in an increasingly competitive environment. Broadcast and cable television managers and employees. Part of the Allyn & Bacon Series in Mass Communication

Projects Jun 29 2020 For weeks, or even months she immerses herself in a community or cultural milieu--lesbians, drag queens, Ohio Trailer-park dwellers, skateboarders, senior citizens, Hispanic or Japanese street kids--meticulously adopting its codes of dress and behavior and its living habits. Maurice Berger, *Art Journal*

The Heritage of Hellenism Dec 24 2019

Law and Letters in American Culture Nov 26 2022 Argues that after the American Revolution lawyers replaced clergy as the dominant intellectual force, and looks at how legal educations affected the aesthetics of early American writers

Shopping for Pleasure Dec 04 2020 In *Shopping for Pleasure*, Erika Rappaport reconstructs London's Victorian and Edwardian West End as an entertainment and retail center. In this neighborhood of stately homes, royal palaces, and spacious parks and squares, a dramatic transformation unfolded that ultimately changed the meaning of femininity and the lives of women, shaping their experience of modernity. Rappaport illuminates the various forces of the period that encouraged and discouraged women's enjoyment of public life and particularly shows how shopping came to be seen as the quintessential leisure activity for middle- and upper-class women. Through extensive histories of department stores, women's magazines, clubs, teashops, restaurants, and the theater as interwoven sites of consumption, *Shopping for Pleasure* uncovers how a new female urban culture emerged before and after the turn of the twentieth century. Moving beyond the question of whether shopping promoted or limited women's freedom, the author draws on diverse sources to explore how business practices, legal decisions, and cultural changes affected women in the market. In particular, she focuses on how and why stores presented themselves as pleasurable, secure places for the urban woman, in some cases defining themselves as instrumental to civic improvement and women's emancipation. Rappaport also considers such influences as merchandizing strategies, credit policies, changes in public transportation, feminism, and the financial balance of power within the home. *Shopping for Pleasure* is thus both a social and cultural history of the West End, but on a broader scale it reveals the essential interplay between the rise of consumer society, the birth of modern femininity, and the making of contemporary London.

The Politics of Judgment May 28 2020 Drawing on recent contributions to philosophy, economics, cultural studies, feminism, psychology, and anthropology, *The Politics of Judgment* demonstrates how modern political identities depend upon and are formed by aesthetic judgment.

Faulkner's Short Fiction Mar 31 2023 This comprehensive overview of William Faulkner's short fiction is a systematic study of this body of work, which Faulkner produced over a period of forty years. The author examines Faulkner's struggle to master the special problems posed by the genre. The book is organized topically. A chronological survey of Faulkner's career as a writer of short fiction is followed by chapters devoted to aspects of Faulkner's craft: thematic patterns, points of view, and other technical and formal patterns. The author offers a frank assessment of Faulkner's failures and successes as a writer of short fiction.

Land of Lincoln Jun 09 2021 Before he grew up and became one of Washington's most respected reporters and editors, Andrew Ferguson was, of all things, a Lincoln buff. Like so many sons of Illinois before him, he hung photos of Abe on his bedroom wall, memorized the Gettysburg Address, and read himself to sleep at night with the Second Inaugural or the Letter to Mrs. Bixby. Ferguson eventually outgrew his obsession. But decades later, his latent buffdom was reignited by a curious headline in a local newspaper: Lincoln Statue Stirrs Outrage in Richmond. Lincoln? thought Ferguson. Outrage? I felt the first stirrings of the fatal question, the question that, once raised, never lets go: Huh? In *Land of Lincoln*, Ferguson embarks on a curiosity-fueled coast-to-coast journey through contemporary Lincoln Nation, encountering everything from hatred to adoration to opportunism and all manner of reaction in between. He attends a national conference of Lincoln impersonators in Indiana; seeks out the premier collectors of Lincoln memorabilia from California to Rhode Island; attends a Dale Carnegie-inspired leadership conference based on Lincoln's management style; drags his family across the three-state-long and now defunct Lincoln Heritage Trail; and even manages to hold one of five original copies of the Gettysburg Address. Along the way he weaves in enough history to hook readers of presidential biographies and popular histories while providing the engaging voice and style of the best narrative journalism. Ultimately, *Land of Lincoln* is an entertaining, unexpected, and big-hearted celebration of Lincoln and his enduring influence on the country he helped create.

Mirroring Belief Feb 03 2021 Largely on the basis of her great prose work *L'Heptameron*, Marguerite de Navarre has been accepted as an important writer of the French Renaissance. At the same time, surprisingly little attention has been devoted to the poems and verse plays which constitute such an important part of her literary legacy. Gary Ferguson uses his detailed knowledge of the richness of sixteenth-century devotional writing to re-assess Marguerite de Navarre's poetry. He shows that this genre was of particular importance during the period of religious confusion of the early Reformation, since it combines elements of both mystical and theological writing. From this basis, Ferguson offers a re-evaluation of the poetry of this devout thinker, revealing her views on issues as fundamental as the nature of justification; the role of the Church and the sacraments; the problem of faith and works; and the question of the Bible and its interpretation. The conclusion reached is that the religious questions Marguerite explores within her poetry are not only central to her own writings, but also to her age.

High Stakes, No Prisoners Dec 28 2022 *High Stakes, No Prisoners* is a sharp, brilliant insider's account of the way Silicon Valley really works: the sharks, powerful incumbents, and old-boy networks who play hardball all the time and the geniuses who make the products that have changed the world. Charles Ferguson started Vermeer Technologies and turned his very cool, very big idea into FrontPage, the first software product for creating and managing a website. A mere twenty months after starting the company, he sold it to Microsoft for \$133 million, making a fortune for himself and his associates. FrontPage now has millions of users and is bundled with Microsoft Office. But getting there wasn't always fun. *High Stakes, No Prisoners* is the book about the Valley and reflects Ferguson's unique experience not only as a successful entrepreneur but also as a policy analyst, computer industry consultant, and academic. Reveals A Great Internet Success Story *High Stakes, No Prisoners* is a highly personal account of what it really takes to win as a high-technology startup, especially in the Internet industry, where any speed below warp nine doesn't get you to takeoff. From securing venture capital to getting both the strategy and the technology right, from dealing with Microsoft's power to working with some of the quirkiest, smartest people on the planet, it's all here. The Valley story has never been told with this much depth and honesty. Reports from the Trenches of the Internet Wars Vermeer was right in the middle of the battle between Microsoft and Netscape. Both companies wanted to either acquire Vermeer or kill it. Skewers the Sacred Cows of the Valley Yes, Microsoft declared war on Netscape, but the latter's demise was caused as much by itself as by Microsoft. Ferguson, for example, sees Jim Barksdale, the former CEO of Netscape, as arrogant, ignorant about technology, distracted by politics and glamour, and running a company in partnership with a twenty-three-year-old who'd never held a serious job before." Here's Netscape as it has never before been revealed. Explains the Real Problem with Microsoft Microsoft's business model is unquestionably one of the great creations of American business. But its power has become so great, its behavior so unrestrained, and its abuses so dangerous that intelligent action has to be taken. Ferguson's analysis of what must be done is a major contribution to one of the most important public-policy questions of our time. Silicon Valley is the crown jewel of the American economy and a critical driver of American technology. It's electric, addictive, vulgar, full of brilliance, brutally fair and brutally unfair, fiercely competitive, often dishonest, tremendously exciting, and utterly unique. With *High Stakes, No Prisoners*, the real story has finally been told--with frankness, insight, and great wit.

Jamaica Kincaid Apr 27 2020 As a writer who has been quoted as saying she writes to save her life- that is she couldn't write, she would be a revolutionary- Antiguan novelist Jamaica Kincaid translates this passion into searing, exhilarating prose. Her weaving of history, autobiography, fiction, and polemic has won her a large readership. In this first book-length study of her work, Moira Ferguson examines all of Kincaid's writing up to 1992, focusing especially on their entwinement of personal and political identity. In doing so, she draws a parallel between the dynamics of the mother-daughter relationship in Kincaid's fiction and the more political relationship of the colonizer and the colonized. Ferguson calls this effect the "doubled mother"- a conception of motherhood as both colonial and biological.

William James Jun 21 2022 William James is known today strictly as a philosopher of pragmatism. *Williams James: Politics in the Pluriverse* challenges this understanding. Kennan Ferguson argues that James should instead be known as the progenitor of pluralism, one of the most influential and durable American political philosophies of the twentieth century. James contended that engagement with the foreign, the difficult, and the uncomfortable makes us who we are. Rather than mitigating differences or attempting to resolve conflicts, he embraced them, wholeheartedly advocating the opportunity to be transformed. Pluralism, in the mind of the thinker who popularized the term, led to a more complex, more contentious, and far more interesting world. Ferguson traces the historical importance and contemporary possibilities of pluralism's original political insight. In this important work he examines the trajectory of pluralism in the United States and England, the mutual influences of turn-of-the-century American and European philosophical traditions, and the relationship between pluralism and James's active anti-imperialism. James's unexpected political concepts and commitments both illuminate political philosophy of the 20th century and challenge contemporary assumptions about the desirability of unanimity. Pluralism, not unity, should be the goal of both politics and philosophy.

Adam Ferguson Jan 29 2023 "Alongside his highly acclaimed *An Essay on the History of Civil Society* (1767) - widely regarded as a foundational work in sociology - he wrote pamphlets on political issues, composed texts on moral and political philosophy, and published a multi-volume history of the Roman Republic. Distinguished by its combination of the moral and the historical, his work is framed within a teleological outlook that upholds the importance of action and virtue in the emerging commercial society of the eighteenth century."--
BOOK JACKET.

Stormwater Infiltration Oct 26 2022 Stormwater infiltration is the most complete approach to stormwater management. Only infiltration can simultaneously solve problems of water quality, flood control, streambank erosion, aquifer recharge, and maintenance of downstream base flows and wetland hydroperiods. *Stormwater Infiltration* is the first book to explain the principles of natural science on which infiltration is based, how to apply infiltration to any region of the country, and what kinds of results can be expected. It brings into one publication

the complete range of necessary information on soils, vegetation, infiltration, hydrology, design criteria, site layout, construction process for surface and subsurface basins, porous paving materials, feasibility, maintenance, and performance. It draws more than half a century's actual experiences from all over the United States to place stormwater management in a context of environmental balance and quality for human life.

Bad Boys Jul 11 2021 DIVHow do schools identify African American males as "bad boys"? /div

Remaking Liberalism Feb 15 2022 Ferguson considers the thinking of four major Canadian political economists who developed their ideas while building the discipline of political economy at Queen's University. He demonstrates that the four clearly argued on behalf of the new liberalism, emphasizing individual rights and positive government, and suggests that their ideas reveal an intellectual position which differed from the imperialist and continentalist alternatives that dominated Canadian thinking at the time. Canadian call number: C93-090262-9. Annotation copyright by Book News, Inc., Portland, OR

Fools' Names, Fools' Faces May 09 2021 What do Bill Bennett and James Carville, Louis Farrakhan and Jennifer Flowers, Don Imus and Bill Moyers have in common? They all wish Andrew Ferguson had never heard of them. For ten years, Ferguson has prowled the fever swamps of American celebrity in search of frauds and mountebanks, and he has not been disappointed. No one who reads his jaundiced treatments of Robert McNamara, Frank Sinatra, Barbra Streisand, and a dozen other cultural icons will ever look at them in quite the same way.

The Passionate Society Feb 27 2023 Adam Ferguson (1723-1816) was a major figure of the Scottish Enlightenment whose thought was, in many respects, original and distinctive. This book is a study of his ideas and of the intellectual forces that shaped them. Though somewhat overlooked in the nineteenth century, Ferguson was rescued from obscurity in the first half of the twentieth century by scholars interested in the origins of sociology and early critiques of modernity. Ferguson's interest in the mechanics of social life and especially social change led him to many groundbreaking insights. In fact, he is sometimes identified as the 'Father of Modern Sociology'. In addition to exploring whether or not he merits this title, this study examines the whole of Ferguson's thought as a system and includes his moral and faculty psychology, historiography, theology, politics and social science. Ferguson is distinguished by his deep appreciation of the complexity of the human condition; his study of society is based on the belief that it is not only reason, but the unseen, unplanned, sub-rational and visceral forces that keep the human universe in motion. Ferguson's appreciation of this fact, and his ability to make social science of it, is his major achievement.

Samuel Ferguson and the Culture of Nineteenth-century Ireland Mar 19 2022 Samuel Ferguson (1810-86) was one of 19th-century Ireland's most influential writers, but his politics and cultural agenda have never been fully understood. This book draws on his neglected prose writings to illuminate his layered ideology, and to expose his various determining contexts, including his native Belfast and its Scottish Enlightenment hinterland, the Dublin University Magazine with its fraught literary-political protocol, the communities of the Ordnance Survey Commission, the Nation, and the Royal Irish Academy. Ferguson's guiding agenda is shown to be that of a civic idealism - a grassroots alternative to polarized political trajectories and a compelling ethos for a conflicted Irish Protestantism. The result is both a portrait of an individual in his time and a detailed engagement with Irish cultural politics from the Union to the Revival.

Samuel Ferguson Jul 23 2022 This book provides a critical assessment and examination of the prose and poetry of Ireland's Samuel Ferguson. It presents a clear understanding of the shape and purpose of Ferguson's career as a writer, which extended over half a century. The scholarly sources from which Ferguson extracted many of his themes are carefully examined, as are the times during which Ferguson lived and wrote. This book will be of great interest to students and scholars of Irish literature, and the politics and history of nineteenth century Ireland. CONTENTS Introduction; Early Periodical Writings; Hibernian Nights' Entertainments DEGREESR and Other Fiction; The 1840s: A New Beginning; Lays of the Western Gael and Other Poems I; Lays of the Western Gael and Other Poems II; Congal; Poems; Passing On; Notes; Samuel Ferguson: A Chronology; A Checklist of Samuel Ferguson's Published Writings; Bibliography; Index DEGREESR. Anasazi Ruins of the Southwest in Color Apr 07 2021 A well-illustrated survey of all the significant Anasazi sites.

Framing Pieces Mar 07 2021 He argues that the study of twentieth-century apparatus is crucial to the comprehension of the text it brackets and of the self-conscious, self-promoting, and self-elucidating and obscuring nature of the moderns gathered in this book.

An Ascendancy of the Heart Jan 17 2022

Wolf Stalker Dec 16 2021 Twelve-year-old Jack, his younger sister, and the family's teenage foster child Troy go to Yellowstone National Park, where Jack's mother, a wildlife veterinarian, is investigating the report that wolves reintroduced to the park have killed a dog there.

Solitude and the Sublime Aug 24 2022 First Published in 1992. Routledge is an imprint of Taylor & Francis, an informa company.

Farley's Jewel Jul 31 2020 A philosopher on sabbatical takes a cerebral journey through the angst of contemporary America.

Selected Writings Oct 02 2020 This unique collection portrays the early twentieth century short story writer, biographer, novelist, essayist, stenographer, and lawyer, Charles Waddell Chesnutt. Readers are shown how Chesnutt was, perhaps, the best African American literary signifier of his day. The volume opens with generous selections from his journals and published and unpublished essays, which document the writer's racial, literary, social, and economic milieu. Also included are the conjure stories, novel excerpts, selected literary

criticism, photos, and a list of related web sites for further research.

The Pity Of War Apr 19 2022 In *The Pity of War* , Niall Ferguson makes a simple and provocative argument: that the human atrocity known as the Great War was entirely England's fault. Britain, according to Ferguson, entered into war based on naïve assumptions of German aims—and England's entry into the war transformed a Continental conflict into a world war, which they then badly mishandled, necessitating American involvement. The war was not inevitable, Ferguson argues, but rather the result of the mistaken decisions of individuals who would later claim to have been in the grip of huge impersonal forces. That the war was wicked, horrific, inhuman, is memorialized in part by the poetry of men like Wilfred Owen and Siegfried Sassoon, but also by cold statistics. More British soldiers were killed in the first day of the Battle of the Somme than Americans in the Vietnam War; indeed, the total British fatalities in that single battle—some 420,000—exceeds the entire American fatalities for both World Wars. And yet, as Ferguson writes, while the war itself was a disastrous folly, the great majority of men who fought it did so with enthusiasm. Ferguson vividly brings back to life this terrifying period, not through dry citation of chronological chapter and verse but through a series of brilliant chapters focusing on key ways in which we now view the First World War. For anyone wanting to understand why wars are fought, why men are willing to fight them, and why the world is as it is today, there is no sharper nor more stimulating guide than Niall Ferguson's *The Pity of War* .

Lays of the Western Gael, 1865 Feb 24 2020 Samuel Ferguson (1810-86) was born in Belfast into a declining Ascendancy family. He gave up a career as a lawyer in 1867 to become an archivist at Dublin Castle. In 1848, he founded the Protestant branch of the 'Repeal Association', but soon reverted to more conservative opinions, and was knighted in 1878. His conservatism did not prevent him from exercising a significant influence on Irish nationalism through his poems and verse translations, and by his indefatigable antiquarian studies. *Lays of the Western Gael* is Ferguson's most important collection of poems: in it he rendered for the first time in English verse many Gaelic poems that were to become an inspiration to later generations of Irish poets. He declared that it had been his ambition to make 'the voice of this despised people of ours heard high up Olympus', and the critic and poet T.W. Rolleston later claimed that Ferguson was 'the true father and originator of the movement we are carrying on today'.
