Volume 2 of A Comparative History of Literatures in the Iberian Peninsula brings to an end this collective work that aims at surveying the network of interliterary relations in the Iberian Peninsula. No attempt at such a comparative history of literatures in the Iberian Peninsula has been made until now. In this volume, the focus is placed on images (Section 1), genres (Section 2), forms of mediation (Section 3), and cultural studies and literary repertoires (Section 4). To these four sections an epilogue is added, in which specialists in literatures in the Iberian Peninsula, as well as in the (sub)disciplines of comparative history and comparative literary

history, search for links between Volumes 1 and 2 from the point of view of general contributions to the field of Iberian comparative studies, and assess the entire project that now reaches completion with contributions from almost one hundred scholars. For more than six hundred years--that is, since Magna Carta, in 1215--there has been no clearer principle of English or American constitutional law, than that, in criminal cases, it is not only the right and duty of juries to judge what are the facts, what is the law, and what was the moral intent of the accused; but that it is also their right, and their primary and paramount duty, to judge of the justice of the law, and to hold all laws invalid, that are, in their opinion, unjust or oppressive, and all persons guiltless in violating, or resisting the execution of, such laws. Unless such be the right and duty of jurors, it is plain that, instead of juries being a "palladium of liberty"--a barrier against the tyranny and

oppression of the government--they are really mere tools in its hands, for carrying into execution any injustice and oppression it may desire to have executed. But for their right to judge of the law, and the justice of the law, juries would be no protection to an accused person, even as to matters of fact; for, if the government can dictate to a jury any law whatever, in a criminal case, it can certainly dictate to them the laws of evidence. That is, it can dictate what evidence is admissible, and what inadmissible, and also what force or weight is to be given to the evidence admitted. And if the government can thus dictate to a jury the laws of evidence, it can not only make it necessary for them to convict on a partial exhibition of the evidence rightfully pertaining to the case, but it can even require them to convict on any evidence whatever that it pleases to offer them.

held at the University of Washington in Spring 2002. In the volume, scholars from North America and Europe address a broad spectrum of research topics in historical English linguistics, including new theories/methods such as Optimality Theory and corpus linguistics, and traditional fields such as phonology and syntax. In each of the four sections - Philology and linguistics; Corpus- and text-based studies; Constraint-based studies; Dialectology - a key article provides the focal point for a discussion between leading scholars, who respond directly to each other's arguments within the volume. In Section 1, Donka Minkova and Lesley Milroy explore the possibilities of historical sociolinguistics as part of a discussion of the distinction between philology and linguistics. In Section 2, Susan M. Fitzmaurice and Erik Smitterberg provide new research findings on the history and usage of progressive constructions. In Section 3, Geoffrey Russom and Robert D. Fulk reanalyze the development of Middle English alliterative meter. In Section 4, Michael Montgomery, Connie Eble, and Guy Bailey interpret new historical evidence of the pen/pin merger in Southern American English. The remaining articles address equally salient problems and possibilities within the field of

historical English linguistics. The volume spans topics and time periods from Proto-Germanic sound change to twenty-first century dialect variation, and methodologies from painstaking philological work with written texts to high-speed data gathering in computerized corpora. As a whole, the volume captures an ongoing conversation at the heart of historical English linguistics: the question of evidence and historical reconstruction. This volume contains curricular guides for both History and Rabbinics, subjects that are to be treated most fully in the middle school/junior high years. The primary goal is to foster students' identification with the Jewish people.

Chronic Hepatitis C Virus: Lessons from the Past, Promise for the Future documents the monumental advances that have been made in our understanding of chronic HCV during the past decade. The first section reviews the natural history of chronic HCV, how this virus can affect other organs in addition to the liver, and whether treating chronic HCV alters the natural history of this disease. Section 2 reviews the advances that have been made in the treatment of chronic HCV during the past decade with interferon based therapy. Separate chapters on response guided therapy and how to manage the adverse events

associated with these medications provide the physician with the concepts required to more effectively treat chronic HCV now and in the future. As the genetics of virologic response have recently been elucidated, a chapter is devoted to helping the clinician understand how genes that modulate disease processes and their treatment are identified and utilized in clinical care. Section 3 deals with the future of HCV treatment and specific inhibitors of HCV. Specific chapters explain how targets for drugs are identified and how drugs are then developed and tested; how mutations of HCV develop and how anti-viral agents will affect this process; the most up to date data regarding the treatment of chronic HCV with peginterferon, ribavirin and anti-viral agents; and the potential to treat chronic HCV with just oral anti-viral agents and without peginterferon and ribavirin in the future. The final section of this book covers issues related to liver transplantation in patients with chronic HCV. Separate chapters review the natural history of chronic HCV in liver transplant recipients and the impact of utilizing HCV positive donors. The volume concludes with chapters that cover the treatment of chronic HCV both prior to and after liver transplantation with potent anti-

viral agents. Chronic Hepatitis C Virus: Lessons from the Past, Promise for the Future is a valuable resource for all physicians caring for patients with chronic HCV. The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts. This handbook provides an indispensable reference guide to most aspects of the history of India's railways. The secondary literature is surveyed, primary sources identified, statistical and cartographic data discussed, and a massive bibliography made available. Once again, the State of Arkansas has adopted An Arkansas

History for Young People as an official textbook for middle-level and/or junior-high-school Arkansas-history classes. This fourth edition incorporates new research done after extensive consultations with middle-level and junior-high teachers from across the state, curriculum coordinators, literacy coaches, university professors, and students themselves. It includes a multitude of new features and is now full color throughout. This edition has been completely redesigned and now features a modern format and new graphics suitable for many levels of student readers. The completely revised fourth edition includes new unit, chapter, and section divisions as well as five brand-new chapters: an introductory chapter with information on the symbols, flag, and songs of Arkansas; chapter 2, which covers the geography of Arkansas; chapter 3, on state and local government; chapter four, on economics and tourism; and a "modern" chapter on the Arkansas of today and the future, which completes the learning adventure. This edition also has two "special features": one on the Central High School crisis of 1957 and another on the William J. Clinton Presidential Library. It also has new and interesting features for students like the "Guide to Reading" (at the

**beginning of each chapter, there is a list of important terms, people, places and events for the student to keep in mind as he or she reads [corresponding to blue vocabulary words in the text, which are define in the margin]),
"County Quest," "I Am an Arkansan," "Did You Know?" "Only in Arkansas," "A Day in the Life," "Chapter Reflection" questions and activities, over forty-five new content maps, and a comprehensive new map atlas.**
