"Illuminating . . . a notable accomplishment".--The New York Times. Illustrated. A redefinition of contemporary Chinese art from the last forty years in the context of unprecedented cultural, political, and urban transformation, written by an authority on the subject. Contemporary Chinese art is a subject of sustained and growing significance in present-day culture across the globe. This new volume in the World of Art series reframes Chinese art since the end of China's Cultural Revolution more than four decades ago, placing it in the context of the nation's unprecedented cultural, political, and urban transformation.

Based on original research by writer, curator, and leading scholar in the field of contemporary Chinese art, Jiang Jiehong, this volume explores the area through firsthand materials and in-depth interviews with more than thirty artists. Providing the most up-to-date understanding of contemporary Chinese art, Jiang includes a variety of media, ranging from painting, printmaking, sculpture, and photography to installation, video, performance, and participatory art. Featuring over 150 color images of artworks by more than fifty internationally renowned Chinese artists, including Ai Weiwei and Zhang Peili, as well as emerging artists, such as Zhao Zhao, *The Art of Contemporary China* presents a wide variety of practices through curatorial discussions and images of original installation views and historical art events. What emerges are revelations on art, and new insights into contemporary China. Fulfilling a need for an accessible, affordable introduction to contemporary Chinese art, this volume offers a concise but far-reaching survey of the movement. Presents an overview of the use of new intellectual and scientific technologies in modern art, discussing the creations of such influential artists as Eadweard Muybridge, Robert Rauschenberg, and Bill Viola and incorporating into the latest edition coverage of new developments in digital work. Original. From a world authority on impressionism and nineteenth-

century French art comes this new addition to the World of Art series on the art and life of Claude Monet. One of the most famous and admired painters of all time, Claude Monet (1840– 1926) was the architect of impressionism—a revolution that gave birth to modern art. His technique of painting outside at the seashore or in city streets was as radically new as his subject matter: the landscapes and middle-class pastimes of a newly industrialized Paris. Working with unprecedented immediacy and authenticity, Monet claimed that his work was both natural and true, and therefore, entirely novel. In *Monet*, James H. Rubin, one of the world's foremost specialists in nineteenth-century French art, traces Monet's development, from his early work as a caricaturist to the late paintings of water lilies and his garden at Giverny. Rubin explores the cultural currents that helped shape Monet's work, including the utopian thought that gave rise to his politics, his interest in Japanese prints and gardening, and his relationship with earlier French landscape painters and contemporaries such as E'douard Manet and Pierre-Auguste Renoir. Featuring more than 150 color illustrations of his key works, Rubin establishes Monet as the inspiration for generations of avant-garde artists and a true patriarch of modern art. Art That Changed the World covers the full sweep of world art, including the Ming era in China, and Japanese, Hindu, and Indigenous Australian art. It analyses recurring themes such as love and religion, explaining key genres from Romanesque to Conceptual art. Art That Changed the World explores each artist's key works and vision, showing details of their technique, such as Leonardo's use of light and shade. It tells the story of avant-garde works like Manet's *Le Dejeuner sur l'herbe* (Lunch on the Grass), which scandalized society, and traces how one genre informed another - showing how the Impressionists were inspired by Gustave Courbet, for example, and how Van Gogh was influenced by Japanese prints. Lavishly illustrated throughout, look no further for your essential guide to the pantheon of world art. A thrilling, eye-popping look at true crime in the billion-dollar art world. The

art world is one of the most secretive of global businesses, and the list of its crimes runs long and deep. Today, with prices in the hundreds of millions for individual artworks, and billionaires' collections among the most conspicuous and liquid of their assets, crime is more rampant than ever in this largely unregulated universe. Increased prices and globalization have introduced new levels of fraud and malfeasance into the art world--everything from "artnapping," in which an artwork is held hostage and only returned for a ransom, to forgery and tax fraud. However, the extent of the economic and cultural damage that results from criminality in the global art scene rarely comes to light. The stories of high-stakes, brazen art crimes told by art experts Stefan Koldehoff and Tobias Timm are by turns thrilling, disturbing, and unbelievable (the imagination for using art to commit crimes seems boundless). The authors also provide a well-founded analysis of what needs to change in the art market and at museums. From the authors of *False Pictures, Real Money* (about the Beltracchi art forgery case), *Art and Crime* includes a chapter on art owned by Donald Trump. It is a thoroughly researched, explosive, and highly topical book that uncovers the extraordinary and multifarious thefts of art and cultural objects around the world. Profiles and portraits of 50 artists and art entrepreneurs challenging the status quo in the art world

Metaphysical Club, Louis Menand offers a new intellectual and cultural history of the postwar years. The Cold War was not just a contest of power. It was also about ideas, in the broadest sense—economic and political, artistic and personal. In *The Free World*, the acclaimed Pulitzer Prize-winning scholar and critic Louis Menand tells the story of American culture in the pivotal years from the end of World War II to Vietnam and shows how changing economic, technological, and social forces put their mark on creations of the mind. How did elitism and an anti-totalitarian skepticism of passion and ideology give way to a new sensibility defined by freewheeling experimentation and loving the Beatles? How was the ideal of “freedom” applied to causes that ranged from anti-communism and civil rights to radical acts of self-creation via art and even crime? With the wit and insight familiar to readers of *The Metaphysical Club* and his *New Yorker* essays, Menand takes us inside Hannah Arendt’s Manhattan, the Paris of Jean-Paul Sartre and Simone de Beauvoir, Merce Cunningham and John Cage’s residencies at North Carolina’s Black Mountain College, and the Memphis studio where Sam Phillips and Elvis Presley created a new music for the American teenager. He examines the post war vogue for French existentialism, structuralism and post-structuralism, the rise of abstract expressionism and pop art, Allen Ginsberg’s friendship with Lionel Trilling, James Baldwin’s transformation into a Civil Right

spokesman, Susan Sontag's challenges to the New York Intellectuals, the defeat of obscenity laws, and the rise of the New Hollywood. Stressing the rich flow of ideas across the Atlantic, he also shows how Europeans played a vital role in promoting and influencing American art and entertainment. By the end of the Vietnam era, the American government had lost the moral prestige it enjoyed at the end of the Second World War, but America's once-despised culture had become respected and adored. With unprecedented verve and range, this book explains how that happened.

Digital technology has revolutionized the way we produce and experience art today. Not only have traditional forms of art such as printing, painting, photography, and sculpture been transformed by digital techniques and media, but the emergence of entirely new forms such as

internet and software art, digital installation, and virtual reality has forever changed the way we define art. Christiane Paul surveys the developments in digital art from its appearance in the 1980s to the present day and looks ahead to what the future may hold. She discusses the key artists and works in the genre, drawing a distinction between work that uses digital practices as tools to produce traditional forms and work that uses them to create new kinds of art. She explores the broader themes and questions raised by these artworks such as viewer interaction, artificial life and intelligence, political and social activism, networks and telepresence, and issues surrounding the collection, presentation, and preservation of digital art. This third, expanded edition of the popular resource investigates key areas of digital art practice that have gained prominence in recent years, including interactive public installation, augmented and mixed reality, social networking, and file-sharing technologies. "World Art" offers the perfect introduction to art and its appreciation, with over 350 full-colour illustrations of works by popular and important artists from all over the world. Organized by era, the reader is taken from Giotto, through Monet, to Pollock to reveal the development of art over the centuries. Supplemented with sections on Art Movements and Painting Techniques, this is the definitive reference for art enthusiasts of any level of knowledge and

understanding. "A wide-ranging and inclusive history of American art and architecture from its seventeenth-century colonial beginnings to the latest installation and video work, this book: discusses the key artists, architects, art works, and buildings across the centuries; defines the characteristics of different periods and highlights the forms, techniques, and styles that are distinctively American; integrates discussions of works of visual art and buildings, revealing their shared social and aesthetic concerns; charts the ways in which American artists and architects both adopted and diverged from earlier European models to create their own language; and illustrates paintings, sculpture, photography, and new-media art plus dozens of building types, from colonial houses and churches to modernist and postmodernist museums, stations, and skyscrapers."--BOOK JACKET. Updated to reflect recent archaeological discoveries and overflowing with color illustrations, this book is the definitive introduction to the art of the Viking Age. The Viking Age in Europe lasted from the time of the first major Viking expeditions in 800 CE to the widespread adoption of Christianity in Scandinavia some 300 years later. During that time, Viking art and culture spread across continental Europe and into the world beyond. Written by a leading authority on the subject, this book introduces readers to the intricate objects and beautiful art styles that developed during the Viking Age. Beginning with an

introduction to the geographical and historical background of Viking culture, author James Graham-Campbell chronicles the six main styles of Viking art, examining how they emerged and interacted with one another, as well as how the religious shift from paganism to Christianity impacted Viking art and its legacy. More than 200 high-quality illustrations depict everything from delicate metalwork, elaborate wood carvings, ornate weapons, and fine jewelry to grand ships, the Gotland picture stones, and archaeological traces left by the Vikings around the Western world. Now revised and updated with recent archaeological discoveries, Viking Art is a perfect guide—including a timeline and maps—for all those interested in the arts of this vibrant and fascinating culture. An introduction to the art of the Internet examines key works, events, and technological developments that show how artists have employed online technologies to engage with the traditions of art history, focusing on the themes of intellectual property, identity, economics, and power in the networked age. Original. An insider's detailed chronicle of the inner workings of the contemporary art world. The world of contemporary art has become more globalized and transparent in the last few decades, yet it is still perceived as closed-off and obscure. In A Year in the Art World, Matthew Israel takes the reader on a cross-continental journey through a year in the field of art, lifting the veil on a culture that emerges as

diverse, adventurous, nuanced, and meaningful. From Los Angeles and New York to Paris and Hong Kong, Israel encounters artists, curators, critics, gallerists, and institutions, uncovering the working lives of these art-world figures from the renowned to the unseen. Drawing on exclusive interviews and expertly researched content, Israel ventures into the inner workings of the art industry to ask: What is it that people in the art world actually do? What drives interest in working with art? How do artworks acquire value? And how has technology transformed today's art world? Anchoring the narrative in the history, economics, and cultural dynamics of the field, this fascinating story reveals how "the art world" describes a realm that is both surprisingly vast and deeply interconnected.

Caribbean Art presents and discusses the diverse, fascinating and highly accomplished work of Caribbean artists, whether indigenous or from the diaspora, popular or high culture, rural or urban based, politically radical or religious. This expanded edition has a new preface, and has been updated to reflect on recent challenges to the ideological premises and institutions of conventional art-historical practice and their connections to histories of colonialism, Eurocentricity and race. Two new chapters focus on public monuments linked to the history of the Caribbean, and the intersections between art and tourism, raising important questions about cultural representation. Featuring the work of

internationally recognized artists such as Sonia Boyce, Christopher Cozier, Wifredo Lam, Ana Mendieta, Ebony G. Patterson, Hervé Télémaque, and more than 100 others working across a variety of media, this new edition makes an important contribution to the understanding of Caribbean art and its context, in ways that invite and encourage further explorations on the subject. A fascinating, revelatory portrait of the Metropolitan Museum of Art and its treasures by a former New Yorker staffer who spent a decade as a museum guard. Millions of people climb the grand marble staircase to visit the Metropolitan Museum of Art every year. But only a select few have unrestricted access to every nook and cranny. They're the guards who roam unobtrusively in dark blue suits, keeping a watchful eye on the two million square foot treasure house. Caught up in his glamorous fledgling career at The New Yorker, Patrick Bringley never thought he'd be one of them. Then his older brother was diagnosed with fatal cancer and he found himself needing to escape the mundane clamor of daily life. So he quit The New Yorker and sought solace in the most beautiful place he knew. To his surprise and the reader's delight, this temporary refuge becomes Bringley's home away from home for a decade. We follow him as he guards delicate treasures from Egypt to Rome, strolls the labyrinths beneath the galleries, wears out nine pairs of company shoes, and marvels at the beautiful works in his care. Bringley enters the museum as a ghost, silent and

almost invisible, but soon finds his voice and his tribe: the artworks and their creators and the lively subculture of museum guards—a gorgeous mosaic of artists, musicians, blue-collar stalwarts, immigrants, cutups, and dreamers. As his bonds with his colleagues and the art grow, he comes to understand how fortunate he is to be walled off in this little world, and how much it resembles the best aspects of the larger world to which he gradually, gratefully returns. In the tradition of classic workplace memoirs like *Lab Girl* and *Working Stiff*, *All The Beauty in the World* is a surprising, inspiring portrait of a great museum, its hidden treasures, and the people who make it tick, by one of its most intimate observers. New York Times bestseller Rachel Ignatofsky's *Women in Art* comes to the youngest readers in board format! Highlighting the creative contributions of female artists, this board book edition of the original bestseller features simpler text and Rachel Ignatofsky's signature illustrations reimagined for younger readers, to give young creators the perfect role models to grow up with while inspiring a love of art. The collection features diverse women creating a wide array of artistic mediums who paved the way for the next generation of artists. The perfect gift for fans of Rachel Ignatofsky's other board books and buyers of *Dream Big*, *Little One* and *A Is for Awesome!* This international survey of contemporary painting by a leading author features artwork from over 250

renowned artists whose ideas and aesthetics characterize the painting of our time. The twentieth century brought radical changes in art—including the shift from modernism to postmodernism—which were accompanied by fierce debates regarding the place of painting in contemporary culture. *Contemporary Painting* argues that the medium has not only persisted in the twenty-first century but expanded and evolved alongside changes in art, technology, politics, and other factors, developing a unique energy and diversity. Renowned critic and art historian Suzanne Hudson offers an intelligent and original survey of the subject, organized into seven thematic chapters, each of which explores an aspect of contemporary painting, from appropriation to the ways in which artists address and engage the body. Hudson's inclusive and compelling text is sensitive to issues such as queer narratives, race, activism, and climate and demonstrates the continued relevance of painting today. Bringing together more than 250 eminent artists from around the world, such as Cecily Brown, Julie Mehretu, Theaster Gates, Kara Walker, Kehinde Wiley, Takashi Murakami, and Zhang Xiaogang, this is an essential volume for art history enthusiasts, students, critics, and practitioners interested in discovering how painting is approached, reimagined, and challenged by today's artists. This groundbreaking study explores the visual representations of Black culture across the globe

throughout the twentieth century and into the twenty-first. The African diaspora—a direct result of the transatlantic slave trade and Western colonialism—has generated a wide array of artistic achievements, from blues and reggae to the paintings of the pioneering American artist Henry Ossawa Tanner and the music videos of Solange. This study concentrates on how these works, often created during times of major social upheaval and transformation, use Black culture both as a subject and as context. From musings on “the souls of black folk” in late-nineteenth-century art to questions of racial and cultural identities in performance, media, and computer-assisted arts in the twenty-first century, this book examines the philosophical and social forces that have shaped Black presence in modern and contemporary visual culture. Renowned art historian Richard J. Powell presents Black art drawn from across the African diaspora, with examples from the Americas, the Caribbean, and Europe. Black Art features artworks executed in a broad range of media, including film, photography, performance art, conceptual art, advertising, and sculpture. Now updated and expanded, this new edition helps to better understand how the first two decades of the twenty-first century have been a transformative moment in which previous assumptions about race and identity have been irrevocably altered, with art providing a useful lens through which to think about these compelling issues. More than

500 large-size photographs of paintings, chronologically arranged, provide a journey through Western art, from the Gothic to the Renaissance to Neo-Classicism. Full-color. A new, updated edition of this illuminating study on William Hogarth, one of the eighteenth century's most famous artists and satirists. William Hogarth (1697-1764) was one of the great eighteenth-century painters, a marvelous colorist, and an innovator at all levels of artistic expression. In this updated volume, art historian and Hogarth scholar David Bindman surveys the works of this artist whose wry humor and sharp wit was reflected in his prolific paintings and prints, including *The Rake's Progress* and *Marriage A-la-Mode*. Hogarth was also a master of pictorial satire, highlighting the moral and political issues of the day with delightful detail and comedy—themes that resonate deeply with our times. This new edition has been specially updated to include a discussion of Hogarth's representation of Black people in eighteenth-century Britain, a subject that has long been overlooked in his many works. Now revised with additional material and illustrated in color throughout, this is a vivid and incisive study of the artist. An introduction to the rich and diverse art of California, this book highlights its distinctive role in the history of American art, from early-20th-century photography to Chicano mural painting, the Fiber Art Movement and beyond. Shaped by a compelling network of

geopolitical influences including waves of migration and exchange from the Pacific Rim and Mexico, the influx of African Americans immediately after World War II, and global immigration after quotas were lifted in the 1960s, California is a centre of artistic activity whose influence extends far beyond its physical boundaries. Furthermore, California was at the forefront of radical developments in artistic culture, most notably conceptual art and feminism, and its education system continues to nurture and encourage avant-garde creativity. Organized chronologically and thematically with illustrations throughout, this attractive study stands as an important reassessment of Californias contribution to modern and contemporary art in the United States and globally. Few British artists have ever achieved such a wide range of style in oil painting, watercolour, drawing and engraving as J. M. W. Turner. He had a precocious gift that was developed over a lifetime of experiment and innovation. This classic book in the World of Art series traces the artists career from youthful pictureseque views and watercolours of Gothic ruins to the romantic landscape and historical compositions of his maturity, and the astonishing art of his later years. In these late paintings Turners tragic sense of life is stated most profoundly and the work was unintelligible to his contemporaries but his reputation as the greatest British painter now rests on our understanding of

these as pioneering explorations of abstraction, prefiguring the art of the 20th century. Graham Reynolds weaves together the artists biography with sensitive criticism of his work, through all phases of his career, in this classic work first published in 1969 that has long served as an outstanding introduction to Turners life and art. It has now been revised and updated by the curator of the Turner Bequest at Tate, David Blayney Brown, to reflect recent discoveries and interpretations, and the illustrations are in full colour for the first time. It will serve as the best available study of this perennially popular artist for a new generation of readers. This is an art book which highlights the possibility of using natural, organic materials as art supplies and inspiration. From Pop artist Brandon Bird, this activity book is bursting with pages of coloring, stickering, and connect-the-dots fun! Featuring activities and portraits inspired by (and parodying) popular artists and televisions shows—including Law & Order, Nicolas Cage, Christopher Walken, Mr. T, Ghostbusters, and more—Brandon Bird's Astonishing World of Art offers endless entertainment for adult children of all ages. A fly-on-the-wall account of the smart and strange subcultures that make, trade, curate, collect, and hype contemporary art. The art market has been booming. Museum attendance is surging. More people than ever call themselves artists. Contemporary art has become a mass entertainment, a luxury good, a job description,

and, for some, a kind of alternative religion. In a series of beautifully paced narratives, Sarah Thornton investigates the drama of a Christie's auction, the workings in Takashi Murakami's studios, the elite at the Basel Art Fair, the eccentricities of Artforum magazine, the competition behind an important art prize, life in a notorious art-school seminar, and the wonderland of the Venice Biennale. She reveals the new dynamics of creativity, taste, status, money, and the search for meaning in life. A judicious and juicy account of the institutions that have the power to shape art history, based on hundreds of interviews with high-profile players, Thornton's entertaining ethnography will change the way you look at contemporary culture. Combines a survey of world art with maps showing the associations and dissemination of culture across the globe. An overview of ecologically conscious contemporary art that responds to today's environmental crisis, from species extinction to climate change. Art and Climate Change collects a wide range of artistic responses to our current ecological emergency. When the future of life on Earth is threatened, creative production for its own sake is not enough. Through contemporary artworks, artists are calling for an active, collective engagement with the planet in order to illuminate some of the structures that threaten biological survival. Exploring the meeting point of decolonial reparation and ecological restoration, artists

are remaking history by drawing on the latest ecological theories, scientific achievements, and indigenous worldviews to engage with the climate crisis. Across five chapters, authors Maja and Reuben Fowkes examine these artworks that respond to the Anthropocene and its detrimental impact on the planet's climate, from scenes of nature decimated by ongoing extinction events and landscapes turned to waste by extraction, to art coming out of the communities most affected by the environmental injustice of climate change. Featuring a broad range of media, including painting, photography, conceptual, installation, and performance, this text also dives into eco-conscious art practices that have created a new kind of artistic community by stressing a common mission for creators all over the world. In this art history, the authors emphasize the importance of caring for and listening to marginalized and indigenous communities while addressing climate uncertainty, deforestation, toxicity, and species extinction. By proposing scenarios for sustainable futures, today's artists are reshaping our planet's history, as documented in this heavily illustrated book. The official behind-the-scenes companion to New Line Cinema's international blockbusters IT and IT Chapter Two. The 2017 film IT brought a disturbing new vision to Stephen King's classic horror novel of the same name. In 2019, the story continued with IT Chapter Two, in which Bill Skarsgard delivered another acclaimed performance as the terrifying

Pennywise the Clown. Collecting the best artwork produced during the making of both of these films—including concept art, sketches, storyboards, and behind-the-scenes photography—The World of IT explores the films' singular aesthetic and meticulous world-building. This compendium includes commentary from director Andy Muschietti; producer Barbara Muschietti; the acclaimed ensemble cast; and other creative players who helped bring King's perennial bestseller to life.
