"Gladiators, an exciting account of the ancient Roman institution of arena combat, traces the bloody 800-year history of the bustuarii from their rise during the third century B.C. to their eventual abolition at the end of the fifth century A.D. The popularity of gladiatorial

combat dramatizes the paradox of Roman civilization: poets, philosophers, and politicians glorifying this brutal and savage institution in a culture remarkable for its contributions to government, law, literature, philosophy, and art--a culture that was a cornerstone of Western civilization. Although no amount of explanation can mitigate the savagery, in some ways good things came out of this almost-supreme evil. It brought forth countless acts of individual courage, it created one of the world's greatest architectural forms, and it inspired a number of thoughtful men to write down violent protests that stood firm against this overwhelming tide of brutality. Illustrations of mosaics, statuettes, reliefs, and the remains of arenas and amphitheaters illuminate the text."--Provided by publisher The Rough Guide to Paris is the ultimate travel guide to this fascinating city with clear maps and detailed coverage of all the best Paris attractions. A bank of 80 passages aims to take Sixth Form

students from the level of heavily adapted post-GCSE ('AS'-equivalent) passages and develop their knowledge and skills to reach A-Level standard. But this is not just a book of unseen passages: there is a chronological progression through the unseens in order to give the reader a sense of the narrative of Roman history, exploring key events through the words of original texts. Every passage begins with an introduction, outlining the basic content of the passage, followed by a 'lead-in' sentence, paraphrasing the few lines before the passage begins. Part 1 passages are straight translation exercises on the model of the A-Level Paper 1. They also feature, however, a 'Discendum' box, highlighting a facet of Latin prose with which students may not be familiar, or extension questions on grammar and style. Part 2 passages are accompanied by questions on comprehension, translation and grammar, replicating the demands of Paper 2 in full. An extensive word list is provided in the form of

checklists which build the reader's knowledge of the most commonly occurring words and phrases in Latin prose. The passages are punctuated with discussions of Roman history during the periods covered in the passages, and a comprehensive introduction includes portraits of the authors featured in the book, as well as grammatical reminders to help readers deal with both the trickier elements of unseen prose and with A-Level grammatical analysis questions.
