A guide to finding a career by consulting the stars teaches readers how to find careers that will fulfill them, get in touch with themselves, cooperate with others on the job, and recognize unique opportunities. Original. What the stars and planets can tell you about: bosses, coworkers, employees, and competitors; how sun and moon signs affect communication; sailing through conflict with coworkers; making the most of career opportunities. It has been a well-known fact that astrology was called the eye of the Vedas, for it threw light on matters relating to timing events. The conduct of Vedic rituals had to be timed at a specific period, hence astrology was put to this use. In the modern context, this divine science is used to interpret birth charts to have an overview of an individual's personal and professional future in terms of success and prosperity. The book deals with this analysis at great length and enlightens a lay reader about the subject. More than just a typical Sun sign astrology book, this work is a beautifully illustrated, comprehensive look at how Sun and Moon signs work together to influence career, artistic abilities, romantic life, finances, and health. How do we choose our careers? Forces At Work shows what influenced 85 people in a long-term study, correlating career path to the natal chart. This book gives new perspectives on career development, with "blind" insights by astrologer Oskar Adler, a new look at Gauquelin Sectors, Part of Fortune, Asteroids, Chiron, Ceres and Eris. A great tool for Astrologers and Career Counselors. Reviewer comments from the back cover: "Amy Shapiro's new book, Forces at Work: Astrology and Career is a thorough and comprehensive astrological guide for anyone wishing to understand the uncanny connections between their astrological chart and their work path.

Every HR department should have a copy for reference!" -- Shelley L. Ackerman, Astrologer, Author, Columnist, Karmic Relief.com, TheAsthete.com "Amy's Forces at Work fills a gap in the astrological literature of career by providing in-depth research that combines personality theory with astrology. Her study, based on a thorough career survey, incorporates insights from the work of Dr. Oskar Adler, along with comments from study participants to pinpoint astrological findings. This work will appeal to the intermediate to advanced astrologer who wants to refine career counseling methodology." -- Stephanie Jean Clement, Ph.D., Astrologer, Author, President, American Federation of Astrologers "Amy Shapiro's comprehensive book on the use of astrology in career counseling is unique for its detailed case studies through which her depth of counseling experience shines. I was particularly intrigued by her inclusion of the new (since 2006) planets Eris and Ceres in her interpretations-not many astrologers are using Eris at all yet, and most still treat Ceres as an asteroid. Amy's description of Eris as 'provocateur' is interesting, insightful and well supported within her analyses." -- Maria Kay Simms, Astrologer, Artist, Author Starcrafts Publishing "Besides relationships and health, choice of a career and life direction is commonly one of an astrological client's most pressing issues. Uniquely, Shapiro not only discusses the usual vocational indicators in the horoscope, she also adds unfamiliar but powerful concepts and interpretations from the legendary Dr. Oskar Adler. Plus, she backs up the theory with scores of charts accompanied by feedback in the subjects' own words. This book will give seasoned counselors new and useful insights. Augmented by handy tips, definitions and checklists, it will also set beginners on the road to perfecting this all-important part of their practice." -- Patricia White, Vice-President, Astrolabe "Amy Shapiro is a brilliant Astrologer whose writings illumine deep cosmic connections between one's personal passions and professional path. Amy reveals the power of Astrology as a healing and guiding force and innovative and profound tool for Career Counselors." -- Patricia Huxley-Cohen, MSW, LICSW, Psychotherapist / Counselor; pioneered programs adopted by the Dept of Labor. "Forces at Work combines traditional career counseling techniques with classic astrology. Amy's unique ability to employ her technical skills in both disciplines is revealed in this in-depth study, which the serious practitioner will find insightful." -- Ed Kaznocha, Labor Market Economist In his Foreword, Economist Ed Kaznocha explains how this book explores realms beyond the tools of standard career evaluation surveys. Profiles the twelve signs of the Zodiac as they affect business matters, career choices, and dealing with different types of personalities on the job. This book begins with a description of the SailerScopes system for Numerology. Careers are profiled and score sheets are given to match personal numbers to careers. Once this process is mastered, the same

simple concepts are applied to Astrology. Patterns in Astrology are described in a way that's easy to observe in both horoscopes or the actual stars themselves. The constellation-based zodiac of 13 signs is used for this system as opposed to the traditional 12 signs. This teaches you how to identify visual placements of objects in the zodiac by observing the night sky. It is easy to convert a sidereal 12-sign horoscope to the 13-sign system using a simple conversion table provided in the book. The SailerScopes system can be applied to any potential career path of your choice. The career paths highlighted in this book focus on off-beat and eccentric careers that are not usually featured in self-help guides. Numbers and planets for a wider range of careers are given in the appendices. All birthdays and names used to generate career profiles are derived from famous people within each career path. The SailerScopes system can be used to profile anything, not just careers. An example of this is the number 88 which was given its own profile in the book. This was based on a list of famous people who had the number 88 in their names or birthdays. The Numerology section puts heavy emphasis on double digit numbers, especially Master numbers. SailerScopes also uses a new concept of "Divine numbers" which are double-digit numbers that end in zero. Many people have feared Astrology in the past because it required some mathematical expertise to even derive a horoscope. Nowadays, free online services will produce a chart for you. Even so, this still leaves you with a spiderweb of crisscrossing lines and geometric angles to contend with. The SailerScopes system has simplified the entire process, erasing the spiderweb and focusing solely on conjunctions and planetary containments. SailerScopes uses the term "frames" to describe planetary containments which are nothing more than two planets surrounding a third on the wheel. These simple concepts in Astrology have proven to be sufficient for constructing powerful profiles. Professional Astrologers and Numerologists will find this book to be a refreshing new take on traditional methods. It is also valuable for people new to the divination arts as it provides clear instructions on how to gain information from your birthday, name or horoscope. Unlike other books that give you personality profiles, this book will help you determine what careers are best suited for the energies in your life. Getting a new job? Thinking of changing positions? To advance your career, you might consider an employment counselor. Such a person tries to line you up with a job that fits your abilities, talents, and desires. But can you really say you know all of your potential? What amazing potentials (or problems) are in you subconscious? Now you can find out in Stephanie Jean Clement's book, Charting Your Career. Dr. Clement - who holds a Ph.D. in transpersonal psychology - has been a board member of the American Federation of Astrologers for almost a decade. This combination allows her to present information that is not only clear for any astrologer, but

even for beginners or non-astrologers. Most astrologers know that it is the tenth house is focused on career. But there is far more to a chart than that! First the book examines your skills and talents which are indicated by the planets and the elements. Then it looks at the fifth house which shows your wants and needs. You'll also learn about how best you interact with others which is indicated by the relationships between the planets or aspects. This is followed by an explanation of how the planets Saturn and Mars influence your career strengths and goals. Only after you have all of this information does Dr. Clement go into the importance of the tenth house and the important role it plays in determining your ideal career. Also included is a discussion of the second and sixth houses, working with heliocentric charts, and much more. Throughout the book you will find numerous charts to illustrate and clarify the information. There are also examples from real life and sample consultation. This is easily the most thorough book on astrological career counseling ever offered. For people who are not experts, it comes with an offer for a free birth chart so you can use this powerful book to get ahead in life. Move beyond a static interpretation of your natal chart to an understanding of how planetary cycles affect such things as one's career, finances, and opportunities. John Townley discusses the principles of dynamic astrology and shows how the cycles of the planets and important degrees in your chart play a continuing role in your life. In this practical, innovative guide, Cossar shows how to combine astrology with the techniques employed by career counselors to help clients discover the type of work that best suits them and to spot the problems that block their paths. Astrology, an ancient practice that seeks to understand the influence of celestial bodies on human affairs, has long been used to gain insight into various aspects of life, including career, reputation and fame. The placement of planets in a person's birth chart can reveal information about their inherent talents, strengths, and weaknesses, which can play a significant role in determining their career trajectory. Additionally, the houses in a birth chart, which are specific areas of life associated with each planet, can shed light on the types of careers and professional endeavours that are most likely to align with an individual's unique strengths and abilities. As such, for most people seeking to understand their career path through the lens of astrology, a comprehensive analysis of their birth chart is required. By examining the placement of planets and houses in relation to one another, individuals can get insights and guidance on the most suitable career paths, as well as potential challenges and opportunities that may arise throughout the professional journey. Representatives of the elements of the earth, who have a strong inner core and will to win, are ideal for the description. Stability awaits in a career, but a small amount for a "rainy day" will not hurt. Astrologers advise, at least for a while, to get rid of natural slowness if the representatives of the earth element are interested in financial reward. A measured pace is appropriate when developing a plan or calculating risks; in an emergency mode, it is better to accelerate. The career horoscope for 2021 predicts a favorable period for all zodiac signs that belong to the fire element. Persistence and perseverance will help in achieving the goal, but astrologers recommend taking a wait and see attitude in conflict situations. Colleagues and partners are entitled to their own opinion, which will not always coincide with the decisions of impulsive representatives of the element of fire. Do not dismiss the advice of more experienced mentors, so as not to reap the benefits of your own stubbornness later. Unnecessary arguments will consume a lot of energy, which is useful for efficient work. This amazing book was written by the great practicing feng shui master and astrologer of our time.
