This book is based on the 9th International Conference in Methodologies and Intelligent Systems for Technology Enhanced Learning, which was hosted by the University of Salamanca and held in Ávila (Spain) from 26th to 28th June 2019. Expanding on the topics of the evidence-based TEL workshops series, it provides an open forum for discussing intelligent technologies for learning. In particular, it discusses recommendation mechanisms that enable us to tailor learning to different contexts and people, e.g., by considering their personality; and learning analytics that help augment learning opportunities, e.g., by supporting the adaptation of the learning material. In addition to technologies, it covers methods from different fields, such as educational psychology or medicine, and from diverse communities co-working with people, such as making communities and participatory design communities to help create novel TEL opportunities. Further it describes the use of methods and technologies to investigate and enhance learning for “fragile users”, like children, the elderly and those with special needs. We thank the sponsors: IEEE Systems Man and Cybernetics Society Spain Section Chapter and the IEEE Spain Section (Technical Co-Sponsor), IBM, Indra, Viewnext, Global exchange, AEPIA, APPIA and AIR institute. Don't just take a picture, make it. Using a proven five-step process - Pitch, Prepare, Shoot, Edit and Deliver - readers will develop the same successful, reliable working methods that earn influence and delight audiences, regardless of what genre you're working in. "Mike provides a path for new ways of working and thinking, new tools, and a new mindset for a continually changing reality. With his new book, he is showing a better way of working, where we can come together and intuitively understand how to move forward, even in challenging situations." "An impressive piece of culture technology - facilitates clear thinking and communication while encouraging real agreement at scale across the whole enterprise." "If you are a business leader looking for tools that facilitate real change in real organisations, this is your book." Extensively revised and

adding a new final chapter, this second edition of *Agendashift* provides both the manual and the deep background for outcome-oriented change and continuous transformation. With its exercises explained in terms of memorable patterns such as Ideal, Obstacles, Outcomes (IdOO) and Meaning before Metric, the framework - an engagement model - is made significantly easier to understand and apply. Moreover, its generously-referenced and pluralistic style invites integration with a wide range of sources and encourages further innovation in this exciting and rapidly-developing field. Author and *Agendashift* founder Mike Burrows describes himself as "in the business of wholehearted organisations". Mike is recognised for his pioneering work in Lean, Agile, and Kanban, for his ground-breaking books *Agendashift* (2018, 2021), *Right to Left* (2019, audiobook 2020), and *Kanban from the Inside*(2014), and as a champion of participatory and outcome-oriented approaches to change, transformation, strategy, and leadership. Before embarking on his consulting career, he was global development manager and Executive Director at a top tier investment bank, and CTO for an energy risk management startup. Research on Technology Enhanced Learning (TEL) investigates how information and communication technologies can be designed in order to support pedagogical activities. The Evidence Based Design (EBD) of a system bases its decisions on empirical evidence and effectiveness. The evidence-based TEL workshop (ebTEL) brings together TEL and EBD. The first edition of ebTEL collected contributions in the area of TEL from computer science, artificial intelligence, evidence-based medicine, educational psychology and pedagogy. Like the previous edition, this second edition, ebTEL'13, wants to be a forum in which TEL researchers and practitioners alike can discuss innovative evidence-based ideas, projects, and lessons related to TEL. The workshop took place in Salamanca, Spain, on May 22nd-24th 2013. This book features papers from workshops at the 10th International Conference on Methodologies and Intelligent Systems for Technology Enhanced Learning, which was hosted by the University of L'Aquila (Italy) from 17th to 19th June 2020. The workshops provided participants with the opportunity to present and discuss novel research ideas on emerging topics complementing the main conference. They particularly focused on multi-disciplinary and transversal aspects such as TEL in nursing education programs, social and personal computing for web-supported learning communities, interactive environments and emerging technologies for eLearning, and TEL for future citizens. This book constitutes revised papers from the eleven International Workshops held at the 15th International Conference on Business Process Management, BPM 2017, in Barcelona, Spain, in September 2017: BPAI 2017 - 1st International Workshop on Business Process Innovation with Artificial Intelligence; BPI 2017 - 13th International Workshop on Business Process Intelligence; BP-Meet-IoT 2017 - 1st International Workshop on Ubiquitous Business Processes Meeting Internet-of-Things; BPMS2 2017 - 10th Workshop on Social and Human Aspects of Business Process Management; - CBPM 2017 - 1st International Workshop on Cognitive Business Process Management; CCABPM 2017 - 1st International Workshop on Cross-cutting Aspects of Business Process Modeling; DeHMiMoP 2017 - 5th International Workshop on Declarative/Decision/Hybrid Mining & Modeling for Business Processes; QD-PA 2017 - 1st International Workshop on Quality Data for Process Analytics; REBPM 2017 - 3rd International Workshop on Interrelations between Requirements Engineering and Business Process Management; SPBP 2017 - 1st Workshop on Security and Privacy-enhanced Business Process Management; TAProViz-PQ-IWPE 2017 -Joint International BPM 2017 Workshops on Theory and Application of Visualizations and Human-centric Aspects in Processes (TAProViz'17), Process Querying (PQ'17) and Process Engineering (IWPE17). The 44 full and 11 short papers presented in this volume were carefully reviewed and selected from 99 submissions. This deluxe eBook edition of Harry Belafonte's remarkable memoir includes nearly eighteen minutes of original video—Mr. Belafonte talking about his first meeting with Martin Luther King, Jr. . . . his friendship with Sidney Poitier . . . the making of “We Are the World” . . . and much more—the bonus song “Jump in the Line” from the companion album Harry Belafonte—Sing Your Song: The Music; and the book's photographs compiled as a slide show. Harry Belafonte is not just one of the greatest entertainers of our time; he has led one of the great American lives of the twentieth and twenty-first centuries. Now, at last, this extraordinary icon tells us about it all—his

poverty-ridden childhood in Harlem and Jamaica; his meteoric rise to become one of the world's most popular singers, breaking down racial barriers that no one had broken before, achieving equal popularity with white and black audiences; his lifelong, passionate involvement at the heart of the civil rights movement and countless other political and social causes. Along the way he's befriended many beloved and important figures in both entertainment and politics—Paul Robeson; Eleanor Roosevelt; Sidney Poitier; John F. Kennedy; Marlon Brando; Martin Luther King, Jr.; Robert Kennedy; Nelson Mandela; Fidel Castro—and writes about them with the same exceptional candor and insight with which he reveals himself on every page. As both an artist and an activist, Belafonte has touched the lives of countless men and women. With *My Song*, he has found yet another way to entertain and inspire us. It is an electrifying memoir from a remarkable man. The New York Times Bestseller! Love is infinite. Love is giggles. Love is cookies. Shell Process Control Workshop covers the proceedings of a workshop of the same name, held in Houston, Texas on December 15, 1986. The said workshop seeks to improve the communication process between academic researchers, industrial researchers, and the engineering community in the field of process control, and in turn improve understanding of the nature of the control problems. The book covers topics such as design methodology based on the fundamental control; expert systems in process control and optimization; artificial intelligence; and adaptive control for processes. Also covered are topics such the approach of systems engineering to process modeling; modeling and control of dispersed phase systems; and advances in the use of the internal model control. The text is recommended for researchers and practitioners in the field of engineers who would like to know more about process control and modeling. This book focuses on probability and the Bayesian viewpoint. It presents basic material on probability and then introduces inference by means of Bayes' rule. The emphasis is on statistical thinking and how one learns from data. The objective is to present the basic tenets of statistical inference. Unique in its format, the text allows students to discover statistical concepts, explore statistical principles, and apply statistical techniques. In addition to the numerous activities and exercises around which the text is built, the book includes a basic text exposition for each topic, and data appendices. Presents eighteen step-by-step projects, along with variation ideas, to create an array of altered books. Revised edition of *Handbook of social work with groups*, 2006.
