Understanding Your Life Insurance Oct 03 2020 **Packing Your Parachute (Special Edition)** Aug 01 2020 Not many people complain of parachutes failing. It is usually too late. Like parachutes, inadequate insurance programs are many times discovered posthaste following a catastrophe, often much to the surprise of management. In this book, we discuss some real-life stories of uninsured or underinsured disasters and coverage disputes. These stories are largely based upon our experiences as insurance expert witnesses in cases where an improperly designed insurance program led to years of litigation, unimaginable costs, and

sometimes the bankruptcy of the business and its owner. The mission of this book is to capture the attention of executives on why the way they may be buying business insurance could be all wrong and to provide suggestions on how to improve the process. We write this book as an antivirus scanning program of sorts for the insurance buyer to use in analyzing whether a business insurance agency and insurer are properly packing the company's parachute. **The South Carolina Department of Insurance Presents why Insure Your Home?** Feb 16 2022 [Annuities For Dummies](#) Apr 28 2020 Why look into annuities? [Cheap Insurance for Your Home, Automobile, Health, & Life](#) Feb 28 2023 Insurance takes a huge bite out of the average American's monthly budget, and as stated above, many Americans simply forgo insurance because they consider it out of reach. Shopping for insurance requires more effort than many people want to devote to it. They simply grab the first price they come across or accept routine rate increases when it is important to compare not only the price but also coverage and exclusions among carriers. In this easy to read and comprehensive new book you will learn hundreds of ways to secure and or reduce your health, automobile, life, and home insurance costs. If you do not have or cannot afford insurance, we will show you how to get it at a price you can afford. The Internet and technology have opened up a great new way to search for low cost insurance services; we will give you the Web sites, tell you what to look for and to look out for. There is a great deal you can do right now to cut insurance costs. For example, did you know that installing a theft tracking device in your car can save you up to 35% on your auto insurance and that your

credit history can dramatically affect your auto insurance premium. Recent studies have shown that more than 90% of insurers use credit information to create an "insurance risk score," which they then use as a factor to determine your insurance rate. Add a simple home security system to monitor your home, and your insurance rates may be discounted up to 30%, depending upon where you live. Your insurance could end up costing you more if you choose to make monthly payments rather than pay the entire premium annually. Notify your agent if you retire, your children go to school, or you start working from home (when you're not traveling as much your rates will go down). Have you stopped smoking? Lost weight? Started exercising? All of these efforts can have a dramatic effect on your insurance rates. Insurance topics covered in this book are How Insurance Works, Insurance Company Rating, National and Local Firms, Auto, Health, and Disability Insurance, along with work sheets and forms to assist you in your search for the best coverage at the lowest price. Increase Your Insurance Sales, Retention and Referrals Now!!! May 22 2022 "Beaten But Not Broken" is an account of life of a black family from the eyes of the author, Calvin Coker and deals with the racial inequality and bigotry that most blacks faced in the south during those years of the 60s and 70s. It introduces a level of poverty that a large number of black Americans experienced and many today can relate to. Many white Americans may ask today, when will it ever be over, but for many blacks, the answer to that question is never, there will always be a struggle for us (us being all Americans). Beaten but Not Broken YAHWEH Jireh (The Lord provides), is a story that is full of life's ups and downs. From reading it, you will see that racism is not just an attitude shared from whites to blacks and that life is full of other types of circumstances that can bring you down. However, there is one and only one God who reaches down to the lowest valley and will rescue people, no matter who you are. It is a story of a human spirit being beaten on several occasions, but something inside placed from above, saying "hold on just a little while longer, your change is coming". This is the

testimony of the author, beaten or whipped at times, but finding the promised victory in Christ always in time.

Care Without Coverage Oct 15 2021 Many Americans believe that people who lack health insurance somehow get the care they really need. Care Without Coverage examines the real consequences for adults who lack health insurance. The study presents findings in the areas of prevention and screening, cancer, chronic illness, hospital-based care, and general health status. The committee looked at the consequences of being uninsured for people suffering from cancer, diabetes, HIV infection and AIDS, heart and kidney disease, mental illness, traumatic injuries, and heart attacks. It focused on the roughly 30 million-one in seven-

working-age Americans without health insurance. This group does not include the population over 65 that is covered by Medicare or the nearly 10 million children who are uninsured in this country. The main findings of the report are that working-age Americans without health insurance are more likely to receive too little medical care and receive it too late; be sicker and die sooner; and receive poorer care when they are in the hospital, even for acute situations like a motor vehicle crash. Insuring the Bottom Line Dec 29 2022 With recent changes in the way the insurance industry sells coverage, small businesses have been left alone to answer questions about what coverages to buy or avoid.
