Constructing Industrial Pasts Jul 30 2020 Since the 1960s, nations across the “developed world” have been profoundly shaped by deindustrialization. In regions in which previously dominant industries faced crises or have disappeared altogether, industrial heritage offers a fascinating window into the phenomenon’s cultural dimensions. As the contributions to this volume demonstrate, even as forms of industrial heritage provide anchors of identity for local populations, their meanings remain deeply contested, as both radical and conservative varieties of nostalgia intermingle with critical approaches and straightforward apologies for a past that was often full of pain, exploitation and struggle.

Il caso Bellwether Jan 04 2021 **VINCITORE DEL PREMIO SPECIALE EDOARDO KIH LGREN - OPERA PRIMA LETTERATURA EUROPEA** Al termine di una giornata di lavoro come tante, il giovane Oscar si incammina verso casa. Passando accanto alla cappella del King’s College, viene attratto dal suono dell’organo e decide di entrare. Mentre si abbandona all’ascolto, incrocia lo sguardo di Iris Bellwether, studentessa di Medicina, violoncellista ed esuberante figlia della ricca borghesia di Cambridge. Oscar si innamora di lei all’istante e, poco a poco, viene accolto dalla sua cerchia di amici, un piccolo gruppo esclusivo che ha origini ben diverse dalla sua. Tra loro c’è anche Eden, il fratello di Iris, un personaggio misterioso, dal fascino ambiguo, convinto di poter curare le malattie attraverso la musica e l’ipnosi. Ma chi è, in realtà, Eden Bellwether? Un taumaturgo o solo un pericoloso seduttore, un manipolatore che tiene in scacco le persone che lo circondano piegandole alla propria volontà? Al suo romanzo d’esordio, Benjamin Wood rivela già un’indiscussa maestria narrativa, mettendo in scena una vicenda abilmente giocata sul confine sottile tra genio e follia, fede e ragione. Irritati dal crescendo di tensione psicologica che alimenta ogni pagina, ci si lascia trascinare dagli eventi che incalzano, desiderosi di arrivare all’esito finale, di conoscere quanto è profondo l’abisso dell’animo umano.

Inter cives necnon peregrinos Dec 03 2020 The contributions to this volume are concerned with the Roman law of antiquity in its broadest sense, covering both private and public law from the Roman Republic to the Byzantine era, including legal papyrology. They also examine the reception of Roman law in Western Europe and its colonies (specifically the Dutch East Indies) from the Middle Ages to the promulgation of the German Bürgerliche Gesetzbuch in 1900. They reflect the wide interests of Professor Boudewijn Sirks, whom the volume honours on the occasion of his retirement and whose work and career have transcended frontiers and nations.

Imagining Terrorism Oct 25 2022 No other European country experienced the disruption of political and everyday life suffered by Italy in the so-called 'years of lead' (1969-c.1983), when there were more than 12,000 incidents of terrorist violence. This experience affected all aspects of Italian cultural life, shaping political, judicial and everyday language as well as artistic representation of every kind. In this innovative and broad-ranging study, experts from the fields of philosophy, history, media, law, cinema, theatre and literary studies trace how the experience and legacies of terrorism have determined the form and content of Italian cultural production and shaped the country's way of thinking about such events?

Courts and Courtiers in Renaissance Northern Italy Feb 23 2020 The extraordinary cultural Renaissance in the northern Italian courts of the late 15th and early 16th centuries is the subject of this volume. It starts with Baldessar Castiglione's *Book of the Courtier* (1528) which encapsulates this sense of renewal: his experiences at court and their subsequent rewriting form the backbone of the work. The author then addresses questions of biography, gender, genre, and the varied roles of the courtier, expanding the perspective of Castiglione's text to include the lives and writings of other courtiers and patrons. What was it like to be a courtier? What were the problems associated with such a lifestyle? The importance of women in court circles is also highlighted in studies of one of the most notable of female patrons Isabella d'Este (1474-1539) and of the theoretical developments in writing about gender, stimulated by such women. Stephen Kolsky's analysis of both well-known and comparatively obscure texts brings out the diversity of practices that constituted court society and their centrality to our understanding of the Renaissance.
