These days, nobody really needs to learn everything there is to know about software product like Paint Shop Pro. And even if you did, who has the time to

endlessly tinker and play with it until you figure everything out? You just want a book that will quickly show you how to do things with Paint Shop Pro things that aren't already covered in the docs, and things you can't just figure out on your own. Paint Shop Pro in a Snap is designed specifically for today's computer user: Somebody who is new to Paint Shop Pro, but not new to computers. Somebody who doesn't have time for long-winded, mind-numbing explanations and certainly no time or patience for bad jokes. Organized into a series of well-organized, bite-sized, quickly

accomplished tasks, this book lets the reader zero right in on the one particular task he or she wants to accomplish, quickly figure out what to do, do it, and then get back to work.

*Internet Explorer  
Construction Kit*

*For Dummies* May

25 2021 You've

heard the saying,

"If you want

something done

right, do it

yourself." Actually,

most Internet

browsers are done

right. Chances are,

you're comfortable

with yours. Yet, you

may want to build

your own. You don't

have to start from

scratch—you can

start with the

Browser

Construction Kit on

the CD-ROM that

comes with Internet

Explorer

Construction Kit for

Dummies. Best of

all, there's no

programming

required. Whether

you personalize

your browser or

build one just for your business, you can include features and functions not available with traditional browsers, including: Log file: a list of all Web sites visited Alarm: an audible or popup alarm that signals the end of the time period used with the countdown timer Lock: prevents the custom browser from further browsing Approved list: list of Web sites to which browsing is limited Spy: screen captures taken once a minute Popular sites: a list of the most-visited sites You can make your browser G-rated. That's great if you have curious kids and are concerned

about adult sites and Internet safety or simply want to limit their browsing time. The ability to limit access to specific sites also comes in handy if you own a business and want customers in your store to be able to browse your online catalog, but not to comparison shop! Written (and more importantly, programmed) by Clayton Walnut, author of Standard C++ Bible and many other computer books, Internet Explorer Construction Kit For Dummies takes you step-by-step through: Adding borders to give your browser a graphical theme Using window skin to add an image to your window's background Making

the bar scene —assembling the toolbar, designing the menu bar, pulling together the status bar, and customizing the address bar Creating buttons and icons In addition to your Browser Construction Kit, the bonus CD-ROM includes several sample projects you can create, sample graphics for creating custom buttons and skins, and an evaluation version of Paint Shop Pro8 so you can get down to work. You even have everything you need to create a browser with themed graphics, choosing from animal, art, music, sea, sports, or more. Have fun creating your own

personalized, custom-built browser. That way, it will be done just right for you!
