Exam). Includes 40 realistic civil engineering problems with detailed, step-by-step solutions to help you prepare for exam day. Please visit our website at PEPrepared.com for video workshops, course notes, test strategies, tips, and other free resources! PE Prepared was created by real, practicing civil engineers to give E.I.T.s and E.I.s like yourself a leg up on test day. We strove to author realistic questions at the right level of difficulty, with detailed, step-by-step solutions to help you learn the content that is going to be on the exam. This exam and study guide tests-and fosters-ownership of concepts in building systems, with an emphasis on the content stressed in the Architect Registration Examination (A.R.E.) Building Systems component. It is designed as a study tool, learning exercise, and confidence-builder. Questions are not reading comprehension devices that follow lessons, but rather opportunities to introduce a topic. Your time is valuable so this study guide does not treat

all content that might appear on the exam equally. Rather it weights content by (1) its importance in the A.R.E. exam, and (2) its usefulness to the career of an architect. It further weights the content based on its "yield." In other words, memorizing the entire plumbing code will certainly help you on the A.R.E. exam, but it is certainly not the most efficient means of studying for it. 150 Questions and Answers in flash card format to help you ace the Ohio Notary Public Exam and become a more professional practicing notary public.
