Ms. Frizzle and her class visit the Hugh Mann Costume Company to learn all about skeletons: why we need them, what different bones are for, how doctors fix them when they're broken, and lots more. Illustrations. The twenty-eighth and final novel in the thrilling, wickedly funny Inspector Montalbano Mysteries series by bestselling author Andrea Camilleri. 'Contrary to what you think, I'm carrying out this investigation as best I can. But let's do this: if I get stuck, if I find I can't go forward or back, then I'll let you know, and you can step in. And offer me a way out. You've gained a bit of detective work through me, haven't you? What do you say?' 'I'm game,' said the Author . . . When Inspector Montalbano receives an early-morning phone call it proves to be the start of a very trying day. For the caller expects Montalbano to arrive imminently at a rendezvous with some friends. But before he can reply the caller announces himself as someone called Riccardino and hangs up. Later that day news comes in of a brutal slaying in broad daylight by an unknown assassin who makes his getaway on a motorbike. And when the Inspector learns of the victim's identity – a man called Riccardino – his troubles are only just beginning. For soon he must contend with the involvement of a local bishop and a fortune teller who reports some strange goings-on in her neighbourhood. All roads soon lead to a local salt mine but the case proves stubbornly intractable until Montalbano receives another unexpected call . . . Ali asks her parents for a pet: a dog, a cat, an elephant, a giraffe... But... but... what about a dinosaur? The Bastards of Pizzofalcone Series In the fifth installment in Maurizio de Giovanni's bestselling series, the Bastards of Pizzofalcone face their hardest challenge yet: will they emerge stronger or will they succumb to Naples's darkest forces? Sometimes it takes facing a formidable adversary to truly know one's worth. The Bastards of Pizzofalcone may have found just that: when the brutal murder of a baker rattles the city, they are ready to investigate. There's nothing they wouldn't do to prove themselves to their community. But this time the police are divided: for the special anti-mob branch, the local mafia is doubtlessly responsible for the crime, but the Bastards are not so sure. De Giovanni is one of Europe's most renowned and versatile mystery writers. His award-winning and bestselling novels, all of which take place in Naples, engage readers in gripping tales of Europe's most fabled, atmospheric, dangerous, and lustful city. Follows Papa and his granddaughter as they spend another Thursday together. "Tears of Salt... reveals the human side of suffering through the life of one man." —Adele Annesi, Washington Independent Review of Books Situated more than one hundred miles off Italy's southern coast, the rocky island of Lampedusa has hit world headlines in recent years as the first port of call for hundreds of thousands of African and Middle Eastern refugees fleeing civil war and terrorism and hoping to make a new life in Europe. Dr. Pietro Bartolo, who runs the lone medical clinic on the island, has been caring for many of them—both the living and the dead—for a quarter century. Tears of Salt is Dr. Bartolo's moving account of his life and work set against one of the signal crises of our time. With quiet dignity and an unshakable moral center, he tells unforgettable tales of pain and hope, stories of those who didn't make it and those who did. For John Freeman—literary critic, essayist, editor, poet, "one of the preeminent book people of our time" (Dave Eggers)—it is the rare moment when words are not enough. But in the wake of the election of 2016, words felt useless, even indulgent. Action was the only reasonable response. He took to the streets in protest, and the sense of community and collective conviction felt right. But the assaults continued—on citizens' rights and long-held compacts, on the

core principles of our culture and civilization, and on our language itself. Words seemed to be losing the meanings they once had and Freeman was compelled to return to their defense. The result is his Dictionary of the Undoing. From A to Z, "Agitate" to "Zygote," Freeman assembled the words that felt most essential, most potent, and began to build a case for their renewed power and authority, each word building on the last. The message that emerged was not to retreat behind books, but to emphatically engage in the public sphere, to redefine what it means to be a literary citizen. With an afterword by Valeria Luiselli, Dictionary of the Undoing is a necessary, resounding *cri de coeur* in defense of language, meaning, and our ability to imagine, describe, and build a better world. A Bank Street College of Education Best Children's Book of the Year! Meet Olga, the amazing child scientist who LOVES animals (because they are super-cute)! Olga and the Smelly Thing from Nowhere is jam-packed with fun: vibrant illustrations, word bubbles, quirky humor, olgamus facts, and plenty of excitement for readers who love making discoveries and meeting new friends. With her trusty observation notebook and the help of a librarian, a shopkeeper, and some friends, Olga sets out to do science—learning the facts about her smelly, almost-furry pal and searching for him when he goes missing. The scientific method is the best way to discover anything! Admired for the poetical heights of his *Canti*, the gentle wit of his prose dialogues and the soul-searching questionings of his *Zibaldone* (Notebooks), Leopardi was also an acute social commentator and a sharp dissector of the human mind. Thoughts - a collection of philosophical and critical observations put together for publication by Leopardi himself shortly before his death in 1837 - shows a more light-hearted side to Leopardi's personality, and offers both those who are familiar with and those who are new to his works a fresh insight into the thought processes and the worldview of Italy's last great polymath. The Mrs. Browne trilogy became an instant bestselling success in author Brendan O'Carroll's native Ireland. Fans of Agnes Browne craving further hilarious and heartwarming adventures will be delighted with The Chisellers. Agnes, the lovable and determined heroine, returns with her seven children—whom she affectionately calls "the chisellers"—all struggling to make their way in the world with varying degrees of success. Pierre, Agnes' persistent suitor, is thankfully on hand to console her. Like all good Irish stories, The Chisellers includes a wedding and a funeral, much laughter and some tears—and it is sure to please newcomers as well as loyal fans of this terrific series. Venice. The future of humanity could be hidden in the professor's latest invention, an incredible machine capable of producing green energy from water. It's up to Bepi's kids, now, to follow in his footsteps, and prevent eternal darkness from descending on the world we know. Mo O'Hara's debut novel, a New York Times bestseller, is the first book in a hilarious illustrated chapter book series. Corban Addison's debut novel, A Walk Across the Sun, made waves when it was first published, called "pulse-revving with a serious message," by O, the Oprah magazine. John Grisham said, "Addison has

written a novel that is beautiful in its story and also important in its message. A Walk Across The Sun deserves a wide audience." A trained lawyer committed to the cause of advancing international human rights and abolishing modern slavery, Addison has written a novel that enlightens while it entertains; A Walk Across the Sun brings together three of Addison's great passions--storytelling, human rights, and the world's many cultures.
