Prayer Rain Jan 07 2021 If you have a family member such as a spouse, grown-up child, parent or sibling living in a country in which you desire to emigrate and you need divine assistance to help you begin and complete the process, "Prayer Rain: Breakthrough Prayers For Family-Sponsored Permanent Residency" is the only book of its kind available that contains the word and prayers that will move God to work in your favor. Bible characters such as Abraham and his son, Isaac, Joseph and Mary (mother of Jesus) as well as Paul the Apostle and many others were at one time or the other permanent residents or citizens of countries other than their countries of birth. So surely, as far as it is the will of God, becoming a permanent resident or citizen of a prosperous country is a good thing and if you desire it, it is yours to get. That said, there is a problem. All the great countries of the world have laws that regulate the inflow of immigrants. If you apply but you do not meet the requirements of the immigration laws of these countries, your application will be denied. If you manage to enter into any country and cannot get the legal right to remain, you will automatically become an illegal immigrant - a very undesirable and sometimes dangerous designation. However, If you decide to legally take on the challenge, there are several complicated hurdles to cross and therefore you need the backing of the Almighty. This is why this book was written - to help you get God's help in beginning and completing the permanent residency process. Without a doubt, if you do everything that is written in this book and you exhibit total faith in God that He will answer your prayers, you will get what you want by the power in the mighty name of Jesus.

Green Card Fraud - The Ugly Truth About Immigration Fraud In America May 30 2020 Each year, millions of people come to the United States on temporary visas but refuse to leave, without consequence. Individuals who refuse to leave at the time their visa expires, should be subject to criminal penalties. The 9/11 Report concluded that a visa tracking system was essential. This is required by law, but implementation has been blocked by Congress. Nearly every other country in the world has both entry and exit control. Visitors to these countries, must process both in and out of the country. But the United States has ONLY entry control, and NO exit control. This has made the task of determining if a visitor has departed the United States, or has remained, much more difficult. During the fourteen years that I was employed by the United States Government, I experienced first-hand, the lengths that some individuals would go, to obtain a Green Card and/or Citizenship in the United States. The cases outlined in this book, are "real" cases.

Immigration and Citizenship in the Twenty-first Century Mar 09 2021 In this important book, a distinguished group of historians, political scientists, and legal experts explore three related issues: the Immigration and Naturalization Service's historic review of its citizenship evaluation, recent proposals to alter the oath of allegiance and the laws governing dual citizenship, and the changing rights and responsibilities of citizens and resident aliens in the United States. How Americans address these issues, the contributors argue, will shape broader debates about multiculturalism, civic virtue and national identity. The response will also determine how many immigrants become citizens and under what conditions, what these new citizens learn -- and teach -- about the meaning of American citizenship, and whether Americans regard newcomers as intruders or as fellow citizens with whom they share a common fate.

Jailing Refugees Mar 21 2022 "This 40-page report examines the detention of refugees for failure to file for lawful permanent resident status, even though US immigration officials already put them through a thorough vetting process at the time they were recognized as refugees. Although only a small number of refugees are jailed for this purpose, and the number appears to have decreased under the Obama administration, the detentions continue to be selective and arbitrary, and therefore a violation of international human rights law. The report recommends changing US law to close the legal loophole that allows for detaining these refugees and to give them lawful permanent residence when the US grants them asylum or admits them to the country under its overseas refugee resettlement program."--Human Rights Watch website.

The Permanent Resident Oct 28 2022 No figure in American history has generated more public interest or sustained more scholarly research around his various homes and habitations than has George Washington. The Permanent Resident is the first book to bring the principal archaeological sites of Washington's life together under one cover, revealing what they say individually and collectively about Washington's life and career and how Americans have continued to invest these places with meaning. Philip Levy begins with Washington's birthplace in Westmoreland County, Virginia, then moves to Ferry Farm—site of the mythical cherry tree—before following Washington to Barbados to examine how his only trip outside the continental United States both shaped him and lingered in local memory. The book then profiles the site of Washington's first military engagement and his nation-making stay in Philadelphia. From archaeological study of Mount Vernon, Levy also derives fascinating insights about how slavery changed and was debated at Washington's famous home. Levy considers the fates of Washington statues and commemorations to understand how they have functioned as objects of veneration—and sometimes vandalism—for more than a century and a half. Two hundred years after his death, at the sites of his many abodes, Washington remains an inescapable presence. The Permanent Resident guides us through the places where Washington lived and in which Americans have memorialized him, speaking to issues that have defined and challenged America from his time to our own.
