It is vital to understand the challenges and provide the right support for learners with dyscalculia and specific learning difficulties in mathematics. The book provides:

- an overview of current research explaining the nature and causation of dyscalculia
- guidance on the identification of dyscalculia
- examples of how to carry out informal and formal assessments
- an explanation of the principles of multisensory mathematics teaching
- an outline of a structured programme (for learners aged 5-14), together with examples of lesson planning and activities.

Designed for teachers specialising in the assessment and teaching of learners with dyscalculia, and those undertaking courses leading to Approved Teacher Dyscalculia (ATD) and Associate Membership of the British Dyslexia Association (AMBDA), the book is useful to any professional looking for an understanding of this area of specific difficulty. "Report of the Dominion fishery commission on the fisheries of the province of Ontario, 1893", issued as an addendum to vol. 26, no. 7. This book comprises the Proceedings of the 12th International Congress on Mathematical Education (ICME-12), which was held at COEX in Seoul, Korea, from July 8th to 15th, 2012. ICME-12 brought together 3500 experts from 92 countries, working to understand all of the intellectual and attitudinal challenges in the subject of mathematics education as a multidisciplinary research and practice. This work aims to serve as a platform for deeper, more sensitive and more collaborative involvement of all major contributors towards educational improvement and in research on the nature of teaching and learning in mathematics education. It introduces the major

activities of ICME-12 which have successfully contributed to the sustainable development of mathematics education across the world. The program provides food for thought and inspiration for practice for everyone with an interest in mathematics education and makes an essential reference for teacher educators, curriculum developers and researchers in mathematics education. The work includes the texts of the four plenary lectures and three plenary panels and reports of three survey groups, five National presentations, the abstracts of fifty one Regular lectures, reports of thirty seven Topic Study Groups and seventeen Discussion Groups.
