Models,

Molecules and

Mechanisms in

Biogerontology

Feb 23 2020 This

book examines the

basic cellular and

molecular

mechanisms

associated with

aging. It

comprehensively

describes the

genetic, epigenetic,

biochemical and

metabolic

regulation of aging,

as well as some

important age-

related diseases.

Divided into two

major sections, it

takes readers

through the various

aspects of aging in

a story-like manner

and suggests

various

interventions for

healthy aging, such

as dietary

restriction, regular

exercise, nutrition

and maintaining a

balanced and a non-

stressful lifestyle. It

describes the

implications of

aging on the

nervous system,

metabolism,

immunity and stem

cells as well as care

for the elderly. The

book is an ideal

companion for both

new and

established

researchers in the

field and is also

useful for

educators,

clinicians and

policy makers.

"The last great work of the age of reason, the

final instance when all human knowledge could be presented with a single point of view ... Unabashed optimism, and unabashed racism, pervades many entries in the 11th, and provide its defining characteristics ... Despite its occasional ugliness, the reputation of the 11th persists today because of the staggering depth of knowledge contained with its volumes. It is especially strong in its biographical entries. These delve deeply into the history of men and women prominent in their eras who have since been largely forgotten - except by the historians, scholars"-- The

Dig Apr 18 2022
Winner of the Michael L. Printz

Medal □“King’s narrative concerns are racism, patriarchy, colonialism, white privilege, and the ingrained systems that perpetuate them. . . . [Dig] will speak profoundly to a generation of young people who are waking up to the societal sins of the past and working toward a more equitable future.”—Horn Book, starred review “I’ve never understood white people who can’t admit they’re white. I mean, white isn’t just a color. And maybe that’s the problem for them. White is a passport. It’s a ticket.” Five estranged cousins are lost in a maze of their family’s tangled secrets. Their grandparents,

former potato farmers Gottfried and Marla Hemmings, managed to trade digging spuds for developing subdivisions and now they sit atop a million-dollar bank account—wealth they’ve refused to pass on to their adult children or their five teenage grandchildren. “Because we want them to thrive,” Marla always says. But for the Hemmings cousins, “thriving” feels a lot like slowly dying of a poison they started taking the moment they were born. As the rot beneath the surface of the Hemmings’ white suburban respectability destroys the family from within, the cousins find their

ways back to one another, just in time to uncover the terrible cost of maintaining the family name. With her inimitable surrealism, award winner A.S. King exposes how a toxic culture of polite white supremacy tears a family apart and how one determined generation can dig its way out.
