*Leslie Marmon Silko* Nov 14 2021 In poetry, novels, and short stories, Leslie Marmon Silko embraces the role of storyteller. Silko, the most distinguished and critically recognized of Native American writers, views storytelling as a way of life and her stories as her identity, her autobiography. She defines herself as the product of the land and time and language of her forebears. Her poetry and fiction, *Laguna Woman: Poems, Ceremony, Storyteller, and Almanac for the Dead*, deeply reflect her Laguna heritage. In this volume, Gregory Salyer illuminates Silko's life and work in close readings of her poetry, novels, short fiction, and essays. He examines the themes contained therein within the context Silko's Laguna heritage and her desire for a continued oral tradition in print. In Salyer's view, understanding Silko's desire to continue the oral traditions of her ancestors in print offers readers a more complete experience of the stories. Salyer assesses Silko's place in contemporary American literature, with particular attention to the cultural work her writing performs. Silko explores profound themes such as language, identity, and history from a distinctly Native American point of view.

Coastal Lagoons Jul 11 2021 This book reviews the origin, development, morphology, environment and ecology of the world's coastal lagoons. Uncommon Anthropologist Dec 24 2019 A trailblazer in Native American linguistics and anthropology, Gladys Reichard (1893–1955) is one of America's least appreciated anthropologists. Her accomplishments were obscured in her lifetime by differences in intellectual approach and envy, as well as academic politics and the gender realities of her age. This biography offers the first full account of Reichard's life, her milieu, and, most importantly, her work—establishing, once and for all, her lasting significance in the history of anthropology. In her thirty-two years as the founder and head of Barnard College's groundbreaking anthropology department, Reichard taught that Native languages, written or unwritten, sacred or profane, offered Euro-Americans the least distorted views onto the inner life of North America's first peoples. This unique approach put her at odds with anthropologists such as Edward Sapir, leader of the structuralist movement in American linguistics. Similarly, Reichard's focus on Native psychology as revealed to her by Native artists and storytellers produced a dramatically different style of ethnography from that of Margaret Mead, who relied on western psychological archetypes to “crack” alien cultural codes, often at a distance. Despite intense pressure from her peers to conform to their theories, Reichard held firm to her humanitarian principles and methods; the result, as Nancy Mattina makes clear, was pathbreaking work in the ethnography of ritual and mythology; Wiyot, Coeur d'Alene, and Navajo linguistics; folk art, gender, and language—amplified by an exceptional career of teaching, editing, publishing, and mentoring. Drawing on Reichard's own writings and correspondence, this book provides an intimate picture of her small-town upbringing, the professional challenges she faced in male-centered institutions, and her quietly revolutionary contributions to anthropology. Gladys Reichard emerges as she lived and worked—a far-sighted, self-reliant humanist sustained in turbulent times by the generous, egalitarian spirit that called her yearly to the far corners of the American West.

*An American Impressionist* Apr 27 2020 Intended as the companion art book to a travelling exhibition, *An American Impressionist: The Art And Life Of Alson Skinner Clark* is the first in-depth scrutiny of the American Impressionist painter Alson Skinner Clark (1876-1949). Featuring 77 colour plates and 10 halftones of Clark's work, ranging from nude figures to bustling urban centres to panoramic scenes from all over the world, *An American Impressionist* pairs the raw beauty and gentle imagery of the oil on canvas works with a brief discussion of Clark's life, his marriage, travels abroad, the toll World War I took upon him, his obscure retirement and the recent rediscovery of his contributions, particularly to the Impressionist tradition in California, where Clark made a name and lasting memory for himself among the local art community. Especially recommended for collectors, students, and connoisseurs of the Impressionist style. 77 colour & 10 halftone plates

From Settler to Citizen Jan 23 2020 "Ross Frank has written a model study of New Mexico's Vecinos—a historical narrative as absorbing as it is illustrative of complex social processes."--Joyce Appleby, author of *Inheriting the Revolution: The first Generation of Americans* "This is a richly dense and sophisticated history of eighteenth-century New Mexico that focuses on the economic and cultural foundations of identity. Deftly reading subtle changes in material culture and the organization of space, Frank provides historians of the Americas with a fresh perspective on the impact of the Bourbon Reforms at the margins of empire."--Ramon Gutierrez, author of *When Jesus Came, the Corn Mothers Went Away: Marriage, Sexuality, and Power in New Mexico, 1500-1846*

**The San Francisco School of Abstract Expressionism** Jun 21 2022 "This well written, fully researched, and handsomely illustrated volume gives potent new life to artists and ideas nearly lost to American art history. Susan Landauer's enlightening book will play an important role in redefining the post-World War II avant-garde as a national rather than an East Coast phenomenon."--Henry T. Hopkins, University of California, Los Angeles "This book ranks as one of the more important recent contributions to the history of postwar American art."--Caroline Jones, Boston University
