Doenças infecciosas e parasitárias no contexto brasileiro – Volume 3

Jan 12 2022 O que lhe vem à mente ao ler o termo “doenças infecciosas e parasitárias”? E se adicionarmos “no contexto brasileiro” – sua resposta mudaria? É certo que as doenças infecciosas e parasitárias (DIP) não escolhem alvos, mas sabemos que as condições climáticas, socioeconômicas e sanitárias do Brasil tornam nosso país e, em especial, determinados grupos populacionais, mais vulneráveis a elas. Em certa medida, sabemos o que precisa ser feito para diagnosticar, tratar, combater e prevenir as DIP. Porém, mesmo uma base científica sólida pode ser insuficiente para impedir os danos causados por um patógeno e a doença a ele associada. Em algum nível seremos afetados; e, para minimizar o impacto do desconhecido, a busca por conhecimento deve ser contínua. Neste cenário, temos o prazer de apresentar a obra “Doenças Infecciosas e Parasitárias no Contexto Brasileiro” em dois novos volumes, os quais reúnem mais de 50 capítulos que agregam conhecimentos atualizados sobre as mais diversas DIP. Esperamos que esta obra seja lida como um referencial, que fomente ideias, promova debates e seja vista como exemplo de força da produção científica nacional.

The Churches and Democracy in Brazil May 24 2020 Brazil is a rapidly emerging country. Brazilian theology, namely the Theology of Liberation, has become well known in the 1970s and 1980s. The politically active Base Ecclesial Communities and the progressive posture of the Roman Catholic Church contrasted with a steadily growing number of evangelicals, mostly aligned with the military regime but attractive precisely to the poor. After democratic transition in the mid-1980s, the context changed considerably. Democracy, growing religious pluralism and mobility, a vibrant civil society, the political ascension of the Worker's Party and growing wealth, albeit within a continuously wide social gap, are some of the elements that show the need of a new approach to theology. It must be a theology that is both critical and constructive, resisting and cooperative, a theology that is able to give orientation to the churches, valuing and encouraging their contribution in society while avoiding attempts of imposition. *The Churches and Democracy in Brazil*, the fruit of years of interdisciplinary study of the Brazilian context and its main churches and theology, makes its case for

an ecumenically articulated public theology. It seeks inspiration mainly in Luther and Lutheran theology, emphasizing human dignity, freedom, trust, the disposition to serve, and the ability to endure the ambiguities of reality, as well as a fresh interpretation of the doctrine of the two regiments. These are the fundamental elements of what makes human beings full members of the body politic: citizenship, their right to have rights and to be able to effectively live them, together with their corresponding duties, in a move of growing political participation conscious of their religious motivation in view of the commonweal.

Entrepreneurship in Nineteenth-Century Brazil Feb 19 2020

Examining the patterns of business development in backward economies, this book demonstrates, the rate and character of business development in Brazil were to a large extent determined by its degree of backwardness, intellectual climate and natural potentialities, and accordingly the course of development of the Brazilian economy differed considerably from processes observed in more advanced countries. In addition, comparison between Minas Gerais, Sao Paulo and Rio de Janeiro shows important differences among the three most important economies in Brazil.

Dependent Development Apr 27 2023 In order to analyze Brazil's recent accumulation of capital in the light of its continued dependence, Peter Evans focuses on the relationships among multinational corporations, local private entrepreneurs, and state-owned enterprises that have developed in Brazil over the last decade. He argues that while relations among the three kinds of capital continue to be contradictory, a triple alliance has been formed that provides the social structural basis for the pattern of local industrialization that has emerged. The author begins with a review of the theories of imperialism and dependency in the third world. Placing the Brazilian experience of the last twenty years in its historical context, he traces the country's evolution from the period of "classic dependence" at the turn of the century to the current stage of "dependent development." In conclusion, Professor Evans discusses the

implications of the Brazilian model for other third world countries. Examining the nature of the triple alliance as it is manifested in such industries as pharmaceuticals, textiles, and petrochemicals, the author reveals the complex differentiation of the groups' roles in industrialization and lays bare the grounds for their collaboration and their conflict. He consequently shows how the differing interests, power, and capabilities of the three groups have combined to produce a system promoting industrialization that benefits the elite partnership but excludes the larger population from the rewards of growth.

Dona Ivone Lara's Sorriso Negro Nov 22 2022 More than simply a paragon of Brazilian samba, Dona (Lady) Ivone Lara's 1981 Sorriso Negro (translated to Black Smile) is an album deeply embedded in the political and social tensions of its time. Released less than two years after the Brazilian military dictatorship approved the Lei de Anistia (the "Opening" that put Brazil on a path toward democratic governance), Sorriso Negro reflects the seminal shifts occurring within Brazilian society as former exiles reinforced notions of civil rights and feminist thought in a nation under the iron hand of a military dictatorship that had been in place since 1964. By looking at one of the most important samba albums ever recorded (and one that also happened to be authored by a black woman), Mila Burns explores the pathbreaking career of Dona Ivone Lara, tracing the ways in which she navigated the tense gender and race relations of the samba universe to ultimately conquer the masculine world of samba composers. 33 1/3 Global, a series related to but independent from 33 1/3, takes the format of the original series of short, music-based books and brings the focus to music throughout the world. With initial volumes focusing on Japanese and Brazilian music, the series will also include volumes on the popular music of Australia/Oceania, Europe, Africa, the Middle East, and more.

Tim Maia's Tim Maia Racional Vols. 1 & 2 Feb 01 2021 At the height of Tim Maia's soaring fame, he joined a radical, extraterrestrial-obsessed cult and created two plus albums of some of Brazil's-and the globe's-best funk and soul music. This book explores the career of the man often hailed as the James Brown or Barry White of Brazil, and the time of his radical transformation from a musician notorious for hedonistic living to a devoted follower of Manoel Jacinto Coelho's Rational Culture. After suddenly joining Coelho's cult in 1974 (which started first as an offshoot of the mystical Afro-Brazilian religion Umbanda), Maia gave up drugs and alcohol, threw away his material possessions, and released *Racional Vols. 1 & 2* in the attempt to convert the entirety of Brazil and the world to the revelation of Rational Culture. Thayer explores this strange, brief, yet incredibly prolific period of Maia's life wherein the reigning soul and funk artist of Brazil produced two albums, an EP, and a recently unearthed tape containing almost another full album of funky jams laced with spiritual content and scripture. For just as quickly as Maia became entranced with Coelho did he become disillusioned with the cult, disavowing and destroying everything having to do with that experience and refusing to speak of it for the rest of his life. *33 1/3 Global*, a series related to but independent from *33 1/3*, takes the format of the original series of short, music-based books and brings the focus to music throughout the world. With initial volumes focusing on Japanese and Brazilian music, the series will also include volumes on the popular music of Australia/Oceania, Europe, Africa, the Middle East, and more.

Crafting the Third World Mar 02 2021 This innovative study compares the history of economic ideas and ideologies in Romania and Brazil - and more broadly, those in East Central Europe and Latin America - in the late nineteenth and twentieth centuries. Whereas previous histories of the idea of economic development have focused on 'First World' theorists, this book considers theorists in two 'backward' countries who made

important contributions to the field. Latin America is well known to economic historians as the region that gave rise to the Structuralist school and Dependency movement. Less well known is the fact that East Central Europe is important as the early training ground and the empirical concern of the first generation of development economists. This comparative study examines the ways in which economists and other social scientists in Romania and Brazil confronted the issues of economic backwardness.

Letters from Brazil Iii Mar 26 2023 "Letters from Brazil III" is a continuation of Professor Mike Gaherty's adventures in Brazil. It chronicles in fiction Mike's initiation into the Portuguese-Brazilian academic world in the milieu of a major international "congress." The academic affair is followed by Mike's friendship and involvement with singer-composer Chico Buarque de Hollanda, the reporting for the New York Times of his songs jousting with Brazil's "prior censorship" board, and Mike's participation in one of Chico's LP's and successive concerts in Sao Paulo and Rio. The latter experience becomes dicey and dangerous with interference, surprising cooperation and then bad times with the military regime's enforcement agency - the "Department of Public Security." Mike, still a bachelor, is entertained and then becomes enmeshed in fun times turned complicated with beautiful "carioca" women.

The Rise, Spread, and Decline of Brazil's Participatory Budgeting Sep 27 2020 This book examines the rise, spread and decline of participatory budgeting in Brazil. In the last decade of the twentieth century Brazil became a model of participatory democracy for activists, practitioners, and scholars. However, some thirty years later participatory budgeting is in steep decline, and on the verge of disappearing from Brazil. Drawing from institutional, political choice, civil society, and public administration literature, this book generates theory that accounts for the rise and fall of an innovative democratic institution. It examines what the arc of the creation, spread, and decline of participatory budgeting tells us about the long-term viability and potential democratic impact of this innovative democratic institution as it spreads globally. Will the same

inverted trajectory plague other countries in the future, or will they be able to sustain participatory budgeting for greater periods of time?

Caetano Veloso's A Foreign Sound Jun 24 2020 What makes a song sound foreign? What makes it sound "American," or Brazilian? Caetano Veloso's 2004 American songbook album, *A Foreign Sound*, is a meditation on these questions-but in truth, they were questions he'd been asking throughout his career. Properly heard, the album throws a wrench into received ideas regarding the global hegemony of US popular music, and also what constitutes the Brazilian sound. This book takes listeners back through some of Veloso's earlier considerations of American popular music, and forward to his more recent experiments, in order to explore his take on the relationship between US and Brazilian musical idioms. *33 1/3 Global*, a series related to but independent from *33 1/3*, takes the format of the original series of short, music-based books and brings the focus to music throughout the world. Diary of a North American Researcher in Brazil Iii Jan 24 2023 *Diary of a North American Researcher in Brazil III* is the last in the series *Stories I Told My Students*. It is the continuation of the authors love affair and odyssey in Brazil, this time from 1988 to 2005. The volume brings to the present moments lived in Brazil and is written much more in the framework of a travel diary in Brazil. Short vignettes about people and places flavor the book. There is emphasis on academic conferences with many Brazilian Stories, the publication of works in Brazil, and more important, times shared with cordel poets, professors and researchers of Brazilian literature, folklore and popular literature in verse. Something new in this final phase of research, writing and professional life was the time spent in the city of So Paulo, at first glance an unlikely place for a student of folklore. A special moment was the participation in a unique event: 100 Years of Cordel sponsored by the SESC-POMPEIA in 2001 in that city. Others were with cordel poets and poet-singers in the Northeastern Cultural Center in So Paulo, and with Sergio Miceli of the University of So Paulo Press and Plnio Martins of Ateli Press, dealing with the publication of Currans final research efforts in Brazil. And lastly the book recalls fondly the time spent with friends who were with me in moments of happiness but also of solitude and some loneliness. I dedicate the book to all of them: cordel poets, researchers, professors, writers, friends, and to the person who sustained me most, my wife Keah.
