People give us pain, and we try to heal it. I always think when I was a little child, I was never as miserable as today as I am. Why? Because we are growing unhappiness and guilt in our minds. In the world of silence, we are broken inside with loud noise. We don't know what we really want. Some days we are exceptionally delighted, while some days we are intensely depressed. Why we aren't capable to be stable for both happiness and sadness. People can offer happiness and riches but not the healing process. Why? People think if they can live alone with ignorance then they can heal, but it's not the actual process of healing. Joy is all around us. It's in the first sip of a cup of tea, the beauty of a sunrise, or the simple pleasure of a deep breath, and it's easy to find when you know where to look. All you need is five minutes. This book includes over 60 prompts and ideas to help you to find joy every single day. Taking you through your morning, your afternoon and your evening, these tips will help you to elevate your mood and liven up your routine and each one takes no longer than five minutes. A Nobel Prize-winning physicist explains what happened at the very beginning of the universe, and how we know, in this popular science classic. Our universe has been growing for nearly 14 billion years. But almost everything about it, from the elements that forged stars, planets, and lifeforms, to the fundamental forces of physics, can be traced back to what happened in just the first three minutes of its existence. In this book, Nobel Laureate Steven Weinberg describes in wonderful detail what happened in these first three minutes. It is an exhilarating journey that begins with the Planck Epoch - the earliest period of time in the history of the universe - and goes through Einstein's Theory of Relativity, the Hubble Red Shift, and the detection of the Cosmic Microwave Background. These incredible discoveries all form the foundation for what we now understand as the "standard model" of the origin of the universe. The First Three Minutes examines not only what this model looks like, but also tells the exciting story of the bold thinkers who put it together. Clearly and accessibly written, The First Three Minutes is a modern-day classic, an unsurpassed explanation of where it is that everything really comes from.
