Italian Literature before 1900 in English Translation Dec 24 2021 Italian Literature before 1900 in English Translation provides the most complete record possible of texts from the

early periods that have been translated into English, and published between 1929 and 2008. It lists works from all genres and subjects, and includes translations wherever they have appeared across the globe. In this annotated bibliography, Robin Healey covers over 5,200 distinct editions of pre-1900 Italian writings. Most entries are accompanied by useful notes providing information on authors, works, translators, and how the translations were received. Among the works by over 1,500 authors represented in this volume are hundreds of editions by Italy's most translated authors – Dante Alighieri, Machiavelli, and Boccaccio – and other hundreds which represent the author's only English translation. A significant number of entries describe works originally published in Latin. Together with Healey's Twentieth-Century Italian Literature in English Translation, this volume makes comprehensive information on translations accessible for schools, libraries, and those interested in comparative literature.

Legends of the Sibilline Mountains Apr 03 2020 "Legends of the Sibilline Mountains" is a small book about an obscure corner of Italy and an equally obscure backwater of world literature. And yet the subjects it touches upon--amongst them, the roots of literature in popular consciousness, the intimations of Christian existentialism, the absorption of pagan traditions into Christianity--reach far and wide. Goddess worship, necromantic rites, the

death of Pontius Pilate, Benevenuto Cellini, Goethe's "Faust," Wagner's "Tannhauser"...they all connect here in a real place of strange geological formations and magical beauty. The Sibilline Mountains, dividing Le Marche from Umbria, were "celebrated in the 14th and 15th centuries throughout all Europe for magical fairy tales and necromantic initiations," according to the author, Giuseppe Santarelli. In the most famous of these tales a mysterious Sibyl inhabits a grotto devoted to the pleasures of the flesh, luring knights to eternal damnation. Another legend concerns the Lago di Pilato, a mountaintop lake where Pontius Pilate's body had been cast that later became a destination for demonic rituals. In a witty and personal tone Santarelli, director of the Sanctuary of Loreto, discusses the origins of the myths in folklore, their literary transformations through the centuries, and the archeological traces they left behind.

Intimate Frontiers Jan 01 2020 Intimate Frontiers: A Literary Geography of the Amazon analyzes the ways in which the Amazon has been represented in twentieth century cultural production. With contributions by scholars working in Latin America, the US and Europe, Intimate Frontiers reads against the grain commonly held notions about the region —its

gigantism, its richness, its exceptionality, among other— choosing to approach these rather from quotidian, everyday experiences of a more intimate nature. The multinational, pluriethnic corpus of texts critically examined here, explores a wide range of cultural artifacts including travelogues, diaries, and novels about the rubber boom genocide, as well as indigenous oral histories, documentary films, and photography about the region. The different voices gathered in this book show that the richness of the Amazon lays not in its natural resources or opportunities for economic exploit, but in the richness of its histories/stories in the form of songs, oral histories, images, material culture, and texts.

Historical Dictionary of Italian Cinema Aug 08 2020 Italian cinema is now regarded as one of the great cinemas of the world. Historically, however, its fortunes have varied. Following a brief moment of glory in the early silent era, Italian cinema appeared to descend almost into irrelevance in the early 1920s. A strong revival of the industry which gathered pace

during the 1930s was abruptly truncated by the advent of World War II. The end of the war, however, initiated a renewal as films such as *Roma città aperta* (Rome Open City), *Sciuscià* (Shoeshine, 1946), and *Ladri di biciclette* (Bicycle Thieves, 1948), flagbearers of what soon came to be known as Neorealism, attracted unprecedented international acclaim and a reputation that only continued to grow in the following years as Italian films were feted worldwide. Ironically, they were celebrated nowhere more than in the United States, where Italian films consistently garnered the lion's share of the Oscars, with Lina Wertmüller becoming the first woman to ever be nominated for the Best Director award. This second edition of *Historical Dictionary of Italian Cinema* contains a chronology, an introduction, and an extensive bibliography. The dictionary section has over 400 cross-referenced entries on major movements, directors, actors, actresses, film genres, producers, industry organizations and key films. This book is an excellent resource for students, researchers, and anyone wanting to know more about Italian Cinema.

The Legends of Flowers Jan 31 2020

Civic Ritual and Drama Sep 08 2020 Late medieval and renaissance cities, though powerful communities jealous of their own jurisdiction, were constantly negotiating their relationships with other secular and religious authorities. The seven essays in this collection treat various aspects of civic display and pageantry during the fifteenth and sixteenth

centuries. The overwhelming sense one receives is that the solemn pomps were essentially about power — how to get it, display it, share it and retain it. Each paper demonstrates how, through ceremony and symbol, municipalities sought to fashion their own corporate self-image in order to establish the limits of their authority in relationship to the countervailing powers surrounding them. The essays are concerned with the period before the ever widening impact of the Reformation and the intellectual and political revolutions it spawned had reached the level of civic pageantry. In the varied rituals considered here we can see reflected the highly sophisticated minds of their creators using the symbolic landscape of their religious and cultural past in important acts of corporate self-fashioning.

Opera Plot Index Sep 01 2022 First Published in 1990. Information about individual operas and other types of musical theater is scattered throughout the enormous literature of music. This book is an effort to bring that data together by comprehensively indexing plots and descriptions of individual operatic background, criticism and analysis, musical themes and bibliographical references. The principal audience for this general reference guide will be for the non-specialist, but its hoped that persons specialising in opera would also find it useful.

Reclaiming the Roman Capitol: Santa Maria in Aracoeli from the Altar of Augustus to the Franciscans, c. 500–1450 Jan 13 2021

Prominently located on the Arx, the northern summit of the Capitoline hill, S. Maria in Aracoeli is the most significant medieval church of Rome to survive to the present day. Second major church of the Lesser Brothers or fratres minores in the Italian peninsula, and Roman headquarters of the Order, the Aracoeli played a vital role in the interaction between the Franciscans and the papacy, the friars and the laity, and the religious and civic authorities, as reflected in its art and architecture. On the basis of an interdisciplinary approach combining archaeological analysis with the finding of new archival evidence, reinterpretation of documents and literary and epigraphic sources, this book offers a reconstruction of the original church, its monuments and its Benedictine as well as eighth/ninth-century predecessors, which differs radically from earlier hypotheses. This reassessment in turn allows the author to revisit a number of major questions, including the Franciscans' physical and theoretical appropriation of the past, the adaptation of an ancient site by a 'modern' religious order, the use and functions of space,

the interaction between friars, laity and artists, and the contribution of the Roman Franciscans to the development of Marian devotion, thus shedding new light on the social, political and religious history of late-medieval Italy and its impact beyond the peninsula, from England to Bohemia and the Holy Land.
