The Search for Aliens: A Rough Guide to Life on Other Worlds provides the first vivid and completely accessible guide to the most exciting field of modern science: the search for

extraterrestrial life. All the latest research projects are identified, located and described; everything from radio dishes searching for intelligent alien signals to deep oceanic research, seeking links between terrestrial organisms and the broader cosmos. It also explores the idea of Panspermia, the notion that asteroids and comets brought biological building blocks to the early earth, plus exactly which factors must align for life to arise across our galaxy and the universe. *The Search for Aliens: A Rough Guide to Life on Other Worlds* explains why we may be closer than ever to finding out the answer to the question: is there any life beyond life on earth? Now available in ePub format. Once readers have mastered the basics, they're eager to take the next step: creating their own original pieces. This is their must-have resource for understanding the fundamental principles of visual design, from scale, proportion, and rhythm to texture, movement, drape, and color. Exercises, reader challenges,

and lavish photos enhance understanding and design success. An infographic introduction to the essential role water plays in everyday life combines text, photographs, and diagrams that cover such topics as climate change, the symbolism of water in religion, and conservation. This book is an easy-to-read and comprehensive guide to understanding how the Dark Web works and why you should be using it! Readers are led on a tour from how to download the platform for personal or public use, to how it can best be utilized for finding information. This guide busts myths and informs readers, remaining jargon-free. What is a tornado? Why does it snow? How is a hurricane created? Find out in this novelty-packed introduction to our planet's weather. Tackling both normal and extreme scenarios, this is an entertaining and enlightening exploration of the world's weather. With bright, friendly illustrations, plus pop-ups, pull-tabs, and booklets, this interactive book stimulates learning and encourages children to

think about how humans can influence the Earth's climate. The Creative Curriculum comes alive! This videotape-winner of the 1989 Silver Apple Award at the National Educational Film and Video Festival-demonstrates how teachers set the stage for learning by creating a dynamic well-organized environment. It shows children involved in seven of the interest areas in the The Creative Curriculum and explains how they learn in each area. Everyone conducts in-service training workshops for staff and parents or who teaches early childhood education courses will find the video an indispensable tool for explaining appropriate practice. "WoW" is what you'll say when you see how many ways you can tweak the World of Warcraft interface after you read this book! If you're new to programming, we'll teach you the basics of Lua and XML and walk you through writing your first addon. If you already have some original addons in your arsenal, jump right into Parts III and IV and work with templates, function hooking, custom graphics,

state headers, and more. We'll even help you distribute your addons, making WoW better for everybody. Respond to events, creates frames, and use the WoW API to interact with the game Learn the Lua programming language through interactive examples, from values and variables to custom functions and control structures Write well-formed XML and validate using schemas Find specific functions easily in the comprehensive references of APIs, API categories, events, and widgets Create custom graphics, scroll frames, dropdown menus, and much more A Note from the Publisher: In the first printing, we mistakenly omitted the Authors' Acknowledgements, which included the names of many World of Warcraft community members who helped bring this book to market. I want to publicly thank them for their efforts, and apologize for the omission, which will be corrected in the second printing. It is the members of the WoW community that make Blizzard's amazing game an even greater

experience for millions of players around the world, and their efforts on this book are greatly appreciated. Chris Webb Executive Editor From the Authors: James and Lee Whitehead, thank you for standing behind me on everything that I've done throughout my wacky life. None of this would have been possible without the guidance and support that you've provided me. Michelle Hastings, thank you for finding a way to bridge a 5300 mile gap and still make me feel like I'm in your living room. Robert and Gregory Whitehead, thank you for sticking by me wherever I am and whatever I do without ever passing judgment. Tom Harper, thank you for letting me be a part of your life. Every single day with you is an adventure I can't wait to begin, and you have changed my life forever. Jamie Anderson and Edward Wilman, thank you for letting us invade your sanctuary and for being such good friends. Charlie Radcliffe, Björn Alfthan, Anne Christianson, and Chris McCabe, thank you for being great flatmates. Worcester

College MCR, thank you for giving me a community of friends in a very foreign land. Karen Hobson, thank you for being so helpful and supportive throughout the last two projects; you've helped keep me afloat. Sam Lantinga, thank you for all the time and effort you put into helping the World of Warcraft community. Kevin M. Kelly, thank you for your odd sleep patterns and availability; exploration of the unknown is always easier when you have a friend with a map. Daniel Stephens, thank you for your help digging through various parts of the API and for giving me a good jumping-off point for my data exploration. Chris Webb, thank you for bringing this book and Hacking World of Warcraft into existence. Both books serve as great resources for the WoW UI community. Maryann Steinhart, thank you for your guidance through the entire process. Your feedback, as always, has proved instrumental to the process. Matthew and Bryan, for working with me on this extremely ambitious project, it's definitely been a rollercoaster.

Thanks to everyone who kept me moving when I needed a push, and those who slowed me down when I needed a break. Thank you to all of my users for putting up with bugs and lack of updates while the book was still being written; your patience and support is what keeps me writing addons. Finally, thank you to all the members of the WoW UI community for everything you do.--Jim First, I would like to thank all those involved with the book: Jim for inviting me to take part; Bryan for sticking with it through all his work pressures; Chris, Maryann, and the rest of the folks at Wiley for allowing this project to materialize. Thanks to Rick and Stephen for picking apart our work. Supreme thanks go to Iriel, AnduinLothar, Cladhaire, MentalPower, Esamynn, Beladona, Krka, Legorol, Shirik, Cidan, Kevin, Sam, and all the members of #wow-lounge for putting up with our incessant questions. Thank you to all the folks who helped us churn out the API docs at the 11th hour. Thank you to PepsiCo and

Rockstar, Inc., without whose caffeinated beverages I never would have completed my chapters. I'd also like to thank whoever made the massage pad I keep on my computer chair. The best go out to the folks behind "Brisco County Jr.," "Firefly," and every other television series that should've gone on for years. For entertaining me in my few breaks, xkcd.org, bash.org, Portal, World of Warcraft, "Bones," "Nip/Tuck," and "Mythbusters" have my undying gratitude. What thanks for a book of this nature would be complete without recognition of Blizzard for its wonderful product and incredible passion? Special thanks go out to my de facto colleagues from the UI & Macros forum for their hard work, dedication, and flaming of people who didn't read the stickies while I devoted my time to this project: Troodi, the nicest troll I've ever met; Jelly, enthusiastic ForumToCPoster user; Kamdis, female Draenei—@@'nuff said; Lunessa, my no. 1 supporter for my presidential bid; Lopeppeppy, whose name I can finally type

from memory; Kaydeethree, with the best diagram of how to find stickies ever; Kelfarr, under people's skin before he even posts; Alestane, unnervingly patient; Valaron, never met a better Orc; Lealla, yay drood!; Aella, whom I always confuse with Lealla; everybody else whom I forgot to name; and our Administratrix Extraordinaire, Cairenn, for holding everything together! My deepest thanks go to my family for making me who I am, and, most important, to my wife, Juliella, thank you for supporting me in this endeavor even when it meant I had to put you on /ignore from time to time.--Matthew Wanda and Joe Newman, for the hours you put up with me not being willing to get off the computer. Thanks for all the support over the years, and for buying me my first copy of VB when I was 15, and sorry for all the arguments. Willis McLemore, thanks for supporting me without ever expecting anything from me. Brent Miller, for helping me really start out on this awesome journey. You helped

guide me when I first got started doing WoW addons, and many of the things we talked about helped shape me as a professional coder. Thanks for the first versions of Ace and for shrugging off all that responsibility onto me when you left. Oh, and thanks for listening to me rant. Jim Whitehead and Matthew Orlando, you have been better co-authors than anyone else can ask for. Thanks for putting up with me while I learned how to do this, and for handling the content that I had no clue about. Sorry again for the times when I got overwhelmed. Thanks to all the editors and support from Wiley for helping me get through this, and for putting up with me when I gave you problems. PProvost, Ammo, Cladhaire, hyperChipmunk, kergoth, Mikk, Nargiddley, pastamancer, nevcairiel, Tekkub, Tem, vhaar, Wobin and the members of #wowace. Thanks for the ideas, inspiration, strife, and hard work. Thanks for helping WowAce grow to more than a million users and for all the great mods! Shirik, Tekkub, Wobin,

Mentalpower, Esamynn, Cide, Ammo, Nevcairiel, and Iriel (and any I have accidentally forgotten). Thank you for helping so much on the reference. We would never have been done in time without you. Karen Hobson. You've been a friend to me during some of the darkest times in my life, and I'll always treasure your company and support. I don't think it'd be possible for me to thank you enough. Aidan McLemore, who still thinks Daddy can do anything. Last, but by no means least, Kristina McLemore. Thanks for believing in me and following me across the country, for always loving me, and for helping me but, most important, for not divorcing me during the production of this book.--Bryan A special thanks is owed to a group of hard-working members of the user interface community, without whom the reference section of this book would not have been completed. Each of you truly stepped up when we needed your help, and we're extremely grateful for everything you've done for us. Thank you [Ammo], Beladona, Cide, Gazmik, JoshBorke,

MentalPower, Nevcairiel, Shirik, Tem, and Wobin for giving us your time, and a little bit of your sanity. Dan Fernandez, thank you for your work on the World of Warcraft AddOn Studio and your help in writing Chapter 14. We're hopeful that the software will continue to develop and mature as another tool in the addon author's toolbox. Annotation. In this best-selling educational standard, Miller describes more than 1,500 of the most useful Web sites for educators and students. The planets fascinate us, and naturally we care about our own Earth, and things like how well we can forecast the weather and whether climate is really changing. Exploring the Planets offers a personal account on how the space programme evolved. It begins in the era of the first blurry views of our Earth as seen from space, and ends with current plans for sophisticated robots on places as near as our

neighbours Venus and Mars and as far away as the rainy lakelands of Saturn's planet-sized moon Titan. Examining the scientific goals of these complex voyages of discovery, and the joys and hardships of working to achieve them. The Space Age is now about 50 years old and for those lucky enough to be part of it at its inception, it's filled a worklong lifetime. Today, several satellites around the Earth have studied the atmosphere and the climate using instruments on board that the author helped design and build. 'Deep space' missions were embarked upon to visit the planets: all of the major bodies (six planets, the Moon and minor bodies, asteroids and comets) of the classical Solar System have been scrutinised close-up by experiments built in various laboratories worldwide. Most of the narrative is based on the author's experiences at the world's space agencies, research labs, and conferences, and at other places as diverse as Cape Canaveral and No. 10 Downing Street. Life is complicated;

prayer doesn't have to be. Help, Thanks, Wow ...in 30 minutes is the concise guide to quickly understanding the three simple prayers outlined in Anne Lamott's best-selling book, Help, Thanks, Wow: The Three Essential Prayers. Understand the thought-provoking ideas behind Help, Thanks, Wow: Learn what it means to pray, and the life-opening power of prayer, independent of your faith or lack thereof. Inspirational stories convey Lamott's personal insight and exploration of faith. Discover how the three essential prayers help us endure difficult times and continue to move ahead. In Help, Thanks, Wow, best-selling author Anne Lamott demystifies prayer, declaring that there are no rules—a higher power can be called anything, and people can believe in any religion they'd like (or none at all) and still pray. This is the first book to present a roadmap for tailoring acceptance and commitment therapy (ACT) to the serious, complex challenges of anorexia nervosa (AN). Leading authorities describe interventions grounded in ACT core processes--Defusion, Acceptance, Attention to the Present Moment, Self-Awareness, Values, and Committed Action. Guidance is provided for conducting functional assessments with adolescents and adults and

working toward individualized treatment goals, starting with weight restoration. The book also discusses ways to engage parents and other family members in treatment. It features therapist scripts, sample dialogues, case examples, and reproducible forms and handouts. The large-size format facilitates photocopying; purchasers also get access to a Web page where they can download and print the reproducible materials. Astrophysicist and author Mario Livio investigates perhaps the most human of all our characteristics—curiosity—in this “lively, expert, and definitely not dumbed-down account” (Kirkus Reviews) as he explores our innate desire to know why. Experiments demonstrate that people are more distracted when they overhear a phone conversation—where they can know only one side of the dialogue—than when they overhear two people talking and know both sides. Why does half a conversation make us more curious than a whole conversation? “Have you ever wondered why we wonder why? Mario

Livio has, and he takes you on a fascinating quest to understand the origin and mechanisms of our curiosity. I thoroughly recommend it.” (Adam Riess, Nobel Prize Winner in Physics, 2011). Curiosity is not only at the heart of mystery and suspense novels, it is also essential to other creative endeavors, from painting to sculpture to music. It is the principal driver of basic scientific research. Even so, there is still no definitive scientific consensus about why we humans are so curious, or about the mechanisms in our brain that are responsible for curiosity. In the ever-fascinating *Why?* Livio interviewed scientists in several fields to explore the nature of curiosity. He examined the lives of two of history’s most curious geniuses, Leonardo da Vinci and Richard Feynman. He also talked to people with boundless curiosity: a superstar rock guitarist who is also an astrophysicist; an astronaut with degrees in computer science, biology, literature, and medicine. What drives these people to be curious about so many

subjects? An astrophysicist who has written about mathematics, biology, and now psychology and neuroscience, Livio has firsthand knowledge of his subject which he explores in a lucid, entertaining way that will captivate anyone who is curious about curiosity. Join famed hunter Rexxar, his animal companions, and Horde Ambassador Zekhan as they make the perilous journey across the lush and vivid reaches of Kalimdor to learn the secrets of the realm. Leave no stone unturned and no tracks unfollowed as Rexxar and Zekhan reveal lore, insights, equipment, and breathtaking landscapes from the ramparts of Orgrimmar to the golden plains of Mulgore to the wilds of Un'Goro Crater-and share one final kindness with a friend along the way. Featuring stunning, immersive artwork and new insights crafted by Blizzard's own loremaster, Sean Copeland, *Exploring Azeroth: Kalimdor* is your next step in a remarkable journey across Azeroth. For over a quarter of a century, *Warcraft* and *World of Warcraft* players

have been treated to a treasure trove of artifacts, gear, weaponry, and trinkets of both awe and amusement. Now players can get an in-depth look at the items they have collected...and the fearsome powers they hold. From the shining towers of Silvermoon to the sulfurous Blackrock Mountain to the white stone castles of Stormwind, the Eastern Kingdoms are vast and full of wonder. Every corner of the majestic isle contains countless stories, treasures, and more than a few secrets that some would prefer stay buried. Follow Spymaster Mathias Shaw and Captain Flynn Fairwind on an expedition across the Eastern Kingdoms for king and country as they chronicle its history and catalog the weapons, armor, and powers untold that are scattered across this sprawling dominion. Penned by New York Times bestselling author and Blizzard Entertainment writer Christie Golden, *Exploring Azeroth: The Eastern Kingdoms* is your first step on a truly remarkable journey across the beloved lands of Azeroth

Psychedelics for spiritual, therapeutic, and problem-solving use • Presents practices for safe and successful psychedelic voyages, including the benefits of having a guide and how to be a guide • Reviews the value of psychedelics for healing and self-discovery as well as how LSD has facilitated scientific and technical problem-solving • Reveals how microdosing (ultr-low doses) improve cognitive functioning, emotional balance, and physical stamina • This year 600,000 people in the U.S. alone will try LSD for the the first time, joining the 23 million who have already experimented with this substance Called "America's wisest and most respected authority on psychedelics and their use," James Fadiman has been involved with psychedelic research since the 1960s. In this guide to the immediate and long-term effects of psychedelic use for spiritual (high

dose), therapeutic (moderate dose), and problem-solving (low dose and microdose) purposes, Fadiman outlines best practices for safe, sacred entheogenic voyages learned through his more than 40 years of experience-- from the benefits of having a sensitive guide during a session (and how to be one) to the importance of the setting and pre-session intention. Fadiman reviews the newest as well as the neglected research into the psychotherapeutic value of visionary drug use for increased personal awareness and a host of serious medical conditions, including his recent study of the reasons for and results of psychedelic use among hundreds of students and professionals. He reveals new uses for LSD and other psychedelics, including microdosing, extremely low doses, for improved cognitive functioning and emotional balance. Cautioning that psychedelics are not for everyone, he dispels the myths and misperceptions about psychedelics circulating in textbooks and clinics

as well as on the internet. Exploring the life-changing experiences of Ram Dass, Timothy Leary, Aldous Huxley, and Huston Smith as well as Francis Crick and Steve Jobs, Fadiman shows how psychedelics, used wisely, can lead not only to healing but also to scientific breakthroughs and spiritual epiphanies. Everything you need to know to explore on horseback. Packed with interpretive notes on wildlife, plants, geology, local history and horse language, this book tells you where to go, how to get there and what to do to have a successful one-day ride.

The bible for the D.I.Y set: detailed instructions for how to make your own sauerkraut, beer, yogurt and pretty much everything involving microorganisms.--The New York Times \*Named a Best Gift for Gardeners by New York Magazine The original guide to kraut, kombucha, kimchi, kefir, and kvass; mead, wine, and cider; pickles and relishes; tempeh, koji, miso, sourdough and so much more...! Winner of the James Beard Foundation Book Award for Reference and Scholarship, and a New York Times bestseller, with more than a quarter million copies sold, The Art of Fermentation is the most comprehensive guide to do-it-yourself home fermentation ever published. Sandor Katz presents the concepts and processes behind fermentation in ways that are simple enough to guide a reader through their first experience making sauerkraut or yogurt, and in-depth enough to provide greater understanding and

insight for experienced practitioners. While Katz expertly contextualizes fermentation in terms of biological and cultural evolution, health and nutrition, and even economics, this is primarily a compendium of practical information--how the processes work; parameters for safety; techniques for effective preservation; troubleshooting; and more. With two-color illustrations and extended resources, this book provides essential wisdom for cooks, homesteaders, farmers, gleaners, foragers, and food lovers of any kind who want to develop a deeper understanding and appreciation for arguably the oldest form of food preservation, and part of the roots of culture itself. Readers will find detailed information on fermenting vegetables; sugars into alcohol (meads, wines, and ciders); sour tonic beverages; milk; grains and starchy tubers; beers (and other grain-based alcoholic beverages); beans; seeds; nuts; fish; meat; and eggs, as well as growing mold cultures, using fermentation in agriculture, art,

and energy production, and considerations for commercial enterprises. Sandor Katz has introduced what will undoubtedly remain a classic in food literature, and is the first--and only--of its kind. Discover the science behind exploring, designing, and building block structures with young children.
