It's been months since the powerful French vampire Mathilde used Raphael's arrogance against him and nearly succeeded in taking his life. His fury has grown stronger with every day since, fed by new bloody incursions onto North American soil by the Europeans, while vampire politicking has forced him to wait. But no longer. Someone has attacked his home, killing vampires, threatening Cyn. They've taken it one step too far, and Raphael's tired of waiting. His enemies are about to discover that revenge can taste damn good when it's hot, too. D. B. Passages translated from Old Norse bring this legendary world to life, from the myths of creation to ragnarök, the prophesied end of the world at the hands of Loki's army of monsters and giants, and everything that comes in between: the long and problematic relationship between the gods and the giants, the (mis)adventures of human heroes and heroines, with their family feuds, revenges, marriages, and murders; and the interaction between the gods and mortals. Photographs and drawings show a range of Norse sites, objects, and characters, from Viking ship burials to dragons on runestones. Dr. Carolyn Larrington describes the Norse myths' origins in pre-Christian Scandinavia and Iceland, and their survival in archaeological artifacts and written sources, from Old Norse sagas and poems to the less-approving accounts of medieval Christian writers. She traces their influences into the work of Wagner, William Morris, and J. R. R. Tolkien, and even Game of Thrones in the resurrection of the Fimbulvetr, or "Mighty Winter." A warrior princess finds herself torn between her fierce desire for an arrogant king and her intense feelings for a powerful dragon. Original. A tale of contention over love and money—among dragons Jo Walton burst onto the fantasy scene with The King's Peace, acclaimed by writers as diverse as Poul Anderson, Robin Hobb, and Ken MacLeod. In 2002, she was voted the John W. Campbell Award for Best New Writer. Now Walton returns with Tooth and Claw, a very different kind of fantasy story: the tale of a family dealing with the death of their father, of a son who goes to law for his inheritance, a son who agonizes over his father's deathbed confession, a daughter who falls in love, a daughter who becomes involved in the abolition movement, and a daughter sacrificing herself for her husband. Except that everyone in the story is a dragon, red in tooth and claw. Here is a world of politics and train stations, of churchmen and family retainers, of courtship and country houses...in which, on the death of an elder, family members gather to eat the body of the deceased. In which society's high-and-mighty members avail themselves of the privilege of killing and eating the weaker children, which they do

with ceremony and relish, growing stronger thereby. You have never read a novel like *Tooth and Claw*. As if my life wasn't pathetic enough, Her Majesty now has me escorting the highborn Bram the Merciful through dangerous territories—not exactly the best use of my military training. And just so he can negotiate with enemy dragons instead of battling them? Honestly, what has my world come to? Then again . . . Bram is quite easy on the eyes. And the perfect distraction for what ails me. Perhaps I'm looking at all this the wrong way. Maybe there is a place for a little "mercy" in my life . . .

And as the first daughter of a warrior family, I've earned my reputation the hard way. Yet now I fight alongside uncivilized male Northland dragons who think a female is only good for breeding and waiting back home in the cave. But it's the foolish and foolhardy who would try to stop me, Rhona the Fearless, from doing what I do best—destroying the enemies of my kind. So the smartest thing wily barbarian Vigholf the Abhorrent can do for me is stay out of my way as we risk all on a deadly mission in enemy territory. I don't care if he's fascinated by me, even though he is as attractive as he is resourceful. He's having far too much fun putting me in difficult situations and testing my sense of duty to the limit. And I'm going to enjoy challenging his insufferable confidence, outwitting his schemes, and making him surrender in the wildest ways . . . War leaves nobody alone. Neither the past, the present, nor the future offers true safety, and the only refuge is what you can protect: your family, your friends, your home. Jamie Fraser and Claire Randall were torn apart by the Jacobite Rising in 1746, and it took them twenty years of loss and heartbreak to find each other again. Now it's 1779, and Claire and Jamie are finally reunited with their daughter, Brianna, her husband, Roger, and their children, and are rebuilding their home on Fraser's Ridge—a fortress that may shelter them against the winds of war as well as weather. But tensions in the Colonies are great: Battles rage from New York to Georgia and, even in the mountains of the backcountry, feelings run hot enough to boil Hell's teakettle. Jamie knows that loyalties among his tenants are split and it won't be long before the war is on his doorstep. Brianna and Roger have their own worry: that the dangers that provoked their escape from the twentieth century might catch up to them. Sometimes they question whether risking the perils of the 1700s—among them disease, starvation, and an impending war—was indeed the safer choice for their family. Not so far away, young William Ransom is coming to terms with the mysteries of his identity, his future, and the family he's never known. His erstwhile father, Lord John Grey, has reconciliations to make and dangers to meet on his son's behalf and on his own, and far to the north, Young Ian Murray fights his own battle between past and future, and the two women he's loved. Meanwhile, the Revolutionary War creeps ever closer to Fraser's Ridge. Jamie sharpens his sword, while Claire whets her surgeon's blade: It is a time for steel. Waiting for Elijah is an intimate portrait of time-reckoning, syncretism, and proximity in one of the world's most polarized landscapes, the Bosnian Field of Gacko. Centered on the shared harvest feast of Elijah's Day, the once eagerly awaited pinnacle of the annual cycle, the book shows how the fractured postwar landscape beckoned the return of communal life

War makes strange bedfellows in this "awesome read . . . the perfect mix of mystery, action, and romance" from the New York Times bestselling author (BTH Reviews). I, Gaius Domitus, one-eyed rebel dragon king of the Provinces, know better than most that sacrifices must be made, since I have to fight off half my ungrateful family on a regular basis to keep law and order here in my lands. But I never expected to have to consort with a barbarian human woman. Kachka is beautiful, if you like them fierce—and of course I do. But she keeps complaining about how spoiled and decadent I am, and how a feared Daughter of the Steppes has no time for foolish dragons. I think she likes my eye patch, though. It is quite dashing. With death always at our tails, we take our passion like we take our allies. As they say, love the barbarian you're with . . .
