Alex Stephen has given readers the gift of true empowerment in one book. Each day of the year you will be fired with passion to jump start whatever dreams you need to bring to fruition, when you read and meditate on this book's life-affirming messages. This is the inaugural volume of a new book series entitled *The Road to Scientific Success: Inspiring Life Stories of Prominent Researchers*. Authoritative scientists such as Nobel Prize laureates Douglas D Osheroff and Herbert A Hauptman and US National Medal of Science recipients Paul Ching-Wu Chu and Eli Ruckenstein describe their life experiences in relation to how success was attained, how their careers were developed, how their research was steered, how priorities were set, and how difficulties were faced. These keys to success serve as a useful guide for anyone who is looking for advice on how to direct their career and conduct scientific research that will make an impact. The focus on the road to success (rather than scientific findings) and on personal experience aims to inspire and encourage readers to achieve greater success themselves. The objectives of this book series are: • To motivate young people to pursue their vocations with rigor, perseverance and direction • To inspire students to pursue science or engineering • To enhance the scientific

knowledge of students, including those that do not major in science or engineering • To help parents and teachers prepare the next generation of scientists or engineers • To increase the awareness of the general public to the advances of science • To provide a record of the history of science It's important that what thoughts you are feeding into your mind because your thoughts create your belief and experiences. Renowned psychologist Jordan B. Peterson's answer to this most difficult of questions uniquely combines the hard-won truths of ancient tradition with the stunning revelations of cutting-edge scientific research. Humorous, surprising and informative, Dr. Peterson tells us why skateboarding boys and girls must be left alone, what terrible fate awaits those who criticize too easily, and why you should always pet a cat when you meet one on the street. What does the nervous system of the lowly lobster have to tell us about standing up straight (with our shoulders back) and about success in life? Why did ancient Egyptians worship the capacity to pay careful attention as the highest of gods? What dreadful paths do people tread when they become resentful, arrogant and vengeful? Dr. Peterson journeys broadly, discussing discipline, freedom, adventure and responsibility, distilling the world's wisdom into 12 practical and profound rules for life. *12 Rules for Life* shatters the modern commonplaces of science, faith and human nature, while transforming and ennobling the mind and spirit of its readers. Vol.6 Mark Twain by The Secret Libraries* This book provides a selected collection of 100 quotes by Mark Twain. "I've had a lot of worries in my life, most of which never happened." "If you tell the truth, you don't have to remember anything." "My books are water; those of the great geniuses is wine. Everybody drinks water." "I will be forever changed by Edith Eger's story." —Oprah A practical and inspirational guide to stopping destructive patterns and imprisoning thoughts to find freedom and joy in life—now updated to address the challenges of the pandemic and a world in crisis. World renowned psychologist and internationally bestselling author, Edith Eger's, powerful New York Times bestselling book *The Choice* told the story of her survival in the concentration camps, her escape, healing, and journey to freedom. Readers around the world wrote to tell her how *The Choice* moved them and inspired them to confront their own past and try to heal their pain. They asked her to write another, more prescriptive book. Eger's second book, *The Gift*, expands on her message of healing and provides a hands-on guide that gently encourages readers to change the thoughts and behaviors that may be keeping them imprisoned in the past. Eger explains that the worst prison she experienced is not the prison that Nazis put her in but the one she created for herself: the prison within her own mind. She describes the most pervasive imprisoning beliefs she has known—including fear, grief, anger, secrets, stress, guilt, shame, and avoidance—and the tools she has discovered to deal with these universal challenges. These lessons are offered through riveting and inspiring stories from her life and the lives of her patients. This new, revised edition of *The Gift* contains two new chapters that examine the invaluable insights and lessons Edie learned during the Covid-19 pandemic; a time she used to rediscover freedom even in lockdown and to enjoy the simple pleasures of life, including preparing and sharing meals with the ones we love. Edie includes recipes for some of

her favorite dishes which have been updated and tested by her daughter Marianne Engle and explains how food can be a deep expression of love and connection. As readers seek to find joy and some peace in these challenging times, Eger's wisdom and heartfelt advice is as timely, and timeless, as ever and certain to resonate with Eger's devoted readers and those who have not yet found her transformational wisdom. Filled with empathy, insight, and humor, *The Gift* captures the vulnerability and common challenges we all face and provides encouragement and advice for breaking out of our personal prisons to find healing and greater joy in life. up-your-sleeves advice on throwing pottery, growing dahlias, cooking her tried-and-true recipes, and everything in between.” —Martha Stewart Living “Guaranteed to, as its title insists, inspire. . . . Demands to be viewed again and again and again.” —Booklist, starred review To step into potter Frances Palmer’s world is to be surrounded by the trappings of a life that has been intentionally—and painstakingly—built to maximize creativity. A light-filled, airy studio in which to make her pottery, with a corner always at the ready for her daily photo shoots. Cutting gardens overflowing with flowers to be snipped as inspiration strikes. Shelves of cookbooks to peruse as she plans the menu of her next dinner party, and museum catalogs and art books to pore over when it’s time to imagine a new vessel. After 30 years as an artist and entrepreneur, Palmer has learned how to cultivate a life that brings out her best. Those years have been at once rewarding and challenging, fruitful and fraught, and through it all, she has discovered the things that matter most: determination, routine, prioritization, perseverance, and perspective. She has distilled these hard-won lessons, and more, into her debut book, a manual for current and aspiring creatives. The book is loosely arranged chronologically, beginning with Palmer’s background in art history and the foundations of her pottery practice through to the day-to-day of running her successful business and tending to her ever-evolving gardens, and culminating in the continuous exploration and collaboration she is engaged in today. Along the way, readers are brought behind the scenes with hundreds of gorgeous photographs (of her ceramics, her beautiful flower arrangements, her gardens, and more), and even step-by-step instructions for her most cherished techniques and recipes. It all adds up to a one-of-a-kind portrait and handbook for a creative life, well-lived. If we can label what we want, then does it not then make it easier to do what we want? Based on a Navy SEAL's inspiring graduation speech, this #1 New York Times bestseller of powerful life lessons "should be read by every leader in America" (Wall Street Journal). If you want to change the world, start off by making your bed. On May

17, 2014, Admiral William H. McRaven addressed the graduating class of the University of Texas at Austin on their Commencement day. Taking inspiration from the university's slogan, "What starts here changes the world," he shared the ten principles he learned during Navy Seal training that helped him overcome challenges not only in his training and long Naval career, but also throughout his life; and he explained how anyone can use these basic lessons to change themselves—and the world—for the better. Admiral McRaven's original speech went viral with over 10 million views. Building on the core tenets laid out in his speech, McRaven now recounts tales from his own life and from those of people he encountered during his military service who dealt with hardship and made tough decisions with determination, compassion, honor, and courage. Told with great humility and optimism, this timeless book provides simple wisdom, practical advice, and words of encouragement that will inspire readers to achieve more, even in life's darkest moments.
