Acoustic guitarists can now better understand their instruments, preserve and protect their value, and get the sounds they really want, thanks to this new book from the experts at Acoustic Guitar magazine. Whether it's cleaning and polishing a beloved guitar, protecting it from theft or changes in humidity, selecting a case, or performing diagnostics, readers will become more savvy acoustic guitar owners and repair-shop customers and can forego dubious advice from well-meaning friends and anonymous "experts" on the Web. originated by NACA and the U.S. Navy. The D-558-1 Skystreak turbojet was designed in 1945 and first flew in 1947 at Muroc. It quickly set a new world speed record of over 650 miles per hour. Although it approached Mach 1.0 in level flight, the Skystreak could only break the speed of sound in a dive. The successor aircraft, the D-558-2 Skyrocket, was equipped with a turbojet and the same rocket system as Bell's X-1. The jet was used for takeoff and landing, and the rockets allowed the aircraft to travel into the transonic zone. The Skyrocket test program began in 1948. In 1953, Scott Crossfield bested that mark and flew into aviation history when he became the first person to reach Mach 2.0 in the plane. Originally printed by the U.S. Navy, NACA and Douglas, this book contains manuals for both of these amazing aircraft. Originally classified "Restricted", they have been declassified and are here reprinted in book form. En instruktionsbog (Flight Manual) for F-102 Delta Dagger.
