A young mother living on the Louisiana bayou and a man accused of murder must solve a corruption case while on the run from a dangerous manhunt. When her four year old daughter informs her a sick man is in their yard, Honor Gillette rushes out to help him. But that "sick" man turns out to be Lee Coburn, the man accused of murdering seven people the night before. Dangerous, desperate, and armed, he promises Honor that she and her daughter won't be hurt as long as she does everything he asks. She has no choice but to accept him at his word. Coburn claims that her beloved late husband possessed something extremely valuable: a treasure that places Honor and her daughter in grave danger. He's there to retrieve it at any cost. Honor soon discovers that even her friends can't be trusted. From the FBI offices of Washington, D.C. to a rundown shrimp boat in coastal Louisiana, Coburn and Honor run for their lives from the very people sworn to protect them, and unravel a web of corruption and depravity that threatens to destroy them . . . and the fabric of society. Publisher's description My favorite color brown can be used educationally to help children become familiar with the color. This book describes my family's observation of the many brown things we see around us. In exploring how Icelanders interact with nature—and their idea that elves live among us—Nancy Marie Brown shows us how altering our perceptions of the environment can be a crucial first step toward saving it. Icelanders believe in elves. Why does that make you laugh?, asks Nancy Marie Brown in this wonderfully quirky exploration of our interaction with nature. Looking for answers in history, science, religion, and art—from ancient times to today—Brown finds that each discipline defines what is real and unreal, natural and supernatural, demonstrated and theoretical, alive and inert. Each has its own way of perceiving and valuing the world around us. And each discipline can be defined, in the Icelandic perception, by its own sort of elf. Illuminated by her own encounters with Iceland's Otherworld—in ancient lava fields, on a holy mountain, beside a glacier or an erupting volcano, crossing the cold desert at the island's heart on horseback—Looking for the Hidden Folk offers an intimate conversation about how we look at and find value in nature. It reveals how the words we use and the stories we tell shape the world we see. It argues that our beliefs about the Earth will preserve—or destroy it. Scientists name our time the Anthropocene: the Human Age. Climate change will lead to the mass extinction of numerous animal species unless we humans change our course. Iceland suggests a different way of thinking about the Earth, one that offers hope. Icelanders believe in elves— and you should, too. An unforgettable account of a quietly remarkable life, Robert Brown's memoir takes readers behind the scenes of pivotal moments from the 20th century, where the lessons he learned at his grandmother's knee helped him shape America as we know it today. Called "a world-class power broker" by the Washington Post, Robert Brown has been a sought-after counselor for an impressive array of the famous and powerful, including every American president since John F. Kennedy. But as a child born into poverty in the 1930s, Robert was raised by his grandmother to think differently about success. For example, "The best way to influence others is to be helpful," she told him. And, "You can't go wrong by doing right." Fueled by these lessons on humble, principled service, Brown went on to play a pivotal, mostly unseen role alongside the great and the powerful of our time: trailing the mob in 1950s Harlem with a young Robert F. Kennedy; helping the white corporate leadership at Woolworth integrate their lunch counters; channeling money from American businesses to the Civil Rights movement; accompanying Coretta Scott King, at her request, to Memphis the day after her husband had been shot; advising Richard Nixon on how to

support black entrepreneurship; becoming the only person allowed to visit Nelson Mandela in Pollsmoor prison in Cape Town. Full of unbelievable moments and reminders that the path to influence runs through a life of generosity, YOU CAN'T GO WRONG DOING RIGHT blends a heartwarming, historically fascinating account with memorable lessons that will speak to the dreamer in all of us. When we own our stories, we get to write the ending. Don't miss the five-part HBO Max docuseries Brené Brown: Atlas of the Heart! Social scientist Brené Brown has ignited a global conversation on courage, vulnerability, shame, and worthiness. Her pioneering work uncovered a profound truth: Vulnerability—the willingness to show up and be seen with no guarantee of outcome—is the only path to more love, belonging, creativity, and joy. But living a brave life is not always easy: We are, inevitably, going to stumble and fall. It is the rise from falling that Brown takes as her subject in Rising Strong. As a grounded theory researcher, Brown has listened as a range of people—from leaders in Fortune 500 companies and the military to artists, couples in long-term relationships, teachers, and parents—shared their stories of being brave, falling, and getting back up. She asked herself, What do these people with strong and loving relationships, leaders nurturing creativity, artists pushing innovation, and clergy walking with people through faith and mystery have in common? The answer was clear: They recognize the power of emotion and they're not afraid to lean in to discomfort. Walking into our stories of hurt can feel dangerous. But the process of regaining our footing in the midst of struggle is where our courage is tested and our values are forged. Our stories of struggle can be big ones, like the loss of a job or the end of a

relationship, or smaller ones, like a conflict with a friend or colleague. Regardless of magnitude or circumstance, the rising strong process is the same: We reckon with our emotions and get curious about what we're feeling; we rumble with our stories until we get to a place of truth; and we live this process, every day, until it becomes a practice and creates nothing short of a revolution in our lives. Rising strong after a fall is how we cultivate wholeheartedness. It's the process, Brown writes, that teaches us the most about who we are. **ONE OF GREATER GOOD'S FAVORITE BOOKS OF THE YEAR** "[Brené Brown's] research and work have given us a new vocabulary, a way to talk with each other about the ideas and feelings and fears we've all had but haven't quite known how to articulate. . . . Now, based on new research conducted with leaders, change makers, and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Don't miss the five-part HBO Max docuseries *Brené Brown: Atlas of the Heart!* **NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Leadership** is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don't avoid difficult conversations and situations; we lean into vulnerability when it's necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we have to offer that machines and AI can't do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time **#1 New York Times bestselling author Brené Brown** has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 500 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, "One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It's learning and unlearning that requires brave work,

tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It's why we're here." Whether you've read *Daring Greatly* and *Rising Strong* or you're new to Brené Brown's work, this book is for anyone who wants to step up and into brave leadership. It's Zaria Brown's first day of school. When she walks into the class room the other students notice something different about her, it her hair. Early Peanuts comic strips feature Linus writing to the Great Pumpkin, Lucy offering psychiatric advice, Charlie Brown celebrating Christmas, and Linus wearing glasses *Paint Your Town Red* tells the story of how one city in the north of England decided to level up without waiting for Whitehall. Across the world, there is a growing recognition that a new kind of economy is needed: more democratic, less exploitative, less destructive of society and the planet. *Paint Your Town Red* looks at how wealth can be generated and shared at a local level through the experience of one of the main advocates of the new Democratic Economy, Matthew Brown, the driving-force behind the world-recognized Preston Model. Using analysis, interviews and case studies to explain what Matthew and Preston City Council have done over the last decade in order to earn Preston the title of Most Improved City, the book shows how the model can be adapted to fit different local circumstances, as well as demonstrating how Preston itself adapted economic and democratic experiments in 'community wealth-building' from elsewhere in the US and Europe. Preston's success shows that the ideas of community wealth-building work in practice and have the capacity to achieve a meaningful transfer of wealth and power back to local communities. A lot of recent coverage and references have tended to oversimplify the Preston Model, which is not just about 'buying local' but a comprehensive project, which envisions local and regional discussions and collaboration adding up to a wholesale transformation of our currently failing economic systems. NEW YORK TIMES BESTSELLER • REESE'S BOOK CLUB PICK • From a leading voice on racial justice, an eye-opening account of growing up Black, Christian, and female that exposes how white America's love affair with "diversity" so often falls short of its ideals. "Austin Channing Brown introduces herself as a master memoirist. This book will break open hearts and minds."—Glennon Doyle, #1 New York Times bestselling author of Untamed Austin Channing Brown's first encounter with a racialized America came at age seven, when she discovered her parents named her Austin to deceive future employers into thinking she was a white man. Growing up in majority-white schools and churches, Austin writes, "I had to learn what it means to love blackness," a journey that led to a lifetime spent navigating America's racial divide as a writer, speaker, and expert helping organizations practice genuine inclusion. In a time when nearly every institution (schools, churches, universities, businesses) claims to value diversity in its mission statement, Austin writes in breathtaking detail about her journey to self-worth and the pitfalls that kill our attempts at racial justice. Her stories bear witness to the complexity of America's social fabric—from Black Cleveland neighborhoods to private schools in the middle-class suburbs, from prison walls to the boardrooms at majority-white organizations. For readers who have engaged with America's legacy on race through the writing of Ta-Nehisi Coates and Michael Eric Dyson, I'm Still Here is an illuminating look at how white, middle-class, Evangelicalism has participated in an era of rising racial hostility, inviting the reader to confront apathy, recognize God's ongoing work in the world, and discover how blackness—if we let

it—can save us all. A groundbreaking exposé of racism in the American taxation system from a law professor and expert on tax policy NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR AND FORTUNE • “Important reading for those who want to understand how inequality is built into the bedrock of American society, and what a more equitable future might look like.”—Ibram X. Kendi, #1 New York Times bestselling author of How to Be an Antiracist Dorothy A. Brown became a tax lawyer to get away from race. As a young black girl growing up in the South Bronx, she’d seen how racism limited the lives of her family and neighbors. Her law school classes offered a refreshing contrast: Tax law was about numbers, and the only color that mattered was green. But when Brown sat down to prepare tax returns for her parents, she found something strange: James and Dottie Brown, a plumber and a nurse, seemed to be paying an unusually high percentage of their income in taxes. When Brown became a law professor, she set out to understand why. In *The Whiteness of Wealth*, Brown draws on decades of cross-disciplinary research to show that tax law isn’t as color-blind as she’d once believed. She takes us into her adopted city of Atlanta, introducing us to families across the economic spectrum whose stories demonstrate how American tax law rewards the preferences and practices of white people while pushing black people further behind. From attending college to getting married to buying a home, black Americans find themselves at a financial disadvantage compared to their white peers. The results are an ever-increasing wealth gap and more black families shut out of the American dream. Solving the problem will require a wholesale rethinking of America’s tax code. But it will also require both black and white Americans to make different choices. This urgent, actionable book points the way forward. Okonkwo is the greatest warrior alive, famous throughout West Africa. But when he accidentally kills a clansman, things begin to fall apart. Then Okonkwo returns from exile to find missionaries and colonial governors have arrived in the village. With his world thrown radically off-balance he can only hurtle towards tragedy. Chinua Achebe’s stark novel reshaped both African and world literature. This arresting parable of a proud but powerless man witnessing the ruin of his people begins Achebe’s landmark trilogy of works chronicling the fate of one African community, continued in *Arrow of God* and *No Longer at Ease*. The international financial crisis that has held our global economy in its grip for too long still seems to be in full stride. Former British Prime Minister and Chancellor of the Exchequer Gordon Brown believes the crisis can be reversed, but that the world’s leaders must work together if we are to avoid a decade of lost jobs and low growth. Brown speaks both as someone who was in the room driving discussions that led to some crucial decisions and as an expert renowned for his remarkable financial acumen. No one who had Brown’s access has written about the crisis yet, and no one has written so convincingly about what the global community must do next in order to climb out of this abyss. Brown outlines the shocking recklessness and irresponsibility of the banks that he believes contributed to the depth and breadth of the crisis. As he sees it, the crisis was brought on not simply by technical

failings, but by ethical failings too. Brown argues that markets need morals and suggests that the only way to truly ensure that the world economy does not flounder so badly again is to institute a banking constitution and a global growth plan for jobs and justice. Beyond the Crash puts forth not just an explanation for what happened, but a directive for how to prevent future financial disasters. Long admired for his grasp of economic issues, Brown describes the individual events that he believes led to the crisis unfolding as it did. He synthesizes the many historical precedents leading to the current status, from the 1933 London conference of world leaders that failed to resolve the Great Depression to the more recent crash in the Asian housing market. Brown’s analysis is of paramount importance during these uncertain financial times. As Brown himself said of his ideas for the future, “We now live in a world of global trade, global financial flows, global movements of people, and instant global communications. Our economies are connected as never before, and I believe that global economic problems require global solutions and global institutions. In writing my analysis of the financial crisis, I wanted to help explain how we got here, but more important, to offer some recommendations as to how the next stage of globalization can be managed so that the economy works for people and not the other way around.”## \*\*\* The crisis exposed the contradiction of globalization itself: as economies have become more interconnected, regulators and governments have failed to keep pace and increase coordination. It is a failure intrinsic to unregulated global markets, an instability that resulted from the manner in which increasing flows of capital around the world happened and impacted the economy. And it is a failure of collective action at an international level to respond quickly enough to the structural imbalances and inequities that arose. At its simplest, then, this is the first true crisis of globalization. For the first time everybody, from the richest person in the richest city to the poorest person in the poorest slum, was affected by the same crisis. Although its roots are global, its impact is local, directly felt on nearly every main street, on nearly every shop floor, around nearly every kitchen table. Billions of people around the world are in need of and are demanding a better globalization. It is the nature of power that you always leave tasks unfinished when you leave office. It is the nature of politics that the argument must continue. This book is my warning of a decade of lost growth and my answer to that fear with a call for a better globalization. It is an explanation of a pattern in the numbers that points to an enormous opportunity to alleviate poverty, create jobs, and grow. A future of low growth, high unemployment, decline, and decay is not inevitable; it’s about the change we choose. -- From *Beyond the Crash*
