White House, Inc. is a newsmaking exposé that details President Trump's efforts to make money off of politics, taking us inside his exclusive clubs, luxury hotels, overseas partnerships, commercial properties, and personal mansions. Alexander

tracks hundreds of millions of dollars flowing freely between big businesses and President Trump. He explains, in plain language, how Trump tried to translate power into profit, from the 2016 campaign to the ramp-up to the 2020 campaign. Just because you turn the presidency into a business doesn't necessarily mean you turn it into a good business. After Trump won the White House, profits plunged at certain properties, like the Doral golf resort in Miami. But the presidency also opened up new opportunities. Trump's commercial and residential property portfolio morphed into a one-of-a-kind marketplace, through which anyone, anywhere, could pay the president of the United States. Hundreds of customers—including foreign governments, big businesses, and individual investors—obliged. The president's disregard for norms sparked a trickle-down ethics crisis with no precedent in modern American history. Trump appointed an inner circle of centimillionaires and billionaires—including Ivanka Trump, Jared Kushner, Wilbur Ross, and Carl Icahn—who came with their own conflict-ridden portfolios. Following the president's lead, they trampled barriers meant to separate their financial holdings from their government roles. White House, Inc. is a page-turning, hair-raising investigation into Trump and his team, who corrupted the U.S. presidency and managed to avoid accountability. Until now.

She investigates the cyberwarriors who are planning tomorrow's attacks, weaving a fascinating yet bone-chilling tale of Artificial Intelligent mutations carrying out attacks without human intervention, "deepfake" videos that look real to the naked eye, and chatbots that beget other chatbots. Finally, Payton offers readers telltale signs that their most fundamental beliefs are being meddled with and actions they can take or demand that corporations and elected officials must take before it is too late. Payton reveals: How digital voting machines, voting online, and automatic registration may boost turnout but make us more vulnerable to cyberattacks. How trolls from Russia and other nations actively stroke discord among Americans in falsely-generated controversies over race relations, vaccinations, fracking, and other social issues. Whether what we have uncovered from the Mueller investigation so far is only what they wanted us to know.

Robert's Story Sep 14 2021 Tired, disoriented, and confused, Robert East was no match for the wolves when they arrived. Robert East loved his older brother, Tom, but always resented Tom's favored role in the family cattle business based at their San Antonio

Viejo ranch near Hebbronville, Texas, just north of the Rio Grande. Tom was a figure to be reckoned with, a cattleman with ambitions to supplant their Uncle Bob Kleberg, head of the enormous King Ranch, as the leading cattle raiser in Texas. Robert, by contrast, was a cowboy who cared little for what occurred beyond the San Antonio Viejo's main gate. Handsome and ornery, with no head for business, he nevertheless chafed in his brother's shadow until 1984, when Tom died young of a heart attack, just as their father, Tom East, Sr., had 40 years earlier. Suddenly Robert was the new and untested patrón of 250,000 acres of East Family ranchland—and the majority owner of the ocean of natural gas pooled beneath East rangeland. It was his turn to issue the orders. Robert's contentious nature drove the Easts into bitter intra-family legal hostilities that persisted for a decade. He lost his beloved sister, Lica, to cancer, and as old age advanced, he found himself alone and isolated on a remote ranch with only an unreliable foreman and a scattering of vaqueros and other workers for company. The physical wear and tear from decades of working cattle on horseback began to show. Robert's knees gave out, and he developed serious cardiovascular problems. His doctors prescribed pain pills, sedatives, and medications for his chronic depression. In 2000, drillers hit the most productive gas well in the U.S, if not the world, on East property, making the rich old

man suddenly and spectacularly wealthy beyond his comprehension. Soon enough the wolves began to circle, and Robert's grotesque final days were at hand.

Tonga Oct 04 2020 Tonga's recovery following the devastation of the 2018 Cyclone Gita has been derailed by a double blow from the pandemic and Cyclone Harold. FY2020 GDP growth is estimated to fall to -21/2 percent due to domestic containment measures, a sudden stop in tourism, and

investment delays. The full brunt of the pandemic will be felt in FY2021 (beginning July) during peak tourism season, when a deeper contraction is expected. A worse outcome was avoided by early actions to close external borders—which has kept Tonga COVID-19-free—and prompt economic support. Beyond FY2021, the recovery is expected to resume in line with the global recovery, but the magnitude and trajectory is uncertain.

[Counter-Terrorist Financing Law and Policy](#) Mar 21 2022 Since the 9/11 attacks the world has witnessed the creation of both domestic and

international legal instruments designed to disrupt and interdict the financial activities of terrorists. This book analyses the counter-terrorist financing law (CTF), policy and practice at the national level, focusing on Turkey. The work examines the limits and capabilities of CTF efforts on terrorism threats and determines the effectiveness of CTF efforts in Turkey, a country which has a pivotal role in terms of countering terrorism regionally and internationally. The Turkish case-study is supported by an empirical study involving 37 semi-structured interviews with CTF practitioners and law enforcement experts with different affiliations and backgrounds. The findings illustrate that Turkey's CTF system has not obtained an adequate level of effectiveness as a result of lack of proper implementation of its policy in the bureaucratic, legal and operational spheres. It is evident that the administrative and legal systems in Turkey are established according to the 'one-size-fits-all' international CTF standards and thus are compliant with the international CTF benchmarks, yet the interviews reveal significant challenges at the implementation level including lack of training and financial security, heavy handed bureaucracy, inadequate coordination and communication between international and national levels. The book will be an invaluable resource for academics, students and policy-makers working in the areas of

financial crime and terrorism.

Guns and College Homicide

Nov 16 2021 At a time when mass shootings in schools and other public spaces have

become commonplace, it might seem surprising that American college campuses are not magnets for murderers but sanctuaries from them. Because of remarkably effective gun-safe policies, deaths by firearms on college campuses are 1,000 times less frequent than in the U.S. public at large. Drawing on crime data submitted in compliance with the Clery Act and public reports of those crimes, this study inventories every documented homicide at a U.S. college or university between 2001 and 2016, making a compelling argument for using gun-safe campuses as guides for broader public safety.

Judah Awakening

Dec 18 2021 As the prophet was commanded in Ezekiel 40:4, so too was author Yahnwe Okeke instructed to document everything that was disclosed to her through dreams and visions concerning the Judaic roots of the Igbo people of Southeast Nigeria. In Judah Awakening, she chronicles the day-to-day experiences-cum-revelations. A written record of her spiritual encounters and confirmation from internet research, she shares details of her visions and dreams as they happened on different days beginning July 1, 2018, and continuing until the last day, January 24, 2019. Okeke summarizes her journey and highlights the key words which symbolize the core message of her experience. Judah Awakening presents an insightful journal of Okeke's supernatural revelations of the Israel ancestry of the Igbos of South-East Nigeria, providing

the words the Holy Spirit spoke regarding any connections between Israelites and Igbos. It offers a work that touches on religion, science, culture, and so much more.

The Struggle for Land Under

Israeli Law Aug 26 2022 This book provides a comprehensive examination of land law for Arab Palestinians under Israeli law. Land is one of the core resources of human existence,

development and activity. Therefore, it is also a key basis of political power and of social and economic status. Land regimes and planning regulations play a dynamic role in deciding how competing claims over resources will be resolved. According to legal geography, spatial ordering impacts legal regimes; whilst legal rules form social and human space. Through the lenses of international law, colonisation and legal geography, the book examines the land regime in Israel. More specifically, it endeavours to understand the spatial strategies adopted by Israel to organise the entire territorial expanse of the country as Jewish, while also excluding Arab Palestinian citizens of Israel and residents of East Jerusalem from the landscape. The book then details how the systematic nature and processes of marginalisation are mapped out across the civil, political and socio-economic landscape. This monograph will be of interest to international legal theorists, legal geographers, land lawyers and human rights practitioners and students; as well as to international scholars, NGOs and others focusing on the Israeli-Palestinian conflict.

Sub-regionalisms in the European Union: Bridge-builders or spoilers? Jun 23 2022 In today's interconnected, differentiated and polarized European Union, sub-regional groupings between the national and EU level are a highly relevant empirical phenomenon. Despite their

importance, the interactions between sub-regionalisms and EU actors and processes remain under-researched. This book fills this large research gap by applying a systematic comparative approach. Taking into account a huge corpus of empirical data gained through expert interviews and document analysis, this study provides the conceptual and empirical groundwork necessary to better understand EU sub-regionalism. For the timeframe between 2009 and 2018, it analyses the scope of sub-regional cooperation in the Baltic, Benelux and Visegrád groupings. Moreover, it compares their respective institutional design, political identity, foreign policy as well as their external recognition by EU actors. A special focus lies on their role in six EU policy cases, including EU budget negotiations, TTIP, the drafting process of the EU Global Strategy, refugee relocation quotas, the revision of the posted workers directive and defence cooperation through PESCO. In its conclusion, this book identifies two sub-regional archetypes: functional hubs and political tools. While differing in many regards, the shared assessment finds that the overall bridge-building efforts of the Baltic, Benelux and Visegrád sub-regionalisms exceed their spoiling potential.

The Routledge Companion to International Hospitality Management Dec 26 2019

The hospitality sector is facing increasing competition and complexity over recent decades in its development towards a global industry. The strategic response to this is still that hospitality companies try to grow outside their traditional territories and domestic markets, while the expansion patterns and M&A activities of international hotel and restaurant chains reflect this phenomenon. Yet, interestingly, the strategies, concepts, and methods of internationalization as well as the managerial and organizational challenges and impacts of globalizing the hospitality business are under-researched in this industry. While the mainstream research on international management offers an abundance of information and knowledge on topics, players, trends, concepts, frameworks, or methodologies, its ability to produce viable insights for the hospitality industry is limited, as the mainstream research is taking place outside of the service sector. Specific research directions and related cases like the international dimensions of strategy, organization, marketing, sales, staffing, control, culture, and others to the hospitality industry are rarely identifiable so far. The core rationale of this book is therefore to present newest insights from research and industry in the field of international hospitality, drawing together recent scientific knowledge and state-of-the-art expertise to suggest directions for future work. It is designed to raise awareness on the international
