A simple explanation of divorce reassures youngsters that they are not responsible for their parents' breaking up and that their parents still love them even though they no longer live together. "[Makes] the very convincing case that, until and unless there is a full accounting for what happened with Donald Trump, 2020 is not over and never will be." —The New Yorker "Riveting...we can never be reminded too often to never forget." —The Wall Street Journal Journalist Géraldine Schwarz's astonishing memoir of her German and French grandparents' lives during World War II "also serves as a perceptive look at the current rise of far-right nationalism throughout Europe and the US" (Publishers Weekly). During World War II, Géraldine Schwarz's German grandparents were neither heroes nor villains; they were merely Mitläufer—those who followed the current. Once the war ended, they wanted to bury the past under the wreckage of the Third Reich. Decades later, while delving through filing cabinets in the basement of their apartment building in Mannheim, Schwarz discovers that in 1938, her paternal grandfather Karl took advantage of Nazi policies to buy a business from a Jewish family for a low price. She finds letters from the only survivor of this family (all the others perished in Auschwitz), demanding reparations. But Karl Schwarz refused to acknowledge his responsibility. Géraldine starts to question the past: How guilty were her grandparents? What makes us complicit? On her mother's side, she investigates the role of her French grandfather, a policeman in Vichy. Weaving together the threads of three generations of her family story with Europe's process of post-war reckoning, Schwarz explores how millions were seduced by ideology, overcome by a fog of denial after the war, and, in Germany at least, eventually managed to transform collective guilt into democratic responsibility. She asks: How can nations learn from history? And she observes that countries that avoid confronting the past are especially vulnerable to extremism. Searing and unforgettable, *Those Who Forget* "deserves to be read and discussed widely...this is Schwarz's invaluable warning" (The Washington Post Book Review). Named one of Esquire's "Best Nonfiction Books of 2018" "Sharp and searching...a potent look at the fraught, painful, and complicated relationship between parents and children, and the mysteries — revelatory, difficult — that can and cannot be solved." — Boston Globe Anya Yurchyshyn grew up in a narrow townhouse in Boston, every corner filled with the souvenirs of her parents' adventurous international travels. On their trips to Egypt, Italy, and Saudi Arabia, her mother, Anita, and her father, George, lived an entirely separate life from the one they led as the parents of Anya and her sister — one that Anya never saw. The parents she knew were a brittle, manipulative alcoholic and a short-tempered disciplinarian: people she imagined had never been in love. When she was sixteen, Anya's father was killed in a car accident in Ukraine. At thirty-two, she became an orphan when her mother drank herself to death. As she was cleaning out her childhood home, she suddenly discovered a trove of old letters, photographs, and journals hidden in the debris of her mother's life. These lost documents told a very different story than the one she'd believed to be true — of a forbidden romance; of a loving marriage, and the loss of a child. With these revelations in hand, Anya undertook an investigation, interviewing relatives and family friends, traveling to Wales and Ukraine, and delving deeply into her own difficult history in search of the truth, even uncovering the real circumstances of her father's death — not an accident, perhaps, but something more sinister. In this inspiring and unflinchingly honest debut memoir, Anya interrogates her memories of her

family and examines what it means to be our parents' children. What do we inherit, and what can we choose to leave behind? How do we escape the ghosts of someone else's past? And can we learn to love our parents not as our parents, but simply as people? Universal and personal; heartbreaking and redemptive, *My Dead Parents* helps us to see why sometimes those who love us best hurt us most. *X-Men meets Spy Kids* in this instant New York Times bestseller! Here's the first book in a new middle-grade fantasy/adventure series from the author of *The Unwanteds*. Fifteen years ago, eight supernatural criminals fled Estero City to make a new life in an isolated tropical hideout. Over time, seven of them disappeared without a trace, presumed captured or killed. And now, the remaining one has died. Left behind to fend for themselves are the criminals' five children, each with superpowers of their own: Birdie can communicate with animals. Brix has athletic abilities and can heal quickly. Tenner can swim like a fish and can see in the dark and hear from a distance. Seven's skin camouflages to match whatever is around him. Cabot hasn't shown signs of any unusual power—yet. Then one day Birdie finds a map among her father's things that leads to a secret stash. There is also a note: Go to Estero, find your mother, and give her the map. The five have lived their entire lives in isolation. What would it mean to follow the map to a strange world full of things they've only heard about, like cell phones, cars, and electricity? A world where, thanks to their parents, being supernatural is a crime? "Parents looking for a book about separation or divorce will find few offerings as positive, matter-of-fact, or child-centered as this one. . . . Simple, yet profoundly satisfying." - Booklist (starred review) At Mommy's house, Alex has a soft chair. At Daddy's house, Alex has a rocking chair. In each home, Alex also has a special bedroom and lots of friends to play with. But whether Alex is with Mommy or with Daddy, one thing always stays the same - Alex is loved. The gently reassuring text focuses on what is gained rather than what is lost when parents divorce, while the sensitive illustrations, depicting two unique homes in all their small details, firmly establish Alex's place in both of them. Two Homes will help children - and parents - embrace even the most difficult of changes with an open and optimistic heart. Youngsters become confused and hurt when their parents constantly argue, then decide to divorce. This sensitively written book assures boys and girls that children are in no way responsible for their parent's inability to get along together. guitarist. With humor and heart, she tells of growing up one of the few Asian American kids at her school in Eugene, Oregon; of struggling with her mother's particular, high expectations of her; of a painful adolescence; of treasured months spent in her grandmother's tiny apartment in Seoul, where she and her mother would bond, late at night, over heaping plates of food. As she grew up, moving to the East Coast for college, finding work in the restaurant industry, and performing gigs with her fledgling band--and meeting the man who would become her husband--her Koreanness began to feel ever more distant, even as she found the life she wanted to live. It was her mother's diagnosis of terminal cancer, when Michelle was twenty-five, that forced a reckoning with her identity and brought her to reclaim the gifts of taste, language, and history her mother had given her. Vivacious and plainspoken, lyrical and honest, Zauner's voice is as radiantly alive on the page as it is onstage. Rich with intimate anecdotes that will resonate widely, and complete with family photos, *Crying in H Mart* is a book to cherish, share, and reread. At first, Ken Abraham wrote off his mother's changes in behavior as quirks that just come with old age. There was memory loss, physical decline, hygiene issues, paranoia, and uncharacteristic attitudes. He soon realized that dementia had changed her life—and his family's—forever. "How is it possible to lose a loved one while he or she is still living, still sitting right in front of you, talking with you, smiling at you—and yet the person you have known and loved for years is somehow gone?" According to the Alzheimer's Association, an estimated 5.4 million Americans of all ages have Alzheimer's disease. That's one in eight older Americans. More than likely, that figure includes someone you know and love. As he chronicles his own mother's degenerative condition, New York Times best-selling writer Ken Abraham educates while offering inspiration to help readers cope with and manage their family circumstances. With humor and spiritual reminders of God's command to honor our parents, Abraham encourages readers through often-difficult responsibilities. And though in most cases patients will not recover this side of heaven, he suggests many practical things that families can do to make the experience safer, kinder, and more endurable for everyone involved. When *Your parent Becomes Your Child* tells the story of one family's journey through dementia while offering hope to family members and friends, that they might better understand the effects of the disease. Don't let this catch you by surprise—be informed before you face the challenges and difficulties of a loved one with Alzheimer's or dementia. This book can help. In *The Dead Moms Club*, she walks readers through her experience of stumbling through grief and loss, and helps them to get through it, too. This isn't a weepy, sentimental story, but rather a frank, up-front look at what it means to go through gruesome grief and come out on the other side. An empathetic read, *The Dead Moms Club* covers how losing her mother changed nearly everything in her life: both men and women readers who have lost parents or experienced grief of this magnitude will be comforted and consoled. Spencer even concludes each chapter with a cheeky but useful tip for readers (like the "It's None of Your Business Card" to copy and hand out to nosy strangers asking about your passed loved one). In this New York Times bestseller, one of America's premier child psychologists offers a must-read account of the dismal state of parenting today, and a vision for how we can better prepare our children for the challenges of the adult world In *The Collapse of Parenting*, internationally acclaimed author Leonard Sax argues that rising levels of obesity, depression, and anxiety

among young people can be traced to parents abdicating their authority. The result is children who have no standard of right and wrong, who lack discipline, and who look to their peers and the Internet for direction. Sax shows how parents must reassert their authority - by limiting time with screens, by encouraging better habits at the dinner table, and by teaching humility and perspective - to renew their relationships with their children. Drawing on nearly thirty years of experience as a family physician and psychologist, along with hundreds of interviews with children, parents, and teachers, Sax offers a blueprint parents can use to help their children thrive in an increasingly complicated world. Inspired by the website that the New York Times hailed as "redefining mourning," this book is a fresh and irreverent examination into navigating grief and resilience in the age of social media, offering comfort and community for coping with the mess of loss through candid original essays from a variety of voices, accompanied by gorgeous two-color illustrations and wry infographics. At a time when we mourn public figures and national tragedies with hashtags, where intimate posts about loss go viral and we receive automated birthday reminders for dead friends, it's clear we are navigating new terrain without a road map. Let's face it: most of us have always had a difficult time talking about death and sharing our grief. We're awkward and uncertain; we avoid, ignore, or even deny feelings of sadness; we offer platitudes; we send sympathy bouquets whittled out of fruit. Enter Rebecca Soffer and Gabrielle Birkner, who can help us do better. Each having lost parents as young adults, they co-founded Modern Loss, responding to a need to change the dialogue around the messy experience of grief. Now, in this wise and often funny book, they offer the insights of the Modern Loss community to help us cry, laugh, grieve, identify, and—above all—empathize. Soffer and Birkner, along with forty guest contributors including Lucy Kalanithi, singer Amanda Palmer, and CNN's Brian Stelter, reveal their own stories on a wide range of topics including triggers, sex, secrets, and inheritance. Accompanied by beautiful hand-drawn illustrations and witty "how to" cartoons, each contribution provides a unique perspective on loss as well as a remarkable life-affirming message. Brutally honest and inspiring, Modern Loss invites us to talk intimately and humorously about grief, helping us confront the humanity (and mortality) we all share. Beginners welcome. Seventy now-adult children of divorce give their candid and often heart-wrenching answers to eight questions (arranged in eight chapters, by question), including: What were the main effects of your parents' divorce on your life? What do you say to those who claim that "children are resilient" and "children are happy when their parents are happy"? What would you like to tell your parents then and now? What do you want adults in our culture to know about divorce? What role has your faith played in your healing? Their simple and poignant responses are difficult to read and yet not without hope. Most of the contributors--women and men, young and old, single and married--have never spoken of the pain and consequences of their parents' divorce until now. They have often never been asked, and they believe that no one really wants to know. Despite vastly different circumstances and details, the similarities in their testimonies are striking; as the reader will discover, the death of a child's family impacts the human heart in universal ways. Posting a photo of her recently deceased boyfriend on her social networking page only to learn that another boy who looks exactly like him lives in a nearby town, Morgan uncovers secrets that implicate her parents and community. Simultaneous eBook. Louis doesn't think much of it when his mum and dad ask him for tips on how to be cool. In fact, he thinks it's pretty funny watching them bump fists and use words like 'safe', 'sick' and 'wicked'. Until Dad turns up outside Louis's new school dressed like a rapper, that is . . . Suddenly they're trying to friend Louis and all his classmates on Facebook, and wearing baseball caps backwards - IN PUBLIC. Louis and his best friend Maddy are horrified. Mum and Dad have taken things too far . . . and immediate action is needed! From multi-award-winning Neil Gaiman comes a spectacularly silly, mind-bendingly clever, brilliantly bonkers adventure - with lip-smackingly gorgeous illustrations by Chris Riddell. 'A self-referential gem ... Both author and illustrator are craftsmen at the top of their game, making it look easy' Sunday Times, Children's Book of the Year Mum's away. Dad's in charge. There's no milk. So Dad saves the day by going to buy some. Really, that's all that happens. Very boring. YAAAAAAAAAWN. There are absolutely none of the following inside: GLOBBY GREEN ALIENS! INTERGALACTIC POLICE! PIRATES! And most definitely NOT a time-travelling hot-air balloon piloted by the brilliant dinosaur scientist Professor Steg... Barcelona, 1945: A city slowly heals in the aftermath of the Spanish Civil War. Daniel, an antiquarian book dealer's son who mourns the loss of his mother, finds solace in what he finds in the "cemetery of lost books," a mysterious book entitled The Shadow of the Wind, by one Julián Carax. But when he sets out to find the author's other works, he makes a shocking discovery: someone has been systematically destroying every copy of every book Carax has written. In fact, Daniel may have the last of Carax's books in existence. Soon Daniel's seemingly innocent quest opens a door into one of Barcelona's darkest secrets--an epic story of murder, madness, and doomed love. Each night at precisely 4:33 am, while sixteen-year-old London Lane is asleep, her memory of that day is erased. In the morning, all she can "remember" are events from her future. London is used to relying on reminder notes and a trusted friend to get through the day, but things get complicated when a new boy at school enters the picture. Luke Henry is not someone you'd easily forget, yet try as she might, London can't find him in her memories of things to come. When London starts experiencing disturbing flashbacks, or flash-forwards, as the case may be, she realizes it's time to learn about the past she keeps forgetting-before it destroys her future. We are all children of someone, we ought to pursue God's blessings, and we need to give prominence to God's prominent command. Thus, we can no longer ignore the forgotten Fifth Commandment: Honor your father and mother. In the home, church, and workplace, it provides a stable foundation for society, and we fail to appreciate its relevance. "Just twenty-two years old, Su Meck was already married and the mother of two children in 1988 when a ceiling fan in the kitchen of her home fell from its mounting and struck her in the head. She survived the life-threatening swelling in her brain that resulted from the accident, but when she regained consciousness in the hospital the next day, she didn't know her own name. She didn't recognize a single family member or friend, she couldn't read or write or brush her teeth or use a fork--and she didn't have even a scrap of memory from her life up to that point. The fiercely independent and outspoken young woman she had been vanished completely. Most patients who suffer amnesia as a result of a head injury eventually regain their memories, but Su never did. After three weeks in the hospital she was sent back out into a world about which she knew nothing: What did it mean to be someone's wife? To be a mother? How did everyone around her seem to know what they were supposed to do or say at any given moment? Adrift in the chaos of mental data that most of us think of as everyday life, Su became an adept mimic, fashioning a self and a life out of careful observation and ironclad routine. She had no dreams for herself, no plans outside the ever-burgeoning daily to-do list of a stay-at-home mom. The Meck family left Texas to start over in Maryland, and told almost no one in their new life about Su's accident. Nearly twenty years would pass before Su understood the full extent of the losses she and her family suffered as a result of her injury. As a series of personally devastating events shattered the "normal" life she had worked so hard to build, Su realized that she would have to grow up all over again, and finally take control of the strange second life she had awoken into"-- BONUS: This edition contains an excerpt from Dr. Susan Forward's Men Who Hate Women and the Women Who Love Them. All parents want their children to be well-behaved, law abiding, and successful in life. In most African communities, although parents have the primary responsibility in the elementary socialization of their children, siblings, peers, classmates, teachers, aunts, uncles, grandparents, and neighbors play a significant role. Now with many Africans living far away from some of the communal moral educators of their children, many parents have become almost the sole moral teachers to their children. While information on morality is almost ubiquitous, parents and their children need reliable and appropriate

learning resources. *Things That My Father Forgot to Tell Me*, is a didactic letter written by a concerned father to his diasporaic sons, which utilizes the Shona traditional proverbs and experiential wisdom. Tom's parents have cancelled his birthday. Not just any birthday either. His eleventh birthday, which is, according to family lore, his *Lucky Birthday*. Tom had been looking forward to his *Lucky Birthday* his whole life. Tom had been planning the birthday to end all birthdays. Ace sleepover, epic pizza, you name it - Tom's party was going to have it all! But then Tiny the pig fell off the garage roof and crushed Nana Maureen's chihuahua. Then Nana thought the dog was haunting the house. And Dad hit his head. And Tom's sister Meg decided she was cursed by the Tooth Fairy. And Mum accidentally made a very bad dog-food Bolognese. Things are massively unravelling, so Tom's birthday is off! But of course Tom cannot let this happen. Will he be able to save his birthday? It will involve bacon sandwiches, chicken whispering, an enormous dog called Major and a few gladiators. But it might just be OK ... "An assured, powerful novel that blends suspense and rich family drama...it is, in a word, unforgettable." --William Landay, author of *DEFENDING JACOB*

Wendy Walker's *All Is Not Forgotten* begins in the small, affluent town of Fairview, Connecticut, where everything seems picture perfect. Until one night when young Jenny Kramer is attacked at a local party. In the hours immediately after, she is given a controversial drug to medically erase her memory of the violent assault. But, in the weeks and months that follow, as she heals

from her physical wounds, and with no factual recall of the attack, Jenny struggles with her raging emotional memory. Her father, Tom, becomes obsessed with his inability to find her attacker and seek justice while her mother, Charlotte, struggles to pretend this horrific event did not touch her carefully constructed world. As Tom and Charlotte seek help for their daughter, the fault lines within their marriage and their close-knit community emerge from the shadows where they have been hidden for years, and the relentless quest to find the monster who invaded their town - or perhaps lives among them - drive this psychological thriller to a shocking and unexpected conclusion. "It's Slaughter's prodigious gifts of characterization that make her stand out among thriller writers." — Washington Post

But, in reality, Andrea is there to find justice for Emily. The killer is still out there—and Andrea must discover the truth before she gets silenced, too... Young children become confused and hurt when their parents constantly argue, then decide to divorce. This sensitively written book assures boys and girls that children are in no way responsible for their parents' inability to get along together. It lets kids know that although one parent chooses to move away from the home, both parents continue to love their little boy or girl. Both Mom and Dad will continue to spend happy times with them. Even very young children have concerns and anxieties, and *Tell Somebody* Books are written and illustrated especially for them. Parents are advised to read these books aloud while their preschooler listens and looks at illustrations of the boys and girls in each story. Many children in early grades will be able to read the stories for themselves. *Tell Somebody* Books encourage children to explore their feelings, and then to speak openly about things that trouble them.

WINNER OF THE NAACP IMAGE AWARD WINNER OF THE CORETTA SCOTT KING AUTHOR AWARD National Book Award winner Jacqueline Woodson's stirring novel-in-verse explores how a family moves forward when their glory days have passed and the cost of professional sports on Black bodies. For as long as ZJ can remember, his dad has been everyone's hero. As a charming, talented pro football star, he's as beloved to the neighborhood kids he plays with as he is to his millions of adoring sports fans. But lately life at ZJ's house is anything but charming. His dad is having trouble remembering things and seems to be angry all the time. ZJ's mom explains it's because of all the head injuries his dad sustained during his career. ZJ can understand that—but it doesn't make the sting any less real when his own father forgets his name. As ZJ contemplates his new reality, he has to figure out how to hold on tight to family traditions and recollections of the glory days, all the while wondering what their past amounts to if his father can't remember it. And most importantly, can those happy feelings ever be reclaimed when they are all so busy aching for the past? *The Mom Test* is a quick, practical guide that will save you time, money, and heartbreak. They say you shouldn't ask your mom whether your business is a good idea, because she loves you and will lie to you. This is technically true, but it misses the point. You shouldn't ask anyone if your business is a good idea. It's a bad question and everyone will lie to you at least a little. As a matter of fact, it's not their responsibility to tell you the truth. It's your responsibility to find it and it's worth doing right. Talking to customers is one of the foundational skills of both Customer Development and Lean Startup. We all know we're supposed to do it, but nobody seems willing to admit that it's easy to screw up and hard to do right. This book is going to show you how customer conversations go wrong and how you can do better. Perfect for fans of Pamela Butchart and David Baddiel's *Birthday Boy* – a hilarious tale of wish fulfilment
