Standard Methods for the Examination of Water and

Wastewater Jul 19 2022

"The signature undertaking of the Twenty-Second Edition was clarifying the QC practices necessary to perform the methods in this

manual. Section in Part 1000 were rewritten, and detailed QC sections were added in Parts 2000 through 7000.

These changes are a direct and necessary result of the mandate to stay abreast of regulatory requirements and a policy intended to clarify the QC steps considered to be an integral part of each test method. Additional QC steps were added to almost half of the sections."--Pref. p. iv.
