Algebraic Geometry between Tradition and Future Oct 02 2020 An incredible season for algebraic geometry flourished in Italy between 1860, when Luigi Cremona was assigned the chair of Geometria Superiore in Bologna, and 1959, when Francesco Severi published the last volume of the treatise on algebraic systems over a surface and an algebraic variety. This century-long season has had a prominent influence on the evolution of complex algebraic geometry - both at the national and international levels - and still inspires modern research in the area. "Algebraic geometry in Italy between tradition and future" is a collection of contributions aiming at presenting some of these powerful ideas and their connection to contemporary and, if possible, future developments, such as Cremonian transformations, birational classification of high-dimensional varieties starting from Gino Fano, the life and works of Guido Castelnuovo, Francesco Severi's mathematical library, etc. The presentation is enriched by the viewpoint of various researchers of the history of mathematics, who describe the cultural milieu and tell about the bios of some of the most famous mathematicians of those times.

L'ibridismo nell'Inferno: traduzione, mostri, e il rapporto fra Virgilio e Dante Aug 24 2022 Personal experience in language acquisition combined with a fresh approach to Dante's classical work brings a modern, readable format to the Inferno. Author achieves his goal by reviewing Dante's use of relevant cultural modeling and drawing inferences from other translations to underscore the importance of a scholar's own milieu in keeping a classical work fresh. In this work, we get a glimpse into the newest generation of scholars and how they achieve a timely interpretation of a classical work.

Music of the past, instruments and imagination Mar 26 2020 Ce volume présente les délibérations des Deuxièmes Rencontres Internationales harmoniques du printemps 2004. Les conférences ont été données par des experts des instruments à claviers et des cuivres. L'accent a été mis sur une variété de traditions historiques de facture instrumentale et sur l'histoire du renouveau de l'utilisation d'instruments anciens. Les contributions traitent non seulement des paramètres des pratiques instrumentales, mais encore de l'inspiration donnée dans ces domaines par quelques pionniers du renouveau de la musique ancienne. Dans bien des cas, les auteurs se sont penchés plus spécialement sur l'interprétation de la musique de Johann Sebastian Bach. This volume presents the proceedings of the second International Congress organised in Lausanne by the harmoniques Foundation and held in the Spring of 2004. The papers were given by experts on brass and stringed keyboard instruments. The emphasis was on a variety of historical instrument-making traditions and on the history of the revival of the use of early instruments. The contributions not only included detailed discussions regarding the parameters of performance practice and the use of historical instruments but also about the inspiration given by some of the leading revivalists in these fields. In many cases the contributors placed a special focus on the performance of the music of Johann Sebastian Bach.

Nanni Balestrini Aug 12 2021 » 30 years later we find that we are all still like we were in '45 .« Der Künstler, experimentelle Dichter und Schriftsteller Nanni Balestrini (*1935) beschreibt in fieberhaften Rückblenden die miserablen Lebens- und Arbeitsbedingungen im Nachkriegsitalien, sowie die grauenhaften und traumatischen Erlebnisse in einem SS-Kriegsgefangenenlager in Deutschland aus der Sicht eines desillusionierten, doch kämpferischen Überlebenden. Er berichtet detailliert und ohne Punkt und Komma. Nachdem er bei der Rückkehr in die Heimat wegen seiner politischen Gesinnung vielfach abgewiesen wird, findet er Arbeit in den
