Born into a leading merchant family in Saudi Arabia's Eastern Province, Dr Alghosaibi not only experienced but, as a government minister, played a leading part in the Kingdom's rapid modernisation during the 1970s and 1980s. In this administrative autobiography, we are treated to the wit and wisdom of one of Saudi Arabia's leading technocrats who, as poet, writer, broadcaster, ambassador and minister once again, is also one of its most prominent intellectuals and gifted communicators. In recounting his career, he provides us with a series of profound and penetrating insights into the relationship between the political leadership, the executive and the administrative machine. Along the way we are given an insider's view of the personalities of successive monarchs, the whirlwind transformation of the Kingdom's infrastructure, the tensions between conservatives and modernisers, and Saudi Arabia's relations with its neighbours. In Dr Alghosaibi's view of the human condition, we are all victims of administration from the day we are born, and inevitably grow up to be perpetrators of it too. Illustrating his story with vivid and occasionally hilarious incident, he reflects on what he calls his own aggressive style of administration in contrast to the defensive style, the pitfalls of popularity and media stardom, the requirements of education and development, the relative merits of state ownership and privatisation, the challenges of national healthcare, and the claims of family life. The book is packed with judicious tips for budding administrators and diplomats. All those interested in the workings of government in this most conservative of modern Islamic states will find in Dr Alghosaibi's life in administration an essential and entertaining companion. This book addresses knowledge gaps in RARP in 3 key sections: 1) Step-by-step approach including multiple technique options and innovations, 2) Patient selection, safety, outcomes, and 3) Preparing the patient for surgery. The order is more based upon knowledge priority rather than a chronologic sequence in which part 3 would go first. Part two allows more summary and commentary on evidence and part three allows some creative content that is otherwise hard to find in one place—medical evaluations, imaging, clinical trials, patient education, etc. This textbook emphasizes content for the advanced skills surgeon in that multiple techniques are presented as well as state of the art evidence. The learning curve is addressed and the authors clarify how this text is useful for learners. The caveat is that they should be careful in patient selection and stick with what their mentors are showing them. With experience, they can then branch out into the many techniques presented here. Saudi Arabia Investment and Business Guide - Strategic and Practical Information These short essays provide a brief overview of selected 'hadiths', traditions that the Prophet Muhammad used as sources for religious law. The author argues that not only were they revolutionary for their time, but they have the potential to revolutionise Islamic societies today. Saudi Arabia is generally and justifiably viewed as a country with the fewest democratic institutions and the weakest traditions of pluralism in the world. It is therefore surprising to learn that at least in one corner of the Saudi world, there is a plurality of voices. Jörg Matthias Determann brings this element to light by analysing an important field of cultural activity in Saudi Arabia: historical writing. By exploring the emergence of a plurality of historical narratives in the absence of formal political pluralism, Determann seeks to paint a more nuanced picture of Saudi Arabia than has previously been drawn. Since the 1920s local, tribal, Shi'i and dynastic histories have contributed to a growing plurality of narratives, diverging from and contesting the histories which focus on the royal family. Instead, they have emphasized the communities' historical independence from the House of Saud or asserting the communities' importance in Saudi national history. In addition to this, during the 1970s, distinct social and economic histories began to be developed, new narratives which have described important historical events evolving from wider social and economic factors rather than resulting from the actions of individual rulers or communities. Paradoxically, this happened because of the expansion of the Saudi state, including state-provision of mass education. A variety of previously illiterate and relatively poor sections of Saudi society, including former Bedouin, were thus empowered to produce histories which, while conformist for the most part, also provided a vehicle for dissenting voices. Furthermore, Determann argues that this proliferation of alternative histories is also due to globalizing processes, such as the spread of the internet. It is through this phenomenon that narrative plurality has been facilitated, by putting Saudi historians in contact with different ideologies, methodologies and source material from abroad. In challenging the widely-held perception of Saudi Arabia as an irredeemably closed and monolithic society, *Historiography in Saudi Arabia* provides a deeper understanding of modern Arab historiography, the Saudi state, and education and scholarship in the Middle East. First Published in 1982. This collection of informal essays is described by the author as talks they have given to people who know the best, as a poet, minor academic, and major bureaucrat. These talks were to Saudi Arabian audiences and speak from an Arab point of view - whether about poetry, education, or the social problems of a rapidly developing environment. The author aims to bestow adventurous thinking onto the reader, claiming this to be of a greater value than similar titles which instead encourage cerebral quietness. The extraordinary memoir of global oil's former central banker Ali Al-Naimi is the former Saudi oil minister - and OPEC kingpin - a position he held for the two decades between August 1995 and May 2016. In this time, Al-Naimi's briefest utterances moved markets. But it wasn't always that way. Al-Naimi was born into abject poverty as a nomadic Bedouin in the 1930s, just as US companies were discovering vast quantities of oil under the baking Arabian deserts. From his first job as a shepherd boy, aged four, to his appointment to one of the most powerful political and economic jobs in the world, Out of the Desert charts Al-Naimi's extraordinary rise to power. Described by Alan Greenspan as 'the most powerful man you've never heard of', Al-Naimi's incredible journey proves that anyone can make it - even a poor Bedouin shepherd boy. This is his exclusive inside story of power, politics and oil. His Excellency Ali Ibrahim Al-Naimi is the former Minister of Petroleum and Mineral Resources for the Kingdom of Saudi Arabia. One of the most powerful economic and political jobs in the world, he held this post from August 1995 to May 2016. Prior to that he held a wide range of leadership positions in the Kingdom's national oil company, Saudi Aramco. He was the first Saudi national to be named President of the company in 1984 and became the first Saudi CEO in 1988. Al-Naimi joined the company, then called Aramco, as an office boy in 1947. A Bedouin, he was born in the deserts of eastern Arabia in 1935.
